LOCAL NEWS.

Bargain Days at Grafton & Co—Friday and Saturday.

Dr. Ryerson Coming.

Dr. Ryerson of Toronto, may be consulted at the Grand Central Hotel, Peterborough, on Saturday, June 26th, on eye, ear and throat cases.

Telfordian Temperature Topics.

Tuesday, June 11th.—Very little change in either weather or temperature. At this morning's observation the thermometer indicated 51 degrees above zero. No appearance of frost in this locality.

Natural Science Association.

The regular meeting of the Natural Science Association will be held Tuesday evening, 16th inst., in the science room of the Collegiate Institute at 8 o'clock. A good programme has been prepared, dealing principally with plant life. All interested are cordially invited.

Stationary Engineers.

The local branch of the Association of of Stationary Engineers will meet on Wednesday evening next to transact especially important business. Some leading lights in the craft are expected to be present from a distance.

Council Adjourned.

On account of Mr. Bogue's absence from town last night he was unable to be present at the council meeting, and so the members adjourned without doing any business. Before the contract is let to Mr. Bogue for the sewer construction, the council wishes to know what he proposes to charge for extras.

McGregor vs. Gray.

The case of McGregor vs. Gray was adjourned until Thursday this morning in the police court. McGregor, it will be remembered, was the chief witness in the Gray murder trial and because Gray gave him a piece of his mind on the subject the other day, McGregor laid a charge against him of using abusive language.

Mrs. Gemmell's For Blouses.

That False Pretenses Case.

The charge of obtaining goods under false pretenses, preferred against Luke Lapham by Mrs. Scully, will probably be withdrawn, as the complainant was not in court to press the charges this morning. When laying the information Mrs. Scully stated that Lapham had obtained groceries from her, stating that he would pay her in wood. The charge was laid in the belief that Lapham had no wood.

New Wedding Presents.

June is the month for brides and bridegrooms, and the Peterborough Bookstore has anticipated some of their wants. Call in and look over our stock of appropriate articles for wedding presents. Beautiful albums, fans, vases, mirrors, jewel cases, writing desk, brush and crumb sets, travelling companions, fancy stationery, perfume sets, card receivers, richly bound Bibles, prayer books, standard poems, etc., etc. A. REDDY WELLS GETS SIX MONTHS.

The Magistrate was at First Going to Send Him up to the Central.

Wm. Wells, known as "Reddy," who drove Burns to Port Hope after an information had been laid against the latter for the theft of a sum of money from the riverman. Robinson, at C.P.R. Hotel, was before the magistrate this morning, who stated that he had fully made up his mind to give him two years in Central Prison, as he was fully as bad as Burns, having accepted a portion of the money knowing it to be stolen and having personated the thief in order to assist him in escaping.

As his foreman in the Lock Works gave Wells a good character as a hard working faithful boy, the magistrate was induced to alter his determination, and instead sentenced the prisoner to six months hard labour in the county goal.

In imposing the sentence the magistrate announced his intention of breaking up the practice of robbing helpless river drivers when they were intoxicated and the next prisoner who comes before him on such a charge will probably fare badly.

Mr. W. A. Stratton appeared for the defense.

THE FISHING SEASON.

Disciples of Isaak Walton Report Poor Success

Large numbers took advantage of the opening of the season yesterday to try their luck on the fishing grounds in the back lakes. Few catches are reported. Messrs. Sam Ray, Will Loch and Joseph Yelland spent the afternoon on Mud Lake but did not even get a bite.

Messrs. J. B. Oke and Richard Philp came home with three fine lunge, but the other fishermen think that they were caught at the Indian village with a silver bait.

Messrs. Bert Giroux, of the telephone office, and Phillips, of the Brantford agency, did their best at Chemong early this morning, but with no result.

TROUBLE OVER SUNDAY STREET WATERING.

The Police Department are After Zimri Blodgett, Although He Has Been Directed by the Council in the Matter.

A charge of violation of the Sunday Observance Act has been laid against Zimri Blodgett for watering the streets on Sunday, May 24th and this morning the case was enlarged at the Police Court.

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 28 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Lost a Valuable Mare.

Mr. Charles Westlake, the liveryman, lost a valuable chestnut mare this morning. He got her from a man in the country and he let her out to a party for a long drive and on her return the mare was thoroughly exhausted, being unused to long drives. Shortly afterwards she broke loose and got at the oat box, bringing on paralysis. Her sufferings were awful.

Purely Vegetable.

First the bud, then the blossom, then the perfect fruit. These are the several stages of some of the most important ingredients composing the painless and sure corn cure—Putnam's Painless Corn Extractor. The juices of plants greatly concentrated and purified, gums and balsams in harmonious union, all combined give the grand results. Putnam's Extractor makes no sore spot, does not lay a man up for a week, but goes on quietly doing its work until a perfect cure results. Beware of said substitutes.

THE MAIL ROBBERY.

The Preliminary Hearing Taking Place To-Day in the Police Court.

On being arraigned before the Police Magistrate this morning R. R. Hamilton, through his counsel, Mr. W. A. Stratton, elected to be tried by a jury on the charges of the larceny on the 22nd of September, 1894, of $50, six spoons, a book of gold foil a gold ring, a buckle ring and other goods and chattels from Her Majesty the Queen, these being the articles stated to have been stolen from the mail bag at the time of its alleged theft from the C. P. R. station. The prisoner was charged with receiving these goods knowing them to be stolen.

The prosecution was conducted by County Crown Attorney Wood, Inspector Macarow, of the post office department being also present.

Mail clerks were examined from Toronto, the C.P.R. service and the local office to prove the reception and despatch of the stolen articles to Peterborough station, and their non-reception at the post office here.

Witnesses were also put in the box to to establish the finding of a portion of the mail matter from the stolen bag.

The hearing is still in progress.

THE RISING GENERATION.

Degrees Taken by Some of Peterborough's Clever Students.

At the annual commencement exercises in connection with the conferring of degrees at the Toronto University on Friday last, three Peterborough boys received the degree of Bachelor of Arts.

Mr. R. F. McWilliams took first-class honours in the Department of Political Science, obtaining ranking class in each of the five subjects and standing particularly high in constitutional and international law.

Mr. W. A. Wood won second-class honours in the Department of Physics and Mr. J. F. VanEvery took second-class honours in modern languages

Messrs. G. T. Stenson and G. W. Edmison graduated in Pharmacy and received the Phm. B. degree.

Messrs. C. S. McKee and C. S. Thomson received the degree of M.D.

Mr. R. M. Armstrong obtained his D. D. S., (graduate in Dentistry.)

Bright and Economical Women.

Make Use of Diamond Dyes.

Bright and economical women find Diamond Dyes the greatest helps in housekeeping.

The thrifty housewife, with the Diamond Dyes can re-colour old and faded dresses, capes, jackets, pants, vests and coats, and make them look like new garments. In thousands of homes this work of renewing and recreating by the aid of Diamond Dyes, saves scores of dollars every year. The wonderful Diamond Dyes make such lovely and lasting colours that goods dyed with them cannot be told from new.

Success with Diamond Dyes is always certain and sure. The use of common adulterated dyes means destruction to your materials, and loss of temper and money.

Guard against substitutes; see that each package bears the name "Diamond."

Have you tried GURDS' Belfast Ginger Ale and X X X Soda Water. Sold in cases, 2 dozen bottles by ALEX. ELLIOTT, George street.

The Premiership.

The gold-headed cane is on exhibition in Mr. McClelland's show window, George street. It is an historical cane, because the Premiership goes with it. The Reformers are determined to capture it for Hon. Mr. Laurier. The whole business will be settled on Thursday of this week — Waterloo Day—at the picnic in Douro. The small sum of 50 cents pays your way at the picnic and entitles you to a Delmonico dinner.

MR. LANG AT LAKEFIELD.

A Well-Attended Meeting in the Village Hall.

Last night at Lakefield a largely-attended meeting of the electors of Lakefield and vicinity was held in the town hall.

Mr. Christopher Quinn was chairman.

Mr. Lang opened the meeting and gave his reasons for opposing the Conservative Government—its extravagant expenditure, its corrupt use and waste of the public funds, its high taxation, and its general disregard for the people's rights.

Mr. Dennistoun on behalf of Mr. Burnham, made an able speech from his point of view, defending the policy of the Government on all points, and in effect painting it as an embodiment of immaculate patriotism.

Mr. J. R. Stratton followed, combatting successfully Mr. Dennistoun's arguments, and showing how unworthy the present Government was of public confidence, and how the policy of Mr. Laurier and the Liberal party was in the material interest, as well as the interest of peace and harmony of all the members of the Confederation.

The meeting, which was very favourable to Mr. Lang, closed with hearty cheers for the Queen and the Liberal candidate.

AN ENNISMORE CAMPAIGN MEETING.

A Gathering of Electors at O'Reilly's School House.

A largely attended meeting of the electors of Ennismore was held at O'Reilly's school house on Monday night in Mr. Kendry's interest.

Mr. W. H. Moore opened the meeting and tried to show how the country had prospered under the National Policy, but he forgot to ask the electors how rich the N. P. had made them.

Mr. McGrath followed in the interests of Mr. Hall. He referred to the fact that he had always been a Conservative, but he considered that Sir Charles Tupper and his party had been in power long enough; that times were getting worse instead of better, that the people required a change of government, and that the policy advocated by Hon Wilfrid Laurier was in the best interests of Canada, and would best tend to promote the material welfare of all classes.

Mr. R. R. Hall, following, pointed out the inconsistent stand Mr. Kendry and his supporters had taken on the school question and how their attitude in the provincial elections was just opposite to their present position on the Manitoba school question and that on this account, Mr. Kendry was unworthy of the confidence of honest single minded electors. Mr. Hall said the school question should be investigated and a settlement arrived at on the broad basis of truth and justice and in a manner of which no class could complain. The meeting concluded by addresses from Mr. Kendry and Mr. Burnham and the usual cheers.

MR. HALL'S NORTH MONAGHAN MEETING.

A Well Attended Meeting at the Town Hall.

A well attended campaign meeting in the interests of Mr. Hall was held Monday night at the Town Hall, North Monaghan. There was a large attendance, among them being several ladies.

Mr. Lillico occupied the chair, and addresses were given by Messrs. Kerr, Hall, Stone and Carnegie. The latter advocated the application of the doctrine of force to Manitoba in case she refused to accept the Remedial Bill. The meeting which closed with the usual cheers was very favourable to Mr. Hall's candidature.

—Port Hope Times:—The council has prohibited the whistling of steam engines. For God's sake let us have a little noise to waken things up around Port Hope..... Here's a candid admission from a tory paper that the national policy has failed to fulfil the promises made its behalf.

PERSONAL.

Messrs. J. Goselin and M. Heath left this morning on a week's outing to Rice Lake.

Mr. and Mrs. J. J. Turner and Miss Alice Turner left this morning for England where they will spend the next few weeks. They went via Rochester and New York, and sail to-morrow from the metropolis on the steamer "City of New York." There were just three berths left when Mr. Turner telegraphed, and the fares in consequence are raised ten dollars a ticket.

Feed the Nerves

Upon pure, rich blood and you need not fear nervous prostration. Nerves are weak when they are improperly and insufficiently nourished. Pure blood is their proper food, and pure blood comes by taking Hood's Sarsaparilla, which is thus the greatest and best nerve tonic. It also builds up the whole system.

Hood's Pills are the favorite family cathartic, easy to take, easy to operate.

HARD HITTING AT SPRINGFIELD.

Toronto Made Three Baggers Galore, But They Lost by 14 to 9.

Springfield, Mass., June 15.—Heavy batting characterized to-day's game between the Ponies and Torontos. The home team found both Moran and Staley quite easily, and Toronto kept Gruber's delivery in the air a good share of the time, knocking out two three-baggers, a double and three singles in the third. Score:

Drop in Beef

In the Cattle Markets, to be Followed by a Corresponding Drop at

KENNEDY'S MEAT MARKET.

In sympathy with the falling prices in the Cattle Markets all over, Beef Cattle to-day are selling for fully 30 per cent. less than the prices of six weeks ago. As my policy will always be TO SELL AS I BUY, I commenced ON SATURDAY, JUNE 13th, to give my customers, as well as the general public, a corresponding 30 per cent. Reduction in the price of Cut Beef. For example:—

Best Porter House and Rib Roasts, former price 12½c, reduced to..... 9c

This reduction in price does not mean any reduction in the quality. I am pledged to supply my customers with Prime Beef no matter how the cattle market may fall or rise, and I am bound to stand by my pledge.

The above substantial reduction will continue so long as the present prices for cattle remain. As I have unequalled facilities for keeping and preserving my beef in first-class condition in my large and newly improved Cooling Rooms, buyers will be consulting their own interests by availing themselves of these very special advantages. Adequate provision will be made for attending to a large crowd on Saturday.

WE SELL AS WE BUY.

SOMETIMES the most careful women are the most careless. Many a woman bundles herself up, puts on heavy clothing and wraps and furs to keep out the cold—to keep out sickness—when she is neglecting the very worst sickness that can come to a woman. She is allowing a slight disorder to grow, to become worse, to slowly and surely sap her vitality. The little pain and the other slight indications of trouble seem to her unimportant. She pays no attention to them. By and by they grow a little worse, but she is used to them then and takes them as a matter of course. By and by, they have grown into dragging pains that occasionally keep her in the house—that occasionally put her to bed. Then she knows what is the matter, but she won't go to a doctor because she knows he will insist on "examinations" and "local treatment." She goes on, with increasing suffering, until life itself becomes a drag. Nervousness, "sinking spells," digestive disturbances, and fifty other complications may arise from the same cause. Frequently such symptoms are treated as digestive diseases when the root of the whole matter is the derangement of the organs distinctly feminine. Over thirty years ago, the need for a reliable remedy for so-called "female complaints," was recognized by Dr. R. V. Pierce, then, as now, chief consulting physician to the World's Dispensary and Invalids' Hotel, at Buffalo, N. Y. He prepared Dr. Pierce's Favorite Prescription, the most wonderfully effective remedy that has ever been used for such maladies. Its sale now exceeds the combined sales of all other medicines for women. Its effect is perceptible almost immediately. It relieves pain, allays inflammation, checks debilitating drains, and quickly subdues other distressing symptoms. It makes the organs and their surrounding tissues strong and healthy, thereby correcting displacements and invigorating the whole body.

GOLD CARRIES THE DAY.

The Proceedings of the Republicans at St. Louis Yesterday Settled the Financial Plank.

St. Louis, June 15.—Gold has carried the day. The assertion made through the United Press by Senator Henry Cabot Lodge, at an early hour this afternoon, put a new phase on the political situation, and overturned several plans which had been formed by those who expected a different result. Mr. Lodge figured that 22 out of the 45 states now forming the union had each selected a member of the committee on resolutions favorable to the gold standard, and that two or three western states were likely to follow suit, thus ensuring a clear majority.

The Ohio men somewhat reluctantly recognized that Mr. Lodge was speaking by the card. George A. Robertson, editor of The Cleveland Recorder, who has made a specialty of fashioning the views of the Ohio leaders in this matter, saw ex-Secretary Foster, and asked him if he did not know that the people all through northern Ohio were for silver. He replied: "The people of Ohio are Republicans, and they will stan dby sound Republican doctrine. Free silver is a heresy, and they do not want it."

To-day's proceedings seem not only to have settled the financial plank, but the tariff plank also of the platform. A sketch of the proposed tariff propositions, which it is said, was either drawn up by Major McKinley himself or was submitted by him for approval, proposes an increase of duties all along the line sufficient for the needs of the Treasury and the re-imposition of protective duties on wool and sugar.

The first 4 paragraphs of the platform are devoted to a denunciation of the Democratic policy to which is ascribed the commercial and industrial depression that has prevailed during the past thee years, and a laudation of the Republican policy of protection, which had prevailed for 30 years previously. There is a strong recommendation for the renewal of reciprocity arguments. There is also a recommendation for the imposition of 10 per cent. duty on imports in foreign bottoms, as foreshadowed in Governor Foraker's statements, published this morning. The language of the platform is described as forceful, alliterative and full of catchy phrases, such as are calculated to "Bring down the house."

All the talk among the adanced silver men to-night is in favor of bolting after their minority free silver report from the Committees on Resolutions is voted down, as, of course, it will be.

Some people are constantly troubled with pimples and boils, especially about the face and neck. The best remedy is a thorough course of Ayer's Sarsaparilla, which expels all humors through the proper channels, and so makes the skin become soft, healthy and fair.

Silk and leather belts are taking the place of the narrower gold bands, and black elastic belts embroidered in jet are also seen, and are wide or narrow according to the figure. The inch-wide belt has the effect of diminishing the size of the waist to a marked degree.

The silk blouse is now worn with the adjustable collar and cuffs of white linen—a pretty and convenient fashion, by the way, which sensible women will not readily abandon.

It is a fad among the brides of the season to have their favorite color predominate throughout the entire trousseau.

Insist on having just what you call for when you go to buy Hood's Sarsaparilla, the One True Blood Purifier and nerve tonic.

Hagyard's Pectoral Balsam cures coughs, colds, asthma, bronchitis, and all throat and lung troubles.

Dyspepsia and Indigestion, common diseases, but hard to cure with ordinary remedies, yield readily to **Manley's** Celery-Nerve Compound.

W. H. Buckingham, 396 King St. East, Hamilton, Ont., says:—"I was troubled with Dyspepsia and Indigestion for a long time, and could get no relief until I tried Manley's Celery-Nerve Compound, which cured me, and I cannot speak too highly in its praise."

ZOLLVEREIN IDEA

Endorsed by the United Empire Trade League.

NOT PRACTICAL JUST AT PRESENT

Declares Sir J. G. Colmer, But He Advises Keeping It in View—Reduction of Duties on Cereals, Tea and Coffee From the Colonies Suggested.

London, June 15.—A conference of the United Empire Trade League was held in this city to-day for the purpose of discussing the question of a commercial federation of the Empire. The Right Hon. James Lowther, M.P., formerly Under Secretary for the Colonies and Chief Secretary of Ireland, presided.

Sir Joseph G. Colmer, Secretary to the Canadian High Commissioner in London, made a speech, in which he lengthily referred to the motion made by Mr. E. B. Osler of Toronto, Ont., at the recent Congress of the Chambers of Commerce of the Empire, declaring that the advantages arising from a closer union of the Empire would justify an arrangement as nearly as possible in the nature of a zollverein, based upon principles of the freest exchange of commodities within the Empire consistent with the tariff requirements incident to the maintenance of the local government of each part of the Empire. Sir Joseph advised the League to keep the zollverein in view, but declared it was not practical now owing to the fact that some of the colonies were unable to face the decrease in the revenue that would follow. He suggested that the duties on tea, coffee and cereals from the colonies be reduced to one-half the present amount. He moved that the Conference should urge upon the Government to abrogate as soon as possible the articles of the treaties with Belgium and Germany which prevented the colonies from giving preferential treatment to British goods. He also moved that an Imperial commercial conference be summoned. The motions were adopted.

The Times will say to-morrow it is believed that the Government will consider favorably a request from Canada or some other of the great colonies to call a conference to consider a zollverein or other trade arrangement. The 60th anniversary of the Queen's accession to the throne, it is added, would be a suitable occasion for such a gathering. It is obvious that the request must originate from a colonial government.

THE IMPERIAL PARLIAMENT.

Conference of the Ruling Parties With the Object of Expediting Business.

London, June 15.—The Conservative and Unionist members of the House of Commons held a conference at the Foreign Office this morning to discuss the parliamentary situation. Right Hon. Arthur J. Balfour, First Lord of the Treasury and Government leader in the House of Commons, made a speech, in which he deplored the fact that the business of the House was dragging along and asked the support of the members of the Ministerial party to expedite matters. Mr. Balfour proposed that Parliament adjourn on August 14 and resume its session on January 13, without being prorogued, thus enabling the House to take up bills at the stage of their progress at the time of adjournment, as though the House had been in continuous session. The Government's Parliamentary program, he said, would not be altered.

DR. JAMIESON SENT FOR TRIAL.

The Upshot of the Preliminary Examination Against the Transvaal Raiders.

London, June 15.—The examination of Dr. L. S. Jameson and his fellow-officers in the Transvaal raid, which was resumed in the Bow-street Police Court last week, was ended to-day. Dr. Jameson, Sir John Willoughby, Col. White, Major White, Col. Gray and the Hon. Charles Coventry were committed for trial, and the other defendants were discharged.

ITS FAME SPREADING.

A New Remedy in General Use in Manitoba and the Northwest.

WINNIPEG, June 1.—The effects of the regular wave of sickness which sweeps over this portion of the Dominion in the spring, are noticeable in the increasing amount of the druggists' sales. There has been quite a run on the kidney remedy now so well known under the name of Dodd's Kidney Pills. The recovery from Bright's disease of Mr. Arthur Coley, of Somerset, through their use, an account of which appeared in the papers, gave a considerable impetus to the sale, and the remedy has become indispensable in many Manitoba households, its fame having penetrated into the remotest parts of the province and Northwest Territories.

Quarrelled Over a Girl

Hollidaysburg, Pa., June 14.—John Formholtz and John Lemon, the latter a son of the late Auditor-General J. A. Lemon, quarrelled here last night over the affections of a girl whom both had been courting. Formholtz drew a knife and stabbed Lemon twice in the side. Lemon may die. Formholtz has fled.

Dawley Goes Free.

Havana, June 14.—Thomas Dawley, the correspondent of Harper's Weekly, who was arrested some time ago on the charge of being in communication with the rebels, has been released from Moro Castle, where he has been confined ever since he was taken into custody.

ONE HONEST MAN.

DEAR EDITOR:—Please inform your readers, that if written to confidentally I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak, shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness, I promise you perfect secrecy and as I do not wish to expose myself either, please address, simply: P O. COOLING, REFRESHING, EXHILARATING.

In this warm weather, when the body is losing so much moisture in perspiration, the natural demand that this loss shall be made good creates what is known as an "exquisite thirst." Many are foolish enough to endeavour to quench it with drinks containing more or less alcohol, but the wiser ones use the juice of ripe fruit. The Island of Montserrat is noted for producing the finest quality of limes, and the juice of these is bottled and known as

"Montserrat"
LIME FRUIT JUICE.

Taken with water it makes a most delightful drink. It is cheaper than lemons and more conveniently prepared.

"LIMETTA CORDIAL" will be found the finest article of its kind in the market.

CURED BY USING

AYER'S Cherry Pectoral

A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I put myself under medical treatment, and at the end of two months was no better. I found it very difficult to preach, and concluded to try Ayer's Cherry

Pectoral. The first bottle gave me great relief; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. To all ministers suffering from throat troubles, I recommend Ayer's Cherry Pectoral."—E. M. BRAWLEY, D. D., Dist. Secretary, Am. Bapt. Publication Society, Petersburg, Va.

SONGS OF THE BIRDS.

A GOSSIPY ARTICLE ON THE SWEET AND CHEERFUL WARBLERS.

What their Notes Mean as Heard in the Springtime Wood and Field—Love-Making by Our Feathered Friends—What an Ornithologist Has Observed.

On a recent evening, just as the sun went down, we were returning from a woodland stroll, and on approaching the swampy valley, where willows and reeds abound, our attention was arrested by the low, clear piping of a red-winged blackbird. On looking up into the trees we saw three, two of which were males and one a female, and we had a good opportunity of seeing how the songs of birds enter into their love-making. The dusky female sat apparently unconcerned, while the glossy black males, with their orange-tinted bars on each wing, spread out their plumes, bowed as if in adoration and sang their monotone assiduously. After a while she seemed to weary of their attentions, and hopped to another branch at a distance from her lovers. They followed and repeated their wooing, but, apathetic still, she paid no heed to their wiles. At length, as if in disgust, she took flight, and with a headlong dash at each other they followed to renew their suit once more.

Presently the rich, mellow notes of a robin burst forth as he sat boldly and proudly on the topmost twig of a neighboring oak. There is no mistaking that lusty song which proclaims the bird a member of the thrush family. You hear the tone and cadence which alike characterize this native of America, the blackbird and song thrush of England, and the red wing, which is called the nightingale of Norway. Doubtless, somewhere in the undergrowth, the female was sitting, as happy in the recognition of the voice of her mate as ever Juliet was at the words of Romeo.

Soon the woods and hedge rows will be alive with the songs of the birds, and lovers of nature will find enjoyment in abundance. The early morning is the best time to hear the concert. In the eastern contingent they have the nightingale to sing in the "witching hour of night" and certainly it is delicious to hear the strains of that marvelous warbler, when its voice alone breaks the silence under "the moon's pale beams." No wonder that such is "the poet's hour," when the "idle fancies throng." But give me the dawn, when the whole feathered tribe awakes to new life, and from every tree and shrub the songs burst forth. As soon as the first gray streak appears in the east, the robins are astir, and as the gray becomes rosy and then yellow, one by one the members of the chorus join in, until the air rings with sound. Then, indeed, "the birds chant melody in every bush." The listener may well be reminded of quaint Izaak Walton's words: "Lord, what music hast thou provided for the Saints in Heaven, when Thou affordest sinful man such music on earth!"

A learned ornithologist has said: "It is necessary in a philosophical spirit to regard every sound made by a bird under the all-powerful influence of love or lust as a 'song.' But surely all the songs of birds are not to be ascribed to this influence. Doubtless many birds sing only during the nesting season, as if the husband was anxious to cheer his wife in her domestic cares. Such is certainly the case with the far-famed nightingale, who ceases his song as soon as the young birds are hatched. During the period of egg-laying and incubation, his sounds are best described as rushing like a cataract, but by the middle of June his voice is only a harsh frog-like croak, or the low guttural note of a raven. Others, however, sing all the year round. Who has not heard the wren on the woodpile, the snowbirds and sparrows on the trees in the orchard, whenever the winter's sun has made the snow and icicles sparkle like brilliants? Birds in confinement have no mates to woo, nor labor to soften. They sing from simple vigor of life. The mocking bird in his native haunts not only sings his natural song of sweetness, but pours forth all sorts of sounds, even to the "gobble" of the turkey, from sheer love of singing. You may hear him rehearsing in a low undertone, until he feels sure his lesson is mastered, and then out the voice bursts with full force, ringing with the very pride of excellence

There is, however, a very powerful influence which cannot escape the notice of the lover of birds, and that is emulation. Even in wild nature you may catch the ring of it, as one bird answers another in the woods, each halting for a moment or two to listen to his rival; and this, too, long after the mating season is over.

Perhaps one of the most wonderful points about the songs of birds is that there is abundant reason for thinking that there are dialects among them. Few lovers of nature, who have lived in several districts, will hesitate to say that such is the case. Not only is there more vigor in the song of, say the robin, in one district than in another, but although the notes are the same, they are arranged differently, so that while the cadences are similar the tune is unmistakably changed, and the singing is pitched in a different key. It may truly be said that in the songs of birds there are provincial idioms, and it is not all mere sentiment which makes the man who was born and brought up in the country, but has moved in later life to the city, say that the birds sang better in the woods of his native place than they do in the city park.

Equally interesting and equally valuable, if recorded, would it be, if those who journey to another continent would observe another peculiarity in the songs of birds, namely, the family likeness in the notes of birds there to those of birds here; for there undoubtedly is such a similarity. There is as clear a kinship between the notes of birds on this side the ocean and allied ones on the other side, as ever there is between the words of the various branches of the Aryan race.—Philadelphia Press.

The Pearl of Great Price

To woman is beauty. Beauty, the key that unlocks every door, commands deference, inspires homage. But beauty of face cannot satisfy unless the additional grace, beauty of teeth, adds its charm. Fine teeth, sweet breath, rippling laughter—three graces that always go together. Ivorine imparts dazzling pearly like whiteness, removes discoloration and tartar from the teeth, and renders the breath fragrant as flowers.

Cream of Asparagus,

Cut the tops from a bunch of asparagus and cover with a pint of boiling water, to which you have added a teaspoonful of salt. Simmer gently for twenty minutes. Strain them and to the water add the remainder of the asparagus cut into pieces an inch long. Cook twenty minutes and press through a colander. Put to boil one quart of milk and when it reaches the boiling point stir into it two tablespoonfuls of butter and two of flour creamed together and smoothed by adding a tablespoonful of the boiling milk. Cook slowly for five minutes, then pour into the hot asparagus mixture; add the asparagus tops and serve quickly. Do not boil after mixing or it will curdle.

Potato Croquettes.

Boil nine or ten potatoes. Then weigh them and use one pound. Mash them through the colander and let stand about two hours until cold. When cold add to them two ounces of butter thoroughly mix by mashing with the potato masher, or, better still, a fruit squeezer. When thoroughly mixed add half a teaspoonful of salt, half a saltspoon of pepper, one teaspoonful of chopped parsley, very little grated nutmeg. Stir all well together. Add the yolks of two eggs and the whites of three—retaining the yolk of the third egg for dipping. Shape in croquet moulds, using plenty of flour. Then dip them in the yolk of the egg, to which add a tablespoonful of cold water. Then in fine bread crumbs. Fry in frying basket in deep boiling lard.

ABOUT THE LIVER.

A lazy, slow or torpid liver influences the whole system, causing biliousness, sick headache, sallow complexion, languor and dullness. Burdock Blood Bitters regulates the liver, purifies the secretions and cures all forms of liver troubles. We say so and here is the proof:—

I hereby wish to thank you for the great benefit derived by me from your Burdock Blood Bitters. For three years I was troubled with liver complaint and tried everything to no purpose. I had almost given up hope until one day I determined to try Burdock Blood Bitters. I can say now that marked improvement resulted from the use of the first bottle and at the end of the sixth bottle I discontinued its use, being completely cured.

Could This Elephant Read.

"Speakin' about animals, to my experience the elephant is the smartest of the whole caboodle," said the ex-canvasman. "I remember in '56, when I was with Barnum, ole Emp'ror showed one day he could read."

"Oh, come off."

"I won't come off, neither. An' I'll prove it to you in about two minutes. Well, as I was sayin', the old fellow got into a scrap with the royal Bengal tiger, and 'fore me could get 'em separated he got his trunk purty badly clawed up. After the scrimmage was over, Emp'rer he breaks loose and starts down the street on a dead run. 'He's goin' wild,' somebody hollers. 'Don't you believe it,' says I. Now, where do you suppose that there elephant went to?"

"Went to the surgeon's, I suppose. Say, can't you get up a better yarn—"

"Naw, he didn't go to no surgeon's, neither. He went straight to a little portmanteau shop which had the sign out that said, 'Trunks repaired while you wait.' Of course he had made a mistake, but what do you expect of a poor dumb brute?"—London Tit-Bits.

ONE HONEST MAN.

Dear Editor: Please inform your readers that if written to confidentially, I will mail in a sealed letter, the plan pursued by which I was permanently restored to health and manly vigor, after years of suffering from Nervous Weakness, night losses and weak, shrunken parts.

I have no scheme to extort money from anyone. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank Heaven, I am now well, vigorous and strong, and anxious to make this certain means of cure known to all.

Having nothing to sell or send C.O.D., I want no money. Address, JAS. A. HARRIS, Box 339, Delray, Mich.

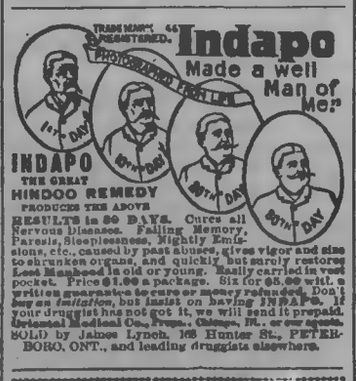
Letters Come.

Letters come day by day telling us that this person has been cured of dyspepsia, that person of Bad Blood, and another of Headache, still another of Billousness, and yet others of various complaints of the Stomach, Liver, Bowels or Blood, all through the intelligent use of Burdock Blood Bitters.

It is the voice of the people recognizing the fact that Burdock Blood Bitters cures all diseases of the Stomach, Liver, Bowels and Blood.

Mr. T. G. Ludlow, 334 Colborne Street, Brantford, Ont., says: During seven years prior to 1886, my wife was sick all the time with violent headaches. Her head was so hot that it felt like burning up. She was weak, run down, and so feeble that she could hardly do anything, and so nervous that the least noise startled her. Night or day she could not rest and life was a misery to her. I tried all kinds of medicines and treatment for her but she steadily grew worse until I bought six bottles of Burdock Blood Bitters from C. Stork & Son, of Brampton, Ont., for which I paid $5.00, and it was the best investment I ever made in my life. Mrs. Ludlow took four out of the six bottles—there was no need of the other two, for those four bottles made her a strong, healthy woman, and removed every ailment from which she had suffered, and she enjoyed the most vigorous health. That five dollars saved me lots of money in medicine and attendance thereafter, and better than that it made home a comfort to me.



INDAPO THE GREAT HINDOO REMEDY PRODUCES THE ABOVE RESULTS in 30 DAYS. Cures all Nervous Diseases. Failing Memory, Paresis, Sleeplessness, Nightly Emissions, etc., caused by past abuses, gives vigor and size to shrunken organs, and quickly but surely restores Lost Manhood in old or young. Easily carried in vest pocket. Price $1.00 a package. Six for $5.00 with a written guarantee to cure or money refunded. Don't buy an imitation, but insist on having INDAPO. If your druggist has not got it, we will send it prepaid. Oriental Medical Co., Props., Chicago, Ill., or our agents. conditions

In some conditions the gain from the use of **Scott's Emulsion** of cod-liver oil is rapid. For this reason we put up a 50c. size, which is enough for an ordinary cough or cold or useful as a trial for babies and children.

In other conditions gain must be slow, sometimes almost imperceptible, health can't be built up in a day. For this Scott's Emulsion must be taken as nourishment, food rather than medicine, food prepared for tired and weak digestions.

A Weighty Question!

Can durability, style and feather lightness be crowded into summer headwear?

We reply by showing you the result of much study and constant betterment.

Wonderful, the style and comfort tacked together with straw—the quintessence of torrid-day headwear. 25c buys a good "canton" braid. 40c buys a "yeddo"—in fact all our large and stylish stock of Straws are selling at ½ value—because we bought them that way.

Soft Felts are much in demand—we have the latest styles and shades—at prices that are right—weight from 1 oz. up. We call them comfort coaxers.

Physicians Commence to Realize the Value of Dodd's Kidney Pills.

OTTAWA, June 15—The inveterate reluctance to admit the success of patent medicine, usually evinced by physicians is is rapidly giving way so far as Dodd's Kidney Pills are concerned. The cases of Dr. Rose and Dr. McCormick, who published details of their recovery from diabetes and Bright's disease, through the agency of this remedy, were the first attacks on the citadel of their skepticism and now it appears as if the remarkable recovery of Mr. G. H. Kent, of this city, the details of which have been transmitted to the press, would complete what has been so auspiciously begun. The published interviews with Mr. and Mrs. Kent and the sworn statement of the former leaves no foothold for disbelief.

RE-FITTED AND DOING GOOD WORK.

Meldrum & McAllister Prepared to Take Orders for Chopping, Etc.

Messrs. Meldrum & McAllister, in order to accommodate their custom, have had their storehouse, at the corner of Simcoe and Bethune streets, fitted up with an entirely new electrical plant of the most improved modern patent and are now again prepared to fill all orders for gristing and chopping.

The new apparatus, replacing that which was destroyed in the recent destruction of their mills by fire, was placed in position in the storehouse last week and has been operating since Saturday. The work done has been pronounced to be of a most satisfactory quality. Farmers and others requiring chopping done will bear in mind that their orders will receive prompt attention at the hands of Meldrum & McAllister, at the corner of Simcoe and Bethune streets.

FLAT AND MONOTONOUS.

The Republican Convention at St. Louis Had a Very Dull and Dreary Time Yesterday.

St. Louis, June 16.—The first day's session of the 11th National Republican Convention was unrelieved by a single incident to lift the interior proceedings above the level of flat and uninteresting monotony. There was an immense assemblage, a great waving of fans in a torrid heat, an hour or so of prepared oratory and a prompt adjournment to await the reports of the Committee on Credentials and Platform.

The Platform Committee conducted its labors behind closed doors and did not permit the representatives of the press to listen to its deliberations, which undoubtedly were vastly more interesting than anything said before the Credentials Committee.

Aside from the work of these committees the movement started to force Levi P. Morton into the position of tail to the McKinley kite engrosses attention. An apparent quietus was apparently put upon this gossip to night by Chauncey M. Depew, who, as Governor Morton's sponsor, telegraphed Gov. Morton stating that it had been asserted that he had rescinded his telegram of declination and was now willing to accept second place, and asking him if this was so. To this Mr. Depew received the following explicit reply:

"Telegram received. Stories circulated are unfounded. Have rescinded nothing. L. P. MORTON."

Killed by Lightning.

Winnipeg, June 16.—(Special.)—D. Blew, a well-known farmer of Cartwright, was killed by lightning last night. He had just returned from a drive and was unhitching his horses when struck.

Gay Hamilton Boys in Trouble.

Hamilton, June 16.—Kenneth Wishert, a Greensville farmer, attended the Conservative Convention at the Mountain View to-day and left his horse and buggy tied outside. James Jarvis, 10 years old, and his brother jumped into the rig, drove about the city all afternoon and then went to the track at Victoria Park and had driven the fatigued animal several fast mile heats when captured by Inspector McMahon and P. C. Clark. The gay youths were locked up.

A Frightful Accident.

Quebec, June 16.—A fearful accident is reported from Scott's Junction, Beauce. George Belanger, 13 years old, while working in a mill was caught in the machinery and had one of his arms torn from his body above the elbow, so that it fell on one side of the shafting and he himself on the other. Doctors amputated the rest of the arm at the shoulder, and it is expected his life can be saved.

THEY ARE GIVING WAY.

Physicians Commence to Realise the Value of Dodd's Kidney Pills.

OTTAWA, June 15—The inveterate reluctance to admit the success of patent medicine, usually evinced by physicians is is rapidly giving way so far as Dodd's Kidney Pills are concerned. The cases of Dr. Rose and Dr. McCormick, who published details of their recovery from diabetes and Bright's disease, through the agency of this remedy, were the first attacks on the citadel of their skepticism and now it appears as if the remarkable recovery of Mr. G. H. Kent, of this city, the details of which have been transmitted to the press, would complete what has been so auspiciously begun. The published interviews with Mr. and Mrs. Kent and the sworn statement of the former leaves no foothold for disbelief.

"UNEXPECTED RESULTS."

The Mail and Empire prints the alleged statement of an alleged former Liberal, to the effect that "the N. P. had developed unexpected results." Whether or not the results were unexpected is a matter of indifference, but the N. P. never fulfilled the promises that were made in his name.

It promised increase of population—no increase.

It promised to stop the exodus; now a very respectable contribution to the total of Canadian exports is the household effects of citizens who are leaving Canada for the United States.

It promised prosperity to all classes. Will all or any class say that they are prosperous to day? Are our merchants and business men satisfied with results? The N. P. promised a home market for the farmers, with a ready sale at high prices for all his products. Is wheat at 65 cents a bushel, and oats at 28 cents, a fulfillment of this promise? Instead of a home market we have to seek a market three thousand miles distant, and the government has spent hundreds of thousands of dollars to create trade with our cousins on the other side of the world, who are so far away that when one gets there he is on his way home again. Are the farmers prosperous? Are their no mortgages on some of their farms? Do the loan companies not demand and get a large share of the product of many farms to pay the interest on the mortgage, not to speak of the large sum that every farmer has to pay every year on the interest on 263 millions of a national debt. How many farm homesteads are there where there is not a vacant chair belonging to some member of the family in the United States? Is this prosperity such as the N. P. has promised us? It is indeed.

And yet we are told that we must not put out the present government which has spent millions of the public money in waste and and corrupt methods. Verily the N. P. has produced "unexpected results."

The N. P. promised constant employment to workingmen at high wages, Has it given either? No. Employment is not constant and wages are not high. The average labourer works half the year to keep himself and family the whole year. There is not plenty of employment; there is, on the other hand, a great dearth of employment. Take the average town in Canada—if a recruiting seargeant could enlist every unemployed, able-bodied citizen, he could raise a regiment in twenty-four hours.

The N. P. has indeed developed "unexpected" and decidedly unwelcome "results." It has not fulfilled one of its promises; it has restricted trade, handicapped manufacturers, and thereby decreased their power to pay wages. It has thrown the labourer out of employment through the operations of combines which close up factories and throw hands out of work in order that other factories in the ring may get higher prices for their goods.

And yet we are told that the N.P. has made the country prosperous; that the land is flowing knee deep with milk and honey and that a single alteration in the tariff will knock the national fabric sky high, to fall into chaotic ruin.

The N. P. has been putting on the taxation screw for eighteen years for the benefit of the combine manufacturer and at the expense of other manufacturers and the consuming masses. This high taxation has furnished funds for unlimited stealing and boodling with the connivance and countenance of the Government, The N. P. has not fulfilled one reasonable expectation which the promises made in its name encouraged. Yet it is a sacred thing that must not be touched. It must be retained to screw taxes out of the people to furnish means to retain in power a government that is thoroughly discredited by a record of corruption and extravagance unparalleled in the history of representative institutions. Honest electors, use your judgment, and you will pass sentence with your ballots upon a government that has forfeited every claim to public confidence and public support.

A FEW PERTINENT REMINDERS.

To show what a left-handed blessing Conservative rule has been for the past eighteen years; to show how their favours are unevenly distributed and that their policy has not been in the interest of the country, a few reminders like the following may be submitted:—

Debt, 1878, $140,000,000; 1895, $263,000,000.

Expenditure, 1878, $23,500,000; 1894, $37,000,000.

The Senate costs $150,000 a year.

The Military College cost $70,000 a year.

The superannuation system cost $200,000 a year.

Conservatives increased in seventeen years the public expenditure by $14,000,000 and the public debt by $114,000,000, while the population declined below its natural increase.

Cost of useless Prohibition Commission, $125,000.

During 1894 the Government borrowed $20,000,000.

Hundreds of Orders-in-Council in favour of the manufacturer; not one in favour of the farmer.

Increase of population, 1871-81, under revenue tariff, 18 per cent.; 1881-91 under the N.P., 11 per cent.

Parliament loses at this election two members owing to loss of population.

Mr. D. O'Connor draws $20,000 a year in law costs, while the Solicitor-General does nothing but draw a salary of $5,000 a year.

Labour measures promised in the Speech from the Throne in 1890 have never yet been introduced; yet how warm a heart the Conservatives have for workingmen just now!

Canada's total trade per head is less to-day than in 1874.

Trade with Great Britain was less in 1894, under the N.P., than in 1874, under a revenue tariff.

Duty on rice, 70 per cent.; diamonds free.

Duty on woollen socks, that all must wear, 35 per cent.; on silks, that only a few can wear, 30 per cent.

Duty on coal oil, 90 per cent.; on champagne, 35 per cent.

Duty on rolled steel, for manufacturers, 5 per cent.; on shovels for labourer or the farmer, 35 per cent.

Duty on steel rails, nothing; on sewing thread, 25 per cent.

Duty on lace collars, 30 per cent.; on workingmen's overalls 35 per cent.

The tariff prohibits the importation of the products of prison labour, but the Government is selling binder twine made by convicts in the Kingston penitentiary.

Contracts on the St. Lawrence Canal and on the Trent Valley Canal have been let to Americans by this Government (and by one American—Onderdonk—thanks to Sir Charles Tupper, there was lost to the country—stolen is a more appropriate word—a million and a quarter dollars). They have also had their dredges built at Cleveland, Ohio, and their fishery cruisers in Scotland, and their locomotives in the United States. Alack! for loyalty.

In 1894 the Government carpeted the House of Commons with an imported carpet, and in the same year levied duties as high as 45 per cent. on carpets imported by other people. Loyal Government!

The Government "encourage" home industries by importing every pound of soap used in the House of Commons from Chicago. Blessed N. P.

HIGH TAXES A NECESSITY.

Taxation is a necessary evil. If Mr. Laurier comes into power, as he is pretty certain to do, he will be unable to make any material reduction in the rate of taxation, but will give honest and economical government. The enormous expenditure the Conservative Government has forced upon the country, makes a stiff rate of taxation a necessity, and no protected industry has anything to fear from the advent of a Liberal Government. The net debt of Canada has risen from $140,362,069 in 1878 to $253,074,927 in 1896, and will probably be about $256,000,000 on June 30th. The country is committed to still further increases of this debt. The interest on this debt has to be paid. Then the expenditure has increased from $23,508,158 in 1878 to $38,132,405 in 1895; an honest and economical Laurier administration will, by making Wellington bridge, Fredericton bridge, Quebec graving dock, Tay canal and such like robberies impossible, reduce the expenditure, but it must still be large. Great reductions in it would not justify corresponding reductions in the tariff all at once for the simple reason that the revenue has not for some years been nearly sufficient to meet the extravagant expenditures. For three years there has been a series of successive deficits under the present high protective tariff:

1879-80	$1,543,827 76
1884-85	2,240,058 90
1885-86	5,834,571 87
1887-88	810,031 26
1893-94	1,210,322 45
1894-95	4,163,875 58
1895-96 calculated	2,200,000 00

By providing such a series of deficits the protectionist governments have made great and sudden reductions of the taxation impossible. At the same time this series of deficits under a protection tariff proves, says the Montreal Witness, the necessity of Mr. Laurier's policy of giving the chief consideration to the needs of the revenue in the readjustment of the tariff. These deficits prove the necessity of a tariff for revenue; for revenue is certainly needed when three successive deficits have taken place under the protective tariff.

GOOD ENOUGH FOR THEM.

The Review defends the tax of about 90 per cent. on coal oil by stating that Canadian oil can be got at 13 cents and, by inference, that is good enough for the Canadian farmer and workingman to burn. It is not nearly so good a quality as the best American oil which can be bought retail at 10 cents, but is brought up to 25c or 35c per gallon by the absurdly high tax. Mr. Stevenson said that common Canadian tweed made at the Auburn Mills was good enough for anybody. Of course its a high crime and misdemeanor for a farmer or a workingman to have a broadcloth coat for state occasions. Anything is good enough for the farmer and workingman so long as it is necessary to the high taxation policy of the Conservative party. Our good Tory friends are great at bulldozing—from a province to a people. Farmers and workingmen are to be coerced into using inferior grades of coal oil and cheap woollens for the sake of bolstering up specially favoured manufacturers who are sucking the life blood out of the consumer by high taxation. Tupper represents tyranny and taxes; Laurier represents liberty, fair play and equal justice to all creeds and classes. Think it over.

The Witness cartoons Sir Charles Tupper's triumphant tour through Ontario under the guise of a dog with the "coercion" kettle tied to his tail.

Mr. Sam Hughes, the wobbler of North Victoria, in the time of the Provincial election campaign, before he became a champion of remedial legislation, tried to show his contempt for the Roman Catholics by printing their names in his newspaper with a small r and a small c. On June 23rd, after McLaughlin, Delamere, and the electors get through with Sam, he will sign his name thus: "sam hughes."

At Mr. Kendry's Bridgenorth meeting Mr. Carnegie repudiated the Mail of 1891, though that organ was a warm supporter of Mr. Carnegie's anti-Separate School campaign of 1890. Mr. Carnegie also maliciously abused Mr. Dalton McCarthy, though that gentleman came here at his own expense to speak in Mr. Carnegie's latest election campaign. As a wobbler Mr. Carnegie is a champion, and a worthy champion of the party he represents.

Byron used a great deal of hair-dressing, but was very particular to have only the best to be found in the market. If Ayer's Hair Vigor had been obtainable then, doubtless he would have tested its merits, as so many distinguished and fashionable people are doing now-a-days.

Mothers

Anxiously watch declining health of their daughters. So many are cut off by consumption in early years that there is real cause for anxiety. In the early stages, when not beyond the reach of medicine, Hood's Sarsaparilla will restore the quality and quantity of the blood and thus give good health. Read the following letter:

"It is but just to write about my daughter Cora, aged 19. She was completely run down, declining, had that tired feeling, and friends said she would not live over three months. She had a bad

Cough

and nothing seemed to do her any good. I happened to read about Hood's Sarsaparilla and had her give it a trial. From the very first dose she began to get better. After taking a few bottles she was completely cured and her health has been the best ever since." Mrs. Addie Peck, 12 Railroad Place, Amsterdam, N. Y.

"I will say that my mother has not stated my case in as strong words as I would have done. Hood's Sarsaparilla has truly cured me and I am now well." Cora Peck, Amsterdam, N. Y.

THE STORM BLEW OVER.

Methodist Conference Avoided the Wordy War Which Was Feared on the Schools Question.

Toronto, June 17.—The expected war of words in the Methodist Conference over the Remedial Bill did not eventuate yesterday. The committee appointed for the purpose reported as follows:

"1. That, while the Methodist Church does not identify itself with any political party or assume to dictate to its members how they shall vote in political elections, yet, as a Conference, composed of laymen and ministers, we deem it our duty at the present juncture to reaffirm and place on record our uncompromising opposition to every attempt of the Federal or any government or parliament, no matter by what party it may be made, or whether by coercion or force, to restore Separate schools in the young Province of Manitoba, contrary to the repeatedly-expressed judgment of an overwhelming majority of its people.

"2. Furthermore, we desire to declare that, in our judgment, any public policy carried by means of coercive, hierarchical influence, would be a violation of the spirit and principles of the system of free representative government under which it is our privilege to live and which it is the duty of all patriotic citizens to maintain and defend."

As soon as the report was read Rev. Dr. Parker jumped to his feet with a motion that the report be adopted without debate, Rev. J. F. Ockley quickly seconding him.

Mr. Edward Gurney stated that he was to have seconded the motion, but since Mr. Ockley had already done so he would ask the Conference to affirm the report.

Mr. N. W. Rowell suggested that the word "or" should be inserted after "coercive" and before "hierarchical," to indicate that the Conference opposed coercive action of any kind, whether from the hierarchy or any other source.

Mr. Gurney stated that the resolution covered Mr. Rowell's proposal, and, without waiting further, the chairman put the question, and the committee's report was adopted as read.

Then, the critical point being passed without the storm breaking, the tension on the minds of the delegates was relieved and some one excitedly cried, "Sing the Doxology," whereupon "Praise God from whom all blessings flow" was sung through with grateful fervor by about half those present, others the while protesting and trying to shut off the chorus by calling out, "Hush!" "Oh, stop!" etc.

Thus was safely passed that stage in the Conference program which the discussion of the latter half of the Temperance Committee's report, the third clause of which had caused such a ruction on the previous day, was taken up. The fourth clause, which read as follows, was adopted:

"We lament, as citizens of a Christian commonwealth, the deplorable scenes enacted and expressed in the Parliament of our nation during the late all-night sessions, and believe that, had there been no liquor available, there would have been little disorder, and we express our hope that the best men of all political parties will unite in stamping out every semblance of a liquor bar within the precincts of the Parliament buildings."

Some discussion occurred over the next clause, which read:

"Your committee recommend that, as only 40 per cent. of our Sunday school scholars are pledged to total abstinence, pastors and superintendents take a deeper interest in securing the name of every scholar to a written pledge."

The clause carried.

The report on the "State of the work" referred to Sunday bicycling, and, while not condemning it directly, urged that it be not allowed to interfere with attendance at church services. The report was adopted without discussion.

The presentation of the report of the Committee on Sabbath Observance occasioned a wordy discussion. The first clause read: "We are sad in heart to see the madness and folly of multitudes of young people who make the day of God a day of foolish vanity. Cycling has grown to larger proportions than ever, and connected with it there are greater evils and dangers than ever. In the villages and places of resort near Toronto hundreds of wheels whizz along, and young men and maidens congregate and saunter, the hotel keeper does a lively business, and the sweetness and holy calm of the day of God is broken. What can we do to roll back the tide? We can acquit our consciences, we can proclaim God's truth, we can restrain and direct our children and show our holy example. We can teach our boys and girls in our schools and in our homes that it is profane and God-dishonoring thus to make the holy Sabbath a day of dissipation, ungodly companionship and unhealthy excitement."

Rev. Dr. German said the clause was too strong. He would not single out bicycling from other forms of amusement as a desecration of the Sabbath.

Rev. W. F. Wilson thought the young women should be left out of the report and he was supported by others, who felt that "sisters" who rode the wheel should not be condemned because a few fast young women went out on the Sabbath to dissipate at country inns.

Rev. J.H. Hill thought it a mistake to pick out special lines of amusement for censure. The church should teach the general truths of the Bible.

Mr. J. H. Scripture of Dunn-avenue Church advised trying to use the bicycle instead of allowing it to be abused. He thought churches should arrange to accommodate wheelmen and their machines.

Rev. J. C. Speers spoke against wheelmen going in crowds to outside hotels to drink and carouse. He said he had been informed that all day every Sunday these hotels freely dispensed liquor.

Rev. M. Pickett of Willowdale said he thought bicycling had lessened drinking. He never heard of a wheelman being intoxicated. Before wheels came in young men used to go out to these hotels, abusing the horses they drove, and returning home the worse of liquor.

Mr. A. Ogden said that wheeling had much reduced drinking in the city and elevated the morals of the young people. There was not nearly the Sunday drinking in the city there was before and a man could not drink much and ride a wheel.

Other speakers warned the Conference against asserting itself in a way to antagonize the great army of wheelmen, but the disputed clause was affirmed.

Clause No. 3, which was adopted, set out that the Sunday car vote might soon be brought on in Toronto, and urged the church to again maintain their "noble stand" in the contest.

Rev. J. C. Speers observed that the present silence on the part of the advocates of Sunday cars was ominous. The vote would likely be sprung very soon, and Sunday car people meantime feared putting Sabbath observance defenders on their guard.

The next clause in the report condemned the practice of ministers attending Sunday afternoon meetings for the discussion of social and other questions.

Rev. Elliott S. Rowe wanted to know if the Connecticut Blue Laws had not better be introduced. He knew that many workingmen, who were, despite all they could do, compelled to live in poverty, expected deliverances from the pulpit on the evils of our social economics, as well as Sabbath observance and the like.

Rev. J. C. Speers said a great many workingmen had rightly or wrongly imbibed the idea that the church did not sympathize with them.

The clause was eliminated.

Further clauses were adopted, condemning Sabbath trains, Sunday ferry boats, Sunday visiting, and the reading of secular books and papers on the Lord's Day.

The brotherly feeling existing between the great Methodist and Presbyterian bodies was greatly enhanced last evening by the sending of a deputation from the Assembly, conveying fraternal greetings to the Conference. The deputation was composed of Rev. Dr. Bruce, Rev. Mr. Herdman and Mr. J. K. Macdonald of this city. The addresses by the members of the deputation were all characterised by the most magnanimous praise of the energetic work of the sister church and the most encouraging statements in favor of co-operation. Although some other churches had effectually tried to raise obstacles against unison in the work, yet these two denominations had shown their desire to help one another. A resolution, cordially reciprocating the feelings of the Assembly, was passed unanimously, and a deputation, consisting of Rev. Dr. Dewart, Rev. Dr. Potts and Mr. J. J. Maclaren, Q.C., was appointed to wait on the Assembly for a similar purpose.

The Court Smiled.

Some years ago, in a suit which turned on the state of mind of a lady who had been a member of a sisterhood, the late chief justice, then Mr. Coleridge, was cross-examining a witness, who gave evidence as to the plaintiff's behavior while an inmate of the sisters' home. Among other things it had been deposed that plaintiff had been guilty of a breach of discipline in eating a certain plate of strawberries. Mr. Coleridge: "Eating strawberries, really?" Witness: "Yes, sir; she was eating strawberries." Mr. Coleridge: "How shocking!" Witness: "It was forbidden, sir." Mr. Coleridge: "And did you, madam, really consider there was any harm in that?" Witness: "No, sir, not in itself, any more than there was in eating an apple, but you know, sir, the mischief that came from that." The court smiled, and Mr. Coleridge seemed to lose the thread of his ideas for the moment.—Household Words.

HOW

THE SUN LIFE

FULFILS ITS PROMISES.

A Matured 10 Year Endowment.

Profits Paid by the SUN 21 per. cent more than the Estimates.

The following letter, which speak for itself, was received by the undersigned this morning from a gentleman in Brockville, whose ten year endowment which he held in the Sun Life Assurance Company of Canada matured last week and was paid him. The Sun is modest in promises but UNEQUALLED IN RESULTS. The public are benefitted by results, not by promises unfulfilled

BROCKVILLE, 6 November 7th. 1895.

W. H. HILL, Mgr. Central Ontario Sun Life Assurance Company of Canada, Peterborough, Ontario:—

DEAR SIR,—I should have acknowledged the receipt of yours enclosing cheque for endowment policy No. 12,871 before, only I wanted to write something more than a mere receipt. I am pleased to hear of the continued prosperity of the "SUN" and it speaks well for your Company when the profits are greater (by 21 per cent.) than you as the Company's representative promised or rather estimated, as was the case with this policy.

I hope your Company will continue to prosper and I often regret that I do not carry more Insurance than I am doing. I might have carried twice as much as I do when at Minden without any great effort, still what little I do carry I feel is perfectly safe being in the "SUN."

I must thank you for your promptness and kindness regarding this policy just settled. I hope we will both be alive and well when the new one I now hold will be due in 1905 and assuring you of very best wishes, I remain,

Yours Sincerely,

(Signed) F. R. C.

The above voluntary testimonial is significant and shows in a most practical way the SUN'S standing as a profit paying institution.

Edward Sanderson was before the Magistrate this morning charged with the larceny of a pistol belonging to Constable Adams. It is alleged that Sanderson went into the police station and seeing no one about he confiscated the revolver. The prisoner was remanded for a week.

A Bad Boy.

Eric Kimball, one of the young lads suspected of being implicated in the Butcher burglary, was before the magistrate this morning charged by Mr. Alfred Parker with stealing a watch belonging to him. The boy acknowledged his guilt and he was remanded until the 25th in order to see if he would not throw some light on the Butcher affair before being sentenced.

Reckless Expenditure on the Streets.

The attention of the public is called to the condition of Water street above St. Paul's church. Preparations were made to gravel it and after the stone had been drawn and spread the town has been put to the expense of hauling it all away again. Just who is responsible for the mismanagement and consequent large expenditure in connection with the work it is difficult to say, but the responsibility should be traced home in connection with the matter.

Another "Rearback."

Certain parties are circulating a false statement to the effect that Mr. Charles LeGros, tobacconist, etc., is leaving town. The EXAMINER is requested to publicly contradict this statement. It is true that Mr. Le Gros has given up housekeeping, for family reasons, but it is not true that he is going out of business. Anyone reading his advertisement in another column will be convinced, as he is stocking up with new goods, and is here to stay.

A Tidal Wave of Bargains in Straw Hats.

The emphasis of the straw hat trade this week at Fairweather & Co's comes of the bargains accumulated from manufacturers who have more goods than they know what to do with. They want an outlet for their reserve stock and Fairweather's store is among the large outlets they look for. Quick sales and a turn-out are essential just now, and you can see for yourself that the prices at Fairweather & Co's are such as to make them conspicuously below all others. Election hats are also in season now—make it a condition that it must be the pick of Fairweather & Co's stock.

A "SMALL" ELECTION TRICK.

Showing how Low Our Conservative Friends Can Fall—Picayune Politics and Picayune Methods.

We have been treated to constant evidences of the wobbling powers of the Conservative party, but the latest development is in an astonishing direction; that of economy—of its own funds at the expense of others.

The Conservatives abandoned the idea of using the skating rink for the Tupper demonstration on Thursday, partly because of the defective acoustics of the rink. Accordingly the drill shed was engaged, and so anxious was the great party, led by a man that started, at the Spring Hill mines steal, with $40,000 and developed it into millions, to economize they decided to do a little looting at the expense of the ratepayers of the town, irrespective of politics. The chairman of the Street and Bridge Committee of the town council, who is an active member of the Conservative Committee, worked the "fake." The Dickson Company, which has the contract of supplying the town with pine plank for street purposes, was directed to deliver the town plank to the drill shed, to be used there for seating purposes. It is not known who pays the piper—as the company is bound to deliver the plank where directed by a member of the Conservative campaign committee, though it is probable that the town will have to pay for carting the plank to the town lumber yards. It is impossible to imagine a trick of picayune economy of smaller dimensions. Why do not the great Conservative party—the party of gentlemen, led by a gentleman who discovered Canada, and exercised the right of discovery by absorbing several millions of Canadian dollars—go like men, openly and aboveboard, and buy or rent the lumber necessary to seat the drill shed? The Liberals paid out their honest dollars for seating the skating rink, and now their Conservative friends are "rubbing it in" by spending the town money, contributed by Grit and Tory alike, for party purposes. One can't conceive of a more measly subterfuge to save a few dollars—and by the great Conservative party too. The act, however, is quite consistent with the planks of their platform—to govern the country in the interests of the party and make friend and foe alike pay the piper.

Evidently the Conservatives will need all their ready cash, and they are willing to spend other people's money to help their cause. We have the spectacle of gravel being placed on Water street, from Murray to McDonel, yesterday, and being removed today in order to give employment to men who are expected to recognize the chairman of the Street and Bridge Committee as the almsgiver of the party—and vote accordingly. If this is the true reason, and there does not seem to be any other, the Conservative party in Peterborough must be sunk to the lowest depths. While good "Grit" money may thus be spent to buy votes the "Grits" have the satisfaction of making their Tory friends "scratch gravel" to get beyond the distance flag on the 23rd of June.

BATTALION NOTES.

HEADQUARTERS,
Peterborough, June 16th, 1896.

Orders by Lt.-Col. R. W. Bell, commanding the 57th Battalion of Infantry, Peterborough Rangers:

No. 1.—Battalion parade on Friday evening; also on Monday instead of Tuesday evening, and it is imperative that every officer and man be present.

No. 2.—The dates fixed for inspection has been changed and will take place as follows:—On Wednesday evening, 24th, at 7:30 sharp, E, F and A Companies; on Thursday evening, 25th, at the same hour, B, C and D Companies. On Friday, at 6 p.m. sharp, the Battalion will parade for inspection by the Deputy Adjutant General.

No. 3.—The captains of companies will have their Service Rolls and Pay Rolls signed and completed by the evening of their companies inspection.

No. 4.—The auditors appointed by the officers have completed the inspection of the Adjutant's books, and find them correct and satisfactory.

On non-commissioned officer chosen from each company, will audit the books, when a report will be made.

By order,

STONY LAKE COTTAGERS.

They Have Formed Themselves Into an Association to Protect Their Interests.

The Stony Lake cottagers turned out in large numbers, last night, assembling in the parlours at the Skating Rink, where they organized into a society to be known as the Stony Lake Cottagers Association. The following officers were elected:—

President—W. G. Ferguson.
Vice-President—W. Graham.
Sec.-Treas.—D. W. Dumble.

Executive Committee—The officers and R. C. Strickland, W. E. Roxburgh, E. H. D. Hall, Felix Brownscombe, G. M. Roger, B. Shortly, H. LeBrun and A. L. Davis.

It was resolved to hold a two day's regatta on Thursday and Friday, August 13th and 14th, and the following committee was appointed to perfect the details:—T. Barrie, J. H. Connal, E. B. Edwards, Cole, W. Graham, Piper, K. G. Loch, W. H. Casement, Frank Roxburgh, F. Brownscombe.

The secretary was instructed to communicate with the steamboat proprietors and secure arrangements allowing the cottagers to reach their destinations earlier on Saturday evenings; also, that the steamers leave more promptly after the arrival of the trains.

The secretary was also instructed to communicate with the Grand Trunk authorities and endeavour to secure a faster railway service between Peterborough and Lakefield and to urge the construction of the railway bridge at Auburn, as well as to ask that the trains run down to the wharf at Lakefield and that a special rate be made to all members of the association.

It was also resolved that Mr. R. B Rogers be interviewed to secure more perfect buoying of the lake.

The association will interest itself in all matters effecting the property of the members and interests of the cottagers. The annual fee, for the present, has been placed at 50 cents.

A KENDRY MEETING AT BRIDGENORTH.

A largely-attended meeting called in the interests of Mr. Kendry, although his supporters were by nomeans in a majority, was held on Tuesday night in Bridgenorth.

Considerable difficulty was experienced in getting a chairman, as no local gentleman could be found willing to assume the responsibility of committing himself that far to Mr. Kendry's favour. At length a Government official who had been touring during the day with Mr. Kendry took the chair.

The first speaker was Mr. Mulholland, town, who after a few brief remarks, was followed by Mr. Stone, who delivered an excellent and well received address on behalf of Mr. Hall.

Mr. G. K. Martin also gave a brief but pithy address upon the fiscal question. He referred to the Conservative argument that the reduction of the United States' tariff caused the recent panic, showing that it was the silver question that did it—by creating the fear among British and other investors that their claims would be paid in silver at 50 cents on the dollar, and leading to the withdrawal of large sums of money. There was nothing to fear from a readjustment of our tariff on the lines of fair play to all interests.

Mr. Kendry delivered an address full of bitterness and spleen. He repudiated the Toronto Mail of 1891 and showered unstinted abuse on D'Alton McCarthy. He astonished the intelligent portion of the audience by giving them to understand that the reason he and his party, favoured coercion of Manitoba as represented by the Remedial Bill, was because the Queen had especially ordered it, thus construing the formal phraseology of command in Her Majesty's name, that will be found in every legal state document, from a division court summons to a decree of the privy council.

Mr. Dennistoun concluded the speaking with his usual well presented (except in the matter of facts and arguments) address.

The meeting concluded with the usual cheers. If Mr. Hall had called the meeting in his own interests he would have had reason to be pleased with the numerous turnout of his supporters.

PERSONAL.

Mr. Thos. Thompson left yesterday for Scarboro to attend the "Centennial."

Messrs. W. J. Drope, H. R. H. Kenner, J. Jeffries and C. Fessenden of the local Collegiate Institute, have been appointed assistant examiners at the High School and University examinations. Mr. Ralph Rose, principal of the Pembrooke Collegiate Institute, formerly of Peterborough, is also named as one of the examiners.

Purely Vegetable.

First the bud, then the blossom, then the perfect fruit. These are the several stages of some of the most important ingredients composing the painless and sure corn cure—Putnam's Painless Corn Extractor. The juices of plants greatly concentrated and purified, gums and balsams in harmonious union, all combined give the grand results. Putnam's Extractor makes no sore spot, does not lay a man up for a week, but goes on quietly doing its work until a perfect cure results. Beware of sold substitutes.

THE WHEEL.

At a meeting of the Bicycle Club last night it was decided to send a racing team to Quebec to contest in the different events in the first of July. A subscription is being taken up to defray the expenses connected with the trip, and as the boys are all riding strong the citizens should respond liberally to the call for funds.

It was decided that on Monday evening next, trial races would be held at the Driving Park in order to determine which three of the riders could qualify as being the speediest. Amongst those who will participate in the trials of speed on Monday evening will be Lytle, Walker, Little, Gordon, Dawson, Bradburn and Pakenham.

Do You Tire Quickly?

Fatigue is the natural sequence of labour. If, however, it follows moderate or slight exertion it is the sign and evidence that the nervous system has lost tone and vigor and requires assistance. Suicidal is a resort to stimulants, since these only increase the enervation. Aid cannot be obtained in that way, but through medication, judiciously employed in restoring through the nervous system the digestive function, upon which primarily, health depends. The whole range of medicine fails to produce a preparation possessing in equal degree the tonic and nutritive qualities of Maltine with Coca Wine. By the action of Maltine with Coca Wine upon the nervous system all the important functions of the body are stimulated and increased; the digestive process is performed efficiently and without discomfort, insuring the proper nourishment of the body. Tone takes the place of lassitude; vivacity dissipates depression, forbodings and despondency, and soon the quickening impulses of renewed health are experienced. Maltine with Coca Wine is sold by all druggists.

MR. HALL AT RAY'S SCHOOL HOUSE.

A Successful Meeting Held on Tuesday Night.

A largely attended meeting in the interests of Mr. Hall was held at Ray's school house, Smith, on Tuesday night.

Mr. Andrew Fairbairn was placed in the chair.

The first speaker was Mr. F. D. Kerr, town, who went thoroughly into the trade question and showed clearly how the policy of Mr. Laurier was more in the interests of the country than the policy of Tupper and high taxation with its deplorable accompaniments of extravagance, boodling and corruption.

Mr. Hall made an excellent speech dealing with the trade question from the business man's standpoint and showed that there would be only beneficial results to follow for placing Mr. Laurier at the head of our affairs. His remarks were very cordially received as was also his appeal for support on June 23rd.

Mr. Edwards also dealt with the trade question, especially in relation to the relative prices of Canadian and American farm products. He also went minutely into the school matter and his conclusions that Mr. Laurier's policy of investigation and conciliation was the best in the interests of Canada were very heartily endorsed by the audience.

The meeting closed with the usual cheers.

NOMINATIONS IN EAST PETERBOROUGH.

A Mass Meeting Held Afterwards and Addresses Delivered.

At Norwood, yesterday, at the conclusion of the formal proceedings in connection with the nominations of candidates, Reeve Finlay took the chair and a public meeting was held for the discussion of the political issues of the present campaign.

The Government candidate, Mr. John Burnham, was the first speaker and addressed the audience for an hour and a quarter on the Manitoba school question—favouring the Remedial Bill and the coercion of Manitoba. He also devoted considerable time to an endeavour to defend the expenditures of the government. Mr. Burnham worked himself up to fever heat in his denunciation of a remark which was made by Mr. Crowe in the north county. When referring to the boasted loyalty of the Conservative party, Mr. Crowe in a jocular manner drew the attention of his audience at the time to the fact that on the Queen's Birthday the Stars and Strines were floating over Mr. Burnham's office, whilst no British national emblem was displayed.

Last night Mr. Burnham took the matter up in a manner which lost for him the sympathy of the meeting, as all could understand that the reference was a jocular one, such as are related in connection with all campaigns and are not intended to be taken as a serious statement. With the exception of the display of temper on the part of Mr. Burnham, the meeting was characterized by the interest which is always exhibited on similar occasions in Norwood.

Mr. Lang followed Mr. Burnham, and in a half hour's speech explained the policy he would pursue if again entrusted with the confidence of the electorate. He pointed out the reckless manner in which the Government had been expending the public funds, without adequate value being received in return, and appealed to the audience for the consideration of the school question from the broad and generous standpoint of investigation and conciliation.

Mr. J. R. Stratton, on behalf of Mr. Lang, occupied the remainder of the time allotted to the latter, and explained the Liberal platform in a manner apparently highly satisfactory to the audience, which frequently applauded his remarks.

If the manifestations of approval given Mr. Lang at the meeting are any criterion to go by, he will without a doubt receive a substantial majority on the 23rd.

CANADIAN FORESTERS.

Meeting of the High Court in Montreal—Mayor Wilson Smith's Welcoming Speech—The Reports.

The High Court of the Canadian Order of Foresters has opened its seventeenth annual session in Montreal, Mr. C. E. Britton, of Gananoque, High Chief Ranger, presiding. The reception committee of the Montreal brethren have provided an extensive programme for the entertainment of the delegates, an excursion through Lake St. Louis and down the Lachine Rapids and an exhibition of the city fire department being some of the features. The session opened at 2 o'clock. An address of welcome was presented to the High Court by the Quebec brethren and was responded to by the High Chief Ranger, who congratulated the Quebec brethren on their rapid growth. The afternoon session was taken up by the reception of the reports of the High Court officers. These reports show very gratifying results from the last year's work, it being one of the most successful in the history of the order. The work of the order is confined entirely to Canada. Three thousand eight hundred members have joined the order since last June, 55 new courts having been organized, the total membership now reaching 22,651. The increase in the reserve is $33,976 73. The total reserve now is $476,521.31. One hundred and one deaths have occurred during the year, the death rate being only 4.60 per thousand. The order is attracting men of all classes who are anxious to get an insurance at minimum cost.

This evening at 8.30 o'clock an address of welcome was presented to the visiting delegates by the mayor, the Hon. R. Wilson Smith, who was received by the gathering rising and giving three cheers and a tiger and singing, "For He's a Jolly Good Fellow." The Mayor said:—"Members of the Canadian Order of Foresters, I welcome you to the city of Montreal on this the first meeting of your high body in the Province of Quebec. I am told you have members present from Ontario, Manitoba and Quebec. I welcome them all to this metropolitan city and shall be glad to extend a similar welcome should you again favour us with your presence. Your order is founded on right principles, and you are doing a good work among the citizens of this Dominion, especially to the workingmen. I trust you will go on in your good work, encouraging thrift and prudence and granting such a cheap insurance. I notice that you now have a membership of nearly 23,000. I trust that by this time next year you will have 123,000 members. I trust that you will enjoy your visit among us and carry away pleasant recollections of our fair city. The High Chief Ranger responded in his usual happy style, thanking his Worship for his very kind welcome, and wishing his success in his aspirations after higher honours than the civic chair and inviting him to join the order. His remarks elicited great applause from the delegates. As important matters in connection with the revision of the constitution will be brought up, the session will likely continue until Friday evening.

THE SCOTCH STANDARD.

To the Editor of the Examiner:

SIR,—Last week we got an order from Gough Bros. to decorate their store for the visit of Mr. Laurier. We did so, putting up, among other flags, the standard of Scotland. On this flag is a yellow ground showing the lion rampant. It seems that some mistook the flag for an Orange emblem and claimed that the flag was hung upside down and intentionally. Mr. Gough's attention was called to the flag and he sent for us to change it. We pointed out that the flag was right, that we understood our business and that the flag should hang in the way it was placed. The flag was then left as we put it up. Further attention was again called to the circumstance, and to make the matter satisfactory to those criticising, Mr. Gough told them to put the flag as they thought it should appear. They changed it to suit themselves. We want to say that when we put up flags we put them up properly and loyally. We have had 30 years experience in England and Canada, both on sea and land, and should know whereof we speak. The flag on Gough's store was put up by our assistant, Mr. Fredenburg, who is a member of 'Prentice Boys' Lodge, of town, and who understands how a flag or standard should be put up.

We make this explanation in public to Gough Bros.

Yours respectfully,
J. J. TURNER & SON,
Peterborough.

THE STRAWBERRY FESTIVAL.

There Was a Large Attendance Last Evening in the St. John's Church Grounds.

The strawberry festival which was held in St. John's church grounds last evening, under the auspices of the Woman's Auxiliary and the King's Daughters, proved to be a most unqualified success.

The grounds were transformed into fairy land for the occasion, and the effect of the vari-coloured lights on the terraced lawn was indescribably beautiful.

The attendance was very large and the refreshments, as served by the young ladies, proved most enticing, and the sale was consequently large in strawberries, ice cream and cake.

In Pursuance of the Dominion Elections Act.

I RICHARD HALL, of the Town of Peterborough, in the County of Peterborough, Merchant, a candidate at the election, now about to be held of a member to represent the electoral district of West Peterborough in the House of Commons, of Canada, do hereby declare to Robert Archibald Morrow, of the Town of Peterborough, in the County of Peterborough, Gentleman, the returning officer for the said electoral district of West Peterborough, that I have appointed George Maurice Roger, of the Town of Peterborough, in the County of Peterborough, Barrister-at-law and I do hereby appoint the said George Maurice Roger to act as my agent for and on my behalf at, before or during, or after such election to make all proper payments, loans or deposits, on account of such election to all persons who have any bills, charges or claims upon me, for or in respect of such election.

WITNESS my hand at Peterborough. this 15th day of June, A.D. 1896.

Men are getting a better gait on, and are spurting to pull up for lost time. In consequence greater interest is taken over the balloting for H. LeBrun & Co's $60.00 Prizes, for which 2000 Men and Women have a chance to vote. The supporters of

Hall

Are, of course, flushed with enthusiasm over the good start which they gained by being first in the field and early at our Ballot Box. It's hard work, however, guessing the majorities, especially with

Newman

in the race as the third candidate. Some think Mr. Newman may be the "Dark Horse" in this election; but just now its the toss of a copper whether the Grits will be out or the Tories will be in! But you can

all you like, and win some of LeBRUN & CO'S Handsome Prizes. The person estimating the correct or nearest to the correct majorities of each of the successful candidates in East as well as West Peterborough, will receive the

Prizes.

Our Fine Clothing and Furnishings are the best by a large majority that can at any time be obtained, but during this Election Campaign everything will be GREATLY REDUCED in price to make Sales pile up a Rousing Majority for the CITY CLOTHING STORE.

See our All Wool Tweed Suits at $4, $4.50, $5.00, $6.00. These snaps have just recently been bought, the $6 Suit being well worth $9.00.

See our Worsted Suits at $8, $9 and $10—no better in the land.

See our Black Worsted Coat and Vest Suits at $6, $7, $9, just in fit for any member of Parliament.

See our working Pants at 75c. $1.00, $1.25. Good Tweed Pants, all wool, $1.25, $1.50, $2.00, $2.25, $2.50.

1000 Boy's Suits, going fast, at sweeping reductions. Every lady purchasing a Boy's Suit is entitled to ballot for our Prizes.

ORDERED CLOTHING will also be similarly reduced. Suits made to order during the election will be cheaper than ever.

Fine Tweed Suits, made-to-order, for $12, $14, $16—fit for the Premier.

Fine Coloured Worsted Suits, made-to-order for $16, nearly worth $19.

Black Worsted Suits, made-to-order, $16, $18, $20—for swell dressers.

Drop in Beef

In the Cattle Markets, to be Followed by a Corresponding Drop at

KENNEDY'S MEAT MARKET.

In sympathy with the falling prices in the Cattle Markets all over, Beef Cattle to-day are selling for fully 30 per cent. less than the prices of six weeks ago As my policy will always be TO SELL AS I BUY, I commenced ON SATURDAY, JUNE 13th, to give my customers, as well as the general public, a corresponding 30 per cent. Reduction in the price of Cut Beef. For example:—

Best Porter House and Rib Roasts, former price 12½c, reduced to..... 9c

This reduction in price does not mean any reduction in the quality. I am pledged to supply my customers with Prime Beef no matter how the cattle market may fall or rise, and I am bound to stand by my pledge.

The above substantial reduction will continue so long as the present prices for cattle remain. As I have unequalled facilities for keeping and preserving my beef in first-class condition in my large and newly improved Cooling Rooms, buyers will be consulting their own interests by availing themselves of these very special advantages. Adequate provision will be made for attending to a large crowd on Saturday.

WE SELL AS WE BUY.

How much business can a man do whose system is in a state of disorder? Headache is only a symptom. It is not a disease. The pain in the head is the sign of rebellion. There have been mistakes in diet. There has been overwork and sleepless nights. The machinery of the whole system is demoralized. A business man feels that he cannot afford to be ill enough to quit work. He drags along day after day, makes bad deals, says the wrong thing, and health and business collapse together. There's no need of either disaster. Dr. Pierce's Pleasant Pellets are a gentle, effective renovator of both stomach and bowels. They assist nature without threatening to tear the body piece-meal. There are no griping pains, no nausea. One is a barely perceptible laxative. Two give more noticable results, and they may be continued until the system is throughly renovated, strengthened, and put into harmony with nature. One need not fear a "habit" of taking the "Pleasant Pellets." As soon as health is restored they may be discarded without a return of illness because of their absence. Therefore, you don't become a slave to their use.

A GREAT BOOK FREE.

When Dr. R. V. Pierce, of Buffalo, N. Y., published the first edition of his work, The People's Common Sense Medical Adviser, he announced that after 680,000 copies had been sold at the regular price, $1.50 per copy, the profit on which would repay him for the great amount of labor and money expended in producing it, he would distribute the next half million *free*. As this number of copies has already been sold, he is now distributing, *absolutely free*, 500,000 copies of this most complete, interesting and valuable common sense medical work ever published—the recipient only being required to mail to him, at the above address, thirty-one (31) cents in one-cent stamps to cover customs and mailing *only* and the book will be sent post-paid. It is a veritable medical library, complete in one volume. It contains over 1000 pages and more than 300 illustrations. The *Free Edition* is precisely the same as those sold at $1.50 except only that the books are bound in strong manilla paper covers instead of cloth. Send now before all are given away.

FARM HORSES.

Judicious Rationing Which Will Increase Their Effectiveness.

The effectiveness of working horses on farms is often impaired by injudicious feeding. Overloading the stomach with innutritious food is a common error and is mainly due to the average farmer's dependence on hay as the staple and cheapest food for horses. Really, so far as effectiveness goes, grains, and especially oats, are always cheaper than hay. Liverymen and those who keep horses soon discover this fact. Farm work differs from that on the road in not requiring so rapid motion. Farm horses can, therefore, be fed more hay, but enough grain or meal should go with it so that the proper amount of nutrition can be secured without too great distention of the digestive organs.

The farmer will find his most effective ration in ground oats, mixed with cut clover or timothy hay, and fed slightly wet so that the meal and wet hay will adhere. The best proportion is half weight each of the hay and meal. This will of course make the hay more bulky. The ration for a 1,200 pound horse will usually be about 16 pounds of oatmeal per day and the same weight of cut hay, divided into three messes morning, noon and night. On such a ration as this horses will keep at work and in good condition indefinitely. The feed at night and morning should be slightly larger than at the noon meal. Three meals per day, with long intervals between them to allow the food to digest, are better than continuous eating, even when grain is given.

Timothy hay is much less nutritious than clover. It is also less liked by horses, which should be stinted in their feed of clover, so that they will not get too much. Usually clover hay should only be fed cut and wet and mixed with meal. This wetting the clover will keep the dust in it from injuring horses that are broken winded from hard driving when their stomachs are over loaded. Bran and wheat middlings abound in the nutrition for furnishing strength. But it is very rare that bran can be fed with advantage to a horse that is working hard. It will sour his stomach, and that is always weakening. But fine middlings have a contrary effect and can be mixed with ground oats, and so fed with the cut hay. A horse at work should be neither constipated nor very loose in his bowels. If the excrement is at any time hard and dry a very little linseed meal will remedy the difficulty. It cannot, however, be given in large quantities, as it is very concentrated food.

When wheat middlings are fed to horses without other grain, they should be mixed with a larger amount of cut hay so as not to become compact in the stomach. It will generally pay to take extra pains to have ground oats to mix with the cut feed, and give this ration steadily each day through the week. On Sunday, when the horse is idle, he may have some linseed meal with his ration, to loosen his bowels and prepare him for digesting his food better during the week following, says American Cultivator, our authority for the foregoing.

GOOD FOR DAIRYMEN.

Butter Sent Forward in Refrigerator Cars.

SHIPMENTS BULKED IN TORONTO

And Sent Through to Montreal in Iced Cars—Arrangements Completed With the C.P.R. and Expected With the Grand Trunk—General News From Ottawa.

Ottawa, June 16.—(Special.)—Arrangements have been made with the Canadian Pacific Railway Company for the running of refrigerator cars for butter to Montreal on terms similar to those which were agreed upon last season. In Ontario, commencing next week, a car will leave Teeswater and Owen Sound once a fortnight, picking up butter at stations between those points and Toronto, where the shipments will be consolidated into a through car for Montreal. At stations between Toronto and Montreal butter will be picked up en route. It is expected that similar arrangements will be made with the Grand Trunk Railway for cars over its lines. The cars will be iced as frequently as is necessary to keep the butter cool throughout the whole journey. Particulars as to the exact time when these refrigerator cars will leave the stations en route to Montreal may be obtained from the railway agents. The arrangements are that shippers of butter by these cars and routes will be charged the usual "less than carload rates, without any charge for the icing or the special service, which are to be provided for by the Government. As far as space will permit, merchants may use these cars for shipment of dairy or creamery butter between points at which cars touch. Shippers will be charged by the railway companies the usual "less than carload rates" on such shipments.

In regard to shipping arrangements at Quebec, the agents of the Elder line of steamships, which is handling all the butter being shipped to England, have taken up the matter of providing tugs or barges to convey butter from the wharf at Quebec to the vessel in mid-stream. This, however, will not involve any extra charge to the shipper of butter. Sailings of steamers fitted with refrigerator accommodation have been arranged as follows: June 18, Ss. Memphis; July 2, Ss. Lycia; July 16, Ss. Merrimac; July 23, Ss. Memphis; July 30, Ss Etolia; Aug 6, Ss. Memnon; Aug. 13, Ss. Lycia.

Mr. Justice Burbidge is at present hearing, as commissioner appointed by the Government, a claim preferred some years ago by N. K. & M. Connolly against the Government for extras in connection with construction of the graving dock at Kingston. Mr. C. H. Ritchie, Q.C., and R. N. Dickson of this city appear for the claimants, and Mr. W. D. Hogg, Q.C., of Ottawa, for the Government. After the construction of the dock was begun an order in council was made directing the widening of the dock some seven feet. While awaiting the perfecting of plans covering this change, the plant was detained. The contractors also claim that they completed their work until it became necessary to remove the coffer-dam. This they were prevented from doing because a sub-contractor had not, as he ought to have done, completed the caisson. A large item of some $30,000 is charged for this. A crib placed in position was destroyed through no fault of the contractors, and these, together with an item of some $10,000 for extra handling of stone, make up the claim, which totals some $70,000. A number of witnesses are being examined and considerable interest is taken in the case. The examination of witnesses and argument will probably be closed on Thursday night and a decision arrived at.

Mr. G. G. Publow, who was instructor in cheese-making at Kingston Dairy School, was in the city to-day to receive his instructions for visiting a number of cheese factories in Eastern Ontario, managed this summer by students who took a special course of instruction at Kingston last winter. This special course includes the inspection of factories and an additional examination on the part of the student before he receives his diploma. Mr. Ruddick of the Dairy Commissioner's staff, and who was superintendent of the Kingston Dairy School last winter, leaves to-morrow to visit a number of the other factories in Eastern Ontario. This is the first time when, in connection with a course of instruction of this kind, an examination of the practical work done by these students has been carried out.

ITS FAME SPREADING.

A New Remedy in General Use in Manitoba and the Northwest.

WINNIPEG, June 1.—The effects of the regular wave of sickness which sweeps over this portion of the Dominion in the spring, are noticeable in the increasing amount of the druggists' sales. There has been quite a run on the kidney remedy now so well known under the name of Dodd's Kidney Pills. The recovery from Bright's disease of Mr. Arthur Coley, of Somerset, through their use, an account of which appeared in the papers, gave a considerable impetus to the sale, and the remedy has become indispensable in many Manitoba households, its fame having penetrated into the remotest parts of the province and Northwest Territories.

Caught by a Live Wire.

Brantford, June 16.—Lineman A. Scott of the Bell Telephone Company was engaged to-day in fixing a telephone wire near an electric light wire. In some unaccountable manner Scott's body made a connection with the two wires and Scott fell to the ground immediately, lighting on his feet. A physician was summoned and had Scott taken to the hospital. The full extent of his injuries is not yet known.

The Pearl of Great Price

To woman is beauty. Beauty, the key that unlocks every door, commands deference, inspires homage. But beauty of face cannot satisfy unless the additional grace, beauty of teeth, adds its charm. Fine teeth, sweet breath, rippling laughter—three graces that always go together. Ivorine imparts dazzling pearly like whiteness, removes discoloration and tartar from the teeth, and renders the breath fragrant as flowers.

Hagyard's Pectoral Balsam cures coughs, colds, asthma, bronchitis, and all throat and lung troubles.

Testing Seed Corn.

Test your seed corn. Count a number of grains, put them into a box of moist earth or sand, and place in the kitchen where the temperature is sufficiently high to cause germination. In a few days it will be possible to determine what per cent. of the seed is good.—American Agriculturist.

As to the Fences.

Be sure that all the fences are up and strong before stock is turned out. It will prevent the cattle from getting bad habits impossible to cure and perhaps an expensive lawsuit.

Some people are constantly troubled with pimples and boils, especially about the face and neck. The best remedy is a thorough course of Ayer's Sarsaparilla, which expels all humors through the proper channels, and so makes the skin become soft, healthy and fair.

For depression of spirits, nervousness and general weakness, Miller's Compound Iron Pills are a sure cure. 50 doses 25 cents. Sold in Peterborough by Wm. Madill, druggist.

TURNING GRAY
AND THREATENED
WITH BALDNESS
The Danger is Averted by Using
AYER'S HAIR VIGOR

"Nearly forty years ago, after some weeks of sickness, my hair turned gray and began falling out so rapidly that I was threatened with immediate baldness. Hearing Ayer's Hair Vigor highly spoken of, I commenced using this prepara-

tion, and was so well satisfied with the result that I have never tried any other kind of dressing. It stopped the hair from falling out, stimulated a new growth of hair, and kept the scalp free from dandruff. Only an occasional application is now needed to keep my hair of good, natural color. I never hesitate to recommend any of Ayer's medicines to my friends."—Mrs. H. M. HAIGHT, Avoca, Neb.

THE BLACK DRESS.

The woman in black is always well dressed in the sense that she is inconspicuous. But black is rarely becoming, especially if the first freshness and bloom have faded from her face. A combination of white is a help, but it needs something like genius to keep a black and white costume from becoming too striking, unless, indeed, the white be used in the "natural" method; that is to say, be shown only in collar, cuffs and vest. Then it is bound to be all right. It is the stripes and "fixins" which help to make the wreck of what might else have come to be a handsome toilet. This year there are lovely white and black checked and striped silks, eminently suitable for house and evening wear. In wash goods there are charming black and white patterns and fabrics, which clamor to be trimmed with white laces and embroideries, and look lovely so. White ducks and piques, albeit rather heavy, are likely to be again in high favor, and the softer the fabrics the better it is liked. Lawns, dimities and dotted muslins, in black and white patterns, are daintier this year than ever, and a preference is shown for the sheerest of the sheer. Then it must be recollected a good many people wear black for other reasons than choice. When people mourn it seems natural to assume sad-colored garments. It may be characterised as a folly, a decree of fashion, but those who suffer bereavement know how much of a protection and how fitting these sombre habiliments are. But the wearing of mourning is something for each individual to personally decide when the occasion comes. Some are opposed to the custom. Others adhere to it, and will continue to do so. It is a matter of temperament and belief. For first and deepest mourning the gown should be absolutely plain, of Henrietta or crape cloth, and with bands of crape to finish it. A widow wears a crape veil over her bonnet, and white muslin collars and cuffs to vary the monotony of her sombre gown. All-crape dresses are often worn, but they are very expensive, as nothing in the world of dress looks worse than cheap and shabby black. The mourning worn for a parent is almost as heavy as that worn for a husband, but is doffed sooner. No one now wears the crape veil for more than a year, and usually for no longer than six months. No jewelry should be worn, or at least only small and very plain pieces. Crepons of the crapiest weaves are used for second or light mourning and dull jets, but never laces or ribbons or bright jets and passementeries. Of course, all this is, as I have said before, subject to individual taste. I am but outlining the custom. And it is something that I do not like to dwell upon. I find it necessary, though, to speak of it, as there are constant requests from correspondents.—Dolly, in Chicago Herald.

ABOUT THE LIVER.

A lazy, slow or torpid liver influences the whole system, causing biliousness, sick headache, sallow complexion, languor and dullness. Burdock Blood Bitters regulates the liver, purifies the secretions and cures all forms of liver troubles. We say so and here is the proof :—

I hereby wish to thank you for the great benefit derived by me from your Burdock Blood Bitters. For three years I was troubled with liver complaint and tried everything to no purpose. I had almost given up hope until one day I determined to try Burdock Blood Bitters. I can say now that marked improvement resulted from the use of the first bottle and at the end of the sixth bottle I discontinued its use, being completely cured.

The Latest Fashions

The materials used for the most expensive shirt-waists are entirely different from the materials that are bought by the yard in the shops, says Harper's Bazar. They are imported expressly for the purpose, and consequently are quite distinctive. Madras of different qualities, but all cool and sheer, fancy muslins—the latter not so smart as the Madras ginghams—and a thin weight of fancy white duck are used. The solid colors with a hair stripe of white, while not the newest, still rank among the most desirable patterns. The old-fashioned flowered chintzes that are associated in our minds with curtain hangings have been reproduced in the Madras shirtings. A pale pink and white square pattern will have sprays of tiny pink roses, a purple and white will have also pink, all in the dull colors used in old English goods. The accepted pattern for these shirts has a yoke at the back, with a little fulness directly in the centre, which is held in at the belt by a stitched band that only extends to the side seams; from there a tape ties down the fulness in front. There is no yoke in the front of the shirt, but four narrow side-pleats. The favorite pattern for the sleeves is the bishop sleeve; but again in the Madras shirt this is very much modified, and shapes in at the hand into a turned-over stiffened cuff of the material. The collars are made separate from the shirt, and are white, turned over, very much on the same cut as last year's; but the neck of the shirt is so finished that a stock can be worn just as well as a collar. Stocks of this season are quite odd, and a novelty which will not be very popular. A straight band of satin or silk is fastened in the back, having very much the effect of a clergyman's collar, and a black satin tie in a stiff bow in front finishes it off. Skirts made to order cost anything the makers choose to ask, but for stout people are desirable in so far that the careful fitting over the shoulders, and the equally careful arrangement of the fulness, produce much better results and longer lines.

In the arrangement of the hair the beauty or defect of the woman's neck should be considered. A lovely neck is a great beauty and a wonderful charm. There is also as much character in a woman's neck as in her face or hands. If it is round, white and perfectly shaped the hair should be arranged to reveal it entirely, but sometimes it is as much a composite as the face, the front or throat revealing a softness and roundness of contour, but the back being disfigured by a deep hollow at the base of the skull. This characteristic denotes strength of physique, moral, and mental endurance; the deeper the cleft the greater the degree of either quality. But one does not desire to display their mental or moral qualities so publicly, especially when the indication is so defective to that accepted standard of beauty

The new sleeves still hide their upper inches under collarettes and shoulder capes of lace which fall in folds, or of muslin which is tortured into frills, or of the cloth of the costume. Nor yet shall one see the sleeve tight from waist to shoulder, casting off all disguises and standing forth for what it is. And nine times out of ten the old sleeve retains its hold and proves its usefulness, the leg-of-mutton shape rather commoner than the balloon puff. And of the leg of mutton there is a distressing variety whose sleeves are close from about two inches above the elbow, but wrinkled mousquetaire like, quite to the wrist. Stopping not even here, they are bell muzzled to the very knuckles, volleying lace wreaths even beyond. Very inconvenient, one would think.

Fancy waists show no signs of becoming flat or stale to the wearers or unprofitable to the sellers. They are made in flowered silks, in huge checks, in gay stripes. The flutter with lace, they fling ribbon banners to the air, they are barred with tiny flounces, they are grotesque with huge lapels. Pretty, too, are the jackets worn over real waists or the brave fronted semblance of them; jackets sharp pointed in front and very short in the back to display wide belts of satin; Zouave, bolero and Eton jackets—called not by these names, since fashion has much ingenuity in devising new ones—are not perhaps as common as once they were, but their inherent fitness for "cunning little women" save them from oblivion.

Shot silk and satin are lovely enough to justify extravagances for their fair sake. A certain rich moire velours shot with gold or silver is winning its way even over the conventional white satin as a bridal costume. But perhaps this is a freak not likely to be followed far, though set by a princess. No princess need wear green tweed with silver buttons and a waistcoat of checked white and black silk, to have its beauty seen with appreciation. Nor need even a duchess set fashions of one of those emerald green velvet caps trimmed with ecru lace in profusion, which are still grateful on chilly evenings.

The picture hat, once again seen in our midst, can be worn only by a fortunate few. Nothing more incongruous can be imagined than a prim-looking woman in a Gainsborough, while on the other hand, such headgear gives to a dashing woman just the needed touch of picturesqueness.

ONE HONEST MAN.

DEAR EDITOR:—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak, shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. I promise you perfect secrecy and as I do not wish to expose myself either, please address simply: P O. Box 388, London, Ont.

Fashion Notes From Abroad.

Lavender is gaining favor every day. The latest shade has a decided bluish tint.

Paradise plumes in white, black and green are the favorite hat garnitures of the hour.

Black evening gowns are in demand. A favorite style shows sleeves and full front of colored lisse.

English toques show large skeleton leaves dyed to suit the general color placed upright at the back.

White muslin of the softest sort is much used in combination with entire deux and edging of black lace. The lining is usually of striped taffeta.

Sleeves for evening wear are almost universally of elbow length. Those designed for the street reach to the wrist, if not to the knuckles.

Odd and novel sleeves are the fancy of the moment. A recently imported ball gown shows a scarf of the tulle tied in a bow at the outside of each arm.

A Weighty Question!

Can durability, style and feather lightness be crowded into summer headwear?

We reply by showing you the result of much study and constant betterment.

Wonderful, the style and comfort tacked together with straw—the quintessence of torrid-day headwear. 25c buys a good "canton" braid. 40c buys a "yeddo"—in fact all our large and stylish stock of Straws are selling at ⅓ value—because we bought them that way.

Soft Felts are much in demand—we have the latest styles and shades—at prices that are right—weight from 1 oz. up. We call them comfort coaxers.

Fairweather & CO.,

PETERBOROUGH, TORONTO, LINDSAY

BELLEVILLE'S DOMINION DAY MILITARY DEMONSTRATION.

Some of the Events Proposed for the First of July in Belleville are as Follows.

Parade through the city of the visiting and local battalions with bands, etc., at 1 p.m., ending at the Agricultural Grounds, at 2 p.m., where the battalions will "march past" and give the general salute. The four bands will play throughout the afternoon.

After the review there will be:

2 bicycle races for men of any battalion in uniform.

2 foot races, one of 100 yards open to men in uniform in drill order, and one quarter of a mile race, open to all.

1 obstacle race, through barrels and over buildings, 100 yards and return.

2 tugs-of-war between battalion or company teams of 8 each.

An ambulance race involving the rescue of wounded men.

An egg and spoon race, mounted and dismounted.

A quoit match.

Throwing heavy and light hammers.

Either a running race of three heats, with a good purse offered, for horses owned in the district, or a base ball match between two representative teams will also be arranged for.

In the event, however, of the Royal Canadian Dragoons being secured from Toronto, several of these events will not be held, as they will prove sufficient attraction in themselves, their skill and prowess being celebrated all over the continent. It is intended also to have a sham fight, the taking of a fort, and fireworks and illuminations in the Agricultural Park in the evening, provided arrangements can be made with the visiting battalions to take part. The 57th will be inspected in Belleville on the 30th.

When a man owns a blooded horse he is always careful of its health. He looks after its diet and is particular that its feeding shall be regular and right. While he is doing this, it is as likely as not that he is himself suffering from some disease or disorder. When the trouble gets so bad that he cannot work, he will begin to give himself the care he gave the horse at the start. Good, pure, rich, red blood is the best insurance against disease of any kind. Almost all diseases come from impure or impoverished blood. Keep the blood pure and strong and *disease can obtain no foothold*. That is the principle upon which Dr. Pierce's Golden Medical Discovery works. It cleanses, purifies and enriches the blood, puts and keeps the whole body *in perfect order*; makes appetite good, digestion strong and assimilation perfect. It brings ruddy, virile health. It builds up solid, wholesome flesh (not fat) when, from any cause, reduced below the healthy standard.

OMEMEE.

(From Our Own Correspondent.)

Crops looking well and farmers hopeful.

Political excitement is running high and ministers of the church have to put forth quite an effort to get their hearers' attention off elections on Sunday.

Our political meetings here have been of the most orderly kind for both parties. Messrs. Geo. McHugh and Thos. Stewart were the speakers at the Reform meeting and got got a splendid hearing and reception. Mr. McHugh's prospects for victory are becoming more bright every day.

Dr. Vrooman, candidate, of Little Britton, and Mr. Patterson, from Port Perry, held a meeting here for the Conservatives, which was largely attended, but Dr. Vrooman being comparatively a stranger in our midst, has no show with McHugh, who is an old and tried business man in this section.

A large number attended the Laurier-Rose meetings on Saturday at Peterborough, and many Conservatives came home with a change of opinion about the coming premier, and are quite undecided, and have about come to the conclusion not to vote for either party, believing things can be no worse for a change, but certainly chances for the better.

There was a large excursion party to day, from the Methodist church, to Rice Lake via. Peterborough.

Emily District Orangemen met last night. The meeting was largely attended, and the majority were in favour of going Peterborough for the coming 12th of July celebration.

CLYDESDALE.

From our own Correspondent.

Miss Lizzie Mahoney and Miss Mary Ann Cleary have come home to Chandos to spend the summer.

Mr. James Trotter has the cellar dug and the material drawn for his new house, and the work will be completed as rapidly as possible.

A large number went down last Sunday to attend the funeral of the late Mr. Tucker, as he was well known and highly respected in this locality.

A recently married young man, who has been working with the Howry Company on the Burnt River, came down a few days ago, a distance of about 35 miles, to see his wife. He rode on horseback all the way, through a pouring rain, and when he arrived his wife had gone away a day's journey to visit her friends.

Billy Peters has had some luck lately as a sportsman. A week or two ago he succeeded in shooting a fine eagle, which measured nearly seven feet from tip to tip of wing. This is a valuable bird, as it is very scarce in this country, and Billy feels very elated over his prize.

The school teacher and a young farmer, with whom he boards, went out one Sunday to make a little call and when they had reached the house it began to rain. The rain did not cease until late in the evening, and then the two stayed all night rather than walk home three miles in the dark. The young farmer thought to escape detection in the morning by taking a short cut through the fields, but was caught and exposed, and got thoroughly wet besides in the long grass.

Mr. John Burnham held a meeting in the school house on Friday afternoon, which was largely attended. He defended the policy of the Government with regard to trade, and also his own and the Government's action on the school question, and asked for the votes of the people, not as a farmer or a lawyer, but as an honest man.

Mr. Hugh Cleary has returned home from Whitney, where he was working on the new railway that is being built. He is a sturdy backwoods farmer, and has cleared a good many acres of rough land, but he could not stand the hard work on the railway.

A Mail Steamer Sank With All On Board

AND OVER 240 PERSONS PERISHED

The Drummond Castle, Bound From Cape Town to London, Struck a Rock and Sank Before Her Boats Could be Lowered — Only Three Survivors.

Brest, France, June 17.—The British steamer Drummond Castle, Captain N. W. Pierce, from Cape Town, for London, collided at midnight with an unknown steamer and sank three minutes later with 144 passengers and 103 officers and crew on board.

Two men were picked up floating on some wreckage by fishermen off Ushant, near which point the steamer went down. It developed, however, that some of the passengers and crew escaped in the boats.

The Drummond Castle belonged to the famous Castle Line of steamships, running between South Africa and London. She was of about 2350 tons register and was last heard of at Las Palmas, Canary Islands, on June 12, Friday last.

Tugs have been sent out from this port to the scene of the disaster in the hope of picking up some survivors.

The fate of the steamer with which the Drummond Castle collided is not known and hopes are expressed that she may be afloat and that some of the passengers and crew of the Castle are on board of her.

The sole survivor at Ushant of the Drummond Castle is a man named MacQuart. Six bodies have already been recovered there. One is that of an officer of the lost steamship and another is that of a girl 6 years old.

Two additional survivors of the sunken steamship are at Isle De Molene.

The cause of the disaster is unknown, but it is believed to have been due to the lights of the unknown steamer having been mis-read or not discerned by the officers of the watch on board the Castle liner.

London, June 17.—The United Press correspondent at Brest telegraphed at 2 o'clock this afternoon that no positive knowledge had been obtained up to that hour regarding the fate of missing passengers and crew of the sunken steamer except that, as before reported, one survivor was at Ushant and two others were at Isle De Molene, and that six bodies had been recovered. The correspondent also stated that a search is being made by steamers in the vicinity of the scene of the disaster in the hope of rescuing other survivors. Incoming vessels which have arrived at Plymouth report that upon entering the Channel on the night of the 16th inst. they encountered rainy weather and a rough sea with a strong wind blowing.

Lloyds have received the following telegram from Ushant: "The Drummond Castle is supposed to have struck the rocks. One man only was saved here. The vessel completely disappeared. The ship's boat was launched."

The following despatch was received this evening by the Castle Steamship Company from the British Consul at Brest:

"The Drumomnd Castle struck the rocks west of Isle De Molene at midnight on the 16th and sank immediately. There was not time to take out the boats. Present information is that one person was saved at Ushant and two other survivors are at Isle De Molene. Their names are not given. A Government tug is carrying on a search."

A despatch from Brest says residents of Isle De Molene state that at midnight on June 16 they heard the cries of persons on board the ill fated steamer, but the suddenness of the disaster prevented any aid being rendered.

The Castle Steamship Company at midnight had received no further news regarding the sinking of the Drummond Castle. The first announcement of the disaster was made in a despatch to the Maritime Prefect of Brest from La Conquet, a fishing village on the mainland.

The Daily News prints the names of some of the passengers on the Drummond Castle, including a number of residents of Johannesburg, Kimberley and Cape Town, who were accompanied by their wives and children.

The News also prints a report of an interview had with Sir Donald Currie, M.P., Chairman of the Castle Steamship Company, in which Sir Donald declared that he had not the slightest idea as to the cause of the disaster. Ushant, he said, was a terrible place, the current in the vicinity of the island being very strong, running irregularly. Captain Pearce, Sir Donald added, had been thirty-three years in the company's service, and was considered a first-rate man.

Among the passengers on the Castle were some of the persons who were connected with the recent troubles in the Transvaal.

Mail advices from Brest state that the Drummond Castle was making the passage for Plymouth to the east of Ushant Island when the accident occurred. A slight haze hung over the water, and the steamer crashed upon the rocks and foundered in three minutes. Two torpedo boats have gone to join in the searches for any who may have survived the disaster. The weather has been good, but there is a haze. It is conjectured that the Drummond Castle was lost while trying to make the always dangerous passage to the east of the Ushant Island.

A telegram was received to night at the Admiralty Office from the commander of the British warship Sybille, which is cruising in the Bay of Biscay, confirming the reports previously received regarding the suddenness of the foundering of the Drummond Castle. The telegram states that the Sybille lowered her boats and did all that it was possible to do to rescue those on board the steamer, but so sudden was the collapse of the vessel that the efforts of the cruiser's men were in vain.

Many friends of persons who were known to have been on board the lost steamer remained at the offices of the Steamship Company until late to-night hoping to learn that there were other survivors of the disaster, and that among them would be found their friends. The meagre telegrams received, however, only tended to confirm the worst reports.

TELLER LEAVES THE CAMP.

He Quits the Republican Ranks Owing to the Adoption of the Slugle Gold Standard.

St. Louis, June 17.—The most striking incidents to-day were not in the convention, although the proceedings were a trifle more animated than yesterday, but in the rooms of the Committee on Resolutions, where Senator Teller declared that he could no longer remain in the Republican ranks after it had been committed to the slugle gold standard. The high personal esteem the members of the committee entertained for Mr. Teller and the heartfelt regret he so plainly showed in being compelled to sever life-long ties, gave to the scene unusual interest. It was evident Mr. Teller took this course as a matter of conscience and principle, and without any other reason. This was fully understood, and it was for this reason his associates exhibited equal marks of friendship and regret. Notwithstanding that this was a family quarrel, in which two factions were arrayed against each other, it was characterized by a genuine interchange of courtesies, which robbed it of all the bitterness which usually accompanies a party schism. Senator Frank Cannon of Utah, a Republican from boyhood, and deeply attached to the principles of the party, exhibited almost equal feeling at the termination of his political affiliations.

When the convention adjourned till to-morrow, instead of taking recess until 8 p.m., as it was expected to do, in order to hear the report of the Committee on Resolutions, which it was stated would be ready by that hour, rumors were circulated in the convention hall that this course had been taken because several States had threatened to bolt because of the financial plank. Investigation failed to disclose any foundation for these rumors. The vote of 545 to 359, by which the convention, at the bidding of the Credential Committee, refused to re-open any contested cases settled by the National Committee, clearly showed that the Ohio leaders had the convention well in hand, even in matters where many of the delegates felt a strong personal interest.

GOING DOWN TO DEATH.

The Strange Affliction Which Has Struck a Colored Family Named Clayton at Preston, N.S.

Halifax, N.S., June 17.—A strange affliction has struck a colored family named Clayton, living at Preston, and death is carrying them off very rapidly. Nobody seems to understand the nature of the ailment. To day Samuel E. Clayton, aged 27, died, after a short illness, following to the other world a brother who committed suicide two weeks ago by cutting his throat. A short time before, the father of the two died from an unknown malady. A brother of the latter, his wife and daughter, also passed away recently within a short time of each other.

The Grand Stand Fell.

Kingston, N.Y., June 17.—During a prize drill contest on Broadway this afternoon by fire companies of the Hudson River Firemen's Association, a grand stand broke down. There were about 500 persons on the stand at the time and they were all piled in a confused mass. Mrs. Sarah Burgess had a leg broken, Garrett Delamatre had an ankle broken, and a boy and a girl were quite badly hurt.

Laflin Hose of Surgerties won the prize of $150 for best drilling, and the Ring Gold Hose of Newburgh secured the prize for best appearance.

A Reservoir Gives Way.

Baker City, Ore., June 17.—The Goodrich reservoir, located 15 miles from this city, collapsed yesterday and a great volume of water rushed down the gulch, wrecking everything in its path. The home of R. French was swept away, and the entire family, consisting of the parents and five children, were drowned. A number of bridges were carried away and considerable damage was done to grain fields. The reservoir was used for mining purposes.

LAURIER IN QUEBEC.

A Grand Demonstration Yesterday at Farnham.

AN ADDRESS AND A PROCESSION

The Situation Sized Up—An Estimate That Mr. Martin Will Have 900 of a Majority in Winnipeg Mr. Tayler McVeity Sticks to His Story.

Sherbrooke, June 17.—Such demonstrations as those with which the Liberal leader was honored to day show that the Eastern Townships are with him heart and soul. Mr Laurier came out from Montreal this morning, accompanied by Madame Laurier, Mr. and Mrs. J. P. B. Casgrain, and halted at Farnham, the principal point in the Bedford District, where he was given a magnificent reception. At Farnham French and English came into contact, both races being represented in the population. By the constant exercise of the spirit of toleration they live harmoniously together, each respecting the conscientious beliefs of the other and each according to his neighbor the full measure of the rights of citizenship. It is a significant circumstance that the largest assemblage of people ever brought together in Farnham composed of the two races united in condemning the criminal appeals to national and religious prejudices which have been indulged in by Sir Charles Tupper and his Ministers. Not only did these patriotic people condemn the course of the Ministers, but they cheered the good-spirited appeal to their common Canadian citizenship so eloquently made by the Liberal chieftain. A great crowd of people met Mr. Laurier upon his arrival, bade him welcome in thunder tones and then organized a procession in his honor. In it were two bands, whose performances evidenced their high musical merits. When the centre of the town was reached the procession halted and the crowd formed a semi-circle about the steps of the municipal buildings, where Mr. J. C. McCorkill, President of the Liberal Association, presented to Mr. Laurier an address of welcome from the Liberals of Missisquoi, Shefford and Brome, the three fine counties that form the Bedford District. Mr. Laurier made a brief acknowledgment.

The meeting was held in the open in the afternoon, and it was a grand affair. About 4000 people were in the crowd, and their enthusiasm was stirred to its utmost depth.

Mr. Fisher, in whom Brome had previous to 1891, an able representative and who was juggled out of his seat in 1891, will most certainly defeat his opponent, Mr. G. G. Foster, if the present indications can be relied on. As in other constituencies the people of Brome are disgusted with the manner in which the affairs of the country have been conducted and demand a change. In Missisquoi Mr. Meigs is a strong candidate, and he has the advantage of fighting a party divided against itself. Some of the influential Conservatives of the riding, and Senator Baker, who, until his recent translation, represented it in the Commons, are no longer working in harmony. Mr. C. A. Parmelee will, it is believed, be the new member for Shefford. The election of Mr. Brodeur in Rouville is assured, and the defeat of Mr. C. C. Cleveland in Richmond and Wolfe is predicted.

THE FIGHT IN MANITOBA.

Mr. Martin's Majority Estimated at 900—Bright Outlook Elsewhere.

Winnipeg, June 17.—Mr. Martin's supporters now count on at least nine hundred majority in his favor on Tuesday next, when Winnipeg will vote against coercion by the Tupper Government. Meetings are being held nightly, and at each Mr. Martin is greeted with the wildest enthusiasm. Advices from all outside constituencies are favorable to the Liberals, and they have now hopes of victory in Provencher and Selkirk, which had formerly been conceded to the Conservatives. In both Alberta and Saskatchewan the success of the Liberal candidates is assured by the fact that independent Conservative candidates will split the vote. In Saskatchewan Hon. Mr. Laurier's chances of election are bright, and in Alberta Mr. Oliver is certain to be returned.

Hon. Mr. Sifton will address the final public meeting called by Hon. Joseph Martin's friends for Friday evening in this city.

At all meetings held in Lisgar Mr. Richardson pledged himself most solemnly to oppose even Mr. Laurier should he attain power and attempt to force coercive legislation on the province.

A Regina despatch says: "The unfairness of the Northwest election law is now becoming fully apparent. In West Regina the enumerators' lists disappeared almost as soon as posted, and the enumerator then refused to post again, or allow the McInnis committee a list, as the law did not compel him. Such is the law. However, the indignation rose to such a pitch that the enumerator finally gave another copy. The law prescribes that the lists be ratified two days before polling. As Sunday intervenes, the question arises whether the time is Saturday morning or Saturday night. Several enumerators profess to be ignorant as to what time it will be decided. One thing is certain, if a steal is made on the lists acute trouble will ensue. When the law does not protect the people's rights, the people will have to make their own protection."

Presbyterians in Glasgow.

Glasgow, June 17.—A Presbyterian convention, the sittings of which will be attended by 60 ministers of that denomination from Canada and the United States, was opened in this city to-day, the members attending service in the cathedral. To-morrow will be taken up by the verification of the delegates' credentials and the Lord Provost's reception.

Fruit Jars.

China Hall has received a full carload, 1440 cases, of fruit jars. Do not buy a jar till you have seen their jars and got their price. Their jars are guaranteed not to crack in filling and will be replaced in case they do. Prices the lowest in town. See the "Beaver" or the "Bees" before buying the ordinary jar.

THE CLOSING DAYS OF THE FIGHT.

On Tuesday three candidates were formally put in the field to contest the representation of West Peterborough—Mr. Richard Hall, Liberal candidate, Mr. James Kendry, Tupper Conservative, and Mr. R. C. Newman, anti-remedialist and protection Conservative. Mr. Newman occupies no doubtful position, his nomination paper is signed overwhelmingly by well-known Conservatives, while it contains the names of only two or three Liberals that have been of late years actively associated with the party. Our Conservative friends are very much afraid of the effects of this split, and they fancy that now they have got a means of preventing discontented Conservatives from going to Mr. Hall, that Mr. Kendry's success is more fully assured. Its a very nice little game but it won't work. Liberals are more than ever united in this contest, and besides are attracting large numbers of Conservatives who can not conscientiously support either of the two Conservative candidates. But we would warn Liberals to be on their guard and stand firm. The Conservatives are desperate in the face of impending defeat and will not hesitate at any trick or subterfuge to improve their shaky chances. Liberals should remember that every Liberal vote given to Mr. Newman is a vote taken from Mr. Hall, who is an honest, upright man, and represents an honest leader, Hon. Mr. Laurier, against whose personal or political record in all the bitter weeks of this bitter campaign not a charge has been laid by the most malignant opponent. Under Laurier we shall have honest and efficient administration—shall have the country governed in the country's interests. We shall have the treasury leeches compelled to loose their hold. We shall have a policy that will make peace, concord and honest government. These results will be reached by voting for Mr. Richard Hall and Hon. Wilfrid Laurier.

For the past few weeks leading members of the Liberal party have spent day and night in the country presenting the issues of the contest clearly before the electors, and with the latter rests the responsibility of the result. The day of talk is practically over and the day of action is at hand. Every Liberal knows what is expected of him—knows what his duty is in this election. He knows that by voting for the Liberal party, he is fighting the battle of the people—the people at large against the monopolist and unduly protected manufacturer. The Liberal party is fighting for fair play as between every class and every creed of the community—fair play to all—each back to bear its own burdan—not to enrich the unduly protected manufacturer at the expense of the workingman and the farmer. Now every Liberal knows his duty, and is expected to do it. His duty is to vote for the Liberal candidate and to induce all others to vote for him. Liberals, don't wait to be drawn to the polls. Go to the polls early, cast your vote for Mr. Hall, and then, figuratively, take off your coat, and go to work to bring less prompt voters to the polls. Remember you are working for retrenchment, for honest methods of government, for lessened taxation and equally distributed taxation, for the peace and harmony of Canadian citizens, for a wider market that will tend to attract capital and aid our national development, for a cessation of corrupt government acts, for honest government, and for the best interests of the country. Remember the crisis the present contest represents—you will have either five years more of hard times, trade depression, corruption, and extravagance, or the opening of a new era of development of our unbounded resources and the conditions that tend to national prosperity and growth. You will have either, under Tupper, a burning creed and race question that will dwarf every thought of our material interests; or you will have, under Laurier, a speedy, permanent settlement that will leave all creeds free to work harmoniously with the common aim of advancing the country's interests. Let every Liberal be at his post from now till June 23rd, and victory will be ours.

BEWARE OF ROORBACKS.

Let every Liberal be on his guard against roorbacks or last minute election lies—they are a favourite device of our Conservative friends' manly mode of warfare. We shall likely hear of extraordinary statements and positions taken by the Liberal candidate. We shall hear of this or that candidate resigning—Mr. Hall has falsely been rumoured out of the field already, and every conceivable invention that the desperate tactics of a desperate party can suggest. But pay no heed to them. The duty of every Liberal is to poll his vote promptly for the candidate of his party, and in that event whatever roorbacks, like their satanic origin, go about as roaring lions seeking whom they may devour, you will have done your duty and helped elect Mr. Hall and Mr. Lang, the followers of the great Liberal leader, Hon. Wilfred Laurier.

THE EVIL OF PAIRING.

Liberals should not allow themselves to be persuaded into pairing votes with anybody for or against anybody in any constituency whatever. It may be all right, but it is better not to do it. It sometimes leads to unforseen and unfortunate consequences. Let every man come out boldly and poll his vote. The greater his trouble in doing it the greater his share of pride in the victory he will have aided in obtaining. No man who has the courage of his convictions should consent to pair his vote on such an occasion as that of next Tuesday; and there is not a Liberal in these ridings who has not the courage of his convictions. Let them each and all aid in rolling up the majorities that are to sweep out of power the party of high taxation, special favours, bogus loyalty and anti-Canadianism.

LIBERAL FAIR PLAY PROGRAMME.

The Liberal Party is the True National Party-

The Liberal Party wants Fair Play to all
Fair Play to the Farmer.
Fair Play to the Mechanic.
Fair Play to the Manufacturer.
Fair Play to the Rich and Poor alike.

BENSPORT.

From Our Own Correspondent.

Mr. Samuel Smithson is visiting Toronto on business in connection with Christ's church, Bailliseboro.

Mr. Robt. Weaver's horses ran away one day last week. They took fright at Master Lou Wedlock's wagon and ran quite a distance before they were stopped. No serious damage was done, except to throw the box off the wagon and break the seat. However, Robert handles them with care now for fear that they may run away again.

Mr. Thomas Armstrong has purchased a new democrat. It is a fine rig and a credit to the manufacturers.

Mr. John Pue has finished cultivating his hoe peas. They are a fine crop and Mr. Pue ought to realize quite a sum when he delivers them in Port Hope this fall.

A very interesting and instructive meeting in the interests of Mr. Hall, the Liberal candidate, was held in the school hall on Thurday evening last. It was well attended and the audience may feel well paid for their evening by the addresses which were given by the different speakers present.

Quite a number of the villagers took in the farmers picnic on Thursday last. They all speak well of the meeting and seem well satisfied with the day's trip.

Statute labour, plowing, summer fallows, picnics and excursions seem to be the order of the day. Not a day passes but what there is a picnic or excursion on the go from somewhere in the vicinity. A person would need to have nothing to do and a purse as long as his arm, and well filled at that, to go to everything just now, but go it while you are young, for when you are old you can't.

A certain gentleman on the south side of the main street is plowing his summer fallow, and if every farmer followed his example they would have cause to be proud of their work. We hope he will try to do better in the future.

A horrible choking accident occurred in the village quite recently. A certain lady was feeding her flock, preparatory to putting them to bed for the night. The largest one, a fine strong fellow in the prime of life, took too large a mouthful and choked, but nothing daunted, the lady seized the axe and with one blow severed his head from his body and when her husband came in from work was dressing the remains for dinner on Sunday. Was it not horrible to contemplate! It was a rooster.

The new wharf at Smithson's Landing is completed and was used for the first time at the Presbyterian excursion last Friday. It is a great convenience and one which will be greatly appreciated by the public.

When a man owns a blooded horse he is always careful of its health. He looks after its diet and is particular that its feeding shall be regular and right. While he is doing this, it is as likely as not that he is himself suffering from some disease or disorder. When the trouble gets so bad that he cannot work, he will begin to give himself the care he gave the horse at the start. Good, pure, rich, red blood is the best insurance against disease of any kind. Almost all diseases come from impure or impoverished blood. Keep the blood pure and strong and disease can obtain no foothold. That is the principle upon which Dr. Pierce's Golden Medical Discovery works. It cleanses, purifies and enriches the blood, puts and keeps the whole body in perfect order; makes appetite good, *digestion* strong and *assimilation* perfect. It brings ruddy, virile health. It builds up solid, wholesome flesh (not fat) when, from any cause, reduced below the healthy standard.

GALWAY.

(From Our Own Correspondent.)

Last Saturday evening while Mr. J. Henderson, son of Mr. J. T. Henderson, was engaged in breaking a jam of logs on the High Falls about a mile below Kinmount, had the sad misfortune to have his left leg broken below the ankle. He was immediately removed to Mr. Dunbar's hotel and placed under the care of Dr. Frost. His father will take him home in a few days. It was a very bad break, the bone was protuding through the skin causing it to bleed quite freely. The young man is braving the sad mishap remarkably well.

Mr. W. J. Ritchie has just erected another magnificent frame barn 50x30 on his adjoining farm which he purchased last fall. The barn is well situated, with good basement stable, and will add much to the appearance and accommodation of their numerous outbuildings. The carpenter work was done by Mr. Chas. McMahon, who apparently takes the lead in this line of work in this section.

Mrs. Sullivan received a telegram that her son, Timothy, died last Tuesday at Rainy River, where he was engaged in the lumber business for several years past. The bereaved mother has the sympathy of the community.

Mrs. Terrence McGee, who has been ill for a period of over two months is improving very slowly.

Mrs. Buckley, who has been unwell all spring, is still keeping very poorly, and as she is advancing to the three score and ten years, the hopes of her recovery are not so bright, although she has always been a very healthy person. It is to be hoped she will succeed in shaking off the disease.

Mr. Carr had a steer killed last week on the I. B. O. Railway. He will undoubtedly look to the company for damages, as the fences along some parts of the line are out of repair.

Do You Tire Quickly?

Fatigue is the natural sequence of labour. If, however, it follows moderate or slight exertion it is the sign and evidence that the nervous system has lost tone and vigor and requires assistance. Suicidal is a resort to stimulants, since these only increase the enervation. Aid cannot be obtained in this way, but through medication, judiciously employed in restoring through the nervous system the digestive function, upon which primarily, health depends. The whole range of medicine fails to produce a preparation possessing in equal degree the tonic and nutritive qualities of Maltine with Coca Wine. By the action of Maltine with Coca Wine upon the nervous system all the important functions of the body are stimulated and increased: the digestive process is performed efficiently and without discomfort, insuring the proper nourishment of the body. Tone takes the place of lassitude; vivacity dissipates depression, forbodings and despondency, and soon the quickening impulses of renewed health are experienced. Maltine with Coca Wine is sold by all druggists.

GENERAL ASSEMBLY.

Dr. Caven's Anti-Coercion Resolution Passed.

AN AMENDMENT WAS VOTED DOWN

Great Improvement Shown in French Evangelization Work—A New Brunswick Case of Strained Relations—Next Meeting in Winnipeg—Sabbath Desecration.

Toronto, June 18.

There seemed to be an implied rebuke to arrogant Churchmen in the message of greeting sent to the Presbyterian Assembly yesterday morning by the Diocesan Synod of Huron. The telegram, which was signed by Bishop Baldwin, conveyed the best wishes of the Synod to their "Presbyterian brethren," and expressed the hope that the churches might be one in their desire to promote the interests of Christ's kingdom. A cordial answer was directed to the Huron Anglicans.

The principal subject of debate during the day was the new Book of Praise, on which for two years a committee of the Assembly has labored. The discussion was carried on from the morning sederunt until late in the afternoon, before the report of the Hymnal Committee was adopted. The draft book of praise was ordered to be published, an amendment to the report providing for the insertion of additional psalms to those already selected. The efforts of a section of the church which wished to have the entire psalter included were fruitless.

The Committee on the Reception of Ministers reported in favor of the petitions made on behalf of the following gentlemen: Rev. Neil Currie, Inverness; Rev. R. S. Hutchison, Rev. D. Campbell, Toronto; Rev. D. A. Hamilton, Orangeville; Rev. Richard Weir, Huron; Mr. N. F. Jansen, licentiate, Rev. G. Vetter, Calgary; Mr. James Stuart, licentiate, Melita. At the instance of the Synod of Manitoba, Mr. George Weir, licentiate, was given authority to work as such. The petition of Peterboro Presbytery, for the licensing of Rev. R. McKnight, was refused, but the Presbytery was empowered to employ him as catechist.

In the discussion of the anti-coercion resolution, presented by Principal Caven and Principal King, and already published in the papers, several important suggestions were made. Dr. Caven, after touching on the Remedial Bill and other phases of the question, said two solutions of the difficulty might be arrived at. The most satisfactory to him would be the teaching of religious subjects after school, which might close at 3 or 3.30; the other was the system adopted in Pennsylvania, where a text book on morals and fundamental Christian doctrines, satisfactory to all parties, was used in the schools. Hearty applause was given the speaker as he presented his views. Rev. Principal King of Manitoba College spoke at length and with effect on the multifarious aspects of the difficulty. His idea was that a solution might be reached by a conference of sober-minded men. Separate schools, as they exist in Ontario and Quebec, he concluded, could never be restored in Manitoba.

An amendment substituting for the resolution an affirmation of the deliverance of the last Assembly on the school question was brought up, but was overwhelmingly defeated, and, after addresses by Rev. Principal Grant and other eloquent speakers, the resolution was carried with enthusiasm.

The report on French evangelization was presented by Rev. S. J. Taylor. Statistics were given, showing a great improvement in the work, due mainly, according to the speakers, to a growing spirit of self-assertion among the French Canadians.

The strained relations between Rev. Mr. Mullin and his congregation, which were made the subject of a reference by St. John Presbytery, were discussed in view of the report of the Judicial Committee, which recommended that Mr. Mullin be relieved of his charge in September, 1897. After the minister had been heard, Dr. Caven moved that the matter be referred back to the Presbytery, with instructions to keep a watchful eye on the affairs of the congregation for a period, and report to the Synod of New Brunswick, with which final action will rest.

and it was arranged that the Assembly next year should convene in St. Andrew's Church in Winnipeg on the second Thursday in June.

Principal Caven presented the report of church life and work. In reference to the clause on Sabbath observance, which deplored the tendency to secularize the Sabbath, he said the chief argument of those who wished to run cars on Sunday was that the people required fresh air and country scenery. This, he said, was not unreasonable, and must not be met simply with hard words. The solution, he thought, was in granting to the towns power to make a Saturday halfholiday. There should be some hour at which stores must imperatively close—6 or 8.30 in the evening, for instance—for purchases made after that hour tended to compel the employes to work after midnight. And Christian people were not blameless in this connection, for many of them made purchases at a late hour on Saturday night.

After the disposal of the report Rev. Murdoch Mackenzie, a missionary who has just returned from Honan, China, gave an interesting address on the work being accomplished under the auspices of the Presbyterian Church of Canada in that land.

The Sabbath school report will be taken up to-day, and every effort will be made to bring the business of the Assembly to a conclusion to-night.

A Blight on Strawberries.

Kingston, June 17.—The exepctations of dealers that the strawberry crop would be a larger one have been disappointed. A blight has appeared on the beds and seems to have attacked the leave: The disease is called "leaf curl." It has done and is doing a great deal of damage. A grower in Prince Edward County said that a week ago he counted on 50,000 boxes of berries, and now does not think he will get more than 30,000 boxes.

DOINGS AT HAMILTON.

An Attempt Being Made to Raise the Episcopal Endowment Fund—A Body Found—Who is Rogers?

Hamilton, June 17.—(Special.)—A meeting of the Executive Committee of the Synod of the Diocese of Niagara was held to-day, with Rev. Canon Sutherland in the chair. Most of the time was occupied in considering the best mode of increasing the Episcopal endowment fund, which was between $4000 and $5000 short of the $75,000 to which it must be raised before the bishop-elect can use the whole income from it.

At an early hour this morning the body of John Pfeiffer, who was drowned in the bay on Sunday, June 7, was recovered near where the drowning occurred. The face was badly decomposed.

The police are looking for a man and woman who boarded with Mrs. Tyson, 37 Stuart-street east, for a week and went away without paying their board. After they had gone $200 was missing. The man was about 35, well dressed and gave his name as Harry Rogers, saying he was the son of Joseph Rogers of Toronto.

The bylaw to provide $35,000 for the establishment of sewage interception works was voted on to-day and passed. The total vote cast was 693, there being a majority of 97 for the bylaw. The ocurt ordered that the sewage nuisance be abated this year, and with the new arrangement the bay will be no longer polluted.

Physicians Commence to Realize the Value of Dodd's Kidney Pills.

Ottawa, June 15—The inveterate reluctance to admit the success of patent medicine, usually evinced by physicians is is rapidly giving way so far as Dodd's Kidney Pills are concerned. The cases of Dr. Rose and Dr. McCormick, who published details of their recovery from diabetes and Bright's disease, through the agency of this remedy, were the first attacks on the citadel of their skepticism and now it appears as if the remarkable recovery of Mr. G. H. Kent, of this city, the details of which have been transmitted to the press, would complete what has been so auspiciously begun. The published interviews with Mr. and Mrs. Kent and the sworn statement of the former leaves no foothold for disbelief.

A HEAVY MORTGAGE.

How a prominent farmer quickly lifted it.

A mortgage has been described as an incentive to industry, a heavy mortgage, as a sure sign of ruin. The last is particularly true, for if a mortgage is allowed to run it will eat up the farm. In this connection Mr. Henry Fowler, of Huron writes: "From my boyhood scrofula had marked me for a victim and it seemed as if it had a life mortgage on my blood. I suffered fearfully with sores, and knowing my condition I have remained a single man. Doctor after doctor prescribed for me, and finally a Toronto specialist told me bluntly that my complaint was a deep-seated, incurable, blood disease. Sarsaparilla I knew was a good blood medicine, and I sent for a bottle of the best. Mr. Todd, the druggist, sent me Scott's Sarsaparilla, and I have stuck to it. It has lifted my mortgage, for to-day I am free from those horrible sores, my eyesight is not blurred, my tongue is not furry, and I have no irritation. I look upon Scott's Sarsaparilla as a marvellous medicine when it will cure a life long disease in so short a time."

Scrofula, pimples, running sores, rheumatism and all diseases generated by poisonous humors in the blood are cured by Scott's Sarsaparilla. The kind that cures. Sold only in concentrated form at $1 per bottle by your druggist. Dose from half to one teaspoonful.

Montreal Live Stock.

Montreal, June 15.—The receipts at the East End Abattoir this morning were 550 head of cattle, 400 calves and 150 sheep and lambs. There was not much enquiry for export, but on local account a fair business was done. Choice beeves brought as high as 3 3-4 cents per lb., live weight, and inferior stock sold all the way down to 2 1-4c. Lambs ranged from $3 to $4 each and sheep 2 cents to 3 1-2 cents per lb., live weight. Calves sold at from $3 to $8.

With Knives and Clubs.

London, Ont., June 15.—Knives and clubs were used with vigor by Albert Boulton and Chrallie Preston yesterday afternoon, and both were severely injured. Boulton had his injuries dressed by a doctor and young Preston went to the City Hospital.

The Pearl of Great Price

To woman is beauty. Beauty, the key that unlocks every door, commands deference, inspires homage. But beauty of face cannot satisfy unless the additional grace, beauty of teeth, adds its charm. Fine teeth, sweet breath, rippling laughter—three graces that always go together. Ivorine imparts dazzling pearly like whiteness, removes discoloration and tartar from the teeth, and renders the breath fragrant as flowers.

A Breakdown.

The new watering cart is a model of the very latest invention, but it requires a lot of study to understand the handling of it, as was evidenced yesterday when a portion of the bottom of the new fangled sprinkler dropped out at the corner of Brock and George streets and the contents of the cart came flowing down George street in a way which led those who witnessed the flood to think that a water main had burst.

THE GREAT "I AM."

When my old friend, Mackenzie B., with traitors was surrounded,
"I" came from England quick to save the colony "I" founded.
"I" found the party needed "I," as oft they had before
To save the National Policy ship from stranding on the shore.
"I" swore that "I," "the great I am," would pass that awful bill,
And when "I'm" speaking in Quebec, by gum, "I" swear it still.
But Greenway is a stubborn cuss, and called "my" bluff so quick,
That now "I'm" bothered some to know just how to do the trick.
Ontario's pledging all "my" boys to vote the other way,
And Manitoba's just as bad in spite of Hudson's Bay;
"I" thought Hugh John would have a snap in Winnipeg with his nose,
But though it's big and like his dad's it's eclipsed by Fighting Joe's.
"I've" promised everything in sight, and out of sight as well,
To keep that Frenchman, Laurier, from tolling our death knell;
But spite of everything "I" do, the "row seems hard to hoe,"
The people say they're on to us, and that we've got to go.
It's a bitter pill to swallow, with just one consolation,
And that is, that "I've" done my best for "I" and my relations
'Tis the same old tale repeated, "I" came back once too often,
And now they say that Laurier is building "I" a coffin.

SEWER CONTRACTS GO TO MR. JAMES BOGUE.

T. M. McFADDEN IS APPOINTED INSPECTOR.

The Levels Will be Given the Contractor at Once and the Work Will Therefore Begin Almost Immediately —The Contract Figures.

At the special meeting of the Town Council, last evening, with the Mayor presiding, the following members were in attendance:—Messrs. Best, White, Phelan, Denne, Mills, Weir, Sawers, Moore, Langford, Graham and White.

PETITIONS

were received and dealt with as follows:—

From Macfarlane Wilson, L. M. Hayes, and 22 others, asking that more attention be paid to the beautifying of Central Park.—Referred to the Property Committee.

From James Stewart and others to have Queen street watered.—Referred to the Street and Bridge Committee.

COMMUNICATIONS

were received and referred as follows:—

From W. A. Shaw and Sydney B. Weir, asking permission to hold a public meeting on the Central Park.—Granted.

From G. W. Ranney, Robt. Smith and David O'Brien applying for the appointment of sewer construction inspector.—Received.

From W. W. Speer, asking for remission of dog tax. Granted on condition that the applicant take the usual declarations.

From L. A. Redner asking permission to erect a refreshment tent on Central Park on July 12th.—Referred to the Property Committee.

From E. B. Stone, solicitor for Wm. Breckenridge, complaining that the contract for the watering of the southern division of the town had been let at a figure in excess of the figures quoted by his client and asking for the matter to be rectified.—Referred to the Street and Bridge Committee.

The Sewerage Committee, through its chairman, Councillor Best, reported as follows:

1. Your committee advertised for tenders for the construction of the sewers in two sections, the first section including the brick sewer on George street from King to Brock, and the pipe sewers on George street from Brock to McDonnel, on Charlotte, Hanover and Simcoe from the creek to George, and on Brock street from the westerly limit of Lot No. 3 to George. The second section included the pipe sewer on King from George to Water, and on Water from King to McDonnel.

2. We received the following tenders for the whole work.

	Section 1,	Section 2	Total.
Jas Bogue	8,379.00	3,151.00	11,530.00
Grant & Co	9,283.00	3,830.00	13,113 00

Moore & McDonald	13,644.00	3,500.00	17,144.00

We also received several tenders for cement and sewer pipe.

3. We recommend that the contract for the whole work, including both sections, be awarded to James Bogue on his signing the contract and giving security satisfactory to the solicitor and to the chairman of this committee.

4. We recommend that so soon as the contract is signed the deposits of the tenderers be returned to them.

BYLAWS.

Councillor Langford introduced the bylaw in connection with the street watering contracts. It received its several readings and was passed. The contracts were awarded to George Henry, Zimri Blodgett and M. O'Donnell.

Councillor Best introduced the bylaw authorising the awarding of the contract for the construction of the sewers as awarded to James Bogue and set forth in the report of the Sewerage Committee.

RESOLUTIONS.

It was moved by Councillors Sawers and Denne, that Mr. T. M. McFadden be appointed sewer inspector for the portion under contract to James Bogue at the same wages as last year.

Councillor Best pointed out that as the appointment of an inspector was a serious matter it should not be jumped at too hastily. He moved in amendment, seconded by Councillor Wm. White, that the appointment be referred to the Sewerage Committee for consideration.

The amendment was lost and Mr. McFadden secured the appointment.

On motion of Councillor Moore and John White a committee composed of the Mayor and Councillor Langford and Best will take such action as they deem necessary to secure a driveway in connection with the Grand Trunk railway bridge, which is to be erected across the river at Auburn.

On motion of Councillors Sawers and Weir, the town engineer will give the levels of the proposed sewers to Contractor Bogue at once.

On motion of Councillor Langford the account of the town engineer will be paid on being certified to by the chairman of the Finance Committee.

SOME JUNE WEDDINGS BEING CELEBRATED.

FOUR CEREMONIES OF INTEREST RECENTLY PERFORMED.

The Favourite Month for Marriage is being Taken Advantage of by a Number of Peterborough Young People.

WARD—KENNEDY.

Yesterday afternoon a most interesting ceremony took place at the residence of Mr. Dawson Kennedy, of Otonabee, when his daughter, Miss Rebecca, was united in marriage to Mr. Robt. A. Ward, of Toronto.

The ceremony was performed by Rev. J. J. Rae, pastor of the Charlotte street Methodist church, and the bride was given away by her father.

The bride was most becomingly costumed in a handsome blue serge travelling suit trimmed with steel coloured garniture. She carried a magnificent bouquet of cream Marechal Neil roses. The bridesmaid was Miss Nina Sherin, of Lakefield, who was prettily dressed in cream and also carried roses. The sweet little maid of honour was Miss Clara Kidd, neice of the bride and daughter of Mr. R. J. Kidd.

The groom was assisted by Mr. Frank B. Mills, of Toronto.

The wedding march was played by Miss Hendren, of Lakefield.

At the conclusion of the ceremony the guests present were invited to partake of most sumptuous wedding breakfast which was served by caterer Watt, of town.

The lavish manner in which cut and potted flowers were distributed in every nook and corner transformed the interior of the house into a fairyland and the aroma was something exquisite.

Amongst the gifts secured by the bride was a handsome silvercrumb tray presented by the Junior Endeavourers of the Charlotte street church, of which society she was the President. The groom is also a well known worker in Y. P. S. C. E. circles. Previous to his removal to Toronto he was principal of the Keene School. His gift to the bride was a most beautiful breast pin of pearls and filigree. The newly married couple will reside in Toronto.

DAVIDSON—MADDEN.

A very pretty wedding took place last evening at the residence of Mrs. Madden No. 263 Stewart street, when her only daughter, Miss Florence May, was united in marriage to Mr. Andrew Davidson.

The house was beautifully decorated with flowers for the occasion and the ceremony was attended with a number of circumstances which invested it with a great deal of interest to those present. The ceremony was performed by Rev. J. J. Rae.

The bride looked most charming in cream crepon, with pearls and chiffon. Her bridesmaid was Miss Emma Kingdon, who was prettily gowned in shot lustre with garniture of silk and jet. Miss Edith Hill was the cute little maid of honour and looked most attractive in white spotted muslin trimmed with valenciennes lace.

The groom was supported by Mr. J. Ernest Parson.

The dejeuner, which was served at the conclusion of the ceremony, was most recherche, and was done ample justice to by those privileged in being present.

Mr. and Mrs. Davidson left on the evening Grand Trunk train on their honeymoon. Upon returning they will take up their residence at No. 263 Stewart street.

WALDREN—PARKER.

The Toronto Star says:—At the residence of Mr. John Mills, Mill and Trinity streets, last evening, the wedding of Miss Louisa Parker, third daughter of Robert Parker, of Guelph, to F. A. Waldren, a young business man of Peterborough, was celebrated. The groomsman was Dr. Chambers of Oakwood and the bride was supported by Miss Lottie Evans.

Mr. Frank Waldren and his bride arrived in Peterborough this morning and have taken up their residence with Mrs. John Ludgate for the present, occupying the entire residence during Mrs. Ludgate's proposed absence from home.

LORD—MANSER.

Yesterday afternoon a wedding took place in Toronto, in which the residents of Peterborough will be interested, being the marriage of Mr. E. E. Lord of the Canadian General Electric Works, to Miss Katie Manser, who spent the winter before last in town.

Mr. Lord is well known in town as one of our fast wheelmen, and that he does not neglect the company's interests was evidenced by the substantial mark of esteem which was presented to him prior to leaving for Toronto.

The wedding trip, it is understood, will embrace a trip to New York, Philadelphia and a number of the American summer resorts.

Mr. and Mrs. Lord on their return will take up their residence in Cox's Terrace on Rubidge street, just north of Charlotte.

MARRIED.

WARD—KENNEDY—In Peterborough, on Wednesday, June 17th, 1896, by the Rev. J. J. Rae, at the residence of the bride's father, Mr. Robert Alexander Ward of Toronto, to Miss Rebecca Linda, daughter of Dawson Kennedy, Esq., of Otonabee.

MONTGOMERY—SHELL—At "Rose Cottage," Dundas, the residence of the bride's father, on Wednesday, June 17th, 1896, by Rev. J. B. Hamilton, M.A., Mr. Dee Montgomery, of Guelph, to Miss Mary Louise, daughter of Mr. Wm. Shell.

Denounces Bicycles.

Rev. Mr. Dadson of Woodstock, recently made indirect reference to the bicycle craze and the extent to which it is being carried. "I have nothing to say against true sport," said Dr. Dadson, "but when I see it run to madness, when every waking and sleeping hour is taken up in planning for the following day's pleasure; when the periodical press reserves special pages for it; when even the Government of nations are letting go their most serious business for it; when it creeps into the parlour, the home and the counting house, it is time to call a halt. I will not specify any particular craze, but if this thing monopolizes your attention it is throwing a veil over the face of God."

If you have impure blood you may take Hood's Sarsaparilla with the utmost confidence that it will do you good.

Who are They.

Last Saturday morning, says the Port Hope Guide, two young men from Peterborough came to town for the day, and intended to go home by the 7.45 local. They were, needless to say, captured by two of the prettiest town in Canada's prettiest daughters, and were led to the upper town, where they lingered until near 8 o'clock, at which time they supposed the train left. What was their dismay when on reaching the business part of the town, the saw the train drawing out towards their beloved home. Run for it was out of the question, so the poor boys had the pleasure of a Sunday's proximity to their love at first sight acquaintance. It must have been their first visit to Port Hope, or they would have been well aware of the charms of Port Hope's freckled beauties.

THE MENZIES SITE FOR A NEW SCHOOL.

RESOLUTION TO LEASE BUILDING AND GROUNDS CARRIED UNANIMOUSLY.

Conditions of the Agreement—Inspector Wherry on the Utility of the Building for School Purposes—Board of Education Approves of the School.

A special meeting of the Board of Education was held on Wednesday evening to decide in reference to the leasing of the property known as the Menzies homestead and grounds, bounded by George, Water and Dublin streets, for the purpose of affording accommodation for the present overflow of scholars in the Public Schools.

The members present were Trustees Hamilton, Bamford, McKee, Hill, Caldwell, Hayes, Edgecombe and Ferguson. Mr. Hamilton presided in the absence of Dr. Burnham.

Chairman Hamilton explained the particular object of the meeting. He stated that the Property Committe of the Town Council had decided to grant them a site on the Central Park for the building of the new Collegiate Institute. A proposition had, however, been made to the Board for the leasing of the Menzies property on advantageous terms, and he had called this meeting specially to discuss the matter.

Mr. Hill read the following proposal to the Board from the attorney of Mr. Sheppard, the owner of the Menzies property:—

To the Chairman and Members of the Board of Education:

GENTLEMEN,—I am acting attorney for Mr. T. H. Sheppard, owner of the Menzies property, and I have full authority to act for him in making out the lease. I am willing to lease the property on the following conditions:

First, that you allow a rent of $400 a year and taxes for a term of five years, with the option of continuing the lease for another five years at the same rent, or at the end of five years you are to have the privilege of purchasing the property, if you so wish it, for the sum of $8,500. You are also permitted to cut large arches between the rooms on the second flat in such a way as would be necessary in order that the rooms might be capable of furnishing satisfactory school rooms. The rent will be expected to be paid quarterly.

The property leased will include the whole lot or lots in connection with this property, and will also include, of course, the kitchen and dwelling at present occupied by the janitor in charge.

It is agreed, also, that the janitor, who is now occupying the building, may be dispossessed at any time.

If these terms are satisfactory will you kindly draw out the lease and forward me the same for signature, which will be completed forthwith, the lease to take effect from the 1st of September next at the opening of the schools.

It is, of course, understood that the grounds will be kept in good condition, and also that the building be kept in a condition something similar to what it is in to-day, except, of course, excluding the damage that may be done to it from ordinary wear and tear.

Yours truly,
WM. IRWIN.

The chairman asked Mr. Wherry, the inspector, to state his views as to the ability of the building for school purposes.

Mr. Wherry expressed himself satisfied with the building and although he could not give a positive statement as to how the changes required could be best effected till after the ensuing examinations. He, however, could assure the Board that the leasing of the Menzie's building would greatly relieve the pressure for accommodation in the south and west ward schools. He could recommend altering the south ward school boundary by taking on both sides of Charlotte street as far as the G. T. R. and the east of George street to the river and as far south as the C. P. R. By this arrangement provision could be made for dividing the extra number from these two boundaries so as to conveniently arrange the rooms.

The Chairman—Are you satisfied that the rooms in the building can be made suitable for school purposes?

Mr. Wherry—Yes. They would, of course, have to be remodelled to some extent by removing partitions and making other alterations. Four good rooms can be made, each of which would comfortably seat about 40 scholars.

After some further discussion among the trustees, the following motion was submitted:

Moved by Mr. Hill, seconded by Mr. Ferguson, that the offer of Mr. Sheppard, made through Mr. W. Irwin, to lease to this Board the Menzies property at a rental of $400 per annum and taxes, and on the other terms in the offer mentioned, be accepted; and that the offer be referred to the Property Committee with power to act, and that the lease be drawn by the Board's solicitor, according to the terms of the offer.—Carried unanimously.

Mr. Wherry, the Inspector, stated that he had ascertained that some children were not attending school on account of their parents not being able to purchase the necessary books. He had asked the truant officer to see some of these parents and he reported that they are not able to buy books. He suggested that the Board might purchase the books in these isolated cases.

The matter was left in the Inspector's hands.

The Board then adjourned.

Purely Vegetable.

First the bud, then the blossom, then the perfect fruit. These are the several stages of some of the most important ingredients composing the painless and sure corn cure—Putnam's Painless Corn Extractor. The juices of plants greatly concentrated and purified, gums and balsams in harmonious union, all combined give the grand results. Putnam's Extractor makes no sore spot, does not lay a man up for a week, but goes on quietly doing its work until a perfect cure results. Beware of acid substitutes.

To Tired Ladies.

When you are exhausted and feel played out take a glass of Calcutt's Porter; it will freshen you up and make work a pleasure. Should be used by everybody during house cleaning. tf

TUPPER-KENDRY PROMISES.

Mr. Kendry advocates an alien labour law to exclude American workingmen. But Mr. Kendry can't pass such a law himself, and the government he supports had a chance to enact such a statute in 1890. Mr. Geo. Taylor, government whip, introduced such a law but the government smothered it and it never saw the light again. If the government had been in earnest it could have passed such a law and the Canadian workman and labourer could have had six years of the protection supplied by such a law. Protection to Canadian labour is not a plank in the government platform. At Windsor, on the boundary line, where the evil and injustice of the United States alien labour law are most felt, Sir Charles Tupper very gingerly referred to the subject. He said that if the United States persisted in its exclusion of Canadians that it would be worth while for Canadians to consider the advisability of doing something. This doesn't show a very great deal of interest in Canadian workingmen, when we reflect that Sir Charles Tupper is noted for promising things he never performs. Eighteen years ago Tupper promised the Trent Valley Canal, and it is not finished—only patches here and there. At the same rate an alien labour law will passed about 20 years from this. The people don't believe in Tupper promises and Kendry promises, as to an alien labour law with no government support at his back, will be about as worthless. The workingman should support the Liberal party, whose policy is equal justice to all classes, equal burden of taxes, equal treatment of all creeds and classes.

THE ONTARIO BANK.

In another part of this issue of the EXAMINER will be found the report of the thirty-ninth annual meeting of the shareholders of the Ontario Bank. The report on the whole is very satisfactory, and was favourably received by the shareholders, as indicating that this institution has a prosperous and progressive future. The report shows that the reserve is in a very good shape, being an excellent relation to the obligations. All bad and doubtful debts have been eliminated. It is a pleasure to note that the indications point to a prosperous future. The new general manager, Mr. McGill, has shown himself a man of resource and courage, under whose careful and capable management the future of the Ontario Bank as one of prosperity and progress is assured.

IT is time for a change.

FINE weather for the Tupper demonstration. Sir Charles, who created Canada, ordered the weather.

"THE Old Flag and the Old Policy." The old flag is all right, but the old policy is very much shop worn.

THE policy of the Liberal party is to reduce the duties upon imports from Great Britain. The Tories propose a continuance of the policy which leaves 23 per cent. duties upon British goods and admits American products at an average rate of 10 or 12 per cent.

AT the general election of 1891, and before any by-elections were held, the standing of the parties in the Dominion was as follows:

	Con.	Lib.
Ontario	48	44
Quebec	30	35
Nova Scotia	16	5
New Brunswick	13	3
Prince Edward Island	2	4
Manitoba	4	1
Northwest Territories	4	..
British Columbia	5	..
Total	122	92

Conservative majority, 30.

A large amount of election nonsense is being distributed from Tupper platforms as to who pays the tariff duty. Who pays the $37,000,000 which the Government annually spends? It does not grow. The Tuppers do not pay it. Let every man who sits with three children at his table remember that in some way or other, over and above his municipal taxes, his share of that payment is $37. A month's wages of the ordinary workingman. You are paying the piper and Tupper & Co. dance.

FOURTEEN years ago Sir Charles Tupper came to Peterborough and discovered the Trent Valley Canal. He then promised its completion. Will some good Conservative tell us how many miles have been constructed since that time? It will be urged to account for the slow work on the canal that that was only a Tupper promise. We shall doubtless have more Tupper promises to-night, to be followed by a similar Tupper fulfilment.

SIR CHARLES TUPPER, with five clear days to work upon, has already promised in the way of bribing the electors, enough money to swell the national debt to two hundred and seventy million dollars. He has promised thirteen and a half millions for railway subsidies alone. Is the present a time when the electors should be influenced to vote for a policy of reckless extravagance, when both the country and the citizens have the greatest trouble to make ends meet.

BUSINESS men look with a friendly eye upon occasions like the Laurier demonstration of Saturday and the Tupper demonstration of to-day. They attract large numbers of persons to town, and stimulate business. In the eighteenth year of the National Policy business men hail with delight the most ordinary assistance to a stimulus to trade, which is at present at a low ebb. The merchants of Peterborough will get more benefit from a Tupper demonstration of a few hours than they have received from eighteen years of a Tupper trade policy.

SIR CHARLES TUPPER is magnaminous. Though he claims to have founded Confederation, and done everything great that has been done in Canada, yet he unloads the Onderdonk robbery, by which the country lost a million and a quarter of dollars, upon Sir John Macdonald. All that is good, or rather that he makes appear good, Sir Charles claims credit for; what is bad he tries to unload on the memory of a dead man, who, with all his political faults was worth a thousand Tuppers. Sir Charles Tupper was the sole responsible perpetrator of the Onderdonk robbery, and he has lost none of his evil facility in wasting the public funds.

Drop in Beef

In the Cattle Markets, to be Followed by a Corresponding Drop at
KENNEDY'S MEAT MARKET.
In sympathy with the falling prices in the Cattle Markets all over, Beef Cattle to-day are selling for fully 30 per cent. less than the prices of six weeks ago. As my policy will always be TO SELL AS I BUY, I commenced ON SATURDAY, JUNE 13th, to give my customers, as well as the general public, a corresponding 30 per cent. Reduction in the price of Cut Beef. For example:—
Best Porter House and Rib Roasts, former price 12½c, reduced to..... 9c
This reduction in price does not mean any reduction in the quality. I am pledged to supply my customers with Prime Beef no matter how the cattle market may fall or rise, and I am bound to stand by my pledge.
The above substantial reduction will continue so long as the present prices for cattle remain. As I have unequalled facilities for keeping and preserving my beef in first-class condition in my large and newly improved Cooling Rooms, buyers will be consulting their own interests by availing themselves of these very special advantages. Adequate provision will be made for attending to a large crowd on Saturday.
WE SELL AS WE BUY.

The full intensity of living is reached only by the perfectly healthy. Sickness discounts the capacity for enjoyment. When a piano is badly out of tune, the noises that come from it are certainly not musical. They are not beautiful. If it is only a little bit out of tune, you can play some few things on it. You can create a semblance of music, but you cannot make really beautiful, satisfying, soul-stirring music, unless every string is tense and firm, unless every piece of the whole instrument is in perfect tune, in perfect condition, in perfect harmony with every other piece.

It is the same with a human being. If his body is all out of order and run-down, he will not be able to enjoy anything, no matter how full of enjoyment it may be for other people. If he is just a little bit out of order, if he "is not sick, but doesn't feel just right" he will only be able to enjoy things in a half-hearted sort of way. The nearer he is to being perfectly well, the nearer will his capacity for enjoyment be perfect. To really live, and to take his part in the work and pleasure of the world, his body must be in perfect condition. If this condition doesn't exist, something is wrong and something ought to be done. That something nine cases in ten means the use of Dr. Pierce's Golden Medical Discovery. It works directly on the digestive organs, and on the blood and through these on every tissue of the whole body. It makes the appetite good, the digestion perfect and nutrition rapid and easy. It supplies rich, red blood to all the tissues and builds up solid, healthful flesh. It brings perfect health and restores vigorous, springy vitality. It makes every function in life a pleasure instead of a drag. It is an invigorating tonic as well as the greatest blood-purifier of the age. You can get it at any drug store. If you care to know more about it, and about your own physical make-up, send 31 one-cent stamps to cover cost of customs and mailing *only* and receive *absolutely free* a copy of Dr. Pierce's celebrated book, "Common Sense Medical Adviser"—1008 pages, profusely illustrated. AGNEW MURDER CASE.

The Mearney Brothers Placed on Trial at Lindsay—A True Bill Returned.

Lindsay, Ont., June 17.—The Spring Assizes for the county of Victoria were opened last evening after the arrival of the presiding judge, Hon. Mr. Justice Street, from Ottawa, where he had been holding the weekly court. Beyond empaneling the grand jury and calling the long list of petty jurors, no business was done. His Lordship, however, charged the grand jury very fully and clearly as to the two criminal cases of the Queen v. John Kearney and the Queen v. Patrick Kearney, who were committed for trial by the Police Magistrate about three months ago for the murder of James Agnew, a retired farmer residing at Lindsay.

James Agnew was on the night of the 17th of March last found by his wife lying dead on the ground at the door of his stable. He had been shot through the head and killed instantly; the revolver bullet which was found in his brain entering just behind the left ear of the unfortunate old man, crushing its way through the base of the brain in an upward direction, and lodged behind the right ear, where it was found by the surgeons during their post-mortem examination. In its passage the bullet had severed the spinal cord and a large artery, causing instant death. The old man's watch was gone, and his empty purse and pocket-book and a lot of his private papers were found beside the body or scattered about in the stable and outside on the ground.

On the following day the prisoners were arrested, and after a lengthy hearing before the Police Magistrate were sent up for trial. The evidence before the magistrate showed that John Kearney had a revolver with him on the night of the murder near Mr. Agnew's house, that he had fired it off twice that evening, and that the bullet which was found in the brain of deceased was a bullet which could have been fired from the prisoner's revolver.

The watch of the murdered man was also traced to the prisoners' possession. Both the revolver and the watch were on the morning of the 18th, the day following the murder, handed by John Kearney to his brother, Patrick Kearney, after the brother heard of the murder, and were concealed by Patrick in the cellar of the house occupied by the prisoners' father in Lindsay, where they were afterwards discovered by the police officers. A pair of overshoes worn by John Kearney on the night of the murder were found at the farm-house of Henry Logie, where he had been working up to that day. These overshoes were found to fit in and correspond with fresh foot-prints in the snow around the house and stable of the deceased James Agnew. The prisoner, John Kearney, who had previously carried a small silver watch of his own, gave, it is said, a false account of how he came by the watch which was identified as the deceased's. His own watch was afterwards found in a field near the Logie house, where he had worked as a farm hand. It was upon these and other facts and circumstances connected with the tragedy and implicating the two brothers that they were committed for trial.

Intense interest is taken in the cases, which will probably occupy the most of this week. The grand jury to-day found a true bill against John Kearney as the principal in the murder and a true bill against Patrick Kearney as an accessory after the fact to the murder.

A true bill was also found against Patrick Kearney as the receiver of stolen goods.

The prisoners were arraigned and pleaded not guilty. The trials were fixed for to-morrow morning. John King, Q.C., who has charge of the Crown business, will prosecute. Messrs. John A. Barron, Q.C., and his partner, William Steers, will defend the prisoners.

ITS FAME SPREADING.

A New Remedy in General Use in Manitoba and the Northwest.

WINNIPEG, June 1.—The effects of the regular wave of sickness which sweeps over this portion of the Dominion in the spring, are noticeable in the increasing amount of the druggists' sales. There has been quite a run on the kidney remedy now so well known under the name of Dodd's Kidney Pills. The recovery from Bright's disease of Mr. Arthur Coley, of Somerset, through their use, an account of which appeared in the papers, gave a considerable impetus to the sale, and the remedy has become indispensable in many Manitoba households, its fame having penetrated into the remotest parts of the province and Northwest Territories.

THE MARKETS.

Flour—Trade quiet and prices unchanged. Straight rollers are quoted at $3.25 to $3.35 Toronto freight.

Bran—The market is dull, with cars unchanged at $9.25 west and shorts $10 to $11.

Wheat—The market is dull and the feeling unsettled. Liverpool cables are again lower. White wheat is dull at 67c outside and red at 66c west. There were sales of No. 1 Manitoba hard at 69c afloat Fort William and of No. 2 at 68c. No. 1 hard is quoted at 69c Midland.

Barley—Trade dull, there being no demand. No. 2 is quoted at 31c to 32c, and No. 3 extra at 29c to 30c.

Oats—The market is quiet and prices unchanged. White sold at 20c outside and mixed are quoted at 19c outside.

Peas—The market is quiet and prices steady. The quotations are 45c to 46c north and west.

Buckwheat—The market is quiet, with no business reported, and quotations are about 33c outside.

Oatmeal—Business quiet, with prices nominal at $2.65 on track.

Corn—The market is dull and prices unchanged. Yellow is quoted at 28½c to 29c outside.

That hacking, persistent cough can be quickly cured by using Dr. Wood's Norway Pine Syrup. It cures all throat and and lung troubles.

Measuring the Wind.

A novelty in modern scientific research by means of which the velocity of the wind may be measured by the sound it produces in a wire has been called to the attention of the National Academy of Science by Prof. Barnes. He asserts that the whistling of the wind as it crosses a wire varies with the velocity, and that this can be computed from the pitch of the note observed for a given diameter of wire and given air temperature. A microphone attachment can be made to convey the sound isolated from other noises to the observer at a distance. Thus every gust and variation of the wind can be studied and an idea of the actual direction of the gust can be had by means of the sounds obtained from three wires placed at right angles to each other.—Detroit Free Press.

Some people are constantly troubled with pimples and boils, especially about the face and neck. The best remedy is a thorough course of Ayer's Sarsaparilla, which expels all humors through the proper channels, and so makes the skin become soft, healthy and fair.

Mr. G. R. Blount, Methodist minister, Dresden, Ont., says:—"After a prolonged attack of la grippe, I was very nervous and weak, and troubled with severe pains. I took one box of Miller's Compound Iron Pills and am perfectly well now." Sold in Peterborough by Wm. Madill, druggist.

TO THE MARK.

In all diseases that affect humanity there is some weak link in the chain of health, some spot that is the seat of the trouble. It may be the liver, it may be the stomach; perhaps it is the bowels or the kidneys; most likely it is the blood. Burdock Blood Bitters goes straight to that spot, strengthens the weak link in the chain, removes the cause of the disease, and restores health, because it acts with cleansing force and curative power upon the stomach, liver, kidneys, bowels and blood.

With good red blood health is assured, without it disease is certain to come and Burdock

AN UNPARDONABLE OFFENSE.

That of the Woman Who Disregards Her "At Home" Day.

The institution of an "at home" day should be regarded in the light of the passing of a new law under the dynasty of the Medes and Persians—once started it must be observed. The individual who puts a certain day on her cards, and then goes out, regardless of possible callers, is not only guilty of a breach of social etiquette, but she is likely to see her social popularity wane. If an "at home" day exists, it must stand before even the most tempting engagements. Nothing but illness, mourning, or absence from home can excuse a hostess from not receiving on her "at home" day.

Nowadays, when the number of busy women is far outweighing that of the idle in all ranks of life, these special days set apart are an actual boon to those who would otherwise be almost unable to carry out any social intercourse with their acquaintances. Women who are artists, musicians, actresses, journalists or engaged in a hundred busy interests, political, philanthropical or professional, have no time to spare for making perpetual calls, and still less for receiving them. They can set apart one afternoon in the month, perhaps, or, at most, two, for receiving their friends, and the relaxation of the time taken from their crowding occupations to chat with coming and going friends is an actual boon. In certain provincial towns, known as the habitat of retired service people, it is difficult to know how life would support itself without "at home" days.

It is not necessary to provide any amusement for a settled "day." Not being an affair of invitation, the hostess is not responsible for the entertainment of the guests. They merely call with the certainty that she will be at home, and they remain for ten minutes to an hour in the drawing room, according to the extent of their intimacy.

The wives of professional men, whose special line obliges them to mix with people in different social grades, are sometimes a little puzzled how to manage with a "day." A doctor's wife, for instance, who must visit her husband's patients, even if they are not exactly in her own set, perhaps hesitates about starting an "at home" day, from a feeling that people may be likely to meet in the drawing room who may not care to know each other. Of course, this idea is more an apprehension than anything else. People used to society have no morbid fear of losing caste by finding themselves in the same room with people not in their set, and they are aware that such a meeting entails no social consequences of after acquaintance. But to save the hostess' own feelings on the subject is very easy. She need not mention her day, nor have it on the cards she leaves on such of the patients as may not socially be in her own set.

Gentlemen take their hats and sticks with them into the drawing room on an ordinary "at home" day, as they would do on any morning call, not leaving them in the hall, as if it were an invitation "at home." When tea comes, they naturally rise and pass it, waiting on all the ladies present. On arriving at the house the caller should always ask whether the hostess is at home, for, although the intimation *on the card would lead one* to expect it, the conventional formula is only dispensed with when she comes to the house by special invitation. Some hostesses are so gifted with social talents that they can make even their routine "days" delightful to all their callers, and are certain to have their rooms full, even though the "day" comes once a week.

Others, on the contrary, never achieve this crown of popularity; callers come as rarely as courtesy allows, and stay as short a time as they can. A hostess who finds her acquaintances rarely patronizing her days, and showing scant desire to prolong their stay, should take the hint, and either fix the day at more extended intervals, or exert herself to make it more interesting to her acquaintances.—Chicago Inter-Ocean.

ONE HONEST MAN

DEAR EDITOR:—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak, shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness, I promise you perfect secrecy and as I do not wish to expose myself either, please address, simply: P.O. Uses for Rhubarb.

Every housewife who is fond of either rhubarb or oranges should make a few pots of the delicious jam that combines them both. Wipe the rhubarb until clean and dry, and cut it into fine pieces without peeling; peel half a dozen oranges, cut away all the white under the skin, take out the seeds and divide the oranges into quarters. Open each carpel that holds the pulp, and take that out, being careful to save all the juice. Put the rhubarb, orange pulp and juice with a pound and a half of granulated sugar, stir until the sugar is melted, then cook slowly until a fine mass. When it begins to thicken cool a little in a saucer. Put away in tumblers, and cover with waxed or oiled paper. A very good jam of the rhubarb is also made without the oranges. Use one pound of sugar to each pound of the fruit, and flavor each pound with the grated rind of half a large lemon. Stir and skim frequently while cooking.

An appetizing dessert is made from rhubarb by cooking it with gelatine. Wash a pound of rhubarb, wash it and cut it into very small pieces. Sweeten while cooking with eight ounces of sugar. When the rhubarb is tender, stir into it one-fourth of a cupful of cold water. Whip the mixture well with an egg-beater and turn into a mold. When cold serve with a yellow custard sauce or without one, as you prefer.

TWENTY MILLIONS!

THE ENORMOUS SUM THE WORLD'S FAIR OF 1900 WILL COST.

Still the Versatile Frenchmen Will Raise It and More—Clever Jugglers With Financial Problems The Wonderful Resources of the Gaul.

In spite of the opposition of the provinces, and a certain amount of protest from Paris on the score of the defacement of the Champs Elysees, the French exposition of 1900 will certainly be held. The Government of the republic will contribute $5,000,000, which has already been voted, and the City of Paris is not likely to give less than $3,000,000. But, as the exposition is to cost $20,000,000, another $12,000,000 will still have to be provided. It is not the custom in France to wait for the returns of gate money to make up the deficiency remaining after payment of the subventions. The exposition of 1889 was paid for, and there was money in hand for the cost of administration, before the gates were opened. This was done by a very ingenious scheme of issuing bonds for 25 francs each, each of which bore twenty-five coupons which were receivable as admission tickets. The extreme period of payment for the bonds was seventy-five years, but, beginning with the exposition year, there were to be eighty-one drawings of the numbers of the bonds to be paid off, and the first two or three numbers drawn were to be entitled to lottery prizes. The holder of each bond thus acquired a lottery ticket, twenty-five admission tickets, and the certainty of getting his money back, without interest, within a time which might be anywhere between a few months and seventy-five years.

The scheme was a brilliant success, and had this, among other unexpected results, of giving the public the benefit of a considerable reduction in the price of admission. The amount paid to the exposition by the syndicate of bankers who took the bonds, after providing a sinking fund, for their gradual redemption, was $4,000,000, which added to the receipts from concessions and privileges, the returns from the sale of old materials, and the amount contributed by the state and the City of Paris, brought the total revenues of the exposition up to very nearly $10,000,000. As the exposition cost less than $8,500,000 there was a surplus of about $1,500,000 to be divided in the ratio of their contributions between the state and the City of Paris. The problem of 1900 is a more difficult one. It is not a question of getting $5,000,000, but of raising twice that amount on the pledge of entrance tickets. Profiting by the example of Chicago, which collected nearly ten times as much from concessions and privileges as Paris did in 1889, it is probable that the managers of the show of 1900 will extract a great deal more than $400,000—the amount reported by their predecessors—from that source. But, even if it were $2,000,000, there would still remain $10,000,000 to be raised mainly on admissions. It will be found a good deal easier to double the size and cost of the exposition than to double the number of its visitors.

The indirect gains of the enterprise are less open to question. The provinces argue from experience that it will draw a great deal of money from them, even as the states of the central West found the Columbian exposition a severe drain on their current cash. But the exposition of 1889 brought the Government an increase of $5,000,000 in receipts from customs and other taxes, while in the increase of octroi duties the City of Paris received $1,500,000. In the half-year in which the exposition was open the six great railroads leading into Paris had an increase of passenger traffic amounting to $9,000,000, due solely to the attraction of the show. Of the 60,000 exhibitors it was estimated that each spent on his exhibit an average of $600, making a total of 36,000,000, mostly spent in France. Then there was, during the whole 180 days of the exposition, an average addition of 200,000 persons to the population of the City of Paris. If each of these spent, on an average, for board, lodging and cab hire, $6 a day, there was, taking no account of the cost of their amusements and the purchases they made, a total of $216,000,000, which would not otherwise have been expended in the French capital. It is hardly to be wondered at that the arguments in favor of the exposition have proved stronger than those against it.—Boston Herald.

ABOUT THE LIVER.

A lazy, slow or torpid liver influences the whole system, causing biliousness, sick headache, sallow complexion, languor and dullness. Burdock Blood Bitters regulates the liver, purifies the secretions and cures all forms of liver troubles. We say so and here is the proof:—

I hereby wish to thank you for the great benefit derived by me from your Burdock Blood Bitters. For three years I was troubled with liver complaint and tried everything to no purpose. I had almost given up hope until one day I determined to try Burdock Blood Bitters. I can say now that marked improvement resulted from the use of the first bottle and at the end of the sixth bottle I discontinued its use, being completely cured.

scrofula

Any doctor will tell you that Professor Hare, of Jefferson Medical College, Philadelphia, is one of the highest authorities in the world on the action of drugs. In his last work, speaking of the treatment of scrofula, he says:

"It is hardly necessary to state that cod-liver oil is the best remedy of all. The oil should be given in emulsion, so prepared as to be palatable."

He also says that the hypophosphites should be combined with the oil.

Scott's Emulsion of cod-liver oil, with hypophosphites, is precisely such a preparation.

A Weighty Question!

Can durability, style and feather lightness be crowded into summer headwear?

We reply by showing you the result of much study and constant betterment.

Wonderful, the style and comfort tacked together with straw—the quintessence of torrid-day headwear. 25c buys a good "canton" braid. 40c buys a "yeddo"—in fact all our large and stylish stock of Straws are selling at ⅓ value—because we bought them that way.

Soft Felts are much in demand—we have the latest styles and shades—at prices that are right—weight from 1 oz. up. We call them comfort coaxers.

THE ONTARIO BANK.

THIRTY-NINTH ANNUAL MEETING OF SHAREHOLDERS.

Report of the Directors—The Proposed Reduction of Capital Approved by the Shareholders—The Necessary By-law Passed by the Meeting—Election of Officers.

The annual meeting of the Shareholders of the Ontario Bank was held at the Banking house, Toronto, on Tuesday, 16th June, 1896.

Among those present were:—Col. Sir C. S. Gzowski, A. D. C., K. C. M. G., G. R. R. Cockburn, M. P., Donald MacKay, D. Ullyott (Peterborough), W. R. Miller, (Montreal), W. Moat (Montreal), Hon. J.C. Aikins, J. K. Macdonald, G. M. Rose, A.S. Irving, James G. Whyte (Ottawa), Nicholas Maughan, Louis Pinhey (Ottawa), R. D. Perry, A. E. Ames, Dr. James Browne, W. V. Richardson (Pickering), John Hallam, A. Harvey, F. M. Purdy, C. S. Gzowski, jr., K. G. Fitzgerald, F. B. Polson, Thos. E. Fraser and others.

On motion, G. R. R. Cockburn was called to the chair, and Mr. McGill was requested to act as secretary.

Messrs. J. K. Macdonald, W. R. Miller, and C. S. Gzowski, jr., were appointed scrutineers

At the request of the Chairman, the Secretary read the following report:—

The Directors beg to present to the Shareholders the 39th annual report, for the year ending 31st May, 1896, together with the usual statement of assets and liabilities:—

The net profits, after deducting all expenses, interest accrued upon deposits, and making provision for all bad and doubtful debts, were	$77,180 03
Profit and loss (brought forward from 31st May, 1895)	10,843 32
	$88,023 35

Which have been appropriated as follows:

Dividend, 2½ per cent. on $1,500,000, paid 1st Dec., 1895	$37,500 00
Reserved for Dividend, 2½ per cent. on $1,000,000	25,000 00
Added to Rest Account	10,000 00
	$72,500 00
Balance of profits carried forward	$15,523 35

The sum of $500,000 has been charged to a special Profit and Loss Account, and applied in writing off all bad and making provision for doubtful debts, and the General Statement for the year ending 31st May, 1896, is based on the assumption that the bylaw to be submitted reducing the capital of the bank by $500,000 will be passed.

Shortly after the last annual meeting Mr. Holland retired from the Bank's service, and on the 1st of July last Mr. Charles McGill became the General Manager of the Bank. After a careful examination of the Bank's affairs, Mr. McGill advised the reduction of the capital stock to $1,000,000, believing such reduction to be necessary in the interests of the Bank, and to be amply sufficient to meet all bad and doubtful debts.

After careful consideration with the largest Shareholders in Montreal and Toronto, the Directors determined to ask the Shareholders to pass a by-law, which will be submitted to you at the annual meeting, and which provides that the capital shall be so reduced to $1,000,000, and divided into 10,000 shares of $100 each, and that for every three shares of the existing stock held by any shareholder, he shall be entitled to two shares of $100 each.

The Rest Account has been increased to $50,000, and the Profit and Loss Account to $15,523.35, while the sum of $25,000 has been set aside to pay a dividend on the reduced capital.

The approval of the by-law by the Treasury Board of the Dominion cannot well be obtained before the 15th of next August, and the dividend will be paid, under the terms of the Bank Act, one month thereafter.

The Head Office and all the Branches have been inspected during the year.

All of which is respectfully submitted.

GEORGE R. R. COCKBURN,
President.

C. McGILL,
General Manager.

Ontario Bank,
Toronto, 30th May, 1896.

After a few remarks by the President, and explanations by the General manager, the report was adopted.

The following bylaw was then passed:—

Whereas, by an Act of the Parliament of Canada, passed in the 45th year of the reign of her Majesty, and chaptered 57, the Capital Stock of the Bank was fixed at $1,5000,000, divided into 15,000 fully paid shares of $100 each.

And, whereas, at the annual general meeting, held on the 16th day of June, 1896, the Shareholders present, representing a majority in value of all the shares issued by the Bank, deem it expedient to reduce the said Capital Stock to $1,000,000, divided into 10,000 shares of $100 each, and approved of this bylaw for that purpose.

It is therefore enacted as follows:

The Capital Stock of the Bank is hereby reduced to $1,000,000, divided into 10,000 shares of $100 each, and such reduction shall be effected by cancelling paid-up capital to the extent of $33.33 per share, so that for every three shares of the existing stock held by any Shareholder he shall be entitled to two shares of $100 each, and so that any holder of shares less than three in number shall be entitled hereafter to shares reduced in value in the above proportion.

This bylaw shall take effect when approved by the Treasury Board, pursuant to the provisions of the Bank Act.

The Scrutineers appointed at the meeting subsequently reported that the following gentlemen were duly elected Directors for the ensuing year, viz: Messrs. G. R. Cockburn, M.P., Donald MacKay, G. M. Rose, A. S. Irving, R. D. Perry, D. Ullyot, and Hon. J. C. Aikins.

The new Board met the same afternoon, when Mr. G. R. R. Cockburn, M.P., was elected President, and Mr. Donald MacKay Vice-President.

C. McGILL,
General Manager.

ENNISMORE.

On Wednesday, of last week, the residence of Mr. P. Cadigan, of lot 15, con. 10, of Ennismore, was completely destroyed by fire. The building was of cedar logs, framed and was uninsured. Mr. Cadigan is deeply grateful to his neighbours for the kindness extended to him in his trouble.

TWEED TOPICS.

Mrs. James Davenport Makes a Statement for the Benefit of Others.

Mrs. Davenport is well-known in Tweed, and this is how she spoke to our representative concerning Doan's Kidney Pills. Said Mrs. Davenport:—

"I have suffered for some years from dizziness, puffing under the eyes, pains in the side and back, sleeplessness, poor appetite, and, in fact, was in a bad state generally.

"I took two boxes of Doan's Kidney Pills which I got at P. K. Newton's drugstore, and experienced immediate relief from their use.

"I am now very much better indeed; appetite improved, pain almost disappeared and I feel stronger and healthier in every particular.

"I can heartily recommend them to all sufferers from kidney trouble."

THAT AWFUL WRECK

Survivors Tell of the Loss of the Drummond Castle.

TWENTY-FIVE BODIES WASHED UP

A Drizzling Rain Prevailed and it Was Very Hazy—A Young American Among the Lost—The Captain Got Into the Wrong Channel.

London, June 18.—A despatch received from Ushant Lighthouse at 1.30 p.m. says that the man Marquardt, who was saved from the wreck of the steamer Drummond Castle and picked up at Ushant, states that there was no time to launch boats after the ship struck. This being the case, he thinks that there is little hope of finding any survivors, except himself and the two sailors who were picked up at Ile de Molene, at which place 25 bodies have been washed ashore.

It is learned that among the first-class passengers on board the Drummond Castle was a young American named Hughes, who boarded the ship at Durban, Natal. His place of residence in America is not known.

Southampton, June 18.—Capt. Tanquery of the French schooner Hirondello, which arrived here from Bordeaux this morning, reports that at 3 o'clock yesterday morning he passed Ushant, off which place the British steamer Drummond Castle was sunk at midnight on June 16. The sea at the time the Hirondello passed Ushant was running very high and there had been a heavy rain and thick fog. In such weather, the captain says, it would have been a very easy matter for a vessel to get out of her course. Capt. Tanquery says that there was no trace of wreckage to be seen.

How the Disaster Occurred.

Brest, June 18.—A reporter of the United Press obtained an interview to-day with the two members of the sunken steamer Drummond Castle who were picked up at Ile de Molene. One of the men is a seaman named Goldbolt, belonging to Yarmouth, and the other is Wood, a native of London, who was quarter-master of the Drummond Castle. The men agreed in the statement that the night of June 16, when the steamer was lost, was a fine night, though there was a slight fog. The captain was on the bridge at the time the ship struck, and Lieutenant Brown was forward. The adult passengers were all on deck and only the children were sleeping.

Suddenly there was heard beneath the vessel a prolonged scraping, and this was followed by a ghastly silence. The forepart of the ship began to sink immediately. The captain, at first, believed the settling of the ship by the head to be caused merely by the filling of one of the forward compartments, but nevertheless ordered the boats lowered. There was no time to do this, as the ship rapidly filled and sank like a huge body of lead. The survivors said that they could not remember exactly what did happen when the ship went down. Goldbolt succeeded in grasping a door panel and a plank, and Wood also caught a loose plank as it was washed past him. For a long time after the ship sank despairing shrieks filled the air, mingled with cries for help, to which response was impossible. The cries gradually ceased and there was a gruesome silence, each man believing himself to be the sole survivor of the ill-fated ship, and felt in constant fear of being washed off the panel or plank under him. Ultimately Wood saw Goldbolt and swam to him. The two men remained together thereafter and were tossed by the waves for ten hours, frequently being torn by the force of the waves from their rough plank and panel raft, which they would fortunately succeed in regaining.

At 9 o'clock on the morning of June 17, some of the fishermen in boats espied them and rescued them, landing them at Le Conquet. Besides the passeger Marquardt, who was picked up at Ushant, it is not probable that a single one of the passengers was saved. The passengers on board the Drummond Castle were mostly women and children, including the family of a tea planter, 18 in number, who were returning from South Africa.

The keeper of the Ushant lighthouse witnessed the disaster. When he first saw the vessel he was surprised that a large steamer should enter the sinuous and rocky Fromveur passage, which separates the Ushant from the Molene group of islands.

It is believed that the ship entered the passage by mistake, instead of keeping in the open sea, through an error in navigation.

WAS A TORONTO MAN LOST?

William Webber of Wilton-Avenue May Have Been on the Ill-Fated Ship.

It is as yet uncertain as to whether there was not a Toronto man among the list of passengers, who perished in the sinking of the ill-fated Drummond Castle. Mr. William Webber, a plasterer of Wilton-avenue, left for Johannesburg about ten months ago. Being yet a comparatively young man, he left his wife and three children to better himself in South Africa. He did not meet with much success, however, and in his last letter to his family he stated his intention to sail for home about the day on which the lost steamship departed. His anxious wife is now awaiting the publication of the list of the drowned.

GOSSIP FROM THE CAPITAL.

Tenders Called for for Fourteen Miles of the Trent Valley Canal—To Kill Weeds in Manitoba.

Ottawa, June 18.—(Special.)—The Department of Railways and Canals is calling for tenders for the construction of 14 miles of the Trent Valley Canal, on Simcoe and Balsam Lake division. Tenders are to be received up to Aug. 17.

Messrs. Gault, Bond and Routh, representing the Marine Underwriters of Montreal, interviewed the Deputy Minister of Marine to-day and requested that a number of improvements be made in aid of St. Lawrence navigation. Among other requests was one for a better fog and light service in the Straits of Belle Isle.

Mr. Fletcher, entomologist and botanist, of the Experimental Farm, leaves on Monday for Manitoba to hold a series of meetings about weeds. It is understood that Mr. McKellar, Deputy Minister of Agriculture of the province, and Mr. Leech, Secretary of Manitoba Central Farmers' Institute, will assist at these meetings. The object is to devise a joint course of action to extirpate destructive weeds in Manitoba.

IS THIS THE MAN?

The Supposed Murderer of the Unknown Victim at Seguin Falls Caught Near Parry Sound.

Parry Sound, June 18.—A man answering the description of the supposed murderer of the victim at Seguin Falls was arrested at Rose Point, the termination of the Parry Sound Railway, a mile and a half from Parry Sound. He had been prowling around there for two days and inhabiting an unoccupied railway camp. He had on him a pair of long boots, thought to be the same as worn by the murdered man. He is a man of about 55 years of age, and probably a Finlander. He affects to understand no English. He was immediately taken back to Seguin Falls for identification.

England May Make Trouble.

London, June 18.—The St. James' Gazette says that the Colonial Office is taking a very serious view of the incursion of Venezuelan troops into the disputed territory. "It is impossible," the paper adds, "to permit the boundary decision to be anticipated by forcible violations of the frontier, and it is hoped that the Government at Caracas will explain and apologise, otherwise it may be necessary for England to take strong measures."

Germany to Coal in China.

New York, June 18.—A special from Berlin says: It is learned on the best of authority that the conferences between the Kaiser and Hung Chang have resulted in the acquisition by Germany of a coaling station in China.

ANOTHER CALAMITY.

A Boiler Explosion Instantly Kills Ten People.

THE BODIES FEARFULLY MANGLED

Heads, Arms and Legs Blown Off and Chests Torn Open—Others of the Victims Drowned—All the Unfortunates Belonged to Little Falls, N.Y.

Utica, N.Y., June 18.—The boilers of the pleasure steamer Hon. Titus Sheard exploded while the boat was carrying passengers from Little Falls to the bicycle races at Taylor Driving Park, one mile west of the city at 2 o'clock this afternoon. Eighteen persons were on board at the time. Ten of the passengers, nine men and one woman, were either instantly killed or died soon after they were taken from the wreck. Two are probably fatally injured and four are suffering from severe injuries. Two pasengers are missing.

The explosion occurred just as the engineer shut off steam at the Taylor Park landing.

The dead are:

George White, aged 52 years, Superintendent of the Hon. Titus Sheard mills, head blown off and killed instantly.

Charles Wormuth, aged 35y ears, head blown off and left breast split open.

Charles Wormuth, aged 35 years, ribly fractured and instantly killed.

E. J. Tresselt, pilot of the Titus Sheard, left arm blown off and right leg missing at the hip. Tresselt's body was thrown several feet in the air, landing on a hawser hook on a passing boat, disemboweling him.

Thomas Hall, aged 30, right leg blown off and died at the Little Falls Hospital at 3.10 p.m.

William Symonds, aged 35, head blown off and left arm terribly lacerated.

Elon Walker, aged 35, head split open, left shoulder bone terribly crushed, died immediately upon arrival at the hospital.

Miss Anna Golden, aged 17, badly scalded about the face and neck. Death caused by drowning, although heroic efforts were made to save her life.

Van Buren Young, engineer of the Titus Sheard, both thigh bones broken, scalded severely and injured internally, died at the Little Falls Hospital at 7 p.m.

William Wormuth, aged 30 years, compound fracture of both legs, flesh wound on right leg, died at the hospital at 7.30 p.m.

Missing: Two unknown persons, supposed to be in the canal.

The injured are: George Denman, aged 28, both hands badly mangled, legs fractured, body badly scalded, two holes in right side of abdomen, injuries will probably result fatally.

Irving Stroup, arms and legs injured, severe cut in the back and badly scalded. Stroup will probably recover.

Mrs. Irving Stroup, aged 23, compound fracture of right knee pan, and left arm, lower jaw fractured, and possibly internally injured. Mrs. Stroup's condition is serious.

Perry Kingston, big toe cut off, scalded about the face and head, will recover.

Rhoda Warren, aged 16, scalded badly about the face and limbs.

All the dead and injured are from Little Falls, and as far as known, the list is complete.

INTERNATIONAL ARBITRATION.

Prominent Members of the League Call on Premier Salisbury—His Lordship's Calm Reply.

London, June 18.—A deputation of members of the International Arbitration League, including Sir John Robert Mowbray, member of the House of Commons for the University of Oxford, and a number of other distinguished gentlemen, called upon Lord Salisbury at the Foreign Office today. In reply to their address, the Premier said the Government, like all sensible men, desired to arbitrate differences and disputes wherever it was possible. He was glad to say, he continued, that matters presented a great deal more hopeful aspect in the matter of the differences between Great Britain and the United States. His desire was, he said, that the principle of arbitration should be extended as far as was consistent with the just rights of those whose interests were committed to the charge of the Government, and he believed that the same view prevailed in the United States. The various difficulties besetting the question had to be solved one by one, and the deputation must not be impatient if the discussion of these matters was concluded with deliberation and circumspection, in order that no mistakes should be made whereby the ultimate triumph of the principle might be jeopardized. Lord Salisbury, continuing, said he believed that it was the highest desire on both sides that every important issue arising between the two countries should be submitted to arbitration. He thought, and also had every hope, he said, that the International Arbitration League would give in the first instance to the world the triumphs of a principle tending to abolish war. They must, however, be true to the trust they held, and protect the interests of which they were the trustees, at the same time earnestly aiming at the attainment in a civilised way of the adjustment of difficulties arising among great communities.

LASSWADE.

(From Our Own Correspondent.)

On the evening of Tuesday, June 2nd, a meeting in the interests of Mr. John Lang was held in Foster's School House, which was one of the largest and most generally represented by both parties that has ever been held in this place. By a unanimous vote of the meeting J. W. Ratcliff occupied the chair. In introducing Mr. Lang the chairman said that he was not introducing one who was a stranger to those present, as he (Mr. Lang) had appealed to them before and they had given him their generous support, thereby helping to elect him as their representative, which would no doubt be the case at the close of the present contest.

Mr. Lang then addressed the meeting for an hour and a quarter, touching upon all the principal topics of the day, and assuring his hearers that he would vote upon all measures brought before the House according to his own idea of what would be to the best interests of the people of the Dominion without prejudice or party influence.

Mr. J. B. McWilliams then followed with a speech of an hour and half, in which he dealt with the Government under the leadership of Sir Charles Tupper, showing the corruption and unnecessary extravagance carried on, and the hollowness of the pretensions and promises made by them. Mr. McWilliams also gave examples of every statement made by him that had been carried out in our County of Peterborough. Both speakers were warmly applauded. The meeting concluded with votes of thanks to the chairman and cheers for the Queen and Mr. Lang.

OTONABEE.

Council Meeting.

At the last meeting of Otonabee council, with all the members present, the following business was transacted: James Rennie applied for work on roads. On motion of Messrs. Lancaster and Weir, that as there will be no stones to be removed off the roads until after the road work is performed, he be allowed $3 per month for charity until the first of July. John Hutcheson was present requesting a grant for wire for a snow fence on the 9th line, opposite lot 31. On motion of Messrs. Johnston and Lancaster 25c. per rod for about 50 rods was granted, Mr. Johnston to measure length and give order on treasurer. Messrs. R. A. Deyell, James and Wm. Lawson, John Lanceshire, S. Bennett and C. Ivy were present, requesting a grant to repair and gravel the 13th line south of lot 24. Mr. Deyell stated that about 8 years ago the farmers living near and travelling this road, contributed about $300, which was supplemented by about $600 from the council to open and grade the road, but it had never been graded since the new Rees bridge had been opened. The Monaghan people use it extensively, and it was getting into bad repair. On motion of Messrs. Johnston and Lancaster a special grant of $150 was made on condition that ward No. 5 give $50 additional, to which Councillor Deyell agreed. Councillor Deyell to be commissioner and he and Deputy-Reeve Johnston were appointed to see if gravel can be procured near the above road. Complaints has been made that Whittal's creek, running through half of lot 22, con. 13, has been dammed, flooding and injuring the concession line opposite said lot. Messrs. Johnston and Deyell were appointed to investigate and report at the next meeting.

On application of G. W. Emon his house and lot on west half of lot 23, con. 6, was detached from road division 18, and attached to road division No. 51.

The clerk was instructed to write to write to John Bell, solicitor of the G.T.R., requesting a reply to a communication sent to him some time ago as to the ownership of the road bed of the old Cobourg railway.

Alex. MacFarlane applied to have the ditch on road allowance sufficiently deepened to remove the water off his land, caused by the filling in of the culvert under the dump of the Cobourg railway. No action taken, as the council are of the opinion that the natural flow of the water is at the said culvert and not along the road allowance.

The following accounts were passed:—Assessors, 1896, salary, $37.50; for excavating ditch on road allowances, lot 13, con. 10, railway dump, Duncan McFarlane, for one day, $1.25, Peter McFarlane, one day, $1.25, Peter Robertson, two days, $2.50; R. Lawrence, work on Norwood road, $6; W. B. Stewart, wire for 31 rods of snow fence, $20.25; Peterborough Examiner Company, balance of 1895 printing contract, $25, binding book, 50c; Peterborough Review, advertising Court of Revision, $2; Dickson Company, plank for culverts, $10.21. Council adjourned to June 15.

FIRST SITTING OF COURT OF REVISION.

Complaint of Jas. Miller, lot 21, con. 4, was assessed for $6,500, instead of $7,000. Alfred Scribner, for part of lot 26, con. 11, for $700 instead of $900. On application of Thos. Statley he was assessed for the N.W. quarter of lot 18, con. 12, instead of Edward Hammond, and reduced $200. On application of D. D. Henderson, the west half of lot 13, con. 9, was assessed to Mrs. R. Henderson as occupant, jointly with D. D. and John Henderson, executors, and reduced $200. On application of Wm. Wedlock he was assessed as owner for west part of lot 10, con. 6, and north east part of lot 10, con. 7, instead of A. Bryce, tenant. Complaint of Wm. McBride, Harris Island, assessment confirmed. Hall and Hazlitt, west half of lot 26, con. 12, left over to next sitting of Court of Revision.

Sufficient representations and declarations being made by the following persons that their dogs were killed, they were struck off the roll: Robert Kindred 1 dog, Wm. Weir, 1 dog, Frank Elmhirst, 1 dog, Robt. Haulridge, 1 bitch, D. H. Moore, 1 dog, John Taylor, 1 dog, Alex. Gillespie, 1 dog, Wm. Harris, 1 dog. Ordered that Timothy Mulcahey be assessed for a dog, and D. F. Drummond for a bitch instead of a dog, and Joseph Howson for a bitch instead of a dog.

When a man owns a blooded horse he is always careful of its health. He looks after its diet and is particular that its feeding shall be regular and right. While he is doing this, it is as likely as not that he is himself suffering from some disease or disorder. When the trouble gets so bad that he cannot work, he will begin to give himself the care he gave the horse at the start. Good, pure, rich, red blood is the best insurance against disease of any kind. Almost all diseases come from impure or impoverished blood. Keep the blood pure and strong and disease can obtain no foothold. That is the principle upon which Dr. Pierce's Golden Medical Discovery works. It cleanses, purifies and enriches the blood, puts and keeps the whole body in perfect order; makes appetite good, digestion strong and assimilation perfect. It brings ruddy, virile health. It builds up solid, wholesome flesh (not fat) when, from any cause, reduced below the healthy standard.

GENERAL ASSEMBLY.

An Annuity to the Widow of the Late Dr. Reid—Personnel of the Standing Committees.

The first thing done by the Presbyterian Assembly yesterday morning was the passing of an annuity of $400 for life to Mrs. Reid, widow of the late Dr. Reid, who was for so many years the agent of the western section of the church. Following that came the report of the committee which had the task of choosing the standing committees of the church. The report was adopted with some minor revisions. The conveners of the committees for 1896 are as follows: Presbyterian College, Halifax, Board of Management, Rev. Dr. Sedgwick, and Senate, Principal Pollok; Presbyterian College, Montreal, Board of Management, Mr. D. Morrice, and Senate, Principal MacVicar; Queen's College, Bursary and Scholarship Committee, Rev. John Mackie; Knox College, Board of Management, Mr. W. Mortimer Clark, and Senate, Principal Caven; Manitoba College, Hon. Chief Justice Taylor; Home Missions, western section, Rev. Dr. Cochrane, and eastern section, Rev. J. McMillan; Augmentation, western section, Rev. Dr. Campbell, Renfrew, and eastern section, Rev. E. Smith; Foreign Missions, Messrs. Hamilton Cassels and A. A. Falconer, joint conveners for the western and eastern sections respectively; French Evangelization, Principal MacVicar; Distribution of Probationers, Rev. Dr. Torrance, Guelph; Church Life and Work, Rev. P. Wright; Sabbath Schools, Rev. T. F. Fotheringham; Widows' and Orphans' Fund, western section, Mr. T. Kirkland, Toronto; and eastern section, Rev. R. Laing; Aged and Infirm Ministers' Fund, western section, Mr. J. K. Macdonald, and eastern section, Rev. Anderson Rogers; Finance, Toronto section, Mr. Andrew Jeffrey; Montreal section, Mr. D. Morrice; Halifax, Mr. J. C. Mackintosh; Statistics, Rev. Dr. Torrance; Protection of Church Property, Hon. Justice Maclennan; Church and Manse Building Fund, Hon. Chief Justice Taylor; Hymnal Committee, Rev. Dr. Gregg; Presbyterian Record, Rev. Dr. Warden; Young People's Societies, Rev. R. Douglas Fraser.

This was the topic taken up when business was resumed in the afternoon, The report of the Committee on Union with other Christians was presented by Principal Caven. The chief matter dealt with by the committee was a communication from the Quadrennial Conference of the Methodist Church, proposing the appointment of a federal court, composed of representatives of negotiating churches, with the object of securing co-operation and economy in regard to "dependent charges" and the prevention of overlapping in newer fields.

The recommendations of the committee were that the Assembly approve of the formation of such a body as proposed, provided a satisfactory definition of its duties can be agreed on, and that the Committee on Union be reappointed, with instructions to confer with the committee of the Methodist Church. The report and recommendations were adopted, after some discussion, in which it was pointed out that the court proposed would not interfere with the creed, discipline or independence of the churches interested.

Talk on the advisability of removing the publication office for Sunday school lesson leaflets and helps from St. John to Toronto was heard for the greater part of the second sederunt. The committee recommended that the $5000 necessary to make the removal and pay the existing deficit be raised forthwith, and that Secretary Fotheringham be made superintendent of the work. An amendment was carried, providing that the matter go over for a year, the publications to be printed in St. John, as at present.

The resolutions prepared by the Foreign Missions' Committee were presented and agreed to. The committee's estimates for the year were $77,000, a considerable increase over the amount raised last year, which was $54,000. The estimates were passed without dissent.

It was advised that legislative steps should be taken to enable the church to hold property, and that one Finance Committee only be appointed for the western section of the church. This was agreed to and the committee appointed with Dr. Warden as convener.

Loyal addresses were voted in the evening, and the miscellaneous business remaining on the docket was carried to completion. Among other matters it was resolved that the question of a reduction in the numbers of commissioners to be returned to the assembly should be remitted to Presbyteries. After passing the usual votes of thanks, the assembly was duly dismissed shortly before midnight.

Do You Tire Quickly?

Fatigue is the natural sequence of labour. If, however, it follows moderate or slight exertion it is the sign and evidence that the nervous system has lost tone and vigor and requires assistance. Suicidal is a resort to stimulants, since these only increase the enervation. Aid cannot be obtained in this way, but through medication, judiciously employed in restoring through the nervous system the digestive function, upon which primarily, health depends. The whole range of medicine fails to produce a preparation possessing in equal degree the tonic and nutritive qualities of Maltine with Coca Wine. By the action of Maltine with Coca Wine upon the nervous system all the important functions of the body are stimulated and increased; the digestive process is performed efficiently and without discomfort, insuring the proper nourishment of the body. Tone takes the place of lassitude; vivacity dissipates depression, forbodings and despondency, and soon the quickening impulses of renewed health are experienced. Maltine with Coca Wine is sold by all druggists.

President Isaac Lewis of Sabina, Ohio, is highly respected all through that section. He has lived in Clinton Co. 75 years, and has been president of the Sabina Bank 20 years. He gladly testifies to the merit of Hood's Sarsaparilla, and what he says is worthy attention. All brain workers find Hood's Sarsaparilla peculiarly adapted to their needs. It makes pure, rich, red blood, and from this comes nerve, mental, bodily and digestive strength.

"I am glad to say that Hood's Sarsaparilla is a very good medicine, especially as a blood purifier. It has done me good many times. For several years I suffered greatly with pains of

Neuralgia

in one eye and about my temples, especially at night when I had been having a hard day of physical and mental labor. I took many remedies, but found help only in Hood's Sarsaparilla which cured me of rheumatism, neuralgia and headache. Hood's Sarsaparilla has proved itself a true friend. I also take Hood's Pills to keep my bowels regular, and like the pills very much." ISAAC LEWIS, Sabina, Ohio.

WILLIAM M'KINLEY

Chosen by the Republicans on the First Ballot.

WILD ENTHUSIASM AT ST. LOUIS

Mr. G. A. Hobart Selected for the Second Place—The Platform of the Party is Emphatically Protective—The Monroe Doctrine Reasserted —National Arbitration.

St. Louis, June 18.—William McKinley was nominated to-day on a platform of honest money and a protective tariff. His associate on the ticket is Garrett A. Hobart of New Jersey. The ticket was a foregone conclusion, and the platform has been anticipated for weeks back. Major McKinley has held the Republican party in his grip ever since he was a practical candidate. Marc A. Hanna, the Cleveland millionaire, who managed his campaign, did so very cleverly, and the result was that on the first ballot McKinley had 657 votes, against 83 1-2 for Reed, 62 for Morton, 62 1-2 for Quay, 34 1-2 for Allison and 1 for Cameron. It was a great triumph for the principle of protection, which was the sole issue for which the candidate appealed to the people. The nomination had been so largely discounted that there was a lack of that popular enthusiasm which would otherwise have been made manifest, but the people did not neglect to snow their approval, although in a much quieter way than would have been snown had the result not been well discounted.

It was so with the Vice-Presidential nomination. The withdrawal of all the New York names left the nomination practically with McKinley's managers and Garrett A. Hobart of New Jersey was the prime candidate. As the roll call progressed, he was seen to be away in the lead, and the result of the first ballot gave him the nomination on practically the same vote that carried McKinley.

The Republican Platform

The Republican platform was adopted to-day. In terms it goes on:

"The Republicans of the United States, assembled by their representatives in National Convention, appealing for the popular and historical justification of their claims to the matchless achievements of 30 years of Republican rule, earnestly and confidently address themselves to the awakened intelligence, experience and conscience of their countrymen in the following declaration of facts and principles:

"For the first time since the Civil War the American people have witnessed the calamitous consequences of full and unrestricted Democratic control of the Government. It has been a record of unparalleled incapacity, dishonor and disaster. In administrative management it has ruthlessly sacrificed indispensable revenue, entailed an unceasing deficit, eked out ordinary current expenses with borrowed money, piled up the public debt by $262,000,000 in time of peace, forced an adverse balance of trade, kept a perpetual menace hanging over the redemption fund, pawned American credit to alien syndicates and reversed all the measures and results of successful Republican rule. In the broad effect of its policy it has precipitated panic, blighted industry and trade with prolonged depression, closed factories, reduced working wages, halted enterprise and crippled American production, while stimulating foreign production for the American market.

"We renew and emphasize our allegiance to the policy of protection as the bulwark of American industrial independence and the foundation of American development and prosperity.

"We denounce the present Democratic tariff as sectional, injurious to the public credit and destructive to business enterprise. We demand such an equitable tariff on foreign imports which come into competition with American products as will not only furnish adequate revenue for the necessary expenses of the Government, but will protect American labor from degradation to the wage level of other lands. We are not pledged to any particular schedules. The question of rates is a practical question, to be governed by the conditions of the time and of production.

"The ruling and uncompromising principle is the protection and development of American labor and industry. The country demands a right settlement, and then it wants rest.

"We believe the repeal of the reciprocity arrangements negotiated by the last Republican Administration was a national calamity, and we demand their renewal and extension on such terms as will equalize our trade with other nations, relieve the restrictions which now obstruct the sale of American products in the ports of other countries, and secure enlarged markets for the products of our farms, products and factories.

"Protection and reciprocity are twin measures of American policy and go hand in hand. Democratic rule has ruthlessly struck down both and both must be re established. Protection for what we produce; free admission for the necessaries of life which we do not produce; reciprocal agreements of mutual interest which gain open markets for us in return for our open market to others. Protection builds up domestic industry and trade, and secures our own market for ourselves: reciprocity builds up foreign trade and finds an outlet for our surplus.

"We condemn the present administration for not keeping faith with the sugar producers of the country. The Republican party favors such protection as will lead to the production on American soil of all the sugar which the American people use, and for what they pay other countries more than $100,000,000 annually.

"To all our products, to those of the mine and the field, as well as those of the shop and factory, to hemp, to wool, the product of the great industry of sheep husbandry, as well as to the finished woolens of the mill, we promise the most ample protection.

"We favor restoring the early American policy of discriminating duties for the upbuilding of our merchant marine and the protection of our shipping in the foreign carrying trade, so that American ships, the product of American labor, employed in American shipyards, sailing under the Stars and Stripes, and manned, officered and owned by Americans, may regain the carrying of our foreign commerce.

"The Republican party is unreservedly for sound money. It caused the enactment of the law providing for the resumption of specie payments in 1879; since then every dollar has been as good as gold. We are unalterably opposed to every measure calculated to debase our currency or impair the credit of our country. We are, therefore opposed to the free coinage of silver, except by international agreement with the leading commercial nations of the world, which we pledge ourselves to promote; and until such agreement can be obtained the existing gold standard must be preserved. All our silver and paper currency must be maintained at parity with gold, and we favor all measures designed to maintain inviolably the obligations of the United States and all our money, whether coin or paper, at the present standard, the standard of the most enlightened nations of the earth.

"Our foreign policy should be at all times firm, vigorous and dignified, and all our interests in the western hemisphere carefully watched and guarded. The Hawaiian Islands should be controlled by the United States, and no foreign power should be permitted to interfere with them; the Nicaragua Canal should be built, owned and operated by the United States; and by the purchase of the Danish Islands we should secure a proper and much-needed naval station in the West Indies.

"We reassert the Monroe doctrine in its full extent, and we reaffirm the right of the United States to give the doctrine effect by responding to the appeals of any American state for friendly intervention in case of European encroachment. We have not interfered, and shall not interfere, with the existing possessions of any European power in this hemisphere, but those possessions must not, on any pretext, be extended. We hopefully look forward to the eventual withdrawal of the European powers from this hemisphere, to the ultimate union of all of the English-speaking part of the continent, by the free consent of its inhabitants.

"For the protection of the equality of our American citizenship and of the wages of our workingmen against the fatal competition of lowered labor, we demand that the immigration laws be thoroughly enforced and so extended as to exclude from entrance to the United States those who can neither read nor write.

"We favor the creation of a National Board of Arbitration to settle and adjust differences which may arise between employers and employed engaged in inter-state commerce.

TUPPER'S WATERLOO FURNISHED BY DOURO.

LAURIER STICKED AND TUPPER STUCK, YESTERDAY.

A "Picnic" for Laurier—He Wins the Gold Headed Cane at the Great Douro Picnic—A Highly Successful Gathering — Rev. Father Kelly's Grand Success.

Rev. Father Kelly, the popular pastor of St. Joseph's church, Douro, may not possess the Midas touch that turns everything to gold, but something that serves almost as well—whatever he handles, if not transmuted into gold, is converted into goodly current coin of the realm. His picnic in Douro was in every way a decided success. The weather was superb. There was a very large attendance, the town being largely represented.

Among the clergy represented were Ven. Father Casey, Rev. Father Fitzpatrick, Rev. Father O'Connel, V. Rev. Father Brown, V.G., and, of course, Rev. Father Kelly was the all prevading genius of geniality.

The picnic was held in a grove of lofty maple trees, which, while admitting a refreshing breeze, shaded the grounds very agreeably, thus rendering the chosen site a most suitable meeting place for the many people, young and old, who availed themselves of the occasion.

"The battle of Waterloo," fought out yesterday, terminated with little loss of life at either side, but rather with a good substantial "booty," contributed by the good people of Douro towards the laudable effort of paying off a debt still remaining on their beautiful church.

While there were sports and games and dancing and dining—and by the way the spread made by the ladies of Douro was most sumptuous and elegant, and like Irish hospitality in quantity unbounded, the chief interest centered in the contest between Hon. Wilfrid Laurier and Sir Charles Tupper. The contest was a keen one and doughty Douro repeated history in giving the keynote of victory of the Napoleonic debacle, that the historic river Douro witnessed in the Peninsular campaign by giving the Napoleon of Canadian politics a foretaste of the "Waterloo" that will come a few days later than the anniversary of the great battle—June 23rd. While in this contest money was a great factor, still popular favour was a most potent one—the losing party had the most of the sinews of war but were outgeneralled by the rosy-cheeked and petticoated Wellingtons of Douro who had espoused the spirit that dominates the whole of the Liberal party in the cause of the brilliant Liberal Leader.

The result of the vote for the gold-headed cane was, according to the scrutineers of the vote—Messrs. W. A. Stratton pro Laurier and J. H. Burnham pro Tupper—in 372 votes for Laurier and 336 for Tupper, a majority of 36, which may be taken as a fair indication of Hon. Mr. Laurier's majority in Parliament as the result of the grand voting contest on June 23rd.

It is understood that $600 was realised by the picnic, a really handsome sum, considering the hard times, with less than half price for what the farmers have to sell.

MARRIED.

LORD—MANNIX—In Toronto, on Wednesday, June 17th, 1896, E. E. Lord, of the Canadian General Electric Works, Peterborough, to Miss Katie Mannix, of Toronto.

SIR CHARLES TUPPER VISITS THE TOWN.

Peterborough Dons its Gala Attire for the Occasion.

A HIGHLY CREDITABLE PROCESSION IS FORMED,

The Subsequent Mass Meeting in the Drill Shed was not an Entire Success—The Premier's Vituperative attacks on Hon. Wilfred Laurier Call for Hisses from the Audience—Cheers for the Liberal Leader.

As both Liberals and Conservatives alike spared no pains in making preparations to receive Canada's premier, yesterday, the town was a blaze of colour and the streets were brilliant with waving bunting and floating flags by the time Sir Charles Tupper arrived on the evening train from Port Hope.

As the premier descended from the train at King street he was welcomed by Messrs. James Stevenson, W. H. Moore and James Kendry, and was greeted with a hearty cheer. An unusually large procession was formed to escort Sir Charles to the Drill Shed. It was composed of a bicycle and equestrian corps, the Fire Brigade Band, the Sons of England Band, the North Monaghan Band, the Fourth Line of Smith Band and the 57th Battalion Bugle Corps. The employees of the Lock Works, Bridge Works and Canadian General Electric Company turned out

IN LARGE NUMBERS,

and quite a feature of the parade was the presence of dozens of the Trent Valley Canal employees, with their picks, shovels, wagons and scrapers. Special mention should be made of the splendid appearance which the bicyclists made. There were fully a hundred of them, and of these about a third were ladies. The wheels were all most beautifully decorated for the occasion with red white and blue and in front of each was borne a huge maple leaf design on which were the words "Tupper, Kendry and Victory" or Tupper, Burnham and Victory." The feature of the parade, however, was the carriage in which Mrs. James Kendry drove with Mr. and Mrs. C. B. McAllister. Every portion of it was covered with flowers, even the spokes being invisible under a floral covering. The arrangement of the flowers was certainly most beautiful and reflects very great credit on Mrs. McAllister's artistic ability. Another carriage which evoked general admiration was that of Mrs. W. H. Meldrum, which was lavishly decorated with flowers. The carriage in which the premier rode, accompanied by the reception committee, was also decorated with flowers and flags and perched up in it were Masters Sawers and Moore, as guards of honour, tricked out in scarlet uniforms and with white cock hats. The effect was

VERY PRETTY INDEED.

Mr. Jos. Mills was the chief marshall and was ably assisted by Messrs. Bert Wallace and Wm. Gibbs, attired as heralds on horseback.

The drill shed showed the result of the work which had been put upon it and was certainly a credit to the workers. The walls were almost hidden with flags, bunting and mottoes, and streamers were stretched across the huge building from side to side and corner to corner. The platform was gay with flowers and at its right five hundred chairs were reserved for ladies and were filled early in the evening.

When Sir Charles entered the drill shed Mr. C. W. Sawers called for three cheers for the Premier but hardly had they subsided when a small boy, putting in his head from one of the windows up in the roof, raised a sensation by calling for three cheers for Laurier. The cheers for Tupper were hearty but those given for Laurier were a revelation, as the huge building fairly quivered when the great volume of sound arose again and again, evidencing the place in the esteem of the electorate which has been gained by

THE LIBERAL LEADER.

Mr. W. H. Moore, President of the West Peterborough Conservative Association, occupied the chair and opened the meeting with a few remarks, bespeaking for the Premier a fair hearing. He was followed by Mr. A. P. Pousette, who read an address of welcome to Sir Charles.

When the Premier stepped to the front of the platform he was greeted with cheers but immediately following, three such hearty ones were given for Mr. Hall, the Liberal candidate, as to somewhat annoy Sir Charles, who dropped back in his chair again. This petty action on the part of the great Conservative leader aroused so much laughter that it was some time before Mr. Moore could again obtain order.

Sir Charles, in opening, trusted that no one was so lost to all sense of decency as not to preserve that absolute quiet which was necessary if they wished him to speak. It was impossible that anyone would desire to insult, apart from him, the great audience which was so anxious to hear his remarks.

During the course of his address the Premier did not attempt to outline any specific trade policy, but instead, devoted himself during the greater part of the evening to a

MOST VITUPERATIVE ATTACK

on Hon. Wilfred Laurier. This fact was responsible for the disorder which prevailed, as those who had so recently listened to the honored Liberal leader could not hear him traduced without a manifestation of their disapproval, which took the form of frequent cheers for Laurier and hisses and groans for the speaker as he deliberately thrust on the Liberals a policy of which they had never heard. Hon. Wilfred Lurier made too deep an impression on the occasion of his visit to Peterborough to allow him to be dethroned so easily as Sir Charles imagined, and hence the poor order which prevailed during the evening.

In opening the Premier stated that his first visit to Peterborough was in 1878, when he came personally to inspect and report upon the Trent Valley canal. (Laughter.)

"What do you mean by that laughter?" demanded Sir Charles in a rage. "Does it mean that you don't want the canal?"

A voice—No; but it's so long in coming.

Sir Charles—That's because it's a local work and does not affect the whole country. However, I inspected the proposed route, and

I REPORTED

favourably on the scheme to Parliament, so I am entitled to whatever credit is due the Government for the work which has already been done on the Trent Valley Canal.

The ladies were then thanked by the speaker for the magnificent bouquets of flowers with which they had presented him, which he declared was nothing unusual, as during his entire tour the ladies had showered floral tributes on him so liberally as to remind him of the Battle of the Flowers in Monte Carlo. He had positively been struggling through flowers since he started on his campaign tour.

Sir Charles had no hesitation in saying that the battle was already won, as he had been accorded just such enthusiastic receptions wherever he had been.

In this connection it would have been very bad taste to have inquired of Sir Charles regarding his Belleville and Cobourg meetings, in which places there were so few at the stations to meet him that he declined delivering an address, and passed through without leaving the train.

The speaker was much annoyed at the constant buzz of conversation which prevailed, and time and again threatened to discontinue his speech if he was not given a better hearing. He charged the Liberals with abandoning the discussion of public questions on their platforms, and holding their meetings for the purpose of propounding the vilest and

MOST INFAMOUS SLANDERS

on the Conservative party.

The bitter spleen of the speaker against Mr. Laurier almost resulted in the breaking up of the meeting at this point, as his voice was drowned in the hisses which arose for fully five minutes.

As prophesied by Laurier, Sir Charles told the audience that Cartwright and Senator Scott had sneered at the idea of preferential trade, whereas in reality they sneered at Sir Charles for being foolish enough to think Canada could keep up a protective policy against England and still expect England to give her preferential trade.

As a sample of Sir Charles' address, it might be mentioned that in speaking of Sir Alexander McKenzie's regime, he stated that at one time when a deputation of a thousand farmers had waited on that revered Liberal leader to ask for certain concessions which they thought would assist them, they were told to go home, work harder and eat less.

Of course such absurd statements were taken simply for what they were worth. Naturally such statements as these which were used with reckless indiscrimination by the speaker caused another outbreak of disapproval, which incited Sir Charles to characterize the action of the audience as a gross outrage upon decency perpetrated upon him by a

PARCEL OF RUFFIANS.

With consummate coolness the speaker assumed to himself the building up of the cheese industry, though how he had done it he left his audience to puzzle out for themselves.

In dealing with the school question, by request, the speaker opened his remarks with the observation that "to be prosperous a country must be peaceful and united," ignoring the fact that by the passage of any measure without a full investigation would engender a feeling which would not be wiped out in decades. He then proceeded to say that at the time of confederation it was at first arranged that the question of education should be left under the sole control of the provinces. To this Sir Alexander Galt, of Quebec, objected on behalf of the Protestant minority of Quebec and therefore the provision was inserted that at any time the provinces abused the privileges of their power the Dominion should have the right of interference. The Liberals had gotten into power in Manitoba and of course there was trouble. They were on the point of going out of power, when, as a last resource, the idea of raising a creed cry was conceived and on this they were sustained and when the Dominion Government interfered were about to force the Catholics to send their children to schools in which

PROTESTANT RELIGIOUS INSTRUCTION

was given. It was an outrage to ask Catholics to send their children to such schools. The matter had been referred to the Privy Council, which had decided that Manitoba had violated the constitution of Canada and directed the Dominion Parliament to rectify the evil.

Of course such a statement as this did not carry any weight in a riding in which the school question has been thoroughly discussed at every cross-roads school house.

At the conclusion of his address a cheer was again started for him by those on the platform, and as usual was followed by three hearty ones for Laurier and Hall.

Mr. W. J. Carruthers, of St. Thomas, in a few remarks, pronounced a glowing eulogy on Sir Charles Tupper. He was followed by Mr. James Kendry, the Conservative candidate, who announced that he was perfectly sure of being returned on June 23rd.

The meeting broke up with more cheers, and was immediately followed by the forming of a large procession to escort Sir Charles to the station. He slipped off, however, in a carriage and the procession divided, a portion going to the C.P.R. and the remainder to the Grand Trunk, from which latter station the premier left for Toronto on a special train. The display of fireworks was a most noteworthy detail of the procession.

NOTES.

The audience which gathered to hear Laurier in the rink greatly exceeded in numbers that of last evening, and besides there were no children allowed in the rink.

With the experience of the two great demonstrations, Peterborough will be able to give Laurier a grand one indeed when he makes his triumphal tour after winning the election on the 23rd.

"No alien need apply" was one of the mottoes in the drill shed. How about the imported labour on the Trent Valley Canal?

An amusing circumstance at the Douro picnic was that a triumphal procession of thirteen carriages had been formed to bring in the gold-headed cane to Sir Charles and thus cap the climax at the mass meeting last night. The waiting procession grew anxious as the votes for Laurier steadily grew, and towards the last the excitement of the Tories grew so intense that they held their breath until their faces grew purple. It was of no use, however, and the gallant procession had to disperse. Oh, it was rich; and straws show which way the wind blows. Watch Douro's vote for Lang.

The great Conservative gathering at the drill shed last night figuratively drank Sir Charles Tupper's health in Trent Valley Canal water—but they had to take it without a "stick" in it—Laurier won the gold-headed cane at the Douro picnic.

Last night, and with good reason, our good Conservative friends were so very cocky over the grand demonstration that one couldn't "touch them with a ten-foot pole," but Douro touched them with the three foot walking stick they voted to Laurier.

NOTES ON THE DEMONSTRATION.

In many respects and from a surface point of view the Conservative demonstration last night in honour of Sir Charles Tupper was a very great success. In point of numbers and effectiveness "the street parade" to borrow, for convenience of description, a circus term, was a conspicuous success. As a result of diligent effort and energetic organisation it is entitled to every credit—and in this respect it is perhaps the best example of the effects of the National Policy for which our Conservative friends claim the sole credit of giving an impetus to manufacturers; as a manufactured product the demonstration was a great success, but it was sadly lacking in the matter of spontaneity, which is the only element that gives value to a properly constituted popular demonstration. The apparent blaze of popular enthusiasm of last night was by no means the result of spontaneous combustion. The most diligent efforts had been made to drum up a crowd and to arouse enthusiasm.

Of course our Conservative neighbours had the benefit of example set by the Liberals in the demonstration of Saturday—they had the advantage of ten days of time instead of three to prepare a demonstration, and while it is freely conceded that the affair of our Conservative friends in regard to the street show—in point of elaborate decoration and floral profusion, rather uncomfortably eclipsed the Liberal efforts, yet we are free to say that the spontaneous enthusiasm, the attendance at the meeting and the magnificence of acclaim and hearty welcome to the Liberal leader, the representation of the solid voting element and the solid worth of the county, gave to the Laurier demonstration a weight and significance that were not at all equalled or even approached in the welcome, elaborate and splendid as it was, that was accorded the gentleman that discovered Canada.

In our news column is given a description of the parade and reception on its merits. In this column we propose to found a little series of little sermons on the texts supplied by the occasion, and to set forth the true significance of an apparently popular outburst of approval that was certainly of an unusual character; but it possessed this feature, that its success "stopped short, never to go again," at the doors of the drill shed. After that all was state fiat and unprofitable. There was nothing in the speeches delivered, nothing in the sentiments elicited to raise the occasion above mediocrity, and there was abundant evidence to show that the silver-tongued Laurier, though hundreds of miles away, was as potent, if not a more potent spirit to conjure with than the veritable presence, in propria persona, of Sir Charles Tupper, Bart, etc.

A word or two as to the central figure of the occasion. Of the crowds—principally ladies and children—that thronged the streets along the route of the parade, the greater number was attracted by curiosity to see a man of whom so much has been said and to see if there was anything in his physical personality that would indicate his greatness. Doubtless in many hearts there was an unconscious reiteration of the question which Shakespeare put into the mouth of Cassius in "Julius Cæsar":—

"Now in the name of all the gods at once
Upon what meats doth this our Cæsar feed
That he is grown so great?"

And to ask with a variation:—

"Now in the name of all the taxes paid
Upon what meats does this our Tupper feed
That he is grown so great?"

This is an easy one. Sir Charles Tupper is a plutophagist—which, being interpreted, is a money-eater. He has been eating the public money for over a quarter of a century and he has an excellent digestion, for he has thriven upon it—to employ the emphatic language of holy scripture he has "waxed fat and kicked"—Sir Mackenzie Bowell out of the Premiership. He got in early life a start of $40,000 of the public money by juggling with his own Order-in-Council—Sir Charles is as great on Orders-in-Councils as in making money—in buying mining stock in the Spring Hill mines on his own "tip." Then later he had a little deal with Onderdonk, which lost to the country a million and a quarter of dollars and no doubt the commission on this steal was no small one, for "My Dear Onderdonk" declared that "this man Tupper was the hardest man to satisfy that he ever met." And then for years Sir Charles Tupper has been the great I Commissioner of Canada at London, raking in the modest sum of $12,000 a year. Now Sir Charles is said to be worth two million dollars. The money of the people of Canada, won by hard toil, is the "meat upon which this our Tupper feeds that he has grown so great."

Now a word as to the mottoes. The first motto that met Sir Charles Tupper's eye was this insult to the workingmen: "Eight hours a day and Kendry." The insult is implied in the overweening selfishness of the Conservative candidate in saying that he is in favour of eight hours a day for the "outside" workingmen. Mr. Kendry employs no outside labour, and he doesn't care if outside labour has only eight, or six, or no hours a day. It's himself he's looking after. He employs a large number of "inside" operatives, but he means to keep the "inside" track. Mr. Kendry, in his tender mercy, would give the "outside" workman, with pure air and the fresh breeze of heaven, eight hours a day. But the poor pent-up operatives in a woollen factory, breathing dust and dirt in a stifling, heavy air, reeking with the hot fumes of rank grease, with windows hermetically sealed, even in the sweltering heat of the dog days (for the necessities of carding, weaving and spinning do not admit of the slightest draught). These poor beings must work 10½ hours a day, because it is to Mr. Kendry's profit. But strong healthy men, working in the open air, with heaven's breeze cooling their toil, must have eight hours. Noble Mr. Kendry! Merciful Mr. Kendry! Magnaminous Mr. Kendry! Verily do the Scriptures say, "The tender mercies of the wicked are cruel." We have no quarrel with Mr. Kendry's business methods, if he kept to them; but when he comes out as a friend to the workingman and gives "outside" workingmen favours which he denies to those in his own employ—and all for his own selfish ends—then the monstrous hypocrisy of his attitude and pretensions are worthy of the condemnation of every fair minded man.

Another motto deserving of a little attention is, "The N.P. our stable policy." This is a title difficult of understanding. One cannot decide whether it has an occult reference to the "stable" of a team that works for $2 a day on the Trent Valley Canal, or to the "stable" equipped with every refinement of appointment, luxurious litter, etc., of the Cumberland War Horse, well fed at the public crib and sleek with the public oats raised on the public tax farm; or to the stable quantity of our population, which under the N. P. is lamentably stable, practically stationary.

Then again the monstrous hypocrisy of the motto "We are against combines." why the one sided protection policy we have now is the father, mother and nurse of all combines. They were brought to life by the N. P. and couldn't flourish a moment without it. As well might a thief say "I am against stealing."

"Protection alike to workingmen and farmer" tells a truth that was not intended. These two classes have protection "alike," for the simple reason that neither enjoys any protection at all adequate to their rights. They bear the brunt of the burden and have the light end of protection as a counterpoise. The motto "Protection for the workingmen" is the irony of impudence. During the past eighteen years, while volumes of law have passed in the interest of the capitalist, the combine manufacturer, the banker and the privileged classes, all the law passed in the special interest of the workingman could be printed on a postage stamp. At least, all the law passed by a Conservative Government. The Liberal Government of Ontario have passed on the same time scores acts in the direct interests of the working classes, because the spirit of Liberalism is equal rights to all classes; no favours to the classes at the expense of the masses—equal justice to all classes and creeds. That's why level-headed workingmen, not blinded by party nor crouching under intimidation, are voting for Laurier, the Liberal leader.

The procession itself furnishes food for reflection. A prominent feature of it was a procession of workingmen—bought out as a class. This invidious description is not very complimentary. Where in this democratic country can we collect a crowd without its being composed of workingmen. We all work. We all must work in this new country to bring that development of which its magnificent natural resources are capable, and we want to work with limbs as free of fetters as possible. We don't want the great working classes to be handicapped in the race of life through favours extended to capitalists and monopolist manufacturers. Last night's procession furnished the contrast. We saw a line of sturdy workmen trudging in front of Sir Charles Tupper's carriage, upon whose delicate cushions, upholstered with two million dollars made out of the people of Canada—at the expense of the workingman—for we all work. Sir Charles reclined in quasi royal state. He was reclining at his sumptuous ease, and behold a company of canal employes, with teams, earning the munificent wages of $2 per day and "eat themselves," while the old Cumberland War Horse day—more than a Trent Valley team and has been growing sleek and frisky feeding from the public crib at the rate of $40 a man would earn in a month, clear of expenses.

There is another element in the presence of these same "workingmen" and teamsters in the procession worth referring to and that is the element of intimidation that accounted for the presence of many of them. In regard to the employees of some of the establishments represented, the latter were given to understand that their failure to turn out in the procession was the price of their "job." This was the case also on the canal works. We have before us a typical case, in which the threat was carried out. One man was told that, unless, after a hard day's work at $2 a day for man and team, he joined the procession, he need not return to work. He did not turn out in the procession, and he is not working to-day. We do not deny the legal right of employers to dictate such terms to their employees, but when such dictation is in the interests of a party that practices the idea that the workingmen are not only to take what wages they offer but to be at their beck and call and to be condemned to hold honest convictions at the expense of employment for the sake of giving a "spontaneous" exhibit of loyalty to the head of that party, then it is time for self-respecting workingmen to pause and reflect whether he is to be a serf or a free man.

One little reference and our sermon concludes. On one banner borne in the procession was the traitorous motto, "Down with England,"—not in these terms, however, but in these, "Down with Free Trade," which is equivalent to "down with England," for Free Trade is England. With free trade and by virtue of free trade, England stands at the head of the world to-day. By virtue of free trade she holds the trade of the world; her fleet of war dominates every shore; the sails of her fleet of commerce whiten every sea. By virtue of the sinews of war provided by free trade, she holds the balance of power, and under her flag the weak are protected and the strong fostered, growth, greatness and the blessings of civilization chase the powers of darkness before them; her mighty voice is ever sounded on the side of truth and righteousness; she is respected by the mightest, and when to the most powerful aggressor England sends the order, "Keep off the Grass," it is obeyed. Then why "Down with Free Trade"—which is England — because Conservative misgovernment and mis-rule have made free trade impossible in Canada to day! Why, with the emblems of loyalty waving from every window, fluttering from every cornice, why make the gibbering shibboleth of a comparatively petty party parade, for a passing and petty party advantage, the vehicle of insult to the glorious mother empire, from whose loins we are sprung, from whose bosom we are nourished, and whose arm protects us. We are Canadians all, all proud of England, and thank heaven there are few who would, except in the inconsiderate heat of party enthusiasm, be guilty of such an act.

Let us be a united people; let us cherish a policy and follow a leader whose aim is to promote peace, harmony and national unification, and not one who would, to serve selfish, partizan ends, and gain a party victory, sow the dragon's teeth of discord and set race and creed and section at enmity. We want peace at all hazards. We don't want discord at any price, except the price of our liberties, these we will fight for, and these we are fighting for—and with a great chance to win, on June 23rd. The Most Economical ...House Warmer

The "Kelsey" Corrugated Warm Air Generator.

Any ordinary Hot Air Furnace will produce heat if you will only supply enough fuel. The "Kelsey" has several special and valuable features but most important is that it will give more heat with less fuel and in the most durable heater made.

The "Kelsey" fire pot being constructed of several upright, tubular, corrugated, cast iron sections (see cut) around which the fire passes and up through which the cold air passes while being heated, and this entire section being wrapped with a heavy steel casing which becomes heated by the fire striking it when passing down outside of upright sections towards smoke pipe, it in turn warms the air that passes up between this steel casing and the galvanized iron casing, this explains why the "Kelsey" has three times more radiating surface and warm air capacity than an ordinary Furnace. The "Kelsey" heats every room evenly, wheresoever located, with a nice, mild, healthful warm air that will not injure your furniture.

The "Kelsey" will heat rooms 60 feet distant.

The "Kelsey" does not heat your cellar.

The "Kelsey" is absolutely gas and dust proof.

A mirror could not lie if it wanted to. The glass has nothing to gain by flattery. If the roses of health and plumpness of beauty are leaving your face, your mirror will tell you so. You can see for yourself you are in danger of losing the admiration which is every woman's due. You may not really realise it, but health is the greatest beautifier in the world. Lotions, plasters, creams and cosmetics cannot make as good a complexion as health can. They cannot hide the story of ill-health. They merely emphasise it. Health shows in clearness of eyes and skin, in redness of lips and vivacity of manner and expression. Disease is proved positively by the absence of these things. When a woman sees the indications of ill-health in the face, she may with almost absolute certainty look for the cause in one or both of two conditions—constipation, and derangement of the organs distinctly feminine. These things in themselves are in some degree related, and nine-tenths of all the sickness of women come from them. Dr. Pierce's Favorite Prescription will cure permanently and positively any so-called "female complaint." Dr. Pierce's Pleasant Pellets will cure constipation. There is no reason in the world why a woman should not be perfectly healthy. It rests with herself. If she will take these truly wonderful remedies, and follow a few hygienic measures, she may become perfectly strong and healthy in all ways. She will gain in health, strength and flesh. Hollows and angles will give place to fullness and grace. She will be that noblest and most beautiful of all creation—a perfect woman. All druggists sell Dr. Pierce's *medicines*, but if you care to know more about them and to know all of the grandest medical truths, send 21 one-cent stamps to cover customs and mailing *only*, and a complete copy of Dr. Pierce's 1008 page book, "The People's Common Sense Medical Adviser" will be sent post-paid. It is a veritable medical library, complete in one volume. Several finely illustrated chapters are devoted to the consideration of diseases of women and their successful home-treatment. Address, World's Dispensary Medical Association, 663 Main St., Buffalo, N.Y

CONDUCTOR SHIELDS' MISHAP.

Leaning Out of His Motor Car Near Hespeler He Strikes an Obstruction.

Hespeler, June 17.—A conductor named Shields of the Galt, Preston and Hespeler Electric Railway, while making the trip between Preston and this place about 9 o'clock this evening, met with a very serious accident. The car was not running smoothly and he leaned over to look under the car, when he came in contact with a post or other obstacle, which threw him from the car. He was missed soon afterwards and the car was run back, when he was found with a terrible wound on the head several inches long, and the scalp laid bare. He was brought here and Dr. Lockhart stitched and dressed the wound, which is an ugly one. It is believed he will recover, as the skull is probably not fractured.

Venezuelan Soldiers Interfere With British Surveyors in Disputed Territory.

Kingston, Jamaica, June 17.—According to advices received here, the territory in dispute between Great Britain and Venezuela has been entered by a force of troops of the latter country. The Venezuelan soldiers compelled a party of British surveyors who were at work in the district to suspend operations. The surveying party retreated and appealed to the authorities for support.

ITS FAME SPREADING.

A New Remedy in General Use in Manitoba and the Northwest.

WINNIPEG, June 8.—The effects of the regular wave of sickness which sweeps over this portion of the Dominion in the spring, are noticeable in the increasing amount of the druggists' sales. There has been quite a run on the kidney remedy now so well known under the name of Dodd's Kidney Pills. The recovery from Bright's disease of Mr. Arthur Coley, of Somerset, through their use, an account of which appeared in the papers, gave a considerable impetus to the sale, and the remedy has become indispensable in many Manitoba households, its fame having penetrated into the remotest parts of the province and Northwest Territories.

The Newest Chines.

The newest chines are remarkably lovely. Many of them are thrown on shot taffetas and shaded grounds, as somber effects are among the latest novelties this year; some of them have stripes that shade into one another. One unusual chine effect is on a shaded ground which appears to be covered with a minute white network, and the chines are thrown on pink-shaded stripes and on carmele stripes. The best of the chine effects are printed on the warp; it is only the less expensive class in which the pattern is printed after the silk is woven, but this is so cleverly done that it exactly imitates the results obtained by the superior methods. Chines are also to be had in a watered pattern, and numerous are the cashmerian figures. For maidens and youthful matrons these silks are obtainable in colors and designs that recall the Watteau period.

The Pearl of Great Price

To woman is beauty. Beauty, the key that unlocks every door, commands deference, inspires homage. But beauty of face cannot satisfy unless the additional grace, beauty of teeth, adds its charm. Fine teeth, sweet breath, rippling laughter—three graces that always go together. Ivorine imparts dazzling pearly like whiteness, removes discoloration and tartar from the teeth, and renders the breath fragrant as flowers.

For depression of spirits, nervousness and general weakness, Miller's Compound Iron Pills are a sure cure. 50 doses 25 cents. Sold in Peterborough by Wm. Madill, druggist.

Signs of worms are variable appetite, itching at the nose, etc. Dr. Low's Worm Syrup is the best worm expeller.

Modesty!

Makes thousands of women suffer in silence, rather than tell their troubles to anyone. To such Indian Woman's Balm is a perfect boon. It cures all womb troubles, corrects monthly irregularities, abolishes the agonies of child-birth, makes weak women strong, and renders life worth living.

ILL-TREATMENT OF PRISONERS.

Shocking Details of the Terrible Work of Officials at the Posarevac Prison—A Woman Slowly Roasted.

New York, June 17.—A Belgrade despatch says the Royal Commission which went to Posarevac to investigate the cruelties in the prison there report that the prison keepers are guilty of many revolting crimes. Many political prisoners were found in dungeons with their hands withered, they having been hung up by the hands for weeks at a time. The tongues of others had been cut out, and 20 were without ears and noses. One woman had been held before a hot fire and slowly roasted for withholding information. The king was so enraged when he heard the report that it was with difficulty the Ministers preventing him from going to Posarevac and personally punishing the prison officials.

KILLED HIS MATE.

A Tramp Found Dead Under a Barn at Seguin Falls—Verdict of Wilful Murder.

Parry Sound, June 17.—News reached here from Seguin Falls last evening of what undoubtedly has been a most brutal murder. Two men of the appearance of tramps, whose names are unknown, came there last Friday together, having walked, they said, from Kearney, a point on the railway line under construction east. They were seen going around there together, and applied at a house for a night's lodging, which was refused. Since then they were seen no more, but on Monday last the dead body of one of the men was found shoved under a barn. The head was badly battered, as if by a club, and the clothes removed, with the exception of a shirt.

The body was identified as that of one of the two men mentioned. It bore tattoo marks on the arm of a square and compass. It is understood deceased had stated that he came from the township of Flos. The other man, who is believed to be the murderer, is a tough-looking character, a foreigner, speaking poor English, and probably Norwegian or Dutch.

An inquest was held by Coroner Barber of Emsdale, and after medical and other evidence had been taken, following a post-mortem examination, the following verdict was returned:

"That deceased, unknown person, came to his death through wilful murder committed by his traveling companion, also unknown."

No clue has yet been found as to the whereabouts of the murderer.

MANITOBA CROP OUTLOOK.

The Wet Season for Seeding Ensures a Bountiful Harvest.

Winnipeg, June 17.—(Special.)—The first official crop bulletin for this year was issued by the Provincial Government to-day. Summarized, it shows the acreage to be as follows: Wheat 1,081,-860 acres; oats, 442,445; barley, 127,385; flax, 20,325; rye, 3130; peas, 1103; corn, 760; potatoes, 12,260; roots, 6715. making the total area under all crops 1,696,583 acres—a decrease of 191,213 acres compared with last year. This is due to the very late opening of the season. Not in 15 years has there been such a wet season for seeding. Though the area under crop is less than last year, it exceeds 1894 by 100,000 acres. The wet weather, though retarding the season, is declared to be of great benefit to the province as a whole, and almost assures a bountiful harvest.

Marquis de Mores Assassinated.

Tunis, June 17.—Rumors are circulated here that the Marquis de Mores, who recently started for the Soudan for the purpose of renewing friendly relations with certain Arab chiefs, with the idea of obstructing the British expedition, has been assassinated by Snoussis tribesmen and that 30 of his followers have also been killed. The scene of the massacre, according to these reports, is a point 30 miles south of Tripoli.

TEN INNINGS AT PROVIDENCE.

Toronto Trounces the League Leaders by 2 to 1—Players Fined.

Providence, June 17.—The game to-day between the Providence and Toronto Clubs was a splendid 10-innings battle between Pitchers Friel and Dineen. The score remained a tie at 1 each until the 10th innings, when Casey rapped out a two-bagger and scored the winning run on Dineen's single, with none out. Five of the Toronto men were fined $5 each, and Lutenburg was put out of the game for abusive language to the umpire. Score:

Mr. McVeity's Statement.

Ottawa, June 17.—Sir Charles Tupper's prompt repudiation of the statement that Mr. Taylor McVeity had been approached by an accredited agent of the Premier's to ask Mr. McVeity to give a secret written pledge to support the Remedial Bill has placed the Independent Conservatives' candidate in somewhat of a quandary. Mr. McVeity still sticks to his story, and in course of conversation to-day said: "I can prove my statement in any court of law. The evidence which I can produce cannot be controverted. Why was it that some of those in the audience who heard me make the statement and who knew all about it did not contradict me at the time? If they could have done so that would have been more to the point than asking Sir Charles Tupper to deny something I had not said. I did not say that Sir Charles Tupper had directly done anything. What I did say was that I had been approached through an accredited agent of his. Everybody knows how these things are done."

Some people are constantly troubled with pimples and boils, especially about the face and neck. The best remedy is a thorough course of Ayer's Sarsaparilla, which expels all humors through the proper channels, and so makes the skin become soft, healthy and fair.

Mr. G. R. Blount, Methodist minister, Dresden, Ont., says:—"After a prolonged attack of la grippe, I was very nervous and weak, and troubled with severe pains. I took one box of Miller's Compound Iron Pills and am perfectly well now." Sold in Peterborough by Wm. Madill, druggist.

HOW THE SUN LIFE

FULFILS ITS PROMISES.

A Matured 10 Year Endowment.

Profits Paid by the SUN 21 per. cent more than the Estimates.

The following letter, which speak for itself, was received by the undersigned this morning from a gentleman in Brockville, whose ten year endowment which he held in the Sun Life Assurance Company of Canada matured last week and was paid him. The Sun is modest in promises but UNEQUALLED IN RESULTS. The public are benefitted by results, not by promises unfulfilled

BROCKVILLE, November 7th, 1895.

W. H. HILL, Mgr. Central Ontario Sun Life Assurance Company of Canada, Peterborough, Ontario:—

DEAR SIR,—I should have acknowledged the receipt of yours enclosing cheque for endowment policy No. 12,671 before, only I wanted to write something more than a mere receipt. I am pleased to hear of the continued prosperity of the "SUN" and it speaks well for your Company when the profits are greater (by 21 per cent.) than you as the Company's representative promised or rather estimated, as was the case with this policy.

I hope your Company will continue to prosper and I often regret that I do not carry more Insurance than I am doing. I might have carried twice as much as I do when at Minden without any great effort, still what little I do carry I feel is perfectly safe being in the "SUN."

I must thank you for your promptness and kindness regarding this policy just settled. I hope we will both be alive and well when the new one I now hold will be due in 1905 and assuring you of very best wishes, I remain,

Yours Sincerely,
(Signed) F. R. C.

☞ The above voluntary testimonial is significant and shows in a most practical way the SUN'S standing as a profit paying institution.

Ayer's Sarsaparilla

"I was troubled for years with a sore on my knee, which several physicians, who treated me, called a cancer, assuring me that nothing could be done to save my life. As a last resort, I was induced to try Ayer's Sarsaparilla, and, after taking a number of bottles, the sore

began to disappear and my general health improve. I persisted in this treatment, until the sore was entirely healed. Since then, I use Ayer's Sarsaparilla occasionally as a tonic and blood-purifier, and, indeed, it seems as though I could not keep house without it."—Mrs. S. A. Fields, Bloomfield, Ia.

PROGRESS OF ELECTRICITY.

The Wonderful Marvels Now Seen at a Modern Electrical Exhibition.

At the Electrical Exposition in New York last week were seen marvels of which poets, in their wildest imaginings have never dreamed, and the wonderful fluid that we know by the name of electricity, chained and made to do man's work, aye, and woman's, too, even to performing such ordinary household functions as baking biscuits and ironing clothes. What the average visitor asked to see first was the X-ray display, and, when satisfied with this, he rushed across the hall to view Niagara and hear the thunder of the falls. Of course, the exhibition was most useful to practical electricians, who find in these "fairy tales of science" and "long results of time," helpful suggestions and information in the way of business. These gentlemen know all about kilowats, ampheres, dyamos and induction coils, which are "caviare to the general," but whether the visitor was seeking scientific information or simply wishing to be amused and instructed, this wonderful collection of what would have been regarded as miracles twenty-five years ago, can be relied upon to meet almost every possible wish in this direction. And still we are told that we are only in the infancy of electrical discovery—having yet scarcely crossed the threshhold of the marvelous temple that it will be the privlege of posterity to enter and inhabit.

The Zerograph.

The serograph, an instrument in appearance very much like an ordinary typewriter, is being used in England for transmitting or receiving telegraph messages. One machine is employed at each end of the line. In sending a telegraphic message no special training is required. The operator depresses in turn the keys of what appears to be an ordinary typewriter keyboard, with the usual arrangement of the letters. The depression of a key closes the connection of a local battery of from five to ten small accumulators, which causes a current to flow, not only actuating the printing and inking mechanism of the trasmitting istrument, but also closing the line circuit, which, in its turn, completes the local circuit of the receiving instrument. The two machines are thus simultaneously actuated, and as the operator presse the key he not only prints the message on his own instrument, but makes an exact reproduction upon the receiving instrument. As soon as the end of a line is reached the machine automatically moves the paper forward, and, releasing a spring, causes the paper roller to move along ready for the first letter to strike at the commencement of a new line. The machine is thus perfectly automatic in its action, and may safely be left to take care of itself at the receiving end, the message as received being printed on the roll of paper without any attention being required.

The Efficiency of Steam Turbines.

The steam turbine is attracting the attention of engineers to a growing extent, and reports come from abroad of really surprising results. At the Bordeaux exhibition a 100-hourse power De Laval turbine ran on 21 pounds of steam per hour per horse power on a seven hour test, with 113 pounds initial pressure and 26 inches of vacuum. With a load of 50 horse power the consumption per horse power increased to only 23.27 pounds. A satisfactory item as bearing upon the continued efficiency is that after nine months of use the turbine generated a horse power on 19.58 pounds. At Troyes a two-horse power turbine, running with only 71 pounds initial developed a horse power on the same amount—19.58. When it is remembered that these are brake, not indicated horse power, it will be recognized that these performance more than equal the recorded duties of simple condensing engines of the same power. The efficiencies increase with the size and power. If it shall transpire upon repeated test and with continuous use that this type of motor can attain and maintain such duties as these without betraying serious disadvantages it will make a serious rival for the piston engine, than which it is much lighter for the same power, small, compact and extremely simple.

Length of Roentgen Rays.

Professor Rowland of Johns Hopkins University, states that the wave length of the Roentgen rays cannot be greater than one-seventh-millionth of a centimetre or one-seventh that of yellow light, thus placing them beyond the ultra-vjolet rays of the spectrum.

Cleansing the Air.

The air, after a heavy snowfall, is usually very clear, because the snow, in falling, brings down with it most of the dust impurities and leaves the atmosphere exceedingly clear.

ABOUT THE LIVER.

A lazy, slow or torpid liver influences the whole system, causing billousness, sick headache, sallow complexion, languor and dullness. Burdock Blood Bitters regulates the liver, purifies the secretions and cures all forms of liver troubles. We say so and here is the proof:—

I hereby wish to thank you for the great benefit derived by me from your Burdock Blood Bitters. For three years I was troubled with liver complaint and tried everything to no purpose. I had almost given up hope until one day I determined to try Burdock Blood Bitters. I can say now that marked improvement resulted from the use of the first bottle and at the end of the sixth bottle I discontinued its use, being completely cured.

THE FARM GARDEN.

The Best Method of Procedure to Secure This Home Desideratum.

Every farmer in Canada should have a garden for growing small fruits and vegetables. The great drawback to gardens on the farm is the time it takes to cultivate and keep them free from weeds. The land is a small item, one-quarter of one acre being quite sufficient. Select a piece of ground 330 feet long by 33 feet wide, at least 50 feet from any large trees; let the long way be north and south if possible. Give a good coat of manure (five good loads will be none too much) in the fall and plough deep as soon as the manure is spread. As soon as the soil is dry in the spring, plough highly, about four inches, and harrow thoroughly, enough to make a fine seed bed; start on the side nearest to the house and plant one row of black raspberries, followed by two rows of red. These should be planted two feet apart in the row; the rows 30 inches apart. Next plant two rows strawberries one foot apart in the row; these should be planted as early as possible. Let your next two rows be early potatoes, followed by one of early corn, one of beans—plant twice, so as to have a longer season for green beans for table use. Divide the next row in five equal lengths, and sow 66 feet in each of carrots, beets, parsnips, lettuce and spinach. Your next row should be onions—two varieties—sets for large ones and some small variety for pickles. You have now two rows left; make the two into one plant waterm lons at one end, citrons at the other and cabbage, tomatoes and celery between.

As the kind of varieties to plant will make a great deal of difference, be sure you get good plants and good seed. Here is what I grow, and I think they are the best: Black Cap raspberries—Souhegan and Gregg, earliest and surest, for red—Cuthbert and Marlboro; one is early, one late. Strawberries—Crescent and Wilson's. For potatoes—Early Six Weeks. Corn—Cory. Beans—Six Weeks for early; Wax for late. Carrots—Short Horn. Beets—Turnip. Parsnips—Hollow Crown. Watermelons—As early a kind as possible. Cabbage—Two kinds, early and late. Celery—Giant Pascal. Tomatoes—Acme.

All your work can be done with the horse hoe or scuffler. Keep it free from weeds; cultivate often, it increases the moisture in the soil; never let the weeds get the start of you; trust more to the hoe than the watering can. There are lots of other fruits and vegetables, but try these first; you needn't care how dry the season is if you cultivate enough. Don't plant too early. Put your celery in a trench containing a foot of well-rotted manure well mixed with some of the top soil and keep banking up as it grows. If you want strawberry plants let one runner grow from each plant; if not, cut them all off. A good garden will repay you well for all your work.—T. W. Lamb, Bruce Co., Ont., in Farmer's Advocate.

PETERBOROUGH, TORONTO, LINDSAY

PROVINCIAL ROAD INSTRUCTOR

He Will Advise the Municipalities Regarding the Construction of Roadways.

A communication was read at Wednesday night's meeting of the Council from Hon. John Dryden in reference to the appointment of Mr. A. W. Campbell, city engineer of St. Thomas, to the position of Provincial Road Instructor, and offering his advice to the municipality.

Mr. Campbell was in Port Hope yesterday and conferred with the Councillors there. He said the great trouble with the building of roads was that the foundation is not solid and is crowned with a covering of gravel and sand. A wagon and load passes over this and a rut is formed in which every vehicle passes. The rain comes, settles in the rut and sinks to the foundation, making it, if not softer, full of heights and hollows. The foundation should at first be laid of first-class material, then thoroughly rolled and pressed down and over all put the gravel and crushed quarry stone. This should again be rolled until every stone has been forced into interstice. The road is then compact and no rut will be formed unless worn by traffic. The draining is the most important feature to be looked after and if the road is properly constructed the rain will not sink into it but run to the gutters at the side. He also spoke upon the building of sidewalks, that they should be built over an excavation, the stringers laid on stones and though some people seem to think keeping the air from the timbers was beneficial, he was averse to it. A sidewalk built as above will last some 17 or 18 years.

Mr. Campbell thought it would be a good investment if each municipality had a steam roller or crusher at its disposal, or if the county council would invest in them and let them to the different towns.

The great difficulty to be met with was the animosity of the people who seem to pay no serious attention to such an important matter as a good road. As it is a certain amount of their taxes are paid for he maintenance of the roads and they never see the benefit of their outlay, or are dissatisfied individually with the work.

Some system should be found by which various councils coming and going should be guided in road improvement and Mr. Campbell will, we understand, forward to the members of the council, more especially the Street and Bridge Committee, a set of plans to be followed in such work so that every council will improve in the same manner He went over some of our roads after the meeting and offered very valuable suggestions.

IT IS IN THE AIR.

Tweed People Talk About it.

It is in the air.
Can't stop it spreading.
Can't keep down a good thing.
People who don't know about it want to known.
People who do know, want to tell about it.
It is kidney education.
Tweed people are learning fast.
Here are some facts.

One of the best known residents of Tweed is Mr. W. H. Houston, who relates the following interesting facts: Mr. Houston says, "I have been very bad for several years with pains in my side and back.

"I had to urinate very frequently, in fact my rest was disturbed by frequent rising at night for that purpose. I got a box of Doan's Kidney Pills, at Newton's drugstore, and have experienced great relief from the first.

"I am sure that I have been greatly benefited, and can recommend them highly to anyone troubled as I was."

WEDDED IN DUNDAS.

An Old Peterborough Boy Takes Unto Himself a Bride.

Another of Peterborough's old boys was wedded on Wednesday last, when Mr. Dee Montgomery, son of Mr. Andrew Montgomery, No. 210 London street, was united in marriage to Miss Mary L. Schell, at Rose Cottage, the residence of her father, Mr. Wm. Schell, of Dundas.

The ceremony was performed by Rev. Mr. Hamilton, of the Dundas Presbyterian church, and the bride was given away by her father.

The bride was charmingly costumed in a gown of rich cream silk trimmed with corded silk of the same shade. She wore a wreath and veil and carried a very handsome bouquet of roses. Miss Clara Wilson, of Dundas, was her bridesmaid and was also attired in cream.

The groom was assisted by Mr. Bert Armstrong, of Flint, Michigan.

At present Mr. and Mrs. Montgomery are spending a few days in Peterborough at the family homestead, but return west on Monday, when Mr. Montgomery will resume his duties in connection with the firm of the J. B. Armstrong Company, for which he travels.

The Misses Montgomery, of London street, sisters of the groom, were in attendance at the wedding.

THEY ARE GIVING WAY.

Physicians Commence to Realize the Value of Dodd's Kidney Pills.

OTTAWA, June 15—The inveterate reluctance to admit the success of patent medicine, usually evinced by physicians is is rapidly giving way so far as Dodd's Kidney Pills are concerned. The cases of Dr. Rose and Dr. McCormick, who published details of their recovery from diabetes and Bright's disease, through the agency of this remedy, were the first attacks on the citadel of their skepticism and now it appears as if the remarkable recovery of Mr. G. H. Kent, of this city, the details of which have been transmitted to the press, would complete what has been so auspiciously begun. The published interviews with Mr. and Mrs. Kent and the sworn statement of the former leaves no foothold for disbelief.

EAST PETERBOROUGH.

Mr. Lang and Mr. McWilliams in Blairton Last Night.

Mr. Lang and Mr. J. B. McWilliams addressed a very large and successful political gathering of the electors of Belmont at Blairton on Thursday evening. Mr. McQuaig occupied the chair.

Both gentlemen dealt with the public questions of the day in a most favourable manner.

Belmont promises to do much better for the Liberal candidate this year than it has ever done in the past. Mr. Lang will address the electors at the town hall, Belmont, to-night. Everywhere throughout the riding Mr. Lang is being met with the most cordial assurances of support, and the people of East Peterborough are evidently quite satisfied in their own minds that it is time the affairs of Canada were placed under a different management.

Hood's Sarsaparilla purifies the blood, overcomes that tired feeling, creates an appetite, and gives refreshing sleep.

PERSONAL.

Mr. Jack Parson's many friends will be delighted to hear that he is in town on a short holiday.

The Misses Montgomery, of London street, are spending a few weeks with relatives in Guelph.

By a typographical error Mr. Frank Walden's name was spelled incorrectly in the reference to his marriage in yesterday's EXAMINER.

Mr. Bert Wallace has gone to the back lakes on his holidays, and his duties in the meanwhile are being taken at the G.T.R. depot by Mr. S. Dunn, relieving agent, of Allandale.

SPORTING PASTIMES.

Wheel Talk and Items of Local and General Interest to Sportsmen.

THE WHEEL.

Always observe the rules of the road. Pass an approaching wheelman vehicle or pedestrian on the right—your right—and anything going in the same direction as yourself on the left. Ride on the left hand side of the lady, so that you may have your right arm to assist her if necessary. A left-handed man will reverse the position. The position to the left also places the man between the lady and any possible danger that may arise from passing vehicles. When escorting a lady, should you come up behind a vehicle at such a time that you will be forced to pass between it and another team approaching, take the lead and force a passage for her to go through. Ride near the right hand horse as you pass him, and do not pull over to the left until the lady has plenty of room in front of the horse.

"It is a Great Public Benefit."

These significant words were used in relation to Dr. Thomas' Eclectric Oil, by a gentleman who had thoroughly tested its merits in his own case—having been cured by it of lameness of the knee, of three or four years standing.

Very Attractive.

A sideboard in A. Clegg's window seems to attract the attention of large numbers to-day. It is certainly one of the handsomest pieces of furniture we have ever seen. All who appreciate artistic furniture will want to see it.

Fruit Jars.

China Hall has received a full carload, 1440 cases, of fruit jars. Do not buy a jar till you have seen their jars and got their price. Their jars are guaranteed not to crack in filling and will be replaced in case they do. Prices the lowest in town. See the "Beaver" or the "Bees" before buying the ordinary jar.

The Breath of the Pines.

Coughs, colds, asthma, bronchitis, sore throat and lung troubles are cured by Norway Pine Syrup. Price 25 and 50 cents. It breathes out the healing virtues of the pine forests.

GREAT FIRE TOURNAMENT.

The Hamilton and Montreal Representative Firemen are Now Shining in London—Canadian Ladder Work.

London, June 19.—The International Fire Brigade Tournament was successfully opened at the Royal Agricultural, Hall, London, this afternoon. Chiefs Hosmer of Massachusetts and Eton of Hartford, Conn., were present on behalf of the International Fire Engineers' Association of the United States, and representatives of the New York, Illinois, Michigan and Florida Associations were also in attendance. Messrs. Atchison and Litchfield represented respectively Hamilton, Ont., and the New York Fire Underwriters.

Chief Simmonds of London delivered an address of welcome to the visitors, to which Mr. Litchfield replied.

Capt. Beasley introduced Messrs. Benoit and Stevenson of Canada to Capt. Simmonds and the Canadian team drove around the arena and were heartily cheered. Mr. Benoit, in conversation with a representative of the United Press, expressed himself as greatly pleased with the reception accorded the visiting delegation. He also said he considered the British departments steamer and manual work excellent, but did not think their ladder work compared favorably with that of the Canadian.

DIED IN MASSEY HALL

Hon. John Beverley Robinson Suddenly Cut Off.

A SAD AND STARTLING EPISODE

The Ex-Lieut.-Governor of Ontario Stricken Down While Making His Way to the Platform From Which He Was to speak to the Electors—sketch of his Life and Work.

Toronto, June 20.

The crowd which was unable to gain admittance last night in Massey Hall was shocked when the news was whispered around that Hon. John Beverley Robinson had died suddenly inside the building. Many would not believe it, for only a few moments before they had seen him enter the hall, looking as hearty and cheerful as ever. But later news proved the truth of the rumor, and then all classes of politicians stopped talking and wrangling about the issues of the day, and expressed their heartfelt sympathy at the sudden taking off of the popular ex Lieutenant Governor of Ontario.

Mr. Robinson arrived at the Massey Music Hall at 7.40, in company with Sir Charles Tupper, Senator Allan and Mr. W. H. Brock. He had only been in the hall a short time when he complained of not feeling well. Willing hands rendered what assistance was necessary, but in a few moments he died, just about 8 o'clock.

Heart disease was the trouble.

The body was removed to Millard's undertaking establishment, and subsequently removed to the residence of Mr. Christopher Robinson, Q.C., 265 Richmond-street west.

In his youthful days Mr. Robinson was famous in cricket and athletics, and thus in late years he was naturally one of the best known and most popular patrons of all kinds of manly sport. As President of the Toronto Athletic Club and a member of the board, he assisted in guiding the destinies of the biggest athletic institution in the city. He was one of those who counselled the foundation of this club that has proved so prosperous. His pretty residence in Rosedale overlooks the Lacrosse grounds, and not an important event since the opening of the field has Mr. Robinson missed. He was an ardent admirer of athletes and athletics, and many a kindly word of quiet encouragement and praise has he given contestants on the campus.

Mr. Robinson was sound in his theory on boxing, and no matter who opposed the science of the ring he had the courage to always proclaim the virtues and benefits of the manly art.

Hon. John Beverley Robinson was born at the paternal homestead, Beverley House, Toronto, on the 21st of February, 1820. He was the namesake and second son of the late Sir John Beverley Robinson, baronet, and Chief Justice of Upper Canada.

Mr. Robinson, at the age of 17, was one of the aides-de-camp to Sir Francis Bond Head, and in this way was brought actively in contact with the civil troubles of 1837. He accompanied His Excellency from Government House to Montgomery's Hotel, Yonge-street, on the 7th of the month, where the battle took place and the hotel and Gibson's dwelling house were burned; and he was thus an eye witness of the spectacle which Sir Francis Bond Head has described with so much fervor and picturesqueness in "The Emigrant."

About the year 1861, Mr. Robinson proceeded to England with the object of putting a large tract of land in Ontario upon the market for sale. Many persons considered the enterprise a hopeless one, but their astonishment, and that of the public generally, may be surmised, when they learned that he had sold a million acres—now forming part of the County of Haliburton, and subject to the conditions of settlement as published by the Crown Lands Department. A circumstance in connection with this, and worthy of note, is, that he was successful in obtaining as the first president of the company, a former Lieutenant-Governor of Upper Canada, Sir Francis Bond Head, and as vice-president the present Earl of Salisbury, Premier of England, at that time Lord Robert Cecil. It was considered hardly possible that such an enormous sale had been made, and the Hon. Mr. Crawford, as we find by the Legislative Council debates, enquired of the Hon. Mr. Vankoughnet in his place in the Senate, whether it were true that this sale had taken place, to which Mr. Vankoughnet answered, "That the sale of the townships to an English company, as mentioned in the annual report of the Commissioner of Crown Lands, would be successfully carried out, thanks chiefly to the extraordinary zeal and energy shown by Mr. J. B. Robinson, the junior member for Toronto." We find afterwards, by the budget speech of the Finance Minister, that the sale added to the Treasury revenue the sum of £60,000 sterling.

Mr. Robinson was for a time president of the City Council, and in 1857 was elected Mayor of the city. At the next general election he was a candidate for the Toronto representation in the old Canadian Parliament, and was returned conjointly with the Hon. George Brown. It is worthy of note that Mr Robinson was the seconder of the resolution, moved by Mr. Langevin, which defeated the "Short Administration" led by George Brown, and occasioning what was afterwards known as the "double shuffle." Mr. Robinson, like his father, and all the members of his family, was a Conservative, and he gave a strong and steady support to the Cartier-Macdonald administration. While in Parliament he was instrumental in procuring the passage of several acts in reference to the Toronto Esplanade, the re-establishment of the Northern Railroad, and many other local improvements of importance. On the 27th of March, 1862, he became President of the Council in the Cartier-Macdonald administration, holding that office till the month of May following. In 1872 he was returned to Parliament for Algoma, having used his energies in the development of the mining and other interests of that country, and representing this district till the dissolution. On the 17th of September, 1878, he was returned for West Toronto by the very large majority of 637 votes over Thomas Hodgins, the Reform candidate.

TUPPER IN TORONTO.

Thousands Again Crowd Into Massey Hall.

THE AUDITORIUM ALSO FILLED

Fine Decorations and Good Music—The Cheering Was Evidently Organized and Was Not of the Spontaneous Nature That Greeted the Liberal Leader.

Toronto, June 20.—The visit of Sir Charles Tupper to this city was awaited with great interest by all parties, and while the enthusiasm manifested by Government supporters was all that could be desired, there was a decided lack of the unanimous and spontaneous enthusiasm that marked the greeting to Hon. Wilfrid Laurier a week earlier. Everything in the way of music and decorations that could be done to make the demonstration a success was attendeed to regardless of expense, and the programme was carried out well on the part of the managers. The walls of both Massey Hall and the Auditorium were strung with mottoes, setting forth the Conservative platform, and two of the popular baritones of the city had charge of the singing of campaign songs, Mr. Fred Warrington at Massey Hall and Mr. H. M. Blight at the Auditorium. But there was an absence of the real enthusiasm manifested on the occasion of the Liberal leader's visit, and the crowds in the halls were not as great.

It was evident also that the party organizers had endeavored to "fix" things so that only those friendly to the cause could get into Massey Hall. For instance, 5000 tickets of admission to the platform were issued—enough to fill the building—and ticket holders were admitted early, so that by 6 o'clock the hall was packed full. The doors were announced to open at 6.30, and when the thousands of ladies and gentlemen who took that for the hour arrived at the hall they met at the doors big policemen, who informed them that the place was already full. Many ticket holders also got left, and there was a good deal of grumbling.

Mr. W. R. Brock, the chairman, in opening the meeting, spoke of the large number of ladies present. He said that the great Conservative party owed much to the ladies, whose kindly interest had largely helped to keep the Government in power for 20 years. He requested a fair hearing for the speakers of the evening. It was well known at any rate that interruptions would not come from either of the great political parties. Mr. Brock spoke briefly on the trade question, and concluded with, "I am now going to ask you to listen to the Premier of this great Dominion."

When Sir Charles Tupper rose to speak he was greeted with rousing volleys of cheers. A number of men who should have known better, and who appeared to be scattered in well-organized groups throughout the hall, kept up a series of groans and hisses, which were again and again drowned by the cheering.

Upon order being restored, Sir Charles Tupper said: "Mr. Chairman, Ladies and Gentlemen,—I think people want to hear what the leader of the Government of Canada has to say upon those important questions now before the people. (Interruptions.) I take it as a great compliment to that great cause which I represent that its opponents fear open and candid discussion. (Cheers.) It's opponents, beaten in fair discussion, know that their only hope lies in making disorder in a great assembly like this. I take it that it must be men of the lowest possible instincts—(groans and cheers)—who will attempt to insult the respectable audience that I see here to-night, by making it appear that they will not listen to the man who will attempt to stand up and expound the policy of the Government. I am reminded by the picture of that great man, the Right Hon. Sir John A. Macdonald—(cheers)—that the last time I addressed an audience in the city of Toronto, was when I stood side by side with that eminent statesman doing battle not only to preserve the progress and prosperity of Canada, but doing battle to preserve the glorious privileges that we enjoy. You have done yourselves great honor in the city of Toronto by erecting a monument to his memory. (Interruptions.) It appears that there are people here who would insult the dead as well as the living. It falls to the lot of few men during their lifetim eto enjoy what he enjoyed, to witness before his last hours had come the transcendent success of the great measures that had marked his administration of public affairs. Cheers.) A monument more lasting than brass has been erected in the hearts of every patriotic Canadian—(loud cheers)—from one end of this wide Dominion to the other.

That hon. gentleman, from the first hour of his public life to its close, adhered to the great cardinal principle which is the principle of the Liberal-Conservative party to-day, "Equal justice to all without respect to person." Under that banner he fought against prejudice, he fought against the most continued and able attempts to array race against race and creed against creed in Canada; he triumphed, as he ought to, and had that satisfaction before his eyes were closed in death of seeing in this great Dominion all races and creeds living happily, a united family, assisting each other in promoting the interests of the country. (Cheers.) Mr. Laurier had the pleasure of addressing a great audience of the electors of Toronto from this platform recently, and I would like to have the opportunity to-night of drawing the attention of this great body of electors to some of the state-

TUPPERISM.

A man may be considered truly great when his name furnishes the material to coin a new word, and his character furnishes the definition. Tupperism is a word founded on the surname of Sir Charles Tupper, and the meaning, political (not to say personal), is crookedness. In regard to appropriating the property of the people, "Tupperism" is an all embracing term extending from the cheating of the mails by abusing the franking privilege and sending private matter at public expense, to the secret passage of orders-in-council for private and party purposes. Its later development is shown by one of the worst records that ever disgraced any country. The firm of Larkin, Connolly & Co. received $3,138,234 for about $2,000,000 worth of work, the proceeds finding their way into the private purses of politicians and the corruption funds of the campaign. Two of the operators who found their way into prison were released after a few months, and one is now a Tupper candidate for Parliament. The Lachine bridge work, estimated to cost $160,000, has cost $430,000, of which $394,000 has been actually paid. The Caron scandal is of the familiar style of milking subsidies. Sir Adolphe Caron's special connection was that he used his influence in the Cabinet to secure subsidies for the Lake St. John railway, while a member of a construction company interested in the subsidies. He also handled the proceeds. A great part of these alleged subsidies was used as campaign funds. The Harris lead job is an instance of Ministerial operations in violation of promises made to Parliament. A vote of $80,000 was made for the purchase of a piece of land for the Intercolonial Railway at St. John, N.B. But in direct violation of a promise the property was purchased for $300,000, fully twice its actual worth. The Tay Canal is familiar as "Haggart's ditch." It has cost $476,128, about four times the original estimate, and does valuable service in furnishing water power to Mr. Haggart's mills. The Little Rapids lock was estimated to cost $44,000, but was a sink-hole for $300,000. The Galops Channel has cost $900,000 though the estimates were $300,000. The Fredericton bridge was a comfortable present of $300,000 to political friends. The Langevin block, the St. Charles Branch of the Intercolonial Railway, in fact almost everything the Government touches is tainted with "Tupperism." And such is the men the people are asked to honour. The political life of Sir Charles Tupper is studded with excrescences that stain the reputation of a public man. A volume would be required to contain a detailed history of them. On the other hand against the political or personal character of Hon. Wilfrid Laurier, the many weeks of a bitter political campaign has not developed a single charge. To the people who are wearied with the unending record of corruption against the party in power, the purity of the personal and political character of Hon. Wilfrid Laurier is a guarantee of honest government, which the country so grievously needs.

"It is a Great Public Benefit."

These significant words were used in relation to Dr. Thomas' Eclectric Oil, by a gentleman who had thoroughly tested its merits in his own case—having been cured by it of lameness of the knee, of three or four years standing.

THE BIKE CRAZE.

IT IS AN EXPENSIVE LUXURY.

The Whirling Wheel Said to be Ruining Certain Branches of Business.

The New York Herald, discoursing upon the bicycle craze, says:—One hears the same complaint on every side, "The bicycle has ruined our business." While this state of the case is doubtless exaggerated, there is still a modicum of truth in this oft-repeated wail. The bicycle fever seems to have spared no one, and as a natural consequence money that was once spent in many directions is now spent in wheels and the concomitants thereof.

JUGGLES THE JEWELLERS.

It is well known that no branch of trade has been more visibly as well as radically affected by the bicycle craze than the manufacture of watches. A large number of well-known firms which once found it profitable to make watches have abandoned their manufacture for that of bicycles.

The retail jeweller no longer sells pape watches or diamonds, the dry goods dealer no longer measures out silks and laces, the cigar man fails to sell perfectos to Mary Jane's young man, and is forced to lay in slabs of chewing gum instead. Even the tailors feel the strain. Men roll about so much in bicycle suits nowadays as never to wear out their other clothes.

TOUCHES THE THEATRES.

Theatrical managers complain bitterly that the bicycle is hurting their business. Sweethearts used to go to the theatre together when they felt the need of a let-up in the ardent exercise of spooning. Now they go bicycling together. A prominent manager says that the loss to theatres on account of the mad craze for wheeling was simply incalculable. He said that persons who never in the past were known to go out at night unless they went to the theatre would fly about on bicycles every night and never darken a theatre's door.

TOBACCO TRADE TROUBLED.

An immense quantity of candy is consumed by both sexes. Women are said to be incessant chewers of gum and sweets when on the roads. Men are becoming converted to the habit, and instead of smoking as they used to do, now munch mint stick, suck lemon balls or chew gum.

Wheelmen have also discovered that cycling and smoking are irreconcilable. What is the result? Retail tobacco dealers will tell you that there is a tremendous falling off in receipts. An authority on the tobacco trade says that the bicycle has lessened the output of the manufacturers by 70,000 cigars annually. Chewers also find it inexpedient to use the weed in their rides, and many have even gone to the length of giving up the habit altogether.

EVERYTHING FOR A WHEEL.

The New York Sun has the following on the same subject: At a meeting of the Board of Aldermen the other day it was estimated that there were 250,000 bicycles in New York alone, and that they represented an investment of not less than thirteen and a half million dollars.

"How can the bicycle be responsible for hard times, when the money is spent just the same as it used to be; it's all in circulation; it goes into other pockets, that's all?" asked a Sun reporter of a victim of the bicycle habit.

"Oh, my son," he replied, "people save up their money to buy bicycles with. The average bicycle represents a lot of self-sacrifice on the part of the purchaser. Why, I know *lots of young women* who saved their pin money for nearly a year to enable them to buy bicycles for themselves. Well, that money went formerly to theatre matinees, candy, soda water and such truck, or it went to the riding academies.

THERE'S MORE TO FOLLOW.

The tradesmen who are kicking haven't any hope in sight. It isn't likely that half the people who are going to ride the bicycle are riding it now, and not all those who ride own their own wheels yet, but they all intend it. It's a great harvest for the bicycle men, and they are as happy as clams at high tide.

The unlucky tradesmen who are losing money can obtain consolation in the thought that a large part of their loss is a gain to humanity as well as to the bicycle dealer. One of the best known physicians in New York, in conversation with the reporter a few days ago said: "Not in 200 years has there been any one thing that has so benefitted the race as the invention of the bicycle. Why? Why, thousands upon thousands of men and women who previous to a year or so ago never got any outdoor exercise to speak of are now devoting half of their leisure time to healthy recreation. They are strengthening their bodies and developing themselves in every way, and not only are they reaping benefit themselves, but the generation that follows them will be born of healthy parents, and will start in life with the constitutions that our fathers had, free from the weaknesses that come to those who are habitually indolent."

HAD HE KNOWN.

With Dr. Agnew's Cure for the Heart at Hand, Death from Heart Disease is Impossible.

Wonders of this World-famed Physician's Catarrhal Powder.

Success has followed all of Dr. Agnew's specifics. With all the emphasis possible, this is the case with his Cure for the Heart. Its effectiveness is marvellous. The very paroxysms of death may seem to have seized the patient, and yet relief is secured with the taking of a single dose, and the continuation of the use of the remedy soon cures the worst case of heart disease. Geo. Crites, customs officer, Cornwall, Ont., says:—"I was troubled with severe heart complaint for several years. The slightest excitement fatigued me. I was under the doctor's care for over six months, being unable to attend to my business. No relief came to me, and it was only after I had scarcely dared to hope for cure that I used Dr. Agnew's Cure for the Heart, and in a comparatively short time it removed the disease altogether."

With careful, innate conservatism, yet recognizing its benefits, the Rev. John Scott, D. D., Presbyterian minister of Hamilton, is only one of the many reading clergymen in Canada who, having used Dr. Agnew's Catarrhal Powder, has freely testified over his own signature as to its unquestioned benefits. It may be only a cold in the head, or the case may be an aggravated phase of catarrh, that has baffled other remedies, but this simple and pleasant remedy will give relief in 10 minutes, and entirely remove the difficulty. BUTCHERS AND LIARS

The Chief Characteristics of the Spanish Officers in Cuba—A Sample Story Showing Exaggeration.

Havana, June 19.—Private advices from Camagury are to the effect that the rebel loss in the battle of Najasa was only 11 killed and 49 wounded, instead of 500 killed and wounded, as was stated in the official report of the fight. The opinion is gaining ground here that the Spanish reports of a victory were untrue.

It is said that Maximo Gomez, the rebel commander-in chief, is marching towards the railway between Nuevitas and Puerto Principe, his intention being to cut off communication between the two cities.

Advices from Manzanillo, Province of Santiago de Cuba, show that numerous parties of rebels belonging to the command of Rabi and Jose Maceo are concentrating in the vicinity of that city. Every precaution is being taken by the Spanish commander there to prevent or repulse an attack on the city.

ments that that hon. gentleman made. (Interruption.) I trust that his friends who are here to-night will not find it necessary to drown the voice of any person who proposes to review briefly the references that that hon. gentleman made on a recent occasion here. (Hear, hear.) If they do they will bring discredit upon him and upon the cause he advocates. On that occasion he expressed the opinion that there are hundreds and thousands of Conservatives in Canada to-day who are not Ministerialists. There are only two great parties. (Interruption.) If that be true, I would like to ask this intelligent audience to institute a comparison between the fiscal policy of the two great parties.

Does any man in the ranks of the Liberal party in Canada venture to challenge a comparison between the condition of Canada under the Liberal Government and its condition under the Liberal-Conservative party? For five years, from 1873 to 1878, the Liberal party in Canada were in power. (Cheers for Mr. Laurier.) It appears that these gentlemen don't want any reference made to those five dismal years that the nation labored under the grossest incapacity and misgovernment that ever existed. (A voice: "What is the matter with the Pacific scandal?") Under that cry Hon. Alex. Mackenzie succeeded in snatching a verdict from the people in 1874. He was returned to power, and I draw the attention of the electors to this striking fact, that at the end of five years that Government was, at the first moment the intelligent electors of this country got an opportunity of expressing their sober second thoughts, turned out and the Liberal-Conservative party was returned to power by the most magnificent majority that it has ever had. And so vivid has remained the recollection of that dismal failure that on four successive occasions since that date have the electors of Canada confirmed that verdict, and have said to the Liberal party, "No, you have been weighed in the balance and found wanting."

Is it any wonder, Mr. Chairman, that these gentlemen should not want to discuss the question of the fiscal policy of this country. What is the fiscal policy of the country? It is that upn which the happiness of every man, woman and child depends; it is that upon which depends the great question as to whether Canada is to be a great, prosperous and progressive country, or a retrogressive country. (Cheers and "No, no.") I say that is the question that appears to me to be worthy fair consideration even by the Liberals, who may be present. I will give you a plain statement of the position of the two great parties. (Cries of "Three, three.") I don't call a party of two members any party; if that constitues a party, there are three. Mr. McCarthy is a man of great ability, who has devoted his life to the unholy work of stirring up strife. (Interruption, which continued for some minutes.) He has found that at the end of three years he has very few supporters. I don't call that a party. (Interruption.) Am I to understand that the parties who are interrupting are not Liberals? Has the Liberal standard in Ontario been hauled down? (No.) Then tell me why it is that in The Globe newspaper of yesterday morning, I am told that in 20 constituencies in Ontario no Liberal has dared to show his face. (Cheers.)

Sir Charles continued to speak, and above the din he was heard to refer to those of the audience who were without those good manners that distinguish every man who is worthy and respectable. I ask those who are interrupting to remember that they are in the presence of one of the most brilliant galaxy of ladies that has ever graced a political meeting; I ask them if they think it is good manners for them to prevent those ladies doing what they came here to do. I can scarcely believe that I am standing in the city of Toronto, where there has been so much good manners, so much of that good feeling that characterizes every decent assemblage. (Interruption.) I ask any intelligent person not to do himself the discredit of bringing disgrace upon this great city that will be thrown upon it if it is found that the Prime Minister of Canada is unable to secure a hearing. I can retire from this platform and by doing so inflict the deadliest blow upon the Liberal party, or the Third Party, if you like to call it that, and I can tell you this, that if I do retire from this platform because of interruption it will be resented by hundreds of thousands of people throughout the Dominion. If it is told that when the leader of the Government came here to refute Mr. Laurier's statement—(cheers)—you were afraid to allow him to do so, they will come to the conclusion that you were here to prevent it being replied to. I have during the past five weeks travelled over Canada to an extent that no other man has done, and on every occasion I have met with the greatest ovations that have ever attended any political leader. Sir Charles, for confirmation of his statement, referred his hearers to The Globe, whose reporter he had been happy to accommodate in his private car. Should it be said that in the Queen City, that claims to be the great seat of learning, to have a great population of respectable men, a city that claims to be second to noe in point of civilization, that for the first time the leader of Government should be unable to obtain a fair and manly hearing? Do you want to make public discussion impossible in Canada? Do you want to make it impossible for men belonging to the Liberal party to get a hearing in any part of Canada? Why this senseless interruption will stamp you as leaders in one of the most disgraceful interruptions that ever took part in Canada.

Taking up Mr. Laurier's speech at the recent meeting in that hall, Sir Charles dealt with it seriatim, defending the administration of the Government.

Messrs. Coatsworth (East), Cockburn (Centre) and Clarke (West), Toronto, also made speeches.

The overflow meeting at the Auditorium taxed the capacity of the building. Mr. C. H. Ritchie presided, and the speakers were Mr. Donald McMaster, Q.C., of Montreal, Mr. Cockburn, candidate for Centre Toronto; and Mr. O. A. Howland, M.L.A. There was a good deal of interruption, and the loud cheering of Mr. Laurier's name indicated that there was a large contingent of Liberals present. After Mr. Howland's speech, Mr. George Kappelle announced that Sir Charles Tupper would not speak there, having driven to his temporary home on learning of the sudden death of Hon. J. B. Robinson at Massey Hall. The meeting threupon dispersed.

Byron used a great deal of hair-dressing, but was very particular to have only the best to be found in the market. If Ayer's Hair Vigor had been obtainable then, doubtless he would have tested its merits, as so many distinguished and fashionable people are doing now-a-days.

WILLIAM CHANGES HIS TACTICS.

The German Emperor Presents a Memorial Wreath to a British Regiment.

Dublin, June 19.—At the Curragh camp, Dublin, yesterday Baron von Eckhardstein, attache to the German Embassy at London, presented to the First Dragoons on behalf of the German Emperor, who is honorary colonel of that regiment, a wreath commemorative of the battle of Waterloo. In making the presentation Baron von Eckhardstein said he was confident that the regiment would never be required to take the field against the Kaiser or his Majesty's people. The wreath, he said, had been sent from Berlin as a token of the deep interest which the Kaiser felt in the regiment.

KILLED THE MARKER.

A Stray Bullet Strikes Private Brennan of C Co., 13th U.S. Infantry, at Niagara.

Niagara, June 19.—Private Brennan of C Co., 13th Infantry, U.S.A., stationed at Fort Niagara, N.Y., was accidentally shot and instantly killed while acting as marksman at the rifle range to-day. Brennan was in the butts when a shot fired low struck the ground, deflected on a timber and struck the unfortunate man on the right side. The ball passed through his body and lodged in the left arm.

Yellow Fever at Guatemala.

New York, June 19.—The Herald's Panama despatch says: Reports have reached here of a terrible epidemic of yellow fever in Chiquimulilla, Guatemala. The disease has been fatal in almost all cases, and many of the most notable families in the place have been exterminated.

Died While Playing His Violin.

Orangeville, June 19.—While playing his violin yesterday Mr. James McMaster, ex-Deputy Reeve of Mono, was seized with a pain in his head, and died a short time afterwards. He leaves a widow and grown-up family.

Burglars After Small Swag.

Belleville, June 19.—The Intelligencer office was burglarized last night and $1 in smal change taken.

When a man owns a blooded horse he is always careful of its health. He looks after its diet and is particular that its feeding shall be regular and right. While he is doing this, it is as likely as not that he is himself suffering from some disease or disorder. When the trouble gets so bad that he cannot work, he will begin to give himself the care he gave the horse at the start. Good, pure, rich, red blood is the best insurance against disease of any kind. Almost all diseases come from impure or impoverished blood. Keep the blood pure and strong and disease can obtain no foothold. That is the principle upon which Dr. Pierce's Golden Medical Discovery works. It cleanses, purifies and enriches the blood, puts and keeps the whole body in perfect order; makes appetite good, digestion strong and assimilation perfect. It brings reddy, virile health. It builds up solid, wholesome flesh (not fat) when, from any cause, reduced below the healthy standard.

Weak, Nervous Women.

One to whom a night's rest was unknown.

Strength and good health restored.

I was subject to frequent attacks of nervousness that seemed to sap all my vitality and left me in a state of weakness and misery. I could not relish food and such a thing as a good night's rest was unknown. Incapable of any exertion and with an ever present tired and despondent feeling. Medicines that I took did not do any good; it was a case of gradually becoming weaker and weaker. Hearing of Scott's Sarsaparilla and its success with similar cases to mine, I used it, and from the first few doses began to get better, appetite returned, got natural and refreshing sleep. I grew stronger, in fact life seemed to be fanned into activity.—Lottie Graham, 174 Crawford Street, Toronto.

For any weakness of the nerves, pale and sallow complexion, loss of appetite use the best blood and nerve remedy extant, Scott's Sarsaparilla. Insist on getting Scott's—imitations do not cure.

Sawmills Burned at Sheddon.

Sheddon, June 18.—About 1.30 this morning flames were seen issuing from the roof of Charles Warwick's sawmill; adjoining the sawmill was a large frame chopping mill, and directly west a large brick engine room. In a few minutes the whole structure was a mass of flames, and in two hours it was completely destroyed. Nothing was saved except a few bags of feed and a pair of scales. The origin of the fire is a mystery. Loss $4500; insurance $2500.

A Vanderbilt Engaged.

New York, June 17.—It was authoritatively announced last night that Cornelius Vanderbilt, jr., whose marriage to Miss Grace Wilson has been set for Thursday, is seriously ill with inflammatory rheumatism at the home of his father. Owing to the illness of Mr. Vanderbilt it is thought that the wedding day may have to be postponed.

ITS FAME SPREADING.

A New Remedy in General Use in Manitoba and the Northwest.

Winnipeg, June 8.—The effects of the regular wave of sickness which sweeps over this portion of the Dominion in the spring, are noticeable in the increasing amount of the druggists' sales. There has been quite a run on the kidney remedy now so well known under the name of Dodd's Kidney Pills. The recovery from Bright's disease of Mr. Arthur Coley, of Somerset, through their use, an account of which appeared in the papers, gave a considerable impetus to the sale, and the remedy has become indispensable in many Manitoba households. Its fame having penetrated into the remotest parts of the province and Northwest Territories.

and all wasting diseases, should write to me for advice.

I have been a close student for many years of the subject of weakness in men, the fact is, I was a sufferer myself. Too bashful to seek the aid of older men or reputable physicians, I investigated the subject deeply and discovered a simple but most remarkably successful Remedy that completely cured me, and fully enlarged me from a shrunken, stunted condition to natural size and strength. I want every young or old man to know about it. I take a personal interest in such cases, and no one need hesitate to write me, as all communications are held strictly confidential. I send the receipt of this remedy absolutely free of cost. Do not put it off, but write me fully at once, you will always bless the day you did so. Address,

TRIED TO STEAL A RING.

The Experiences of a Peterborough Jeweller With a Young Girl.

And her golden hair was hanging down her back. She had large blue eyes, a pretty face and was about 13 years old. The other day she walked into the jewelry store of W. A. Sanderson, George street, and wanted to buy a ring for about $1.25. The rings exhibited didn't appear to suit; besides it was difficult to find one to fit any of her fingers properly. What was too big for her little finger was too small for her other fingers and she tried nearly every ring in the store.

Then she thought she wouldn't buy a ring that day—none of them suited her, but she might come back again sometime for one, she said, as she went to walk out the front door smiling sweetly and looking innocent.

She was called back and told that she had stolen one of the rings. The little girl blushed, looked at the ceiling, then at the floor, and indignantly denied the charge. The salesman persisted that she had taken a ring, as he knew exactly what rings he had brought out, but the girl denied it all.

The clerk took her to the rear of the store and proceeded to investigate. After making a superficial examination without success, the young man closely examined the girl's hair, the frills of her dress, her belt, her handkerchief, but was unable to find the ring. Then he made her take off her boots, but the ring wasn't there, neither was it in her stockings.

The girl had taken the ring, but where could it be, the clerk anxiously thought. As a man, he could investigate no further and he didn't want to call in the police. He picked up the handkerchief again and the little trinket bounced on the table. It was a case of where the quickness of the hand deceives the eye, for while he had been taking off the child's boots the latter had taken the gold ring from wherever she had concealed it and placed it in the handkerchief. The maiden had not a cent about her, but was allowed to go without being charged with theft.

Workingmen, the ballot is absolutely secret. You are perfectly safe in voting as your judgment dictates. Intimidation cannot penetrate the ballot box.

A FISHING PARTY.

The Big Catch That was Made Back at Young's Point.

Mr. Tobias Fitzgerald and party have just returned from the back lakes where they have been fishing since Tuesday last and some grand sport is reported.

The party was composed of Dr. Trow and his brother, Mr. Patterson, of the Home Life Ins. Co.; Mr. J. G. Howarth, of the Merchants Life Ins. Co.; Mr. Firstbrook, Mr. S. J. Bailey and Mr. Peel, all known well as some of Toronto's most enthusiastic disciples of the rod and reel. The party was captained by our own "Tobe" and so it goes without saying that they had a royal time amongst the fish.

Young's Point was the objective point of the trip and Mrs. Kearney kindly allowed the party the use of an entire cottage, whilst meals were partaken of at her hotel. All speak most highly of the manner in which the hospitable landlady looked after them whilst at the Point and it is probable that a good many more of Toronto's fishermen will in consequence patronize the Point in search of sport.

Though only two days amongst the fish, so well did the captain pilot his party to the haunts of the gamey black bass that over 200 of them were caught, as well as half a dozen fine 'lunge, the largest of which weighing 17½ pounds, was landed by Mr. J. G. Howorth whilst still fishing for bass.

That the party had time for other things besides fishing is evidenced by the fact that Dr. Trow developed wonderful powers along the line of potato ploughing, and Mr. Firstbrook blossomed out as an A-1 hand at churning, at which latter job he was assisted, on Mr. Amyott's farm, by all the party in the hope of getting a drink of fresh buttermilk as a reward. Those who know of Mr. Amyott's hospitality will know that the buttermilk circulated freely shortly afterwards, and the captain had a hard time persuading the party that it was time to again go out on the water.

Good morning, have you read Thos. Slater's advertisement for men on page 3?

A POSITIVE DECLARATION.

The Independent Candidate Sets His Position Before the Public.

The EXAMINER has been requested to print the following:—

Canada, Province of Ontario, County of Peterborough, TO WIT: } I, Robert C. Newman, of the City of Toronto, in the County of York, DO SOLEMNLY DECLARE AS FOLLOWS:—

1. I am the Independent Candidate in the pending election of a member for the House of Commons of Canada, for the West Riding of the County of Peterborough.

2. I understand it is alleged that my Candidature was brought about by or through members of the old parties and in the interest of one party for the purpose of splitting the opposite party vote and thus assisting in the election of one of the old party candidates.

3. I say that such allegation is absolutely false: that I never knew Mr. J. B. McWilliams nor had I any communication, directly or indirectly, with him or any agent of either party, respecting said election: that I am, as I profess, an absolutely independent candidate, and that my candidature is not, nor is it intended, to be for the benefit of either Liberal or Conservative party, but solely for the purpose of advancing the cause of the Independent party to which I belong.

And I make this solemn declaration, conscientiously believing it to be true, and knowing that it is of the same force and effect as if made under oath and by virtue of "The Canada Evidence Act, 1893."

DECLARED before me at the Town of Peterborough, in the County of Peterborough, this 19th day of June, A.D., 1896. } ROBERT C. NEWMAN.

Official Route of B.Y.P.U.

The Transportation Committee of the Baptist Young People's Union have decided upon the Canadian Pacific Railway, Wabash, C. M. and St. Paul, as the official route to Milwaukee on the occasion of the annual convention to be held at that city on July 18th. The special official train will leave Toronto at 7 a.m., July 15th, arriving at Milwaukee the same evening.

Battalion Notes.

Yesterday morning a couple of privates in the 57th were fined $5 and costs, amounting to over eight dollars, for non-attendance at drill. The officers are determined that if a man is sworn in for three years and takes the benefits of the annual trips that he must turn out regularly to drill each season in order to maintain the present high state of the battalion's efficiency.

Infant Mortality Arrested When Lactated Food is Used.

It is a well-known fact to physicians and health boards that in all the important cities and towns where Lactated Food was regularly used in summer time as the chief article of diet for babies that infantile deaths greatly decreased.

Babies nourished on health-giving Lactated Food are enabled to maintain a high decree of vitality and strength, and pass unscathed through the hottest weather.

SENTENCED TO BE HANGED.

John Kearney, of Lindsay, is Found "Guilty" by the Jury.

In the Agnew murder trial at Lindsay, the jury this morning brought in a verdict of "Guilty" against John Kearney, and he was immediately afterwards sentenced to be hanged on Oct. 1st.

THE FENELON FALLS FIRE.

The Local Fire Brigade Goes to the Rescue.

Last night at about ten o'clock the alarm was sounded in response to a telegram from Fenelon Falls requesting aid.

The members turned out promptly and were taken, together with the engine, on a special, which landed at them the Falls in an hour and ten minutes. It was then found that the immense lumber yards of the Howry Company were in a blaze.

The efforts of the men were confined to endeavoring to prevent the blaze extending to the mills, and in this they were successful.

Over six million feet of lumber was destroyed, but as there was no wind the fire did not spread beyond the yards.

Brigades were in attendance from Bobcaygeon and Lindsay as well as Peterborough.

The reflection of the big blaze could be seen in the sky until near morning. The local brigade has returned.

CANADIAN FORESTERS.

Their Annual Meeting Still in Progress.

Good weather, warm, but tempered with a cool and invigorating breeze, helped to make the run up the river, to which the Canadian Order of Foresters of Montreal treated their visiting brethren Wednesday afternoon a complete success. The delegates assembled at the Masonic Temple, on Dorchester street, about 1.30 p. m., and some twenty minutes later formed in procession and marched off, with the band of Vics at their head. Proceeding through Philips square the wharf was reached via St. Catherine, Bleury, Craig and McGill streets. At Victoria square the power of Montreal's water-pressure was shown—a seventy-foot stream being sent into the air, to the great delight of the spectators. An occasion also offered for the Canadian Foresters to display their loyalty, the idea being suggested by the Queen's statute, so the band played the National Anthem, after which three cheers and a tiger were given for Her Majesty. This over the party marched onward to the wharf where the steamer, the 'Duchess of York,' with the heads of the reception committee was awaiting them; the embarkation was quickly effected and the start was made in less than five minutes. The canal and river banks looked their best, the scenery being much appreciated by the men from the west. Steaming into Lake St. Louis, Point Claire was passed, the turn in the homeward direction being made at a point about a mile west of Ile des Soeurs; the run through the Lachine Rapids was the most interesting feature of the trip, the seething waters on this occasion being, if anything, a little more dangerous in appearance than usual. The party landed all well pleased with the trip at the foot of Jacques Cartier square, where the order of procession was again formed and the city paraded by way of Notre Dame, St. Denis and St. Catherine streets to the Masonic Temple, where the members dispersed.

At the Thursday morning session of the High Court the following chief officers were nominated for office during the ensuing year:

At Friday morning's session of the High Court routine business was discussed, the Court making an early adjournment for the purpose of going down to the Champ de Mars to witness a turnout of the fire department. Men, horses and appliances were all in first-class order and drew favourable comment from the visitors. The usual evolutions that are generally performed at such parades were performed as only Montreal firemen can perform them. The spectacle drew a big crowd in addition to the Foresters. Mayor Wilson Smith has made application to join the Order and will in a short time be initiated and become a member of one of the Montreal lodges.

The High Court had an exciting and lengthy session yesterday that commenced at 2 p.m., and lasted till close upon midnight; the election of officers for the ensuing year being on the tapis. The result of the election was as follows:

High Chief Ranger—P.H.C.R. Gummer, of Guelph.

High Vice Chief Ranger—W.J.Cameron, of Toronto.

High Secretary—Thos. White, of Brantford.

High Treasurer — John Neelands, of Wingham.

Chairman Medical Board—Dr. Stanley of Brantford.

Associate Medical Board—Dr. Young, of Ridgetown.

High Registrar—D. R. Kennedy, of Montreal.

High Chaplain—Rev. W. T. McTavish, of Deseronto.

High Auditor—Thos. W. Gibson, of Toronto.

Executive Committee—P.H.C.R. Elliott, F. J. Jameson, W. J. Malley, R. Dowling, W. Renshaw.

Do You Tire Quickly?

Fatigue is the natural sequence of labour. If, however, it follows moderate or slight exertion it is the sign and evidence that the nervous system has lost tone and vigor and requires assistance. Suicidal is a resort to stimulants, since these only increase the enervation. Aid cannot be obtained in this way, but through medication, judiciously employed in restoring through the nervous system the digestive function, upon which primarily, health depends. The whole range of medicine fails to produce a preparation possessing in equal degree the tonic and nutritive qualities of Maltine with Coca Wine. By the action of Maltine with Coca Wine upon the nervous system all the important functions of the body are stimulated and increased; the digestive process is performed efficiently and without discomfort, insuring the proper nourishment of the body. Tone takes the place of lassitude; vivacity dissipates depression, forbodings and despondency, and soon the quickening impulses of renewed health are experienced. Maltine with Coca Wine is sold by all druggists.

ALMOST A DROWNING.

A Little Lad Falls Into the Lake, But Is Rescued.

Last evening a number of small boys were playing on the logs in the Little Lake near the cribwork, when one of them suddenly fell into the water, causing a stampede amongst his companions.

One, however, remained and endeavored to effect a rescue, but being hardly able to swim himself, he was afraid to go too near the drowning youth.

Mr. Albert Mitchell was sitting in his yard and hearing the screams for help, sprang up and rushed to the water's edge just in time to see the boy come to the surface after having sank twice. Mr. Mitchell did not hesitate a minute, but with his pipe still in his mouth, sprang from the cribwork to the water and struck out boldly for the boy, whom he caught just as he was sinking for the third and last time.

The little fellow was easily resuscitated on being brought to the shore. On regaining his strength he merely waited to say that his name was Smith, and then scuttled away home.

The brave action of Mr. Mitchell, in thus unhesitatingly going to the rescue at the risk of his own life is deserving of the highest possible praise, and the attention of the Humane Society should be drawn to the incident before its next distribution of medals.

SATURDAY, JUNE 20, 1896.

A MOMENTOUS CHOICE.

The electors have a momentous question to decide between this and Tuesday. The destiny, welfare and future progress of the country depend upon the marking of the ballots next Tuesday. The electors will decide then whether this country is to have a peaceful, stable, honest, economical government, administered in the interests of progress and aimed to promote harmony and peace amongst our people, the only conditions under which we can thrive and flourish; or whether we shall have the firebrand of a burning question flung into the arena to inflame passions and prejudices to set race against race and creed against creed, and to create conditions under which the work of progress and development will be lost sight of.

The first you will gain under the Government of Mr. Laurier; the second will be the sure result of a choice of Sir Charles Tupper. With the first you will have honest economical government, administered in the interest of the people, and not monopolists and contractors; you will have a tariff graded to the revenue needs of the country; you will have a policy of fair play to all classes; you will have an end to corruption in high places and the alarming waste of public funds for party purposes. There will be no friction between majority and minority. Mr. Laurier will recognize neither majority nor minority. He will mete out equal justice to the people, and we shall not have the baneful spectre of sectional divisions. We shall all be Canadians—all working harmoniously together to effect the great destiny of this country. With the second, you will have a perpetuation of race and creed contests, fostered with the object of promoting party ends; you will have the peace and harmony of the country sacrificed and to the retaining of power; you will have a reign of corruption which will surpass ten times the shameful record of the past. Under Laurier you will have government for the people; under Tupper you will have government for the Tupper family and the political parasites that cling to its skirts. On Tuesday you will make your choice either for Laurier and patriotism or for Tupper and plunder.

The two candidates in West Peterborough that represent the two parties are Mr. Hall and Mr. Kendry. The EXAMINER has dealt with Mr. Kendry during this campaign as a politician. With his record as a citizen we have nothing to do. Both he and Mr. Hall are excellent citizens and enjoy as citizens the respect of their fellows But we are death on Mr. Kendry as a politician, because we believe the policy he represents is an evil one for this country. As an individual Mr. Kendry may be credited with living up to his obligations, but as a politician he is utterly unreliable. For the sake of party gain he takes one position at one time and another at another. He has shown himself capable of sacrificing principle to party and is not to be trusted. He follows a leader who is a most unscrupulous politician, the embodiment of reckless extravagance, and on a scale that would beggar a country ten times as large and wealthy as Canada. Mr. Kendry is the candidate of Tupperism and all the untold evils that that term implies. Mr. Kendry has no idea of patriotism. He is willing to sink the dearest interests of Canada for the success of a party, and that not the great Conservative party but the party of Sir Charles Tupper.

On the other hand Mr. Hall, with an equally good personal record, is the follower of a leader, whose motto is Canada for Canadians and that every function of government will be devoted to the promotion of the best interests of Canada. That every policy will be moulded to serve the same end. That every effort will be used to promote peace and harmony among our people, so that they can, undistracted by race and creeds squabbles, devote themselves entirely to the building up of this great country. His motto is equal rights to all classes in the distribution of taxation, in dealing with educational questions, and in fact in dealing with every interest of the country. Laurier promises peace; Tupper suspends the sword of discord over the heads of the people of Canada.

Mercer's

The elector is invited to sit down and quietly and calmly reflect upon the situation, and in counsel with his conscience decide the question of casting his ballot next Tuesday. Never before in the history of the country was there need for more careful deliberation; never before were the issues before the electors more momentous. Eliminate all passion and prejudice. Place your eye on the interests of the country as the goal and choose the path that leads to that goal. God save Canada; God Save the Queen.

IT is time for a change.

CONCILIATION, not coercion.

HAS the National Policy made you rich?

Laurier won't be coerced—Laurier won't coerce.

A Canadian for Canada—Canada for Canadians.

PARTIZANS, not patriots, form Topper's following.

VOTE for Laurier and Mowat, Hall and Lang.

Laurier, Hall and harmony; Tupper, Kendry and confusion.

LAURIER, peace and progress, not Tupper, discord and degeneration.

Mark your ballot as a conscientious Canadian, not as a blind partizan.

DISCORD among our people is more fatal to progress than a pestilence.

No clean Conservative can follow the lead of Sir Charles Tupper with pride.

LAURIER conciliation and settlement; Tupper force and a deathless feud.

A vote for Kendry is a vote for Tupper, Tyranny and Taxes.

Electors put Laurier at "sentry go" on the strong box of Canada.

EVERY vote for Newman is a vote lost to Hall—Liberals stand to your guns.

A Canadian for Canada—and Canada for Canadians and not for the Tupper family.

LAURIER aims to reach Manitoba through the heart. Tupper by way of the throat.

VOTERS' lists two years old and enough young men left off to decide the election if they voted one way.

IT is time for a change.

THE electors on Tuesday will provide a disinfectant for the corruption that pollutes the Cabinet at Ottawa.

LOOK out for roorbacks—last minute lies on Monday—they will be flying as thick as Tupper's promises.

You may change your mind after Tuesday, but if you mark your ballot the wrong way, the mischief remains.

To have national progress we must have the national forces working in harmony. Laurier stands for conciliation and peace; Tupper for bulldozing and discord.

LIBERALS stand for an honest franchise act. There are are enough dead men's names on the voters' lists to be used on Tuesday, if polled, to decide the election.

IT is time for a change.

THE combine manufacturer strives to compete with the workingman. The latter uses tools and the combinster tries to use the workingmen as tools. Workingmen you have one tool the combinster or boss can't "monkey" with on Tuesday. It's your secret ballot. Use it to destroy a system that protects the capitalists and permits the workingman to shift for himself.

ONE half of the capital invested in manufacturies in Canada belongs to Liberals who are supporting Mr. Laurier. Do you think they would do this if they feared his policy. A stiff revenue tariff with honest government is better a hundred times than a lopsided protectionist tariff that leaves the claims of the workers out of consideration.

THE Conservatives now promise the workingman an alien labour law. The iniquitous American alien labour law has been in operation for years, and six years ago the government killed a bill to enact a similar Canadian law. Sir Charles Tupper's promise amounts to this, that if the Americans keep up their law the Canadians will have to think about it. Tupper's most positive promises are unfulfilled and what can workmen expect of a half hearted suggestion to "think about" passing an alien labour law. The workingman wants justice not promises. Laurier will give the workingman a fair chance. He wants no favours, he wants his rights, and these rights Laurier, through Richard Hall's help, will give them.

ROUSING HALL MEETING IN ENNISMORE.

Speeches by Messrs. Lee, of Toronto, Geo. A. Cox and G. M. Roger.

A rousing meeting in Mr. Hall's interests was held at the Town Hall, Ennismore, last night, and addresses were given by Mr. Lee and Mr. Geo. A. Cox, of Toronto, and Messrs. Hall and Roger. The meeting was a great success. The addresses of Messrs. Lee and Cox set forth the Liberal policy excellently and met with the hearty approval of the audience. The other addresses were also capitally received.

The Pearl of Great Price

To woman is beauty. Beauty, the key that unlocks every door, commands deference, inspires homage. But beauty of face cannot satisfy unless the additional grace, beauty of teeth, adds its charm. Fine teeth, sweet breath, rippling laughter—three graces that always go together. Ivorine imparts dazzling pearly like whiteness, removes discoloration and tartar from the teeth, and renders the breath fragrant as flowers.

DOMINION DAY PICNIC

In St. Joseph's Hospital Grounds.

Attention is again called to the annual picnic in aid of the funds of the Hospital to be held on the beautiful grounds, on Dominion Day, July 1st. The grounds will be open from early morning, and during the day a splendid programme of sports will be run off, including a baseball match between the C.O.F. and the E.B.A. This will be entirely amateur and immensely amusing. A special feature will be a drawing for a Falcon bicycle. A good orchestra, and a fine dancing platform will be provided, and a specially sumptuous dinner. A great day of enjoyment is promised. Admission to the grounds, 25c. Everybody cordially invited.

CHEMIST AND OPTICIAN.
Hunter Street. Peterborough.

A card on the outside of office door says: "Gone to lunch. Be back in ten minutes." And, the man will be there on time. That is, for some days, weeks or even months, he will. Then he will be at home occasionally for a day. He'll tell you he had a headache—a turn of cholera morbus, or maybe he'll say he had a lump in his stomach and felt too miserable to move. The lump was probably two or three ten-minute lunches condensed. They were hurried in, but they were taking their own time about getting out, or even "moving on." This is a great mistake, but as long as there's life there's a chance to rectify mistakes.

The man who "bolts" his lunches will find Dr. Pierce's Pleasant Pellets the best friend he ever met. The "Pellets" may not hurry as much as the man does, but they will do the work for which they are intended—surely—promptly—effectually.

There is no case of biliousness, constipation, indigestion, "heart-burn," or any of the rest of the night-mare breeding brood, that these little "Pellets" will not cure.

They are not disagreeable to take, neither are the effects disagreeable. They are gentle laxatives. They cure *permanently*. There's no danger of forming a "Pellet habit." Therefore, you don't become a slave to their use.

Send 31 one-cent stamps to cover cost of customs and mailing *only*, and receive absolutely *gratis*, Dr. Pierce's Common Sense Medical Adviser, and find out how to keep yourself and family healthy. The book contains 1008 pages, over 300 illustrations and over 680,000 copies have been sold at $1.50 each. The new edition of 500,000 copies is to be given away *absolutely free*. It is a veritable medical library, complete in one volume. Address, with stamps, World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y.

A MOTHER'S THANKS.

SHE TELLS WHAT PINK PILLS DID FOR HER CHILD.

Suffered From St. Vitus' Dance—Lost the Use of Her Right Side and Almost Lost the Power of Speech—Cured in a Few Weeks.

Aylmer, Que., Gazette.

Of all the discoveries made in medicine in this great age of progress none have done more to alleviate human suffering than have Dr. William's Pink Pills. We suppose there is not a hamlet in this broad land in which the remarkable healing power of this favourite medicine has not been put to the test and proved triumphant. It is a great medicine and the good it has accomplished can only be faintly estimated. There are many in Aylmer who speak of Dr. Williams' Pink Pills in terms of praise, and among them is the family of Mr. John Smith, the well known blacksmith and wheelwright. Having heard that his daughter, Miss Minnie, had

been cured of St. Vitus' dance by the use of Pink Pills, the Gazette called upon Mr. Smith to learn the particulars. Upon mentioning the matter to him he expressed pleasure in making the facts public, if it was thought they would benefit anyone else, and remarked that he thought Mrs. Smith could probably give the particulars better than himself. Mrs. Smith said that about a year ago Minnie was attacked with St. Vitus' dance, of a rather severe nature, and a number of medicines were tried, but without any effect upon the trouble. An electric battery was also used but had no beneficial effect. The trouble appeared to be getting more severe, and finally Minnie was obliged to discontinue going to school, having lost the power of her right side. Her speech was also so much affected it was with difficulty she could be understood. She was out of school for about six months and all this time she was undergoing treatment, which, however, proved ineffective. One day Mrs. saw in the Gazette the particulars of a case of St. Vitus dance cured by the use of Dr. Williams' Pink Pills, and determined to try them with Minnie. By the time two boxes were used Mrs. Smith was sensible of a great improvement in her daughter's condition, and after the use of four more boxes was satisfied that Minnie was completely cured, as no symptoms of the trouble remained. This was about the end of June last, and since that time there has not been the slightest recurrence of the dread disease. While Minnie was taking the pills her weight increased, and her general health was much improved. Mrs. Smith also said that her younger daughter showed symptoms of the same trouble, but the use of Dr. Williams' Pink Pills speedily dissipated it.

Dr. Williams' Pink Pills are offered with a confidence that they are the only perfect and unfailing blood builder and nerve restorer, and when given a fair trial disease and suffering must vanish. They make rich, red blood and cure when other medicines fail. Sold by all dealers or sent by mail on receipt of 50 cents a box or $2.50 for six boxes, by addressing the Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N. Y. Beware of imitations and refuse trashy substitutes alleged to be "just as good."

For depression of spirits, nervousness and general weakness, Miller's Compound Iron Pills are a sure cure. 50 doses 25 cents. Sold in Peterborough by Wm. Madill, druggist.

LINKS IN THE CHAIN

Of Evidence Against Young Kearney at Lindsay.

WATCH POSITIVELY IDENTIFIED.

Mrs. Agnew and Mr. John T. Petty, the Jeweler, Swear That the Timepiece Found is the One Carried by Mr. Agnew Before the Murder.

Lindsay, June 19.—The examination of witnesses in the Agnew murder trial is being pushed forward. Mr. James Dickson, P.L.S., produced a plan showing the premises were the fatal deed was committed.

Mrs. Agnew, wife of the murdered man, positively identified the watch as that usually worn by her husband, and which was found in the cellar of the house belonging to the father of the accused young man Kearney. She also identified a pocket book and pocket knife which were found near the body as belonging to her late husband.

John T. Petty, jeweller, recognized the watch as one he had repaired several times for Mr. Agnew, and was most positive as to having placed a private mark on the inside of the case, which mark he pointed out to the jury. The watch had passed through his hands several times for repairs.

Three boys, Harry Bush, Elward Roach and Joseph Grozelle, met the accused on their way home the night of the murder at about 9.30, and were able to establish the fact that the prisoner had the revolver with him at that time as he had fired a shot from it before leaving them. Young Grozelle was able to identify a watch which the prisoner had been in the habit of carrying, and which could not be found until some time after the murder, when it was found in a field near the scene of the murder, and which the prisoner had stated he had traded with an Indian John Finney, which was proven to be false.

Henry Logie, his employer, with whom he was living, stated how young Kearney had put on his overshoes the morning after the murder, and later on had changed them for long boots. The witness also stated that he had seen the ring and stem of a watch sticking out of the prisoner's pocket the morning after the murder.

John Elliott also identified the pistol, and had seen the strange watch on the prisoner. He had heard a revolver shot at the time the murder was committed. Young Elliott was employed at Logie's with the prisoner and had heard a noise downstairs after he had gone to his room as if something had fallen.

Ellen Marron, general servant at Logie's, testified as to the finding of a part of the revolver on the floor in the morning.

Robert Logie testified as to finding part of a revolver in the kitchen next morning.

John J. Finney declared he had never traded watches with the prisoner.

Joseph Grozelle testified as to the finding of a watch in the field. He was ploughing near to the scene of the murder and found the timepiece, which he had handed over to Constable Foster.

Chief Bell testified that prisoner had stated to him that the pistol found was the one from which he had fired shots at Foley's Corners when in company with the boys Bush, Grozelle, and Roach.

The case for the defence consisted of medical testimony, Drs. Clarke of Toronto and Kingston Asylums being heard. Having examined the prisoner yesterday both agreed that he was practically an imbecile. The only difference in their testimony was a question of degree, and their opinion was that the prisoner was unable to distinguish the moral difference between right and wrong. Drs. Jeffers and Lynch, local physicians, held the same opinion.

In rebuttal, the prosecution called Dr. Richardson, Toronto's jail surgeon, who maintained that the prisoner was weak in mind, but entirely responsible and fully aware of the difference between right and wrong. Dr. McAlpine took the same view of the matter.

Mr. Barron, Q.C., prisoner's counsel, then addressed the jury, making a powerful and very impressive appeal for a verdict that would place the prisoner in an institution where his mental weakness would no longer endanger life. He held that if guilty of the crime his course throughout was such as no one possessed of a sound mind would have followed.

Mr. King, Q.C., Crown prosecutor, followed. He impressed upon the jury the fact that there was not a single weak link in the strong chain of circumstantial evidence woven about the prisoner, and the defence had wisely not attempted to attack it, but reposed their trust in the imbecility plea. The prisoner was simply one of the large class who fill our jails annually and who are serving an apprenticeship for the gallows. His motive for committing the crime was undoubtedly robbery. In conclusion, Mr. King said he was not there to convict an innocent man, but the guilty should be punished and justice in Victoria County would be outraged if conviction did not follow a crime so clearly established.

His Lordship then asked the jurymen if they desired to adjourn; if so, he would reserve his address for the morning. As the men had been enduring the discomforts of a crowded and stuffy courtroom for about ten hours, as it was then about 8 o'clock, they elected to adjourn. The case will likely be concluded about noon, after which the prisoner's brother Patrick will be placed in the dock as an accessory after the fact.

ONE HONEST MAN

DEAR EDITOR:—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak, shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness, I promise you perfect secrecy and as I do not wish to expose myself either, please address, simply: P O. Blaze at Brampton.

Brampton, June 18.—Between 12 and 1 o'clock this morning the concert hall was discovered to be on fire. The building, which was an old one, was badly gutted. The fire was evidently started in the basement dressing room at the rear end by some person or persons unknown. The loss is fully covered by $1000 insurance in the Norwich Union.

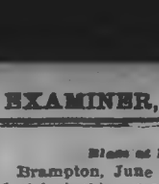
Austria's Heir-Apparent.

Vienna, June 18.—In consequence of the continued and increased ill-health of Archduke Franz Ferdinand, heir-apparent to the throne of Austro-Hungary, Emperor Francis Joseph has directed Archduke Otto, brother to Franz Ferdinand, to exercise the representative functions of the heir-apparent of the Empire.

Some people are constantly troubled with pimples and boils, especially about the face and neck. The best remedy is a thorough course of Ayer's Sarsaparilla, which expels all humors through the proper channels, and so makes the skin become soft, healthy and fair.

Mr. G. R. Blount, Methodist minister, Dresden, Ont., says:—"After a prolonged attack of la grippe, I was very nervous and weak, and troubled with severe pains. I took one box of Miller's Compound Iron Pills and am perfectly well now." Sold in Peterborough by Wm. Madill, druggist.

OUR MAIL.



Our mail brings us every day dozens of letters about Burdock Blood Bitters. Some from merchants who want to buy it, some from people who want to know about it, and more from people who do know about it because they have tried it and been cured. One of them was from Mr. J. Gillan, B.A., 39 Gould Street, Toronto. Read how he writes:

GENTLEMEN,—During the winter of 1892 my blood became impure on account of the hearty food I ate in the cold weather. Ambition, energy and success forsook me, and all my efforts were in vain. My skin became yellow, my bowels became inactive, my liver was lumpy and hard, my eyes became inflamed, my appetite was gone, and the days and nights passed in unhappiness and restlessness

For some months I tried doctors' and patent medicines of every description, but received no benefit. Being advised by a friend to try B.B.B., I am glad to have the opportunity of testifying to the marvellous result. After using three bottles I felt much better, and when the fifth bottle was finished I enjoyed health in the greatest degree, and have done so from that day up to date. Therefore I have much pleasure in recommending B. B.B. to all poor suffering humanity who suffer from impure blood, which is the beginning and seat of all diseases.

CEREMONIES OF CARDS.

Cards of condolence are sent a week after a death occurs. One card is left for a family—no more.

Cards of congratulation should be left in person, and if the family are at home the visitor should go in and express her good wishes.

Cards of courtesy should be sent with all gifts, such as books, fruit and flowers, or any trifling remembrances sent by friends to friends.

Cards of ceremony are generally used when an invitation to a wedding is given, or after an acceptance to a dinner—in any case where the card is required to do duty for formal entertainments.

Cards should be sent after a change in residence or an absence abroad.

Cards should not be used when a regret is necessary. A note is the good form.

At an afternoon tea or reception every one should leave her card with the servant on entering. If unable to attend, she should write a note the next morning, giving the reason.

The "at home" card is sometimes used for reception, with an additional name or names of the ladies to which the reception is given. Very often a separate card of a lady assisting will be sent; either is correct.

To write "regrets" or "accepts" on a card is very bad form. A note is the proper way in declining or accepting invitations.

When an engagement is announced leave a card.

After a marriage takes place leave a card.

On the return of a friend from a long journey leave a card.

After a death in a family leave a card.

Strangers in town should send their cards with their addresses to friends, and a call should be made on them as soon as possible.

In cases of P. P. C. the card is generally sent by mail on the day of the departure.

When a card is left for a stranger who is stopping at a hotel "For Mrs ——" should be written on the top of the card.

The correspondence card is no longer used except as a business message.

To ask for a sick friend leave a card with the words "To inquire" written across the top. Expect no reply.

Cards of condolence need not be answered. Cards of courtesy or congratulation should be replied to promptly.

Announcement of births should be a small card, with the child's name in full, tied with a bow of white ribbon, at the left-hand corner. With it should accompany the parents' card, and mailed in double envelopes of medium size. A card of congratulation should be sent to the mother in return.

When a young lady is to be married she leaves her card in person about four weeks before the event. Her mother's accompanys her own.—Pittsburg Dispatch.

The Fashionable Colors.

Plain colors will be favorites for walking costumes, for unceremonious occasions, but there are a number of fancy new woolens so beautiful in designs and shadings that they are sure to enjoy great favor. The thick sackcloth in blue and the natural color will be much used for tailor costumes, and as the buttons and waistcoats are extremely chic they will be considerably worn. That material is thick, although made of cotton or linen thread, and is well suited to the style of skirt and bodice we expect will be in vogue. Also to be noted among the spring materials are the mohairs and alpacas, with woven silk patterns in many shades. There is also a kind of snowflake upon a canvas ground that is always white, while the ground may be had in any color. The white flakes on a gray surface is very desirable, but inappropriate for summer.

Slate is too much overlooked as a material for inside decoration. It exists in many different shades. It is easy and inexpensive to quarry, and by far the easiest stone to shape into pleasing forms. These qualities render it the cheapest of durable materials for interior purposes, and the wonder is that so little of it is in common use. If large dealers would establish depots of standard goods made up for combination in house building in such forms as would be available to architects, its use would be indefinitely extended. Hardly a cottage of any pretensions would be built where it would not take a prominent part. If such depots were established, house builders would be enabled to see it and appreciate its beauty and cheapness. As it is, hardly one in 500 knows anything of either.—Stone.

ABOUT THE LIVER.

A lazy, slow or torpid liver influences the whole system, causing biliousness, sick headache, sallow complexion, languor and dullness. Burdock Blood Bitters regulates the liver, purifies the secretions and cures all forms of liver troubles. We say so and here is the proof :—

I hereby wish to thank you for the great benefit derived by me from your Burdock Blood Bitters. For three years I was troubled with liver complaint and tried everything to no purpose. I had almost given up hope until one day I determined to try Burdock Blood Bitters. I can say now that marked improvement resulted from the use of the first bottle and at the end of the sixth bottle I discontinued its use, being completely cured.

MR. ROSS AT TRENTON.

The Minister of Education Addresses the Electors of West Hastings.

Trenton, Ont., June 18.—The Hon. G. W. Ross addressed a large meeting of the electors of West Hastings here tonight. The other speakers were Thomas Ritchie and Dr. Platt of Picton. The Minister of Education and his party reached Trenton about 8.30 by steamer from Belleville. Crowds lined the streets and wharf long before the boat arrived, and the appearance of Mr. Ross was the signal for prolonged and hearty cheering. Two brass bands were in waiting, and the carriage containing the speakers was escorted to the rink. The streets were tastefully decoratel all along the route of the procession, and the interior of the rink was draped with banners and Union Jacks. One side of the building bore the inscription, "Laurier, Mowat and Honest Governemnt." On another side apeared in red and black letters on a white ground, "Develop our resources and keep our boys at home." While "Down with Tupperism" had a most prominent place in the decorations of the building. The decorative work of the ladies was shown to good advantage. Large pots of ferns and plants were ranged around the outside of the platform, and clusters of field daisies interspersed with small flags, extended all around.

Dr. Moran of Trenton acted as chairman, and introduced Mr. Thomas Ritchie, Liberal nominee for West Hastings, who was greeted with much cheering, while the band stationed in the ballery played "For He's a Jolly Good Fellow."

Mr. Ritchie dwelt chiefly upon the high protective tariff, which he said was the means of filling the pockets of a few capitalists and draining the pockets of the people. He also touched briefly on the Manitoba school question, and stated positively that he was opposed to any coercive legislation.

Mr. Ross followed with an excellent speech, in which he stated that he intended to stay in the fight until the last gun was fired. He dwelt chiefly upon the National Policy, which, he stated, had not carried out its promises, and has lied to the people of Canada. He compared the Canadian farmers to Sampson of old, and stated that the National Policy as a modern Delilah, had shorn them of their locks. He also referred to Sir Charles Tupper's late speech in Trenton, in which the Premier questioned the policy of the Liberal party. "Our tariff will be," Mr. Ross said, "a tariff for revenue purposes only. It may be 17 1-2, 20, 25 or 30; I cannot tell, but it wil be according to the exigencies of the revenue. Tax the luxuries," he said, "as high as you like, but put the tax on the necessaries of life as low as possible. This is the policy of the Liberal party." In regard to the Manitoba school question, he stated that it had been thrust into the politics by the mismanagement of the Government of the day, when it should never have been allowed to enter the arena of party politics. In conclusion, he eulogized Mr. Laurier, and expressed the hope that on June 23, his friends would join in placing him in his proper position at the head of affairs.

Dr. Platt and other speakers followed and the meeting broke up in an orderly manner at an early hour.

THREE TRUE FRIENDS

Who Keep Every Promise—Rheumatism Banished; Kidney Disease Takes Wings; Dreaded Indigestion not Known—The Great South American Remedies.

We can get at the heart of this latter by letting other people tell the truth of what these wonderful South American Remedies can do, and have done. John Marshall, of Varney, county of Grey, suffered as only those can suffer who have been troubled with sciatica. A relative suggested that he try South American Rheumatic Cure, which promised so much. Result—Inside of three days he was able to walk a distance of nearly four miles to Durham for the purpose of procuring another bottle of this remedy. He continued its use, and to-day he testifies that he knows nothing more of the troubles of this painful phase of rheumatism.

Some disease consists of the gathering of solids and hardened substances in the system. The troubles cannot be permanently removed, except as these particles are dissolved. A powder or pill will not do this. South American Kidney Cure possesses the particular elements that get at the seat of this disease. John G. Nickel, one of the best known farmers in Wallace township, suffered from kidney complaint, carrying with it awful pains. Nothing did him any good, until he tried South American Kidney Cure. His words are :—"After taking only two doses the pain was entirely gone, and I have never been bothered with it since. I feel as well as I ever did. Let any one write me to Shipley Post Office and I will gladly give them particulars of my case."

If the world looks blue to anyone it is to the dyspeptic. For ten years David Reid, Chesley, Ont., suffered much from liver complaint and dyspepsia. He says :—"At times my liver was so tender I could not bear it pressed or touched from the outside. I tried a great many remedies without any benefit; was compelled to drop my work, and as a final resort was influenced to try South American Nervine. Before I had taken half a bottle I was able to go to work again." Sold by H. S. Macdonald.

Captain Sweeney, U. S. A., San Diego, Cal. says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50c. Sold by John Nugent, 359 George Street.

MELONEY'S CREEK,
CAPE BRETON, Co., N. S.
May 2nd, 1896.

WARNER'S SAFE CURE Co.
Rochester, N. Y.; Toronto, Ont.

GENTLEMEN,—I consider it my duty to let you know of the good results that attended a course of Warner's Safe Cure taken by me eighteen months ago, as it may come to the notice of some suffering women afflicted as I was at the change in life. My trouble was not only known to my own family but to all my friends. After I had undergone an operation in one of our best American hospitals and was, as I considered, on the road to perfect health, I was stricken down with a serious attack of hemorrage, weakness, irritation and all its accompanying symptoms. I then went under the treatment of one of our foremost physicians, and after twelve months of his services, during which time I was often confined to my bed for two and three days at a time, I was compelled to take to my bed for five days, neglecting my household duties. The doctor seeing his medicine was doing me no good advised me to try your Safe Cure, and I am proud to say that before I had taken three bottles I was cured. I have taken one bottle since when I thought I felt symptoms of my old complaint returning, but I can honestly say that for eighteen months I have not been troubled in the slightest with it.

I know several who have benefited by relief from kidney troubles and acute rheumatism who have taken on my recommendation.

Some time ago I recommended it to a niece of mine who was here visiting me, for night trouble caused by weak kidneys, and when I last heard from her parents she was stout and hearty at her home in Boston.

MRS. J. D. MELONEY.

SEVERE PENALTIES!

Insomnia or Sleeplessness Produces Many Forms of Mental Derangement.

THE TROUBLE IS A COMMON ONE AT PRESENT.

Paine's Celery Compound an Infallible Cure.

PRESCRIBED BY ABLE PHYSICIANS.

Calms and Soothes the Nerves and Gives Sweet Sleep and Rest.

The "immortal Alfred" of England divided the day into three portions of eight hours each, assigning one for refreshment and the health of the body by sleep, diet and exercise, another for business, and the third for study and devotion. Sir Philip Sidney calls sleep "the poor man's wealth," and he might have added, it is every man's wealth.

Are sleepless and restless at night? Do you rise in the morning unrefreshed and

weary, and not feeling equal to the day's duties? If you begin the day in a tired condition, rest assured your vitality is low, your nervous condition is critical, and disease is doing its work in some form.

Are you fully aware of the fact that sleeplessness is caused by weakened nerves and disordered digestion? Dare you trifle with these terrible troubles, or belittle the results? Be assured that if your troubles are not cured, you may be led to a living death in some insane asylum, or to the awful end of the suicide.

The experience of thinking and able physicians proves that Paine's Celery Compound is the great remedy for "poor and irregular sleep," for weakened and irritated nerves and a general lack of vitality. Thousands of grateful testimonials sent in by men and women who once were utterly unable to sleep or rest, prove conclusively that Paine's Celery Compound has no equal for toning up and strengthening the great nerve system, giving healthy action to the stomach, kidneys and liver, and giving healthful and invigorating sleep night after night.

The use of Paine's Celery Compound is confidently, honestly and strongly urged for every sleepless, tired and nervous man, woman and child. In Paine's Celery Compound there are combined the most efficient alteratives, laxatives and diuretics, so that by their aid the whole system is quickly restored to health, strength and vigor.

Beware of substituters and dealers, who for extra money profit, recommend some other medicine quite unsuited for your case. See that you get "Paine's," the only kind that "makes people well."

Mr. Balfour on the Foundations of Belief.

[Amongst recent important books, none occupies a more prominent position, or has attracted greater attention that Mr. Balfour's "Foundations of Belief." Thoughtful readers will therefore welcome the following critical analysis by Rev. Dr. Torrance.]

NATURALISM AND ETHICS.

All agree as to the general substance of the Moral Law and as to the character of the sentiments with which it should be regarded.

This unanimity prevails only as to the conclusions. There is wide difference as to the premises on which these conclusions are supposed to be founded. Some believe that Morality is based on a priori principles, others on the command of God. What is the origin of ethical systems?

Naturalism says that they are not among the necessities of nature—that there are no great spaces marked out for their accommodation; that were they to vanish to-morrow the only result would be a diminution of happiness—the disappearance of the higher races.

All these things may be said of the bodily appetites and of many of the vulgarest forms of desire and ambition. On this view morality should not be put above appetite or reason above pleasure.

It may be said that those who hold the naturalistic view are often most sincere in the they pay to the majesty of the Moral Law. In their case, however, the sentiment and the creed are antagonistic and the sentiments are certain to languish and die.

If that be true, the sentiments which cling to the ideas of duty and sacrifice are only a device of nature to trick us into the performance of altruistic actions.

If that be true, our admiration for courage and self-surrender is not due to any essential or quality in the deeds themselves. It is because in the struggle for existence the altruistic virtues are an advantage to the family. If courage and abnegation had been the qualities first needed, and selfishness and cowardice, required only at a later stage of physical and intellectual development, these would be regarded in a different light. On the naturalistic views, there is no such thing as freedom. Every decision arrived at has been determined by the quantity and distribution of the various forms of matter and energy which preceded the birth of the Solar System. Yet man has the consciousness that he is free.

There is nothing in the theory of determination which need modify the substance of the moral law. No argument can be deduced from it in favour against good resolutions or intentional endeavours; nevertheless it conflicts with the sense of personal responsibility as bound up in moral law.

If it is a small matter that determinism renders it irrational to feel righteous indignation at the conduct of other people; it is not . . . . to feel righteous indignation at our own. Naturalism makes moral admiration impossible. The admiration accorded to the mind will be like that accorded to a well-made machine.

III.

Is there a harmony between the demands of the ethical imagination and what naturalization tells us as to the goal of all human endeavour? on the naturalization theory are the ends prescribed by morality consistent? No! to complete harmony, egoism and altruism are impossible on the basis of a creed which requires to admit that the deeds done and the character formed in this life cannot flow over into another. All must admit that there is something jarring to the moral sense in the comparison between the distribution of boppories and the distribution of virtue.

On the naturalization theory are the ends proposed by morality adequated? Suppose that the perfection and felicity of the sentient creature is the all inclusive object prescribed by the morality for human endeavour. This object is worthy. It is beyond our reach. How then can it be less than adequate in our highest emotional requirements? Because our ideas are framed, not according to the measure of our performance, but according to the measure of our thoughts and our thoughts about the world tend constantly to dwarf our estimation of the importance of man. Time was when the primitive sage was interested in a single tribe and its fortunes. Now the family, the tribe, the nation are nt longer enough to absorb our interest. Man lays claim to our devotion. What does science teach us of man? He is not the final cause of the universe. His very existence is an accident. We know nothing of the combination of causes that produced him. After a long period man will go down into the pit and his thoughts perish. It may be said that the substance of the moral law need suffer no change. But that is of no avail, when the sentient world, where alone it has significance, is destined to vanish utterly away.

Such is the effect of naturalization upon the sentiment associated with morality. It must eat all nobility out of our conception of conduct, and all worth out of our conception of life.

THEY ARE GIVING WAY.

Physicians Commence to Realize the Value of Dodd's Kidney Pills.

OTTAWA, June 15—The inveterate reluctance to admit the success of patent medicine, usually evinced by physicians is is rapidly giving way so far as Dodd's Kidney Pills are concerned. The cases of Dr. Rose and Dr. McCormick, who published details of their recovery from diabetes and Bright's disease, through the agency of this remedy, were the first attacks on the citadel of their skepticism and now it appears as if the remarkable recovery of Mr. G. H. Kent, of this city, the details of which have been transmitted to the press, would complete what has been so auspiciously begun. The published interviews with Mr. and Mrs. Kent and the sworn statement of the former leaves no foothold for disbelief.

LAURIER, MOWAT AND VICTORY.

The Liberals Jubilant in Every Province.

REFORM MAJORITY IN QUEBEC 15

Another Reading of the Mandement—Great Demonstration in the Open Air at Hamilton—Hon. G. W. Ross Makes One of His Telling Speeches.

Lachine, Que., June 20.—The people of this historic town turned out in large numbers to-night to do honor to Hon. Wilfrid Laurier. The streets were gaily decorated and thronged with electors. Shortly after the arrival of two special trains from Montreal the Liberal leader was observed approaching in a magnificent equipage drawn by four horses. This was the signal for tremendous cheering from the crowd surrounding Hervey's Hotel and by the Liberal Club, who were stationed on the wharf and responded with booming of cannon and a grand display of fireworks. The procession had several bands, as well as the Scotch pipes, in its composition. About midway between Hervey's and the spot chosen for the meeting the carriage in which Mr. Laurier rode was stopped and a pretty little girl presented him with a bouquet. His arrival at the tent was the signal for renewed cheering, lasting for several minutes. Mr. Robert Bickerdike acted as joint chairman with Mayor Desjardins. He introduced Mr. Dandurand, who made an eloquent address in French. He was followed by Mr. George W. Stephens, M.L.A., who showed the electors why they should no longer continue to support the Conservative maladministration, but lend their assistance to men like Laurier, Mowat, Longley, Mills, Cartwright and Edgar. Referring to the threats that he declared were being circulated by the Conservatives that the factories would close in the event of the Liberals being returned, he assured his hearers that no grounds existed for such fears, as there was as much Liberal as Conservative money invested in Canadian industries. Liberal shareholders would see that no such tactics were resorted to. In conclusion, he asked the electors to vote for Boyer, Laurier, Mowat, tariff reform, a fair settlement of the school difficulty and economical government.

Mr. Laurier then stepped to the front of the platform amid great applause. He spoke in French and said that as the constant talking had affected his voice his remarks would have to be few. However, he placed before the electors the different issues and solicited their votes for the Liberal candidate in Jacques-Cartier, Hon. Arthur Boyer.

LIBERAL MAJORITY OF 15.

A Reliable Forecast of the Result in the Province of Quebec.

Montreal, June 20.—The first of the two meetings held by Mr. Laurier today was at Alexandria, the pivotal point of the good old County of Glengarry. When Mr. Laurier arrived at that place, accompanied Mr. J. P. B. Casgrain and Mr. R. A. E. Greenshields of Montreal, he was welcomed by a big crowd of people, and amid great enthusiasm was escorted by a procession to the centre of the town. The visitors were entertained at the residence of Mr. A. G. F. Macdonell.

It was discovered in Alexandria that the Roman Catholics electors of Glengarry had been furnished with an extraordinary letter, even rivalling the mandement itself, written by Rev. Father Macdonald, stating that Bishop Macdonell had authorized him to say that he earnestly desired all Catholics to vote for the Government candidate, Major McLennan. Father Macdonald also stated that he had been authorized to say that all the Archbishops and Bishops of Canada were united in this question, and they all, without a single exception, desired their faithful to support the Government candidate.

Notwithstanding the extraordinary combination against Mr. Laurier, a careful estimate of the result gives him a majority of 15 in the Province of Quebec. That is up to to-day. What effect will be produced to-day by the final appeal of the clergy when they read the mandement for the second time remains to be seen. But to day it looks as if the province would be divided as follows: Liberal 37, Conservative 20, doubtful 3.

Liberal—Argenteuil, Beauce, Beauharnois, Berthier, Bonaventure, Brome, Chambly and Vercheres, Charlevoix, Chateauguay, Chicoutimi, Saguenay, Dorchester, Drummond and Arthabaska, Gaspe, Hochelaga, Huntingdon, Laprairie and Napierville, L'Assomption, Laval, Lewis, Lotbiniere, Maisonneuve, Missisquoi, Montmagny, Montreal (St. Lawrence and St. James), Quebec East, Quebec Centre, Quebec County, Rouville, Sheffield, Soulanges, Stanstead, St. Hyacinthe, St. Johns and Iberville, Vaudreuil, Wright, Yamaska—37.

Conservative—Pagot, Bellechasse, Compton, Kamouraska, Maskinonge, Megantic, Montcalm, Montreal (St. Antoine and St. Mary's) Nicolet Pontiac, Portneuf, Quebec West, Richelieu, Richmond, Sherbrooke, Temiscounta, Terrebonne, Three Rivers and St. Maurice, Two Mountains—20.

Doubtful—Chamblain, Jacques Cartier, Joliette, Lobelle, L'Islet, Montreal (St. Anne's), Montmorency, Richmond—3.

Of the doubtful the Liberals have a chance of winning St. Anne's, Joliette and Jacques Cartier. Giving the remainder to the Government the score would stand: Liberal 40; Conservative 25; Liberal majority 15.

THE MANDEMENT.

The mandement was read for a second time in all the churches of the province to day. No comments were made in the city of Montreal, but it is certain that strong language was used in the rural districts. It was expected that Bishop Lafleche of Three Rivers would make another strong attack upon Mr. Laurier and the Liberal party. The mandement however, was read by one of his priests, who afterwards read the former sermon of Bishop Lafleche, declaring that it was a mortal sin to vote for Mr. Laurier or any of his supporters.

THE HAMILTON RALLY.

Hon. G. W. Ross and other able Speakers Address a Great Crowd.

Hamilton, June 20.—If Solomon had gone through the present campaign he might have seen cause to amend the proverb, "As iron sharpeneth iron, so a man sharpeneth the countenance of his friend, to read, to see a political demonstration the rivalry of opponents. To night, there has been such demonstrations as Hamilton has not seen in a good many years. The supporters of the Government in their hundreds crowded the streets and the drill shed to do honor to Sir Charles Tupper, and the Reformers in as great numbers and with not less enthusiasm, cheered the exponents of Liberal principles and good government, who held an audience of something like 10,000 people at Dundurn Park till the stroke of midnight.

The speakers at the great Liberal rally were the Hon. the Minister of Education, war-worn and weary from his arduous labors during the past month, but still able to speak with the fire and power to provoke enthusiasm that his opponents dread; Mr. N. W. Rowell of Toronto, who stands in the front rank among the younger orators of the Liberal party; Mr. Macpherson, one of the Liberal candidates, who made a special study of trade issues, and Mr. Alex. Pirie of Dundas, whose campaign humorisms are appropriated without credit by many a speaker.

At the present writing it looks like a win for Wood and Macpherson, although the Conservatives profess more confidence than a week ago, when privately they were willing to concede the election to the Liberals. The source of that confidence is not difficult to discover. Such a campaign of coercion has been pursued in the factories of Hamilton during the past few days as has never been attempted before.

Hon. G. W. Ross was greeted with round after round of applause when he rose. It was not his intention, he said, to make a speech so much as to present in advance his benediction for the great victory to be won on Tuesday next. (Cheers.) The spirit of the people of Hamilton, as of all the other large centres he had visited, gave every indication that the cities would give a verdict for the Liberal party. (Cheers.) The Liberals of the cities had the swing of victory as they had never had it before.

On the tariff issue he held up to ridicule the idea that the Liberals would ruin the industries of Canada. Mr. Wood, their candidate, had more capital invested in Canadian industries than all the Harkers and Bovilles you could shake a stick at, and he would not vote to destroy it. (Cheers.) If Mr. Macpherson were not a sensible Scot it might be feared that he would, but all Scotchmen were trained according to an eminent authority, to keep the Sabbath and everything else they could lay their hands on. (Laughter.) These two men had built up by their own labor large fortunes, and no one for a moment would suppose that they would destroy their own capital. (Cheers.) In Montreal the other day Mr. Greenshields had shown that in that great manufacturing centre, where $700,000,000 of wealth was invested in one form or another, the representative manufacturers were for Laurier. (Cheers.) With men having such an enormous amount at stake supporting the Liberal policy, what had Hamilton to fear in doing the same? (Cheers.)

Mr. Ross, continuing, drew attention to the anomalies of the tariff, which levied higher duties in the cottons and woolens worn by the great mass of the people than on the silks and satins and velvets worn by the rich.

In closing, the Minister dealt with the school issue, declaring that coercion never has succeeded and never can succeed.

Prof. Ellis Has Had Success.

London, June 21.—Advices from Berber, West Africa, under date of May 25, show that Prof. Daniel Elliott, who left London in March last, for Somaliland, has returned to Berber from the Eolas Mountains. He intended to start at once for the interior, with a large caravan. All his party are well. He has thus far met with success in his search for specimens of the fauna of the country for the Field Museum at Chicago. Some of the animals obtained by him and prepared by the taxidermist of the party, are very rare.

Great Consumption of Lumber.

Fenelon Falls, Ont., June 20.—About a o'clock last night fire broke out in a stable close to J. W. Howry & Son's lumber yard. The lumber was soon ignited by the sparks, and it is estimated that twelve million feet of lumber was destroyed, together with several cars and some yards of railway track. Peterboro, Lindsay and Bobcaygeon sent their firemen, but when they arrived the lumber had all been destroyed. The loss on the lumber is covered by insurance.

Three People Fatally[sic] Injured.

Chicago, June 20.—A train on the Lake-street elevated road ran into an open switch near Rockwell-street this morning and before the train could be stopped the combination motor and passenger car shot over the abutment and into the street below. Three persons were probably fatally injured and several others badly cut and bruised. The most seriously injured are: Maurice D. Johnson, motorman, will probably die; James Carr, recovery doubtful; James Boggie, jr., 10 years old, recovery doubtful. The two rear coaches on the train were saved from toppling over into the street by the coupling breaking.

A DOUBLE MURDER.

Two Ladies Butchered by Midnight Assassins.

STRUCK DOWN WITH A HATCHET

The Dead Committed by Negro Thieves—The Victims Hacked in the Most Horrible Way—They Lived Alone and the Murderers Got Away.

New Orleans, June 21.—A special to The Daily States from Bayou Goula reports that a horrible double murder was committed at that village Friday night. Mrs. Tellshore Landry, a highly respected old lady, and her adopted daughter, Miss Madeline Hubert, were the victims. They lived in a small house about a mile from the station. There were no male occupants of the house. Screams were heard at their home about midnight. People who went to see what was the matter, found the old lady and her daughter mortally wounded. Both had been frightfully cut up, and the bodies were covered with blood. Mrs. Landry's throat had been cut from ear to ear, evidently with a razor, and she had also been stabbed in the breast. The young lady had been cut with a hatchet across the bridge of the nose, the wound extending from ear to ear and frightfully disfiguring her. She was still alive and managed to tell what had occurred. She has since, however, become unconscious, and cannot recover. Miss Hubert said two negroes entered Mrs. Landry's house last night and proceeded to steal everything in sight. Mrs. Landry was awakened by the noise and screamed. One of the negroes struck her with a hatchet, and at that moment Miss Hubert came into the room. One of the negroes grabbed her and another struck her with the hatchet. That is the last she remembers. The negroes are supposed to have crossed the river in a skiff, as one that was on the Bayou Goula side is missing. Every effort is being made to catch them. If caught vengeance will be quick and sure.

LONG MAY SHE REIGN!

Queen Victoria Has Now Entered Upon Her Sixtieth Year—Many Telegrams of Congratulation.

New York, June 21.—The Sun's London special says: Little public notice has been taken of the fact that Queen Victoria to-day enters upon the sixtieth year of her reign over this Kingdom. Personal telegrams of congratulation have been showered upon her from many quarters, and a new statue of Her Majesty was unveiled in London. Should she survive another year, and there is no good reason to fear otherwise, the completion of her sixth decade upon the throne no doubt will be splendidly commemorated. There is some talk of taking public notice in September next of the date when she will pass the record of the longest previous reign by any British sovereign. George III. was King nominally for 59 years and 97 days, but for the last ten years of his reign he was monarch only in name. Victoria will pass that limit on Sept. 25. The Queen must live until she is 90, however, in order to pass the longest European record. Louis XIV. governed or misgoverned France for 72 years.

The postponement for a week of the marriage of the Prince of Wales' daughter, Maud, has caused much wagging of tongues in polite society and some talk at clubs Pall Mall way of difficulties about settlements, but there is really no sufficient reason to suppose that the delay is due to anything else than the officially-stated fact that the change of date was made to suit the convenience of certain royal personages who, if the original arrangement were adhered to, would be unable to attend owing to prior engagements. But the acceptance of this explanation involves censure of the court officers charged with making the arrangements for such solemn occasions. It is notorious that when the Tories are in office there is always more friction at court. The Liberals in the country, it is reported here, are daily gaining in strength.

Run Down by a Train.

Atlantic City, N.J., June 21.—An express train from Philadelphia for this city over the Pennsylvania Railroad struck a team and wagon at Absecom station about eight miles from here shortly after 9 o'clock this morning and killed three men and fatally injured another. The dead men, who are all relatives, are George Huber, his son Frederick Huber and Henry Getsner. Joseph Sahl, son-in law of Huber, is believed to be fatally injured.

The Mandement Read Again.

Montreal, June 21.—The mandement from the Catholic bishops on the Manitoba school question was read in all the Catholic churches to-day, and, in some cases, the clergy commented upon it, pointing out the duty of the faithful to support supporters of the Remedial bill.

Hon. Mr. Ives was yesterday seized with a severe attack of laryngitis and had to leave for his home at Shorbrooke.

The Fenelon Falls Blaze.

Saginaw, Mich., June 21.—J. H. Howery & Sons of this city, who own and operate a big lumber plant at Fenelon Falls, Ont., have received advices that a fire there yesterday destroyed 15,000,000 feet of lumber and a quantity of laths and shingles. The mills were not damaged. Loss $200,000; insurance, $190,000.

Sir Leonard Tilley Past Hope.

St. John, N.B., June 21.—Sir Leonard Tilley has passed a quiet day and at midnight there was no change reported. Medical conference has decided that there is no possible hope for his recovery.

Hurricane in Labrador

St. John's, Nfld., June 20.—A hurricane swept over the Labrador Coast, doing immense damage. Thirty fishing craft were destroyed at Blanc Sablon, and it is feared that further vessels were lost at the more northern points. The fishery reports from all parts of the coast are very unfavorable. Trouble is feared at French Shore, owing to the operations of the recent proclamation preventing the use of certain fishing apliances.

AN INVESTOR'S ADVICE.

Mr. Geo. A. Cox, President of the Canadian Bank of Commerce, in an address at Mr. Laurier's meeting here, last Saturday week, said :—"Thirty-eight years ago last month I came to this town and I have been doing all I could for it ever since. The largest part of my earnings have gone into brick and mortar and into the manufacturing industries of this county. Do you think in the face of that, that I am going to advocate a policy which is going to destroy our manufacturing industries or is going to leave our stores and dwellings vacant. I am sure you do not. I am here to-night to tender you the advice to vote for my friend Mr. Hall and to vote in support of the leader of the Opposition, who will, I hope, in a few days be called upon to form a new Administration in this country. When he is called upon to do that I will feel, and others will feel, more like investing money in this country than we can feel under the boodling, robbing, dishonesty and mismanagement of our affairs that are going on. I want to address myself now to moderate Conservatives, many of whom are in this room. I believe that there are many here who have no very strong or bitter feelings one way or the other, who have come to the conclusion, not only in this building, in this town or in this county, but throughout the length and breadth of the Dominion, that the time has come when we ought to have a change of government. I have no hesitation in saying that I believe in my heart that the best thing we can do for this town and for this county is to place Mr. Laurier in power on June 23."

MR. LAURIER FOR PEACE.

What Canada needs most for its development is a big population, harmonious in its aims, aspirations and efforts in the direction of national greatness. Under the present Government it has had no chance for either. The present policy of Sir Charles Tupper is directly and eminently calculated to create discord and national schism instead of unity. He is directing an attack upon the integrity of confederation by his aggressive attitude against provincial rights, exciting racial and religious hostilities between people who should have common interests, and thus creating conditions that prevent the onward march, shoulder to shoulder, that should characterize a people earnestly seeking to advance the condition of the country. Nothing can so retard the material growth of a country as to withdraw the people from legitimate pursuits and the consideration of their material interests than setting them by the ears over an idea or theory. Such a condition is fatal to business prosperity, and such a condition is the inevitable outcome of an endorsation of Sir Charles Tupper's policy of bulldozing.

Mr. Laurier's policy is the policy of peace with honour. Mr. Laurier has always believed in keeping down entirely feelings of religious or racial prejudice—it has been the policy of his life. Twenty years ago he advocated the same thing, when in an address at Quebec in 1877 he argued and advised against the formation of a Catholic political party, and pointed out the disastrous results that would follow.

Ten years ago, speaking at Somerset, Que., he took the same position when he inveighed in his usually eloquent style against appeals to religious prejudices on either side. One month ago he took precisely the same position in his manly utterance on the remedial bill, an utterance that will be embalmed in Canadian history in honour of a man who in loyalty to his country and in discharge of his duty dared to risk political extinction by holding forth the olive branch of peace in the interests of Canadian unity and harmony. Two neighbours that spend their time quarrelling about a matter that can be settled amicably are neglecting their material business and injuring their interests. Two sections of the country that will allow a designing politician to keep up a quarrel by egging on of the parties for his own party or personal interests, are decidedly standing in their own light. They are prolonging a profitless and injurious contention which a man with honest motives could settle out of hand. Which is the better way—Laurier's policy of conciliation or Tupper's style of bulldozing. Which?

That the C. P. R. would not cost the country anything.—Cost 60 millions.

That the Northwest would be speedily settled.—250,000 population in twenty-five years.

That the public lands would net the treasury $69,000,000.—Revenue from Dominion lands has hardly paid the cost of management.

That the N. P. tariff would raise the revenue.—Nearly eighteen millions deficit in eighteen years—a million a year.

That the N. P. would create a home market.—Wheat 65 cents a bushel—foreign markets increase.

That the Trent Valley Canal would be speedily built, and that was Sir Charles Tupper's promise fourteen years ago.—We all know the result—a big spurt at election times and idleness in the intervals.

And Tupper is now running this campaign on promises which will be better unfulfilled, for they will add fifteen million dollars to the public debt, these promises and bribery by wholesale. Tupper is risky—Laurier is safe. Vote for Hall and Lang and Laurier.

THE Review like a pettish child complains of the EXAMINER insulting workingmen by intimating that some were intimidated. We are willing to make reparation. To those who were not intimidated and turned out freely we owe no apology. They were not referred to. Those who were intimidated feel that they should have an apology from their employees—not from the EXAMINER.

The Stage of Convalescence

Is at once interesting and critical. The patient, carefully guarded at this period and provided with the means essential for health, may be enabled once more to enjoy the inestimable blessings of health. On the other hand, neglect of even minor needs, at this period, is likely to impose upon him the life-long penalty of ill-health, resulting in a wasted life. The assimilative processes are, at this time, are sure to be impaired, and nerve tone overtaxed in its resistance to the assaults of disease, will both sadly need the impetus which Maltine with Coca Wine can give.

By the action of Maltine with Coca Wine upon the digestive processes, which it rapidly strengthens and its permanent and striking influence upon the nervous system, to which it gives vigor and tone, the restorative power of the body is immensely increased, and strength and vigor come to the invalid so quickly as to seem almost impossible. Experience, however has demonstrated its efficacy in convalescence, as well as the various forms by which debility, arising from faulty nutrition, manifests itself. Sold by all druggists.

DROWNED IN A QUARRY.

A Young Ingersoll Man Went in for a Bath and Lost His Life on Saturday.

Beachville, Ont., June 20.—A sad drowning accident happened this afternoon at the stone quarry of Messrs. Archibald Bros. of this place. Mr. Isaac Houton of Ingersoll, with his two sons was engaged stone cutting for Mr. Boyce of West Oxford, and after getting through with the day's work it was proposed by one of the party that they take a bath in the quarry, which is full of water. Not being aware of the depth, and unable to swim, the eldest of the two boys went too far out and before help could reach him, sank to the bottom. Some 15 minutes elapsed before the body could be recovered, and though medical aid was summoned, all efforts to resuscitate him proved unavailing.

Ayer's Pills promote the natural motion of the bowels, without which there can be no regular, healthy operations. For the cure of biliousness, indigestion, sick headache, constipation, jaundice and liver complaint, these pills have no equal. Every dose effective.

Shiloh's Cure, the great Cough and Croup Cure, is in great demand. Pocket size contains twenty-five doses only 25c. Children love it. Sold by John Nugent, 269 George Street.

That hacking, persistent cough can be quickly cured by using Dr. Wood's Norway Pine Syrup. It cures all throat and and lung troubles.

THE GREATEST LUXURY

a Man can enjoy is a Comfortable, Well Made, Good Fitting Suit, requiring the necessity of visting your tailor, selecting goods, surveying your person, then a tedious delay of two or three weeks result, not always a luxury in reality but always in price.

OAK HALL has made this no longer necessary. We simply ask your judgment in selection of goods, and you can take them away with you as perfect and complete as you could wish. Price about one half what your tailor would ask. This is being demonstrated many times daily.

The above applies to our $3.25, $5.00, $6.00 Suits equally as well as to those of better quality and superior finish, ranging from $9.00 to $15.00.

LATEST CABLE NEWS.

Spain is Uneasy in Regard to the United States.

FEARS A CONFLICT IS IMMINENT

Two Immense Warships and a Number of Torpedo Boat Buyers Purchased — Steamers Gone to Rescue Christians in Crete A Great Strike in Russia.

New York, June 21.—A Madrid special to The Journal says: The platform of the St. Louis convention causes uneasiness here. It is feared that a conflict with the United States has now its date almost fixed.

The Government has hastened to buy two 14,000 ton ironclads, built in Genoa, whose price was thought excessive a few days ago. It has also resolved to order two torpedo boat destroyers, besides four now being built in England. It further intends to order four more at a very early date.

The larger part of the loan of 100,000,000 pesetas, made by the Rothschilds, on the guarantee of the Almaden quicksilver mines, will probably go to increase the navy, and will be employed in buying immediately such warships as may be for sale. The Government is responding to national sentiment and trusting probably to the help of other power. It seems resolved to resist American impositions when the time comes.

The Liberals have introduced in the Senate a motion censuring the United States for their attitude regarding Cuba.

THE FRENCH CENSUS.

Some of the Big Cities Found to Have Remained Stationary.

New York, June 21.—A London special says: The first details of the recent census show some unexpected results. Generally speaking, the big towns have ceased to grow at the expense of the country, but the Mediterranean ports have gained enormously, to the prejudice of all the other seaboard places. Bordeaux, Havre, Cherbourg and Dunkirk have been practically stationary, while Nantes, Brest and Calais exhibit serious losses. This is accounted for by protection, which has crippled French trade with the civilized European states and with America, while Marseilles and Toulon have increased by 20 per cent., because they are the gates thrugh which all the new French colony energy is poured, and they profit by the expeditions in Asia, Africa and Madagascar, which the Republic is continually sendinx forth. The fact that all this activity costs France money, whereas the now diminishing trade of the Atlantic and Channel ports used to bring money, appeals to a few thoughtful statesmen and economists, but they cannot get the French public to listen to them. It is estimated that in another five years Marseilles will have displaced Lyons as the second city in the country.

To Rescue the Christians.

Athens, June 21.—Two steamers have gone to the Piraeus for the purpose of removing from Crete the Christian women and children who are desirous of leaving the island because of the insurrection there against Turkish rule. The insurgents have refused to accept the terms of the Porte, which in effect are that they lay down their arms before the matter of reform is considered. Christian villages have been seized by the Turkish troops and hundreds of families are wandering about in the hills in absolutely destitute condition. The Turkish troops have retired to Bukolies and the Christians have advanced to Alikanou.

Russian Cotton Workers on Strike.

St. Petersburg, June 21.—The strike among the factory operatives continues to spread. The strikers now number 40,000, consisting mostly of employes in the cotton mills. Many of them are women. Thus far the strikers have acted in a peaceable manner. They demand increased pay and shorter hours. The police declare that Nihilists instigated the trouble. Several employers are willing to concede the demands of the strikers, but the police forbid them to do so. It is reported that the operatives intend to personally petition the Czar to interfere in their behalf. The police have taken strict precautions to prevent them from doing this.

A Party to the Pilgrims.

London, June 21.—Mr. Hawley Stewart, an ex-member of the House of Commons, gave a garden party yesterday at Clapham in honor of the Congregational pilgrims from the United States, who are visiting points of interest in this country. Mr. Guinnes Rogers delivered an address of welcome, in the course of which he said he hated the suggestion of a difference between Great Britain and the United States. Mr. Dunning Parker responded.

Anxious for a Settlement.

London, June 21.—The Daily News will to-morrow publish an article lamenting the delay in the settlement of the dispute with Venezuela and urging Lord Salisbury to settle the matter before the American Commission makes its report.

When a man owns a blooded horse he is always careful of its health. He looks after its diet and is particular that its feeding shall be regular and right. While he is doing this, it is as likely as not that he is himself suffering from some disease or disorder. When the trouble gets so bad that he cannot work, he will begin to give himself the care he gave the horse at the start. Good, pure, rich, red blood is the best insurance against disease of any kind. Almost all diseases come from impure or impoverished blood. Keep the blood pure and strong and disease can obtain no foothold. That is the principle upon which Dr. Pierce's Golden Medical Discovery works. It cleanses, purifies and enriches the blood, puts and keeps the whole body in perfect order; makes appetite good, digestion strong and assimilation perfect. It brings ruddy, virile health. It builds up solid, wholesome flesh (not fat) when, from any cause, reduced below the healthy standard.

A ROYAL RECEPTION

Tendered by the Foresters of New York to Supreme Chief Ranger Dr Oronhyatekha.

New York, June 21.—Dr. Oronhyatekha, Supreme Chief Ranger Independent Order of Foresters, and Rev. Y.J. McCaughan, High Chief Ranger of Ireland, were tendere da royal reception by the various New York courts of that order, at Scottish Rite Hall, last evening. Several hundred Foresters joined in extending an enthusiastic welcome to the distinguished visitors and in enjoying an excellent musical program. Dr. C. L. Coulter of this city, Deputy Supreme Chief Ranger, made the opening address. He was followed by Augustus W. Peters and Assemblyman George C. Austin. In responding Dr. Oronhyatekha, whose home is in Toronto, expressed gratification at the wonderful growth of the fraternity in New York and throughout the United States within the past year. An interesting feature of the evening was the presentation of a handsome silver loving cup to Dr. Coulter by Knickerbocker Court. To the musical entertainment these contributed: Marian Maola, soprano solo; H. M. Blight of Toronto, baritone; Knickerbocker Glee Club; Seth Crane, bass; Charlie Crote, "Regimental salad;" Edmund Bay, in original stories; Albert R. Johnson, organist.

A NEW CLUB.

Name Suggested for a New Social Organization in London.

London (Special), June 22.—It has been facetiously suggested that a new social club in process of organization in this city, should be entitled "The Dodd's Kidney Pill Club" as the present members are all enthusiastic advocates of that remedy and in common with many other citizens declare that in all cases of kidney trouble no other agent has been so completely effective. Most Londoners have at their fingers' ends the particulars of the many marvellous cures through the use of this specific. In every druggistore in the city the medicine is kept in large quantities and warmly recommended.

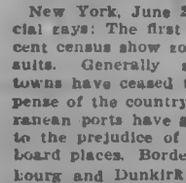
Chase's Ointment Cures All Skin Irritations.



GRACIE ATTON.

Of the many skin diseases, eczema is one of the worst and most common. The one effective remedy so far discovered for it is Dr. Chase's Ointment. It has never been known to fail. Mr. Andrew Atton, of Hartland, N.B., says: "My little daughter, Grace Ella, aged three and a half, was a dreadful sufferer from eczema for three years. We tried a number of alleged cures and several doctors, but all without effect. Her's was indeed a bad case. Her little body was entirely covered with rash. One day our local druggist, Mr. Wm. H. Thistle, recommended me to try Dr. Chase's Ointment. I did so, and four boxes effected a complete cure and saved our child."

Dr Chase's Ointment is just as effective for piles, salt rheum and sores of all descriptions. For sale by all dealers and Edmanson, Bates & Co., manufacturers, Toronto; price 60 cents.

There is nothing to equal Chase's Linseed and Turpentine for severe colds and lung troubles. Large bottle 25 cents.

Two More Fools Set Sail.

New York, June 21.—Frank Charlsen, formerly sailor in the employ of J. J. Astor, sailed to-day from the Battery basin in a 20-foot cedar boat for Liverpool. His brother, also a seafaring man, accompanied him. The men expect to get to Liverpool in their little craft in 60 days. The boat is rigged with a mainsail, jib and flying jib.

Cholera Among the Troops.

Cairo, June 20.—Advices received from Corosko says cholera has appeared among the Egyptian troops there. Fourteen cases of the disease were discovered in the camp, seven of which had resulted fatally up to the time of writing. The advices add that great fear is entertained that the disease will spread throughout the Soudan expedition.

ITS FAME SPREADING.

A New Remedy in General Use in Manitoba and the Northwest.

Winnipeg, June 8.—The effects of the regular wave of sickness which sweeps over this portion of the Dominion in the spring, are noticeable in the increasing amount of the druggists' sales. There has been quite a run on the kidney remedy now so well known under the name of Dodd's Kidney Pills. The recovery from Bright's disease of Mr. Arthur Coley, of Somerset, through their use, an account of which appeared in the papers, gave a considerable impetus to the sale, and the remedy has become indispensable in many Manitoba households, its fame having penetrated into the remotest parts of the province and Northwest Territories.

HOW THE SUN LIFE

FULFILS ITS PROMISES.

A Matured 10 Year Endowment.

Profits Paid by the SUN 21 per. cent more than the Estimates.

The following letter, which speak for itself, was received by the undersigned this morning from a gentleman in Brockville, whose ten year endowment which he held in the Sun Life Assurance Company of Canada matured last week and was paid him. The Sun is modest in promises but UNEQUALLED IN RESULTS. The public are benefitted by results, not by promises unfulfilled

BROCKVILLE, November 7th, 1895.

W. H. HILL, Mgr. Central Ontario Sun Life Assurance Company of Canada, Peterborough, Ontario:—

DEAR SIR,—I should have acknowledged the receipt of yours enclosing cheque for endowment policy No. 12,571 before, only I wanted to write something more than a mere receipt. I am pleased to hear of the continued prosperity of the "SUN" and it speaks well for your Company when the profits are greater (by 21 per cent.) than you as the Company's representative promised or rather estimated, as was the case with this policy.

I hope your Company will continue to prosper and I often regret that I do not carry more Insurance than I am doing. I might have carried twice as much as I do when at Minden without any great effort, still what little I do carry I feel is perfectly safe being in the "SUN."

I must thank you for your promptness and kindness regarding this policy just settled. I hope we will both be alive and well when the new one I now hold will be due in 1905 and assuring you of very best wishes, I remain,

Yours Sincerely,
(Signed) F. R. C.

☞ The above voluntary testimonial is significant and shows in a most practical way the SUN'S standing as a profit paying institution.

No Liquor To-morrow.

The Chief of Police wishes to have attention called to the fact that the Dominion election law requires that all hotels be closed on election day—to-morrow—which means that all bars and places for the sale of liquor be closed at eleven o'clock to-night and remain closed till six o'clock on Wednesday morning.

Hearty Thanks.

The EXAMINER sanctum staff has to most heartily thank Mr. J. W. Fitzgerald for his annual donation of beautiful roses. Mr. Fitzgerald seems to be a most successful culturist of roses and perhaps his success is a reward and recognition of the Celtic hospitality of heart that gladdens those of his friends with the beautiful bloom and perfume of the queen of flowers.

Ivorine, the new dentrifice, displaces all other preparations from use, because it does good work. Discolouration and roughness are speedily removed and the teeth rendered white and highly polished. Ivorine is fragrant and refreshing, preservative to sound teeth and decay retarding. Ivorine removes tartar and discolourations and makes the teeth look beautifully white.

Died in Orillia.

Intelligence has been received of the death on Friday, at Orillia, of Mr. Bert, third son of Mr. Melville Millar, formerly of Peterborough. The young man, who was well known in Peterborough and very highly respected among his youthful associates, fell a victim to consumption, induced by an attack of lagrippe. The numerous friends of Mr. Millar in Peterborough will sympathize with him in his affliction.

REV. J. R. TROTTER RESIGNS.

He Has Received a Call From the St. Catherines Baptist Church.

Rev. J. R. Trotter has tendered the resignation of his pastorate of the Murray street Baptist church, having received a call from St. Catharines. His congregation has asked him to reconsider his resignation and a church meeting has been called for Wednesday evening. The utmost good feeling has always existed between Mr. Trotter and his congregation and therefore his action yesterday in announcing his resignation has caused great regret.

LANG'S BIG MEETINGS AT NORWOOD AND HAVELOCK.

Big Gathering in the Liberal Candidate's Favour.

At Norwood a large mass meeting of the electors, on Saturday night, were addressed in the skating rink by Mr. R. F. McWilliams and Mr. Peter Ryan, of Toronto, the large numbers present giving every indication of being overwhelmingly in Mr. Lang's favour.

A very large number of the electors was addressed in Drain's Hall, Havelock, on Saturday night, by Messrs. Lang and J. B. McWilliams.

The temper of both meetings shows that East Peterborough will send Mr. Lang to represent it in the House of Commons by a good majority. Laurier, Mowat and victory.

BICYCLE ACCIDENT.

Mr. Bert Lee, a young bicyclist, ran down and seriously injured Mr. W. H. Hill this morning whilst the latter was crossing George street in front of Mr. John McKee's drug store.

Mr. Hill fell when struck, and his hand getting caught in the spokes, his thumb was broken between the first and second joints.

The broken bone was set by Dr. Charles McKee, who happened to be in his father's drug store at the time of the accident.

Young Lee was very much distressed over the unfortunate incident and remained with Mr. Hill until the hand was placed in splints.

DENIAL.

To the Editor of the Examiner:

SIR,—A report is being persistently circulated that Sir Chas. Tupper was hissed by prominent Liberals at his Drill Shed meeting on Thursday night, and my name is being freely used as president of the Liberal Association, as a participant and leader in it, in order to throw discredit on the Liberal cause. No further denial is necessary from me than to state that I was not present at the meeting at all during Sir Chas. Tupper's speech, nor for at least a half hour after he had finished and retired from the hall. From inquiries made, I believe little or no hissing was done by Liberals, but what there was arose from disaffected Tories who do not approve of his policy, and who wished to express on the spot their disapprobation of his personal remarks regarding the ability, &c., of his leading opponents, and who could not see that the whole wisdom and ability requisite to rule this great Dominion was concentrated in "Tupper."

Yours truly,
R. W. BELL.

PERSONAL.

Mr. John Tucker is up from Montreal for a day or so.

Misses Bertha and Eva Colling, of Belleville, are the guests of Mrs. Henry Cox.

Miss Vic Denike, of Campbellford, is visiting friends in town this week.

Mrs. J. S. Smith, of Town, spent last week as the guest of Mrs. George Dickson, Campbellford.

The Campbellford Gazette says:—Mr. and Mrs. F. W. Wood and little girl left on Monday on a holiday trip to Peterborough, Toronto and Hamilton.

Mr. Ralph W. Peckham, advance advertising agent for the great Wallace Shows, was in town Friday making arrangements for exhibiting in Peterborough on August 10th.

Dr. W. J. Delaney, of Waterbury, Conn., and bride are in town, the guests of the doctor's parents, Mr. and Mrs. John Delaney. The doctor's many friends in Peterborough welcome them both to town and wish them many years of happy wedded life. They will remain in Peterborough this week.

Dr. Charlie McKee has returned from New York, not being allowed to practise on account of not being of age. The doctor will remain in Peterborough until January 27th, when he will be entitled to practise across the border. It isn't often that a doctor is debarred from practising on this ground.

Acknowledgment.

The Laurier Club, of Peterborough, desires most heartily to congratulate and to thank the good people of Douro, and especially the patriotic young ladies for their zeal and success in winning for Hon. Wilfred Laurier, at the picnic in aid of St. Joseph's church on the 15th inst., the handsome gold topped cane presented by Rev. Father Kailty, parish priest, for competition as to choice for premier—Laurier or Tupper. To Douro belongs the honour of firing the first effective shot into the enemy's camp and of presenting to the coming premier so graceful a pledge and portent of victory. May he long live to wear it, and may the young ladies of Douro be blessed with long life and happiness.

A DESTRUCTIVE FIRE.

J. W. Howry & Sons Meet With a Great Loss at Fenelon Falls Friday Night—Over 12,000,000 Feet of Lumber Goes Up in Smoke.

The following further particulars concerning the Fenelon Falls fire are published in the Lindsay Post:

A very destructive fire occurred at the village of Fenelon Falls Friday night, when a large portion of the lumber piled ready for shipment in the immense yards of J. W. Howry & Sons were completely licked up by the devouring element, involving a loss of fully $250,000, and perhaps represents a larger sum. It is supposed that over 12,000,000 feet of choice lumber, covering an area of nine acres, has been burned.

The fire, the origin of which we have been unable to learn, broke out about 8 p.m. in an old frame outbuilding on a lot adjoining the lumber yard on the west side. As a pretty stiff breeze was blowing from the northwest, it soon got into the dry piles of lumber a few yards distant, and before the village brigade and the firm's fire appliances were on the spot the fire had gained tremendous headway. Finding that they were unable to cope with the fierce flames the firm telegraphed for assistance to the neighbouring towns of Lindsay, Peterborough and Bobcaygeon. The request in each case was promptly responded to, the Lindsay brigade being at work within 45 minutes after receiving the telegram, and the opinion was generally expressed that the good work done by them in retarding the progress of the flames, which were rapidly working their way towards the mills, which was of very great value. On the arrival of the Peterborough brigade about 12.20, they took up their positions on the east side of the yard and soon got in effective work with two good streams from their steam fire engine. At 4 o'clock, after several hours of hard and well directed work under the directions of Captain Sinclair and Yelland, the fire was under control, and the Lindsay brigade, who had had a long and hard siege of it, prepared to leave for home. The Peterborough and Bobcaygeon companies remained until all fears of additional outbreaks had subsided.

Messrs. J. W. Howry & Son's direct loss will be almost entirely covered by insurance.

The weird beauty of the fire, shooting its tongues of flames high in the heavens and illuminating the country for at least a radius of 20 miles, turning night into day was entirely beyond description. Hundreds of people from the surrounding district drove into the village, remaining all night. Some came a distance of forty miles.

A record smashing run was made by the special, with engine No. 639 in charge of Driver Dave Clarke, which consisted of two flat cars, a passenger coach and van. It covered the 16 miles in exactly the same number of minutes, about 200 passengers being on board, who can vouch for the correctness of the figures, especially the ones who rode on the flat cars. The latter complain of having their finger nails worn off from trying to get a grip on the bottom of the cars to keep them from being blown off.

The G. T. R. suffered the loss of two flat cars, 800 feet of railway tracks and a small bridge.

LECTURE IN ST. ANDREW'S.

Interesting Account of a Trip Through Ireland, Holland and Scotland.

Rev. John Neil, B.A., of Westminster church, Toronto, lectured on his recent trip to the old country, Friday evening, in St. Andrew's church.

In consequence of the extreme heat the attendance was not as large as it would otherwise have been, but if Mr. Neil ever returns to Peterborough he will draw a large audience, so favourable an impression did he make.

The entertainment was under the auspices of the Y.P.S.C.E. of St. Andrew's.

The speaker proved himself to be possessed of grand descriptive powers and the narrative of the incidents of his trip through Ireland, Holland and Scotland proved most interesting, being enlivened at intervals with amusing anecdotes of experiences amongst the Irish peasantry.

Mr. Neil was accompanied on his trip by Rev. Wm. Patterson, of Cooke's church, Toronto, who is well known in town.

The chair was occupied during the evening by Rev. Dr. Torrance and at the close of the interesting lecture a vote of thanks was passed to the speaker, on motion of Messrs. Robert Tully and Geo. Paton.

SUNDAY SCHOOL WORKERS.

Eighth Triennial Convention to Open in Boston on Tuesday.

The eighth triennial convention of the International Sunday School Association will open in Tremont Temple, Boston, on Tuesday. This is perhaps the most important body of Christian workers representing the various evangelical churches that meet in convention from time to time, because they have to do with the arrangement of the international series of lessons which now for over twenty years have been in use in a very large majority of the schools throughout the world. The lesson committee, composed of fifteen members, whose term of office expires with this convention, is elected once in seven years. The Canadian members of the present committe are:—The Rev. Dr. Potts, the Hon. S. H. Blake, both of Toronto. The members upon the executive committee for Canada are:—Messrs. S. P. Leet, Montreal; J. J. McLaren, LL.D., Toronto; S. J. Parsons, Woodstock, N. B.; W. P. Archibald, Cavendish, P.E.I.; C. H. Longard, Halifax, and J. M. Johnson, Winnipeg.

In the present meeting there will be 212 delegates from Canada. The principle business of the convention will be the election of a new lesson committee and the arrangement of a future course of study. A strong effort will be made to introduce separate lessons for the different grades of scholars, similar to the Blakeslee system discussed, but rejected, in the meeting held in St. Louis in 1892, which, while of possible advantage to large and well-graded schools, is considered by many to be detrimental to schools in the rural sections.

A recommendation is to come before the convention to increase the number of field workers or missionary organizers to labour in the interest of inter-denominational Sunday school organization. The Sunday statistics from Canada reported at the last convention were: Schools, 6,336; officers and teachers, 69,561; scholars, 576,064; total, 645,585. The statistics for the United States, Canada and Newfoundland are:—Schools, 131,918; officers and teachers, 137,735; scholars, 10,317,472; total, 10,445,207.

The Dominion ballot is absolutely secret. No one can tell how you vote. You need fear no intimidation. A boss may give you an order to vote; your conscience and your manhood give you another. Obey your conscience, assert your manhood and vote as you think right; for the man of your choice, for the policy you believe in.

DEMISE OF MISS WINNIFRED GERTRUDE STETHEM.

Typhoid Fever Claims a Victim at St. Joseph's Hospital.

A very sad death took place, yesterday morning, at nine o'clock, in St. Joseph's Hospital, when Miss Winnifred Gertrude Stethem passed away a victim of typhoid fever.

Miss Stethem had been in the hospital only a brief week, but the virulent type of the disease by which she was attacked left small hopes of her recovery, even under the skilled care of the Sisters.

The deceased was the second daughter of Mr. George Stethem, of Ashburnham, and was only eighteen years of age at the time of her demise.

The sad death of one possessing so sweet and amiable a disposition, has cast a general gloom over the town, in which she was a warm favourite wherever she was known. Miss Stethem was a faithful worker in the Young Girls' Guild, of St. John's South Ward Mission, and her early death will be deplored amongst the members. The funeral took place to the Little Cemetery this afternoon.

BUCKHORN ITEMS.

Huckleberries are ripe and plenty.

The Hall's Bridge Anglican church held their annual picnic in the grove on Saturday. The attendance was large, the day fine and a most enjoyable time spent. In the evening a concert was held. The 16th line band furnished music during the day and evening.

Fish is plentiful this season, large numbers of lunge and bass being caught daily. Peterborough fisherman are getting their share.

The Americans are commencing to arrive at the hotel and mine host Eastwood is preparing for more, who are expected to arrive about the 1st of July.

Messrs. Pinkerton and Leys, solicitors, Toronto, spent last week fishing, with good success.

Mr. Fred. Wesley, of Peterborough, was a guest at the hotel last week.

Miss Maud Smith, of Port Hope, is the guest of Miss Eastwood.

Buckhorn is getting to be a favourite drive for citizens of Peterborough. Leave Peterborough on Saturday evening at about 7 o'clock, in the cool of the evening, and make the trip over the level roads in three hours, arriving in time for lunch at the hotel before retiring. On Sunday morning one can spend the time very profitably in viewing the scenery in the immediate vicinity. In the afternoon a drive over the rock paved road to Sandy Lake, a distance of four miles, is very pleasant and the scenery is gorgeous. The return trip after sunset is most inspiring and gives renewed vigour for the week's work.

There is much speculation as to the cause of the sinking of the steamer Dawn, which took place on Saturday night.

Purely Vegetable.

First the bud, then the blossom, then the perfect fruit. These are the several stages of some of the most important ingredients composing the painless and sure corn cure—Putnam's Painless Corn Extractor. The juices of plants greatly concentrated and purified, gums and balsams in harmonious union, all combined give the grand results. Putnam's Extractor makes no sore spot, does not lay a man up for a week, but goes on quietly doing its work until a perfect cure results. Beware of acid substitutes.

CRICKET.

The second cricket team from the Trinity College School, Port Hope, came up for a match with the Peterborough II on Saturday last, with the result that the visitors were victorious by a large margin. The local team put up a good game in the field, but were defective at the bat owing to lack of practice. The score resulted as follows:

LACROSSE.

The St. Catharines lacrosse team find it impossible to play here on Thursday next and the match with the Peterboroughs has been postponed until a later date. The local team is sorry to disappoint those anxious to see a game, but it seems impossible to get a team here for a game.

The Peterboroughs go to Port Hope for a game on Thursday next.

CONCILIATION, not coercion.

BEWARE of last minute election lies.

Laurier won't be coerced—Laurier won't coerce.

VOTE for Laurier and Mowat, Hall and Lang.

Laurier, Hall and harmony; Tupper, Kendry and confusion.

SIR CHARLES TUPPER has been in politics about forty years—give him a rest.

Mark your ballot as a conscientious Canadian, not as a blind partizan.

DISCORD among our people is more fatal to progress than a pestilence.

No clean Conservative can follow the lead of Sir Charles Tupper with pride.

LAURIER conciliation and settlement; Tupper force and a deathless feud.

A vote for Kendry is a vote for Tupper Tyranny and Taxes.

Electors put Laurier at "sentry go" on the strong box of Canada.

THE country pays the piper and it's time there was a change of tune.

ARE you going to vote for Tupperism, Rykertism and McGreevyism?

LAURIER, peace and progress, not Tupper, discord and degeneration.

EVERY vote for Newman is a vote lost to Hall—Liberals stand to your guns.

LAURIER aims to reach Manitoba through the heart. Tupper by way of the throat.

Do you want good government? If you do you must have a change. It's time for a change.

"THE old flag"—that is all right—"the old policy"—is bad enough,—but its the old "practice" that hurts.

THE eight hour a day system prevails to-morrow, from 9 till 5—not to the "outside" workmen only, but to all.

MCGREEVY, who was jailed for robbing the the public chest, and Rykert, who should have been jailed, are both Tupper candidates.

To have national progress we must have the national forces working in harmony. Laurier stands for conciliation and peace; Tupper for bulldozing and discord.

SIR CHARLES TUPPER is worth two millions of dollars. He is the only Canadian politician in Canada that has made money out of politics. He wants to make more; his family may need it; the country needs it more.

IF Tupper is returned to power a new era of corruption and extravagance will begin. Tupper has promised about fifteen millions in wholesale bribery. These are the only promises he ever fulfills. Don't give him the chance.

THE Conservative candidate promises an Alien Labour Law. The government promised that no foreigners should work on the Trent Valley Canal, yet foreigners are employed by hundreds.

ONE half of the capital invested in manufacturies in Canada belong to Liberals who are supporting Mr. Laurier. Do you think they would do this if they feared his policy. A stiff revenue tariff with honest government is better a hundred times than a lopsided protectionist tariff that leaves the claims of the workers out of consideration.

THE combine manufacturer strives to compete with the workingman. The latter uses tools and the combinster tries to use the workingmen as tools. Workingmen you have one tool the combinster or boss can't "monkey" with on Tuesday. It's your secret ballot. Use it to destroy a system that protects the capitalists and permits the workingman to shift for himself.

How long would the shareholders of a bank retain a board of directors that mismanaged the affairs of the bank as the Dominion Government has managed our affairs for the past eighteen years. Not 18 seconds. And there are tens of thousands of Conservatives who acknowledge that we have been badly misgoverned and are voting for a change. It is time for a change.

VOTE FOR MR. HALL.

Mr. Richard Hall is the Candidate of the Liberal Party, whose policy is fair play, just taxation, honest administration, and fair play to all classes and creeds.

The following is a fac simile of the Ballot that will be put in your hand on Tuesday, he first time it will be used, and you will serve your own interest and the interest of the Country by marking your ballot as below.

HALL 1 Richard Hall, of the Town of Peterborough, in the County of Peterborough, Merchant.	X
KENDRY 2 James Kendry, of the Town of Peterborough, in the County of Peterborough, Woollen Manufacturer.	
NEWMAN 3 Robert Charles Newman, of the City of Toronto, in the County of York, Mariner.	

Mark your Ballot in the space at the head of the ballot and put your candidate, Mr. Hall, at the head of the poll, and the Liberal Party the party of progress, fair play and honest government at the head of the affairs of the Country. Your interests demand that you vote for "number one." Mr. Hall is No. 1 on the Ballot.

Seems as if consumption always picks out the brightest and best. Maybe it isn't so. Maybe it seems so because consumption is the most frequent of all diseases. Consumption kills more people than ware or Cholera or Yellow Fever. Fully one-sixth of all the deaths that occur in the world are caused by consumption. And consumption can be cured. Doctors used to say that it was incurable, but the doctors were merely mistaken. It would be strange if medical science did not make some progress. Many things were once considered impossible. The ocean steamer, the locomotive, the telegraph and telephone, the phonograph, the electric light—all these were once impossible, and once it was impossible to cure consumption. That was before the time of Dr. Pierce's Golden Medical Discovery. Taken according to directions, this standard remedy will cure 98 per cent. of all cases of consumption. Consumption is a disease of the blood. It used to be considered a disease by itself. It is not. It is caused and fostered by impurity in the blood. Purify the blood and restore the healthy action to the various organs of the body and consumption will be cured. It is by weakness and loss of vitality in the blood. It is cured by purity and richness of the blood—surely, certainly cured. Those who have consumption or any lingering bronchial, throat or lung disease, and those who are on the road to them, have a positive remedy at hand. Any condition of the body that indicates weakness, any indication of impurity in the blood, should be attended to at once. Loss of appetite, loss of flesh, loss of vitality, nervousness, weakness and unnatural weariness, are indications that the body is running down. Dr. Pierce's Golden Medical Discovery makes the appetite good, the digestion strong. It builds up solid, healthy flesh and vigorous strength. Thousands of people have testified that it has really saved their lives. Some of these testimonials, together with hundreds of things that everybody ought to know about health and sickness and medicine, have been embodied in Dr. Pierce's "Common Sense Medical Adviser." This 1008 page medical work, profusely illustrated, will be sent free on receipt of 21 one-cent stamps to cover customs and postage *only*. World's Dispensary Medical Association, Buffalo, N. Y.

KILLING BY WILL POWER.

Black Magic as Investigated by Scientific Psychologists.

Much interest is being taken by London, Eng., students of psychology in the newest kind of murder. This is the killing of the victim by will power. It is a nice, easy, safe and refined way of doing away with an enemy, and it is certain to appeal at a glance to any murderously inclined person of culture. Most people are inclined to regard the statement that murders are committed in this way as absurd. Of course, it does seem preposterous that by the mere exercise of a strong will power one person can accomplish the destruction of another, even if the latter be several hundred miles away. But preposterous or not, the psychic sharps who have delved into the subject claim to have unearthed numerous cases where death was brought about by willing. Skeptics dispose of these cases as being merely coinci-

DR. ANNA KINGSFORD.

dences. This may be, but they are certainly very strange. One peculiarity of these cases is that the killers glory in their work and point to it with pride. It would add an interesting chapter to these investigations if the law should get after one of these self-confessed thought murderers and try to convict him of crimes. It would open up many vast fields in criminal law and would demand a reconstruction of the criminal statutes of every nation on the globe.

Some of the psychic experts believe that it is possible to kill by willing and attribute the power to a species of hypnotism. Long ago hypnotism became an established fact, but its operations are limited to people who are peculiarly susceptible to its power. Men and women of strong and masterful intellectuality are unaffected by the doings of the hypnotist. But the victims of the alleged killers by willing have been men foremost in the ranks of science.

The late Dr. Anna Kingsford, the prominent lady physician, who died not long ago, was one of the first to come out and acknowledge herself as a killer by willing, and Edward Maitland, who recently brought out a book about her, describes these killings with voluminous detail. Mrs. Kingsford was a strange woman in many ways. She was an accomplished physician and the wife of an English clergyman. They agreed to part and for her to live in "intellectual companionship" with Mr. Maitland.

While pursuing her medical studies in Paris she started a war against the vivisectionists. She willed the death of Professor Claude Bernard and he died. Then she willed the death of Paul Bert, another noted scientist, and he died. Her next selected victim was Louis Pasteur, who became ill, but recovered, and this so worked upon Mrs. Kingsford that she died herself. A year later Professor Pasteur died.

The newest case developed by the investigators is given in the words of the willer, and seem rather extravagant, but they have merited the attention of scientists. They surpass in detail anything ever before given to the world in this line, and are clearly cases of psychic "black magic," the exercise of which power Madame Blavatsky denounced as "a weed which it will take seven and seven times seven of us to extirpate." Truly strange things are upon us at the end of the century.

DEVIL MADNESS IN SCHOOLS.

Children Terrified by Gruesome Stories—A Mad Panic—Teachers Calmed the Youngsters.

New York, June 20.—Incredible as it may seem to persons of ordinary intelligence, it is a fact that a large part of the residents of the lower East Side are completely demoralized by the reported appearance of the devil in the school which their children attend.

That the panic of Thursday should induce others was perfectly natural, for it served to whet the children's appetites for gruesome stories which the the brighter and more unscrupulous youngsters among them gladly supplied in the recess hours.

As a result there was another panic yesterday—this time in School No. 22—the third within as many days, and that there was no loss of life is due to the early hour at which it started.

To a reporter George W. Wade, janitor of Grammar School No. 22, at Sheriff and Rivington streets, said that he was sitting on the sidewalk in front of the department for girls at 8.15 a.m., when he was startled by shrieks coming from the playground in the schoolhouse.

There was no mistaking the meaning of that sound. It was a cry of terror—such terror as seizes great crowds and makes them for the time, absolutely uncontrollable.

Mr. Wade knew that there had been panics in the nearby schools. He knew that the children were in a state of nervous tension which might at any moment result in a panic in his own building.

He jumped to the door, but, quick as he was, the children were quicker. Before he could get to the entrance several of the children were out in the street. Those behind them were pushing and struggling to get out.

The children who got out kept up the cry:

"The devil! The devil's in the school! I saw him!"

Some boys took up the cry and ran through Sheriff and Stanton streets, shouting, "The school's on fire! The school's on fire!"

Men and women, hearing the alarm, dropped whatever work they were doing and hurried to the schoolhouse. In a few minutes there was a mob of frantic fathers and mothers in front of the schoolhouse, calling for their children.

Prayers and curses, men's shouts and women's cries for their little ones, combined to make the most hideous din possible. Germans, Hebrews and Italians were mixed up, crowding over one another, fighting to reach the schoolhouse gate.

When it became certain that a riot was imminent, a man rushed around to the police station, and a dozen patrolmen were sent out on the run.

And they had their hands full. The parents who believed their children to be in the schoolroom could not be driven away until the police waved their clubs in the air and threatened to charge the crowd. Even then the women resisted and had to be pulled away by their husbands.

Meanwhile Wade had been reinforced by Miss Julia Bell, principal of the Primary Department, and by several of the teachers. The children, seeing their teacher among them, gradually became amenable to discipline, and were marched from the playground up to their classrooms.

Once safely there, one of the teachers opened the piano and played one of the tunes with which the little girls were accustomed to begin their daily work in school. Before they had finished the song they had forgotten all about the devil and were once more at ease.

No better example of the discipline which prevails in the New York schools could have been given than that which occurred when Miss Bell and her assistants entered the playground. The children who were in there at the time of the panic knew Wade, yet he could not control them. But when the teachers were seen, even the tiniest tots were reassured and at once responded to their names.

A TORONTO LADY HURT.

Miss Minnie Hamilton Thrown From Her Wheel at Georgetown on Saturday and Knocked Insensible.

Georgetown, June 20.—Miss Minnie Hamilton of Spadina-avenue, Toronto, was seriously hurt this afternoon near Barber Bros.' paper mills. Approaching the bridge over the Credit River, there are very steep hills Miss Hamilton's wheel ran away with her, throwing her over the bank. She struck on her head and was knocked insensible. She is badly cut about the head and face, and there are symptoms of the brain being injured.

Murders by Matabeles.

Cape Town, June 20.—Despatches received here from Buluwayo show that the revolt of the natives in the Umtali district of Matabeleland, is of the most serious nature. The bodies of between thirty and forty murdered whites have already been discovered and patrols have been sent to-day to warn the settlers, who have been ordered to the Laager at Fort Salisbury. This post is also considered in danger. Sir Frederick Carington is sending reinforcements from Mashonaland and has asked the authorities of Cape Colony to send a force of 200 mounted infantry to the scene of the disturbance.

Physicians Commence to Realize the Value of Dodd's Kidney Pills.

OTTAWA, June 15—The inveterate reluctance to admit the success of patent medicine, usually evinced by physicians is is rapidly giving way so far as Dodd's Kidney Pills are concerned. The cases of Dr. Rose and Dr. McCormick, who published details of their recovery from diabetes and Bright's disease, through the agency of this remedy, were the first attacks on the citadel of their skepticism and now it appears as if the remarkable recovery of Mr. G. H. Kent, of this city, the details of which have been transmitted to the press, would complete what has been so auspiciously begun. The published interviews with Mr. and Mrs. Kent and the sworn statement of the former leaves no foothold for disbelief.

Art of Dusting.

To sweep a room is little; to get it ready for sweeping takes time. There should be a variety of brushes and cloths. A paint brush makes an excellent tool for removing the dust that lodges in carving and which cannot be reached by a dust cloth. A stiffer brush gets it from mouldings coarser than carvings. A wooden skewer or even a pointed sharp knife may be needed for corners which have not been clean for so long that the dirt is packed in them. These corners may be found in some rice houses. An old silk handkerchief makes a good duster, and next best is old cheese cloth. Feather dusters are absolutely useless except for throwing the dust into the air.

FOUND A JEWEL.

An Important Find by a Brockville Jeweller.

Mr. Joseph Lane, the well-known jeweller of Brockville, says: "For some years I have suffered with severe pains in my back and sides and flashes of heat between my shoulders. I had a tired, wornout felling. "The numerous medicines that I took gave me very little relief. Hearing of Doan's Kidney Pills I thought I would try a box, and got one at Curry's drugstore. "After the first two or three doses I felt much relieved, and the longer I took them the greater the change for the better in my condition. I am much better in every respect and recommend Doan's Kidney Pills to all sufferers from kidney trouble as the best remedy I know of."

"Going to Insure."

THE Man who is simply "going to insure" is usually no better than the man who has'nt made the decision. In fact he is usually worse, because he has considered the subject and been convinced of his duty, but has not done it. "Nothing is done so long as anything remains undone." On application to either of the undermentioned gentlemen, full particulars will be furnished in regard to the Unconditional Accumulative Policy issued by the

Wood's Phosphodine.—*The Great English Remedy.*

Is the result of over 35 years treating thousands of cases with all known drugs, until at last we have discovered the true remedy and treatment—a combination that will effect a prompt and permanent cure in all stages of *Sexual Debility, Abuse or Excesses, Nervous Weakness, Emissions, Mental Worry, Excessive Use of Opium, Tobacco, or Alcoholic Stimulants*, all of which soon lead to Insanity, Consumption and an early grave. Wood's Phosphodine has been used successfully by hundreds of cases that seemed almost hopeless—cases that had been treated by the most talented physicians—cases that were on the verge of despair and insanity—cases that were tottering over the grave—but with the continued and persevering use of Wood's Phosphodine, these cases that had been given up to die, were restored to manly vigor and health—Reader you need not despair—no matter who has given you up as incurable—the remedy is now within your reach, by its use you can be restored to a life of usefulness and happiness.

Price, one package, $1; six packages, $5; by mail free of postage.

One will please, six guaranteed to cure. Pamphlet free to any address.

CANCER CURED
—AND A—
LIFE SAVED
By the Persistent Use of
Ayer's Sarsaparilla

"I was troubled for years with a sore on my knee, which several physicians, who treated me, called a cancer, assuring me that nothing could be done to save my life. As a last resort, I was induced to try Ayer's Sarsaparilla, and, after taking a number of bottles, the sore

began to disappear and my general health improve. I persisted in this treatment, until the sore was entirely healed. Since then, I use Ayer's Sarsaparilla occasionally as a tonic and blood-purifier, and, indeed, it seems as though I could not keep house without it."—Mrs. S. A. Fields, Bloomfield, Ia.

CRETANS FEAR MASSACRE.

It is Believed in Athens That Refugee Christians Will Shortly be Murdered —Churches Desecrated.

Athens, June 19.—The Turks refuse to allow any provisions to be taken to the thousands of Christian refugees at Rethymuy (Retimo) and other towns. Grave fears are entertained that all these helpless people will be massacred at the first opportunity unless the appeal of the Cretan Committee to the powers is granted and they are allowed to take refuge on board ship. If this were permitted the committee would send them food.

The condition of affairs calls for immediate action, and not a moment should be lost.

Another instance of Turkish barbarity is reported here. A few days ago a Christian went to work in a vineyard at Khijavia under an escort of two Turkish soldiers, when the men turned on him and cut him to pieces.

The commander of an English ironclad and the British Consul together visited the village of Coster and found it devastated. Another church has been destroyed, bringing the total of these outrages up to four. The tombs in each church were desecrated.

Sinister rumors have reached Athens from Constantinople to the effect that Armenians are being hanged in public places and on bridges. The condition of the country in the interior is deplorable.

THAT VENEZUELAN BOUNDARY.

The Position of Great Britain and the United States on This Burning Question —There Was No Conflict.

London, June 19.—In the House of Commons to day Mr. George N. Curzon, Under Foreign Secretary, stated that Sir Julian Pauncefote, British Ambassador at Washington, had been authorized to receive and report any proposals that might be made to him by the representative of Venezuela in Washington in regard to the Venezuelan boundary dispute. The representative of Venezuela in Washington had been so informed, but so far, Mr. Curzon said, he had not made any proposals. Negotiations between Great Britain and the United States, Mr. Curzon continued, were in progress or agreement upon a treaty of arbitration. With reference to the frontier question, he said as far as the Government was concerned the failure to settle the difficulty with Venezuela had not offered any obstacle in the way of the conclusion of general arrangements respecting arbitration, which the Government hoped to see completed.

There Was No Conflict

London, June 19.—The Foreign Office officials deny the truth of the report that a conflict has taken place between Venezuelans and British at Point Barina in the disputed territory of Guiana. The Foreign Office is not informed that there had been any trouble in the disputed territory whatever.

SEGUIN FALLS MURDER.

A Swede Who Had a Club Now In Jail at Parry Sound.

Parry Sound, June 19.—The man arrested at Rose Point yesterday as the murderer of the unknown man at Seguin Falls was brought here to-day from the latter place, whence he had been taken for identification. With the exception of a change in his dress and having been recently shaved, he answers the description exactly of the man seen there in company with the murdered man, and was satisfactorily identified by several. He is a Swede and through an interpreter stated that he had no relations living. He had in his posession a club which is thought to be the weapon used to commit the crime. It bore evidence of having been recently scoured. He also had a handkerchief, which, although lately washed, bore the traces of blood stains. He also had a gold watch and a few dollars of money, whilst when previously seen he appeared to have no money. He made no remarks that would tend to incriminate himself. He is now lodged in the jail here, and will appear before Judge McCurry for examination Friday next.

10,000 WERE DROWNED.

The Loss of Life by the Tidal Wave in Japan, It Now Appears, Was Simply Appalling

Yokohama, June 19.—Additional reports as to the loss of life by the recent earthquakes and tidal wave in the northern provinces of Japan show that 10,000 persons were drowned by the tidal wave which accompanied the shocks.

To make house plants grow, Professor Boosof says: Saturate the earth around them every day with the coffee left over at breakfast. Five or six drops of ammonia to every pint of water once a week will make them flourish. To make bulbous flowers blossom, fill a flower pot half full of quicklime and the remainder with good earth, plant bulbs and keep the earth dam. The heat of the lime, tempered by passing through the earth, will cause the bulb to send forth shoots to blossom. The colors of red and violet flowers are rendered extremely brilliant by covering the earth in their pots with about one-half inch of pulverized charcoal. Charcoal does not affect yellow flowers at all in this way.

ONE HONEST MAN.
Dear Editor: Please inform your readers that if written to confidentially, I will mail in a sealed letter, the plan pursued by which I was permanently restored to health and manly vigor, after years of suffering from Nervous Weakness, night losses and weak, shrunken parts.
I have no scheme to extort money from anyone. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank Heaven, I am now well, vigorous and strong, and anxious to make this certain means of cure known to all.
Having nothing to sell or send C.O.D., I want no money. Address, JAS. A. HARRIS,

PRINCE MIKE IS FREE.

Having Served His Term in Prison There is Joy Among the Detroit Flying Rollers—God House Desecrated.

Jackson, Mich., June 19.—"Prince Mike," chief apostle of the Flying Roll Colony of Detroit, walked out of Jackson Prison to-day once more a free man. His term of five years, to which he was sentenced for an assault upon a 15-year-old girl who had been brought into membership in the colony, was finished at midnight.

Detroit, Mich., June 19.—The "Godhouse" of the Flying Roll Colony on Hamlin-avenue has been desecrated. A week ago the house was painted red, white, blue and yellow, in anticipation of Prince Michael's return from the State's Prison. The sight was gorgeous and people flocked from all parts to the city to see it. Last night a gang of men, whose faces were hidden with handkerchiefs, silently marched to the house and proceeded to undo the work of the Flying Rollers. They covered the front and sides of the house and steps, windows and doors with tar paint. Then the men dug up sod from the lawn and used it instead of feathers for decorative purposes. They went to the barn and smeared in the same way the carriage which was to convey Prince Mike from the depot.

Detroit, Mich., June 19.—"Prince Mike" arrived from Jackson this afternoon, accompanied by Eliza Courts. They proceeded at once to the "Godhouse," where a service of thanksgiving and jubilee was held by the "Rollers."

Pushed the Boy Into the River.

Kingston, June 19.—A cadet at the Royal Military College named Bennett has been put under surveillance for having pushed a lad named Oliver into the Cataraqui River. Bennett was angry because of a tripping episode while passing a company of lads who were fishing. Another cadet jumped into the river and rescued Oliver. The matter will be investigated.

Hot Fire at Waterford.

Waterford, Ont., June 19.—About 1 o'clock this morning fire was discovered in the Thompson Electric Company's works, and before any assistance could be rendered the fire had gained such headway it was impossible to extinguish it. The building, which was a large brick structure, was entirely consumed by the flames, being burned to the ground. Nothing was saved except the furniture. The stock was completely destroyed. The origin of the fire is a mystery. Loss $30,000; insurance $16,000.

ABOUT THE LIVER.

A lazy, slow or torpid liver influences the whole system, causing biliousness, sick headache, sallow complexion, languor and dullness. Burdock Blood Bitters regulates the liver, purifies the secretions and cures all forms of liver troubles. We say so and here is the proof:—

I hereby wish to thank you for the great benefit derived by me from your Burdock Blood Bitters. For three years I was troubled with liver complaint and tried everything to no purpose. I had almost given up hope until one day I determined to try Burdock Blood Bitters. I can say now that marked improvement resulted from the use of the first bottle and at the end of the sixth bottle I discontinued its use, being completely cured.

Geo. Nichol, Seaforth, Ont.

I can certify to the above in every particular.

PETERBOROUGH, TORONTO, LINDSAY

YOUNG'S POINT.

From Our Own Correspondent.

The Methodist church here will hold a tea meeting on Wednesday, July 1st. An excellent programme will be rendered, commencing after tea, consisting of songs, readings, recitations, etc., by members of the Sunday school, and addresses by the Rev. Messrs. G. R. Clare, T. J. Edmison, B. D., and A. C. Reeves. B. A. Solos will be rendered by Miss Fitzgerald, of Smith. The choir will also sing for the occasion, and the 16th line band will be in attendance and render choice selections of music. Tea served at four o'clock. Tickets 25 cents, children 15 cents. Everybody is invited to come.

The football club will play a friendly match with the Selwyn club on July 1st at Selwyn, returning in the evening and playing in the football grounds here.

Mrs. McDonald and daughter, who have been spending a few days with friends here, have returned home.

The Mary Ellen connected with the special train last Thursday evening and quite a number of our villagers went down to hear Sir Charles Tupper speak in Peterborough.

Stony Lake, our beautiful and health-invigorating summer resort in close proximity to our village, is rapidly filling up and before long it will present quite a lively scene with its numerous cottages filled with people.

The steamers Mary Ellen and Golden City will commence this week to connect with all trains for any part of the lakes desired.

Among the guests we notice at the Lakeview House this week are as follows: Messrs. J. G. Harworth, A. J. Pattison, W. B. Bayley, H. S. Pell, J. Firstbrook, Dr. C. Crow, Edw. Trow, of Toronto; T. Fitzgerald, Alex. Elliot, and wife, A. Moore, M. E. Sanderson, H. Cowie, J. E. Lynch, F. Logan, C. Tuttleson, J. Wilson, B. Galley, Peterborough; H. C. Phillips, Belleville; Alex. Smith, Waskworth.

Seven prominent gentlemen of Toronto and T. Fitzgerald, of Peterborough, who has been rusticating at the "Lakeview House" the last three days, returned home last evening for Toronto, much delighted with their outing and their immense catch of fish. They pronounce the fishing much better here than any place they have visited around these waters. This speaks well for the Point as a resort for those piscatorially inclined. Our old friend Tobe, being captain, was much delighted to see one of the party land an 18½ pound maskinonge.

Mrs. R. Pope is visiting friends here.

Miss Josephine Phelan, Lakefield, is spending a few days with her sister, Mrs. J. E. Kearney.

Mrs. Strong and Mr. John Fanning, of Peterborough, spent last week the guests of their sister, Mrs. R. Herd.

Sure to Win.

The people recognize and appreciate real merit. That is why Hood's Sarsaparilla has the largest sales in the world. Merit in medicine means the power to cure. Hood's Sarsaparilla cures—absolutely, permanently cures. It is the One True Blood Purifier. Its superior merit is an established fact, and merit wins.

Hood's Pills are easy to take, easy to operate. Cure indigestion, headache.

Highest Quality Beef at Lowest Prices.

The cattle killed for John J. Howden's meat market is as carefully selected as the cattle chosen for export to the old country. Best sirloin and roast cuts 10c per pound, fresh from the farms of noted cattle raisers, at 461 George street. Telephone 39.

The Breath of the Pines.

Coughs, colds, asthma, bronchitis, sore throat and lung troubles are cured by Norway Pine Syrup. Price 25 and 50 cents. It breathes out the healing virtues of the pine forests.

The Dominion ballot is absolutely secret. No one can tell how you vote. You need fear no intimidation. A boss may give you an order to vote; your conscience and your manhood give you another. Obey your Conscience, assert your manhood and vote as you think right; for the man of your choice, for the policy you believe in.

KEARNEY WILL HANG.

Found Guilty at Lindsay of Murdering Old John Agnew—To Die on Oct. 1.

Lindsay, June 20.—Harry Bush, Edward Roach and Joseph Grozelle swore to meeting Kearney the night of the murder. Kearney fired a shot from his revolver while he was with them. Grozelle identified the watch Kearney used to carry, which was found in a field.

Henry Logie, Kearney's employer, said Kearney put on overshoes the night after the murder, and then changed them to long boots. He saw a watch in Kearney's pocket on that morning. John Elliott heard the revolver shot that killed Mr. Agnew, and saw the watch on Kearney. He also identified the revolver, and Ellen Marion, a domestic at Logie's, told how she found part of the revolver on the floor the morning after the murder.

J. J. Finney denied trading watches with the prisoner, and Joseph Grozelle swore to finding Kearney's watch while plowing. Chief Bell said the prisoner stated to him that the pistol found was the one from which he fired a shot at Foley's Corners when with the three boys.

Dr. Clarke of Toronto Asylum and Drs. Jeffers and Lynch said the prisoner was practically an imbecile. Dr. Richardson of Toronto jail, and Dr. Alpine thought Kearney was responsible for his own actions.

The Verdict.

The jury returned a verdict of guilty against John Kearney. The judge charged in the main against the prisoner, especially on the imbecility part of the defence. The jury was out for two hours, and brought in the verdict at 12.15 p.m.

The sentence of the court is that John Kearney be hanged on Oct. 1 next.

Patrick Kearney, John's brother, was acquitted.

WHAT DOES GOULD WANT?

He is Now in Canada—Is He Simply Fishing or is He After a Canadian Railroad?

River du Loup, Que., June 21.—Mr. Gould, the New York millionaire, passed here to-day in his private car on the mail special, en route for Metapedia. He had a long conversation at the station with Mr. A. R. McDonald, superintendent of the I.C.R., and people here believe that it was in reference to the Baie des Chaleurs Railway, of which the later is sequestrator. Mr. McDonald, having been questioned, simply answered that Mr. Gould was going on a fishing excursion.

AFTER WIMAN'S MONEY.

Does the Great Exponent of Commercial Union Draw $1000 a Month for Life?

New York, June 21.—Erastus Wiman again appeared in the court yesterday as defendant in a suit brought by Edward E. Huber, the holder of a claim of $1060 against him. The suit was brought in order to endeavor to unearth some of that wealth which it is popularly supposed Mr. Wiman has snugly stowed away, and for that purpose the validity of his assignment was attacked. The ground alleged was that Mr. Wiman's interest in the business of R. G. Dun & Co. had not been included in his schedule of assets. Also a five acre lot at Clifton. The plaintiff also sought to cancel the transfer of $64,000 of stock in the Electric Power Co., which Mr. Wiman made just before assigning. The testimony showed that Mr. Wiman expected to draw $1000 monthly from R. G. Dun & Co. for the remainder of his life.

What She Said.

Mrs. R. Peck, E. 15th street, New York city, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbours also. Writing the manufacturer of Nerviline, she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbours to some of it, and all think it the best medicine for internal or external pain they have ever used."

Ladies in the Way.

New York, June 21.—The Times' London special says: "Friday afternoon the nuisance of women crowding upon the riverside terrace of the House of Commons at the tea hour reached a point where everybody admitted that it was intolerable, and it seems very likely that action will be taken next week to put a summary stop to the abuse. The fashion is of quite recent growth.

HAD JUST MADE UP A QUARREL

And Were Having a Happy Ramble in the Park When the Fatal Bolt Struck Them—The Young Woman Will Probably Recover.

New York, June 22.—Charles Valenti of No. 66 Wooster-street, a foreman in the Street Cleaning Department, became engaged 18 months ago to Miss Louisa Costella, of No. 312 East Twenty-fifth-street, a pretty girl in the employ of a cigar company at Twenty-ninth-street and Third-avenue. Shortly afterwards they had a lovers' quarrel, and although they recognised each other when they met in the street or at church, they did not become reconciled until yesterday morning, when their friends, after mass was over at St. Mary Magdalen's Roman Catholic Church, in East Seventeenth-street prevailed upon them to forgive one another and renew the engagement.

The young couple were in the happiest mood at the glad ending of their differences, and Valenti proposed in honor of the event that they spend the day together and take an excursion of some sort. Miss Costella was delighted, and hurried home to get ready for the outing. Within an hour she and her lover were on their way uptown, carrying with them a basket containing their lunch.

They took a train at the Grand Central Depot and alighted at Van Cortlandt Park Station. Then they locked arms and sauntered to the woods, through which they roamed for several hours, until at length they came to Dash's orchard, on Tibbett's Brook-lane, near Van Cortlandt-avenue. It was now long past noon, and as their love-making had not interfered with their appetites, Valenti's suggestion that they eat their lunch there proved agreeable to his sweetheart.

The spot was an ideal one for an out-door meal. Just inside the stone wall which runs along the lane stands an immense wide-spreading cheery tree. Its shade was very welcome to the two lovers, so they spread their lunch on the grass beneath it and had a jolly light hearted time of it.

The gathering storm at last alarmed them, and they started down the lane in the hope, apparently of reaching the depot or some hospitable farm-house before the rain descended. Their start, however, was made too late, and they had gone only a short distance when the rain deluge broke upon them. Then they turned back to the cherry tree. It offered the best shelter of anything in sight from the descending torrent. As they ran towards the tree Valenti gallantly removed his coat and threw it over his sweetheart's head to protect her from the rain.

The stone wall is three feet high and is four feet from the roadway. The wall is made up of rough stones, uncemented. As they reached the wall, Valenti, a strapping athletic fellow, lifted the girl in his arms, with the utmost ease, and placed her upon the wall top. Then he himself climbed up and jumped to the other side.

Then he caught Miss Costello in his arms, so as to help her down. She leaned upon his shoulder, with her arms clasped around his neck, and he kissed her.

At that same moment came a fearful flash of lightning. The bolt struck Valenti on the right shoulder, killing him instantly. It also struck Miss Costello on the left shoulder, paralyzing her and rendering her unconscious. As they both fell to the ground, the dead body of Valenti was at right angles to that of his sweetheart, the feet of the living and of the dead touching each other.

The deadly lightning bolt happened at about 4.30 p.m. It was 5.15 p.m. before Valenti's death became known. Patrolman Henry Bolte of the Kingsbridge Police Station, lives only a little distance from the scene of the accident. He was off duty, and moving about the grounds of his house, when he heard the low moaning of a woman. For a few moments he was unable to locate it, but at length reached the spot where the bodies lay. As he neared her he heard Miss Costello feebly cry for help and her entreaties to her lover to speak to her.

How long she had been beside his dead lady before she recovered consciousness she could not say. Even when found by Patrolman Bolte she was still in a dazed condition.

Bolte made a hasty examination of Valenti's body and convinced himself the man was dead. Then he jumped the creek and rushed to his stable, where he quickly harnessed his horse to an open buggy and drove around to where Valenti's body lay. He lifted it into the buggy and laid it in the bottom of the vehicle, so that the head hung over the side and the feet over the other. Next he put his arm around the waist of Miss Costello, who was too dazed and injured to help herself, and lifted her on the seat of the buggy. Not releasing his hold upon her for fear that she would fall from the seat, he got into the buggy, and, giving reins to the speedy little horse, dashed like mad toward the station house, not knowing but that the woman, as well as the man, would be dead before he reached his destination.

When the station house was reached, Fordham Hospital was rung up, and soon afterwards the ambulance, in charge of Rr. Reilly, drove up. He confirmed the opinion of the police that that Valenti's death had been instantaneous. Miss Costello had again lost consciousness in the drive from the woods to the station house, but she recovered herself once more after her arrival at the hospital. She continued to cry for her dead lover. Examination showed that there was a mark on her left shoulder where the lightning had struck her. Her back had been cut by her fall on some rough stones at the foot of the wall.

Valenti's body was kept at the station house pending the action of the coroner's office. On the right side of his chest was a mark similar to the letter F, the death initial of the lightning bolt.

At a late hour last night the woman was reported to be somewhat improved.

WHAT KILLED HIM?

A Former Toronto Man Falls Dead in a Very Peculiar Way at the Rochester Electric Light Works.

Rochester, June 22.—Charles Hilliard, 35 years of age, an employe of the Citizens' Light and Power Company, met a sudden and peculiar death yesterday morning. He was at work in the company's plant at the foot of Factory-street and was walking around a switch board when he suddenly fell to the floor. Some men who were standing near him saw him fall and rushed to where he lay on the floor. All of the methods of resuscitation which the electrical workers are instructed to employ in cases where a person receives a severe shock were tried, but without avail. The man never recovered consciousness after he fell and death finally resulted.

Hilliard had been in the employ of the company for about a year and a half. He was an unmarried man and boarded at the Otto flats on Mortimer-street. He came here from Toronto two years ago. He had no relatives in the city. His family lives in Toronto. He began work with the company as a lineman, but latterly was accustomed to do general work about the plant. For the last two weeks he had been working nights.

Coroner Graham ordered the remains removed to the Morgue, where an inquest will be held this evening. To-day an autopsy will be performed. Until the result of this is made known, the cause of the man's death will be a mystery.

A few minutes before Hilliard fell on the floor he walked over to a corner of the room and drank two glasses of ice water. It was quite warm in the room where he was working, and as Hilliard was a large fleshy man it was thought that the sudden change in his temperature might have something to do with his condition.

WHAT'S UP NOW?

British Warship Mohawk Under Urgent Orders—Trouble on the French Shore.

St. Louis, June 22.—The British warship Mohawk left here suddenly before daylight yesterday morning upon receipt of urgent telegraphic orders from Commodore Bourke, commanding the flagship Cordelia, directing her to proceed to White Bay, where trouble has arisen between British and French fishermen along the celebrated French shore. The French flagship La Clocheterie and the British flagship Cordelia met at Bonne Bay last week and passed without saluting. Serious friction is feared, during the coming months, because several thousand Newfoundland and French fishermen are mixing together on the coast.

NEWS FROM OTTAWA

An Exhibition of Butter of Quebec Make

TO TAKE PLACE AT THE OLD CITY

Creameries Will Send Consignments and Experts Will Carefully Examine Them—The Fast Atlantic Line Tenders—Splendid Capacity of the Soo Canal.

Ottawa, June 22.—(Special.)—Prof. Robertson, Agricultural Commissioner, leaves for Quebec in a day or two to attend an exhibition of butter arranged for by the Provincial Government on what is known as the Danish method. Shipments of butter are telegraphed for from different creameries in the Province only two days before the exhibition is to take place. In this way there is no time to specially prepare exhibits. The butter is examined by commercial experts and medals will be given to the winners. The Agricultural Commissioner and some other expert will examine the different exhibits and send letters to the creameries pointing out any defects either in making or packing and how they may be remedied. The exhibition will be an excellent test of the value of the Danish method, and will assist in improving the quality of the butter if the criticisms of the experts are followed.

Tenders for the fast Atlantic steamship service were received at the High Commissioner's office in London up to June 10, and the package containing them reached the Department of Trade and Commerce by to-day's mail. They will not be opened until Mr. Ives returns to Ottawa.

According to returns received at the Department of Railways and Canals the total number of vessels locked through the Canadian St. Mary's Canal from May 7 to June 19, both inclusive, was 1293. One lockage admirably demonstrated the wonderful capacity of this grand work, the steamer City of Grand Rapids, 135 feet long; the steamer Spokane, 311 feet; schooner Iron King, 265 feet; schooner Iron Queen, 275 feet, and tug Stanwood, 65 feet, or a total length of 1051 feet, passing through at one time. The tonnage of these vessels was 4918.

Canadian hay dealers will probably this year be able to find a ready market for the surplus product of Canadian hay in the Mother Country and France, as the crop in both countries this year is, according to advices, received at the Trade and Commerce Department to-day, very light and wholly inadequate for the requirements of the population.

Mr. J. J. McGee, Clerk of the Privy Council, is in Montreal to-day in attendance at the Cabinet meeting being held there.

Mr. Haggart was in town for an hour or two this morning and afterwards left for Perth, where he will remain until after the elections.

Col. Toller of the Finance Department left for St. John to-day on receipt of a telegram stating that his brother-in-law, Sir Leonard Tilley, is very low.

A young daughter of Mr. Justice Burbidge of the Exchequer Court had a narrow escape from drowning in the Ottawa River on Saturday. She was bathing at Kettle Island and got beyond her depth. Mr. J. P. Lawless and his daughter went out to Miss Burbidge's assistance, and they were in danger of sinking when Mr. A. F. Dixon of the Railways and Canals Department went to their rescue.

The Department of Railways and Canals is calling for tenders for the Simcoe and Balsam Lake division of the Trent Canal, a distance of about 14 miles.

AGED ARTISTS MARRY.

The Groom is 72 Years Old and Carries Many Honors—The Bride an American.

Paris, June 22.—The civil marriage took place this morning of Adolphe William Bouguereau, the celebrated French painter, and Elizabeth Gardner, formerly of Exeter, New Hampshire. The ceremony was performed by the Maire of the Sixth Arrondissement. The witnesses for the bride were Samuel E. Morse, the American Consul-General, and Edward Tuck, a native of Exeter, who has lived in Paris for many years, and for the bridegroom, Paul Ginain, a distinguished architect, and Gabriel Thomas, the well-known sculptor. The religious ceremony took place in the chapel of the Convent of Notre Dame de Sion, the Bishop of Angers officiating.

M. Bouguereau was born in 1825 and is now in his 72nd year. He is a member of the Institute of France and an officer of the Legion of Honor. He gained the grand prize in 1850. His real fame dates from 1854, when he exhibited "The Body of St. Cecilia Borne to the Catacombs." The bride is one of the greatest woman artists of the day and in 1887 she was awarded the gold medal of the Paris Salon.

The bride is the only American woman artist who has thus been honored She became acquainted with M. Bouguereau nearly 25 years ago, when she was struggling to gain a foothold in the art world. She became his pupil, and would have married him years ago had it not been for the opposition of M. Bouguereau's mother, who objected to her son marrying an American. The mother died some time since and the marriage followed. The bride's most famous work is "David, the Shepherd." Miss Gardner was a close and warm friend of M. Bouguereau's first wife, and when she died Miss Gardner took the daughter to live with her, and was for years to her as a mother. Besides the daughter, who is now married, there is a son in the army.

Forest Fires in Mexico.

Coatzacoalcos, Mexico, June 22.—Forest fires are raging in all parts of the Isthmus of Tehuantepec. Thousands of acres of coffee, cotton and tobacco have been burned over and several railway bridges on the National Tehuantepec Railway were completely destroyed. The heat on the Isthmus is intense.

A Brantford Merchant Dead.

Brantford, June 22.—H. W. Brethour, an old and very respected citizen of this place, died this morning. Deceased carried on a drygoods and clothing business very successfully here from 1853 to 1883, at which time he sold out and retired to private life.

SUMMER OUTINGS.

The season is approaching or rather is here when the exodus from the urban wilderness of brick and mortar takes place to the wilderness of shaded stream and lake; to the quiet resorts where the splash of the paddle and the swish of the cast fly are the harshest sounds that break the stillness of the delightful desolation. To the haunts where the conventionalities of dress are discarded and the wearer of sweater and blazer, sun hat and calico, can rest at ease or roam at pleasure regardless of starch or the integrity of frills; where business and its cares do not intrude and where, for a time, the dolce far neinte of life holds sway. Happy and fortunate are they that can enjoy these pleasures—this brief respite from the corroding cares that canker the daily round of life. It seems in these days that all need this change, or, at least, think they do, which in practice amounts to the same thing. A few years ago, merchant and mechanic, millionaire and milliner, housewife and housemaid, were content to struggle along from year's end to year's end without the inevitable summer holiday. But then things were different. Then we lived our lives more sedately. The mad race for wealth, or station, or prominence, was not run under so keen a spur as now-a-days. The conditions of business were easier; competition was not so brisk, and in all departments of human activity we lived a more deliberate life, free, or comparatively free, from the excitements and worries that accentuate every phase of to-day's struggle for existence. The nervous strain was not so intense, and altogether we did not feel as we do now or think we do—the necessity of rest, relaxation and change. At any rate we all take holidays—that is all who can—and if, in so doing, we sacrifice no obligations that should have first consideration, if we neglect no important duty that demands the preference, to our own enjoyment, we shall be the better of rest and recuperation. To be beneficial a summer holiday should be a change—a change from the social festivities that in the name of pleasure enervate more than toil. The holiday should take with it, therefore, simple habits both of action and attire. A complete reversal of the habits of life and occupation that have contributed to our fatigue and made rest and change a desirable condition, combined with moderation of exercise, and early hours will result in the greatest benefit. But a simple translation of the scene of festivity and excitment from the town to the country will not give the results sought after. Moderation in all things, including pleasure seeking as well. If we seek change, rest and relaxation for their simple sakes, and conduct our quest rationally, we shall get good; but if we carry the social revalries of the town into our holiday making, we shall only accentuate the evils that urban dissipation engenders. If we take our ledgers and bill books with us—in spirit if not in substance—we shall miss the mark. Let us be rational in our pleasure seeking as in our daily lives, and we shall be able to mark with a white stone, the day when we return refreshed and strengthened for the battle of every day life, from one summer outing.

The doctor may be a good old man, but even so, medical examinations and the "local-application" treatment are abhorrent to every modest woman. They are embarrassing—often useless. They should not be submitted to until everything else has been tried. In nine cases out of ten, there is no reason for them. In nine cases out of ten, the doctor in general practice isn't competent to treat female diseases. They make a branch of medicine by themselves. They are distinct from other ailments. They can be properly understood and treated only by one who has had years of actual practice and experience in this particular line. This is true of Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, at Buffalo, N.Y. Dr. Pierce's Pierce's Favorite Prescription, a remedy for all derangements of the reproductive organs of women, has been in actual use for more than thirty years. It cures every form of "female weakness."

THE HOME WEDDING.

Hints as to Costume and the Etiquette to Be Observed.

The order of the home wedding varies as greatly as does the social status of the bride and the income of the parents. Whether the occasion is to be one of simplicity or elaboration is the first point to be decided. When that is understood it is a simple matter to plan the details.

White is the accepted costume, whether the material be satin, heavy silk or some simpler fabric. Some few brides do prefer the traveling gown. For such, however, dark silk or a light cloth of tailor make is correct. With it is worn a hat. Whether or not the journey is actually undertaken without a change, that is the impression to be conveyed.

The white gown is made with a slight train, and is always high in the neck. Sleeves of elbow length, with suede gloves that meet them, are preferred. Simplicity in general style is considered good taste. Lace garniture upon the bodice is always good, and if the lace be an heirloom has special significance. The veil may be of real point of duchesse, or of simple tulle. In the case of the last, it should fall in graceful and full folds, a white comb or jewelled pins.

The ceremony itself is apt to be less formal when held at home; nevertheless, it is quite correct to carry out all the forms of a church wedding, if one prefer. In the latter case, a space is marked off either by means of plants or by a white ribbon stretched across the room. Within this space the clergyman stands, and chairs are placed for the mother and all near elderly relatives of the bride and groom. If possible, it is so arranged that one entrance to the room is near by. Through this the groom, with his best man, enters to meet the bride. She, escorted by her father, and supported by a maid of honor, walks the length of the drawing-room to take her place. Musicians concealed somewhere close at hand play the Wedding March. After the ceremony the bride and groom simply turn to face the guests, and receive congratulations. Shortly before the hour of leaving they lead the way to the breakfast or supper. After partaking of refreshment the bride withdraws and makes ready for her journey.

Simpler weddings are conducted with less formality. The bride may be escorted by her father, if she prefer; but it is usual to enter on the arm of the groom, accompanied either by a maid of honor or two small pages dressed in white. For such occasions there is no strict law. As a rule the gathering is a family one, and the ceremony performed, there is an informal offering of good wishes, followed by a breakfast, at which all are seated and the bride cuts the cake.

Sleeping as an Art.

Sleep is a state requiring careful preparation, and without that preparation its best results cannot be obtained.

In the first place, the bedroom must be as quiet as the neighborhood will permit. It must be well ventilated. The air in it should not be vitiated by the burning of gas throughout the evening. If possible, gas should not be burned at all, but candles should furnish whatever light is required. The bed should be turned so that the morning sun will not shine directly into the eyes of the sleeper. A screen placed between the foot of the bed and the window helps to prolong the morning nap after sunrise.

The bed should not be downy. Feathers may be luxurious, but they are unhygienic. A hair mattrass, with no pillow at all, or at most a very small one, not only conduces to the greatest amount of repose, but helps to give an erect carriage and other things which sleepers like to possess in their waking hours. The coverlids should be as light as is consistent with proper warmth.

When her room and bed are properly arranged, the wise woman considers herself. She goes to sleep as clean as warm water and soap will make her, knowing that a warm bath is the most restful, sleep-provoking thing in the world. Her hair is brushed out of the "kinks" and snarls of the day and braided loosely. She wears a very loose night dress. She cultivates an easy conscience, as a foe to insomnia, and she banishes thought as undesirable. If her brain persists in working after she has gone to bed she does not attempt to stop its labors by one mighty act of her will, but she tries to think in desultory, disconnected fashion until she ceases to think at all. So does sleep cease to be a merely instinctive process, and becomes one of the fine arts.

Furnishing a Bedroom.

In furnishing a bed-room three important things ought to be borne in mind. First, that the furniture should meet the requirements of the room and its occupants; second, that the whole should be harmonious and pretty; and, third, that the sanitary conditions should be attended to down to the smallest particular.

Fabrics for bed room hangings need not necessarily be cretonne; some of the striped cotton or jute tapestries are charming and are especially effective mounted as screens or serving as portieres.

No bed-room is complete without a box ottoman, covered with cretonne or denim to match the hangings. They are to all appearance identical with the orthodox bed-room couch and every bit as comfortable. Lined with a suitable material they form a most useful adition to the wardrobe and closets.

Wicker Furniture.

Wicker furniture grows prettier and prettier, and anything cooler or more comfortable than the capacious basket lounging chair has yet to be invented.

Bathroom Gymnastics.

ONE HONEST MAN.

Dear Editor: Please inform your readers that if writers to confidentially, I will mail in a sealed letter, the plan pursued by which I was permanently restored to health and manly vigor, after years of suffering from Nervous Weakness, night losses and weak, shrunken parts.

I have no scheme to extort money from anyone. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank Heaven, I am now well, vigorous and strong, and anxious to make this certain means of cure known to all.

Having nothing to sell or send C.O.D., I want no money. Address, JAS. A. HARRIS, Box 239, Detroit, Mich.

A NEW CLUB.

Name Suggested for a New Social Organization in London.

London (Special), June 22.—It has been facetiously suggested that a new social club in process of organization in this city, should be entitled "The Dodd's Kidney Pill Club" as the present members are all enthusiastic advocates of that remedy and in common with many other citizens declare that in all cases of kidney trouble no other agent has been so completely effective. Most Londoners have at their fingers' ends the particulars of the many marvellous cures through the use of this specific. In every drugstore in the city the medicine is kept in large quantities and warmly recommended.

Shiloh's Cure, the great Cough and Croup Cure, is in great demand. Pocket size contains twenty-five doses only 25c. Children love it. Sold by John Nugent, 289 George Street.

That hacking, persistent cough can be quickly cured by using Dr. Wood's Norway Pine Syrup. It cures all throat and and lung troubles.

W. C. McCOMBER & SON, Bouchette, Que., report in a letter that Pyny-Pectoral cured Mrs. C. Garceau of chronic cold in chest and bronchial tubes, and also cured W. G. McComber of a long-standing cold.

MR. J. H. HUTTY, Chemist, 528 Yonge St., Toronto, writes: "As a general cough and lung syrup Pyny-Pectoral is a most invaluable preparation. It has given the utmost satisfaction to all who have tried it, many having spoken to me of the benefits derived from its use in their families. It is suitable for old or young, being pleasant to the taste. Its sale with me has been wonderful, and I can always recommend it as a safe and reliable cough medicine."

Paine's Celery Compound Renewed His Life.

Farmer Smye says: "I am a Living Witness."

Mr. George J. Smye, farmer, of Sheffield, Ont., writes as follows:

"It is with great pleasure that I testify to the value of your medicine, Paine's Celery Compound. For nearly two years I suffered from indigestion, kidney and liver troubles. After trying several medicines that did not effect a cure, I decided to try your Compound. Before using it I could not eat or sleep. I could not lie in bed owing to pain in my back; it was only by resting on elbows and knees I was enabled to obtain a slight degree of ease. Before I had fully taken one bottle of your medicine I began to improve. I have now taken in all fourteen bottles with grand results. I am a farmer and am now working every day. Anyone may refer to me in regard to these statements, or to any of my neighbours around Sheffield, where I am well known. I am a living witness to the worth of Paine's Celery Compound."

The proprietors of Paine's Celery Compound have on file thousands of such strong and convincing testimonials from the best people in Canada.

No other medicine in the world could have met the requirements of Mr. Smye,as Paine's Celery Compound did. Sufferings such as Mr. Smye endured are not conquered by the common sarsaparillas, nervines and pills that are presented to the public for all the ills of life. Mr. Smye had made a trial of the majority of these advertised remedies before he heard of Paine's Celery Compound, and they failed to cure him. The moral taught by Mr. Smye's experience, and the past testimony of thousands of other people is that kidney and liver troubles and indigestion can only be cured effectually by Paine's Celery Compound.

The great medicine, Paine's Celery Compound, is as far apart from the guesswork remedies advertised as black is from white. In the judgment of able physicians, the great medicine is the triumph of the century. They prescribe it for their patients and carry it home to their own families.

Paine's Celery Compound is an able medical scientist's prescription; it is a preparation that combines all the most approved ingredients that are so necessary for the making of pure and healthy blood and strong nerves. It keeps up perfect digestive action and vigor, thereby giving continued good health and strength of body.

If you are convinced that your condition of health demands the use of Paine's Celery Compound, avoid substitutes and the "*something just as good*" that many dealers recommend for the sake of profit.

THE THUNDERER

Charges Mr. Balfour With Bad Management.

THE EDUCATION BILL WITHDRAWN

The Deceased Wife's Sister Bill Passes Second Reading in the House of Lords—True Bill Against Jameson and His Confederates—Cable News.

London, June 22.—A hastily summoned Cabinet Council met at the Foreign Office this forenoon and sat for an hour.

It is rumored that A. J. Balfour, First Lord of the Treasury, and the Government leader in the House of Commons, has resigned from the Cabinet.

The Times says that at the Cabinet Council held Saturday, it was decided to entirely abandon the Education Bill and to introduce in 1897 a short bill increasing the financial assistance given by the Government to voluntary schools. The Times denounces the decision, and declares that Mr. Balfour, the Government leader in the House of Commons, is largely responsible for the mismanagement of Parliamentary business, which has compelled the strongest government of modern times to surrender to a feeble and discredited opposition.

The rumor of the resignation of Mr. Balfour cannot be confirmed.

When the House of Commons resumed its sittings in committee of the whole on the Education Bill to-day, Mr. Balfour moved that the chairman leave the chair, which motion is equivalent to dropping the bill for the present session.

Mr. Balfour, speaking to his motion, that the chairman leave the chair, said Parliament would meet early in 1897, and would fulfil the pledge which the Government made in regard to the voluntary schools. Critics might say that this was an extraordinary example of weakness on the part of a Government backed by a large majority. In theory the advantage of a big majority would be that it would have overwhelming authority if physical force decided Parliamentary questions, but really the only advantage of a great majority in Parliament was that it was difficult to turn it into a minority. Mr. Balfour said he did not feel at all moved by criticisms asserting that the course decided upon was discreditable to the Government. He only regretted the obstructive tactics of the Opposition as giving evidence of Parliamentary decay.

Sir William Harcourt, the leader of the Opposition, justified the right of the Liberals to defeat a revolutionary attack upon elementary education.

The Diseases of Animals Bill, which provides for the exclusion of foreign cattle from Great Britain, came up for its third reading.

Mr. James Stuart, Radical member for the Hoxton division of Shoreditch, moved that the bill be rejected on the ground that it transferred the administrative power of the House of Commons to the House of Lords. If the measure becomes a law it would be impossible henceforth to readmit foreign cattle without repealing the law a course which the House of Lords would never consent to.

The Right Hon. James Bryce (Lib.), member for the seventh division of Aberdeen, said that the existence of pleuro-pneumonia in Canadian cattle was extremely doubtful. The permanent exclusion of such cattle would be an injury to the Dominion. The bill, he added, was wanton and needless.

Mr. Sydney Buxton (Lib.), member for the Poplar division of the Tower Hamlets, formerly Under-Secretary of State for the Colonies, suggested that a time limit be put on the prohibitions contained in the measure.

The bill passed its third reading by a vote of 232 to 75.

THE FIRE FIGHTERS.

French Firemen Welcomed to London—Montrealers Show What They Can Do.

London, June 22.—Six hundred French firemen arrived in London last evening to take part in the fire brigade tournament held in connection with the second International Fire Congress, which is being held in Agricultural Hall in this city. The other corps taking part in the tournament, including the brigade from Canada, assembled at the railway station to welcome the Frenchmen, who were cheered by the crowd outside.

As a part of the proceedings of the International Fire Tournament, the visiting Montreal firemen gave an exhibition of their methods in Agricultural Hall this afternoon. The hall was crowded with spectators, who evinced great interest in the evolutions of the Canadian firemen.

TRUE BILL AGAINST JAMESON

And Five of His Comrades in the Raiding of the Transvaal Republic.

London, June 22.—In the Central Criminal Court, Old Bailey, to-day, the Recorder, Sir Forrest Fulton, charged the grand jury, advising that body to find a true bill against Dr. Leander S. Jameson and his fellow-officers in the Transvaal raid, Hon. Henry F. Coventry, Major R. White, Col. H. F. White, Major Sir John Willoughby and Col. R. Grey, who were held for trial last week for violation of the Foreign Enlistment Act. The grand jury retired after the charge, and at 7 o'clock this evening had not yet returned.

THE WIFE'S SISTER BILL

At Last Gets Past an Important Stage in the House of Lords.

London, June 22.—The House of Lords to day passed the second reading of the Deceased Wife's Sister Bill by a vote of 142 to 113. The Prince of Wales, the Duke of York, the Duke of Connaught, the Duke of Fife, the Duke of Devonshire, the Duke of Westminster, the Marquis of Ripon, and Lord Rosebery voted for the bill and the Marquis of Salisbury, the Duke of Norfolk, the Archbishops of York and Canterbury, and 18 Bishops voted against it.

ANOTHER MASACRE.

Sixty Armenians Said to Have Been Killed Near Van.

London, June 22.—A Constantinople despatch to The Chronicle says another massacre of Armenians is reported to have occurred near Van. Sixty persons are said to have been killed.

A despatch from Belgrade says: A serious conflict has taken place between Servian officials and Montenegrins at Kursumlije. Several persons were killed and wounded.

Ayer's Pills promote the natural motion of the bowels, without which there can be no regular, healthy operations. For the cure of biliousness, indigestion, sick headache, constipation, jaundice and liver complaint, these pills have no equal. Every dose effective.

Belmont is Coming Home.

Paris, June 22.—A representative of the United Press to-day questioned Hon. Perry Belmont regarding a statement that he intended to bring his European tour to a close and return to the States. Mr. Belmont confirmed the report and added that he intended to sail for New York in a short time in order to attend the Democratic National Convention as a delegate from the district of New York.

Children Cry for Pitcher's Castoria.

His Face was a mass of Blotches.

But now his skin is clear as a year old babe's.

Scott's Sarsaparilla his Salvation.

Nothing blights existence like the knowledge that our appearance is repellant to those with whom we come in contact, nor is there any relief like that of feeling that the disfiguring causes have been removed. Says Mr. William Alger: My face on one side was a mass of blotches, some of which were constantly full of matter. I run a bake shop doing my own work, but my face got so bad that customers drifted away. Then I hired a man and went to a doctor. He said my blood was in a horrible condition. I sold my business and moved to the city where Scott's Sarsaparilla was recommended to me. The first bottle did me much good, and after taking five bottles my skin is as clear as possible, and not a sign of my previous disfigurement. I say Scott's Sarsaparilla is the best blood medicine going and am speaking from experience.

Pimples, blotches, boils, ulcers and all diseases arising from vital exhaustion and impure blood are radically cured by Scott's Sarsaparilla, a concentrated compound of the finest medicines ever known. Your druggist has it at $1. But get Scott's. The kind that cures.

IN CIRCUS TIME.

When the promises of June-time come to thrill the lazy air,
And the sun beats hot upon the dusty road;
When the lavish locust-blossoms spill their perfume everywhere
And the parched rocks rise where once the river flowed,
The bird songs lose the charm which has delighted so the ear;
In vain the zephyrs chant their tree-top lay,
There lingers no attraction in the harmonies once dear—
You want to hear the steam-piano play.

Oh, the hurry and the scramble where the polished azure arch
Reflects on us the sun's o'er-genial glow!
And the eager, happy faces all along the line of march,
Where the band keeps crowds in rhythm as they go,
Your wildwood lodge, philosopher; your contemplative mood,
All lose their charm beneath the mystic sway
Of the billowy stretch of canvas and the fields with sawdust strewed,
You would rather hear the steam-piano play.

LITTLE, WALKER AND LYTLE.

They Will Compose the Team for the Quebec Races.

Last night several hundred wheelmen gathered at the Driving Park to witness the trial of speed amongst the scorchers which was to determine which of the lot were the best fitted to be sent to participate in the Quebec races.

There were nine starters faced the scratch, viz., Little, Lytle, Walker, Phillips, Dawson, Paskenham, Evans, Gordon and Lush.

The race was without doubt the prettiest ever seen on the Driving Park from start to finish.

For the first mile the pacing was done by Kells and Riley on a tandem. The next half was ridden unpaced and then Hopkins and King mounted the tandem and led the scorchers for the remaining mile and a half.

The clip was a hot one from the start, the first mile being reeled off in 2.46. In the last lap the racers jumped the tandem in the back stretch, and the first five came home like a flash in the following order:—Little, Walker, Lytle, Phillips and Dawson. The finish was a beautiful one, as the five riders were well together, the first three being all within a wheel's length of each other.

Throughout the race Lytle, Little and Walker took the lead alternately and kept within touch of one another all the time.

It is usual to enter five riders in the team race at the annual meet, but the time of only the first three crossing the tape is taken. As the subscription list for the sending of a team to Quebec does not as yet represent a very large sum, it will be impossible to send a team of five, and so only the first three in last night's trial will go down to Quebec in the team.

The time in which the three miles was made was 8.06, or just 29 seconds more than the best time that was made in the team race at Waterloo last year. It is expected that the boys will bring that trophy home.

PARENTS SHOULD BE CAREFUL.

Suspicious Conduct of a Stranger Down Town Last Night.

Last evening, at about nine o'clock, two girls, each about twelve years, were playing on the sidewalk in front of their homes, on a street in the lower portion of the town. A tall young man, aged about thirty, passed and noticing the children, returned, re-passing them several times. The last time he did so they were some distance away from each other, and the stranger invited the smaller of the two to go with him down the street a little way he would, he said, show her something nice. He told her also to bring her friend along. The girl suspecting nothing started to accompany him, when the better sense of the elder warned her all was not right and she persuaded her companion not to go. The stranger then disappeared. Parents should keep a sharp eye on their children when out at play in the evenings, and should keep a stout club in readiness for the ill-designing persons who would interfere with them.

GAME TO THE LAST.

Lang Keeps Up the Fight to the Last.

Mr. John Lang is bound to owe his success this election to hard work. Last night three meetings were held in his interest—one at Grady's school house, Otonabee, addressed by himself and Mr. Blezard; one at Rush Point, addressed by Mr. R. F. McWilliams, and one at Hiawatha, addressed by J. B. McWilliams, who swept away the fables by which the Conservative candidate had been trying to delude the Indians.

The Hope Shooting Case.

The boy Prentiss, now in gaol for shooting old man Liegard, in the township of Hope, will likely have to stand his trial for manslaughter instead of murder. The evidence at the coroner's inquest was very contradictory, and was to a certain extent, of a nature to indicate that the shooting may have been in self defence or accidental. However, it was a most deplorable occurrence, and has placed the boy in a terrible position.—Cobourg Post.

Pianos are Merchandise.

The piano business is generally operated on principles entirely different from other business. In town and country stores where they are retailed, the price is whatever the dealer can get. If you are an easy going buyer you will pay $425, perhaps $500. If you are an economist, perhaps he will let you have the instrument for $400. If you are a real good close buyer you can get it down to $350. And if the reputation of the piano has been suffering, and it has been getting into bad odor, well, $325 or $300 may buy it. Now, the chances are nine times in ten you can buy one of Newcombe's celebrated pianos, far more to your liking, and far better value, for even the lowest of these prices. Why? 1st. Because there is only one price on each of the Newcombe pianos, and 2nd, because we are running no grand establishment, and can save our customers the amount of the rent and other expenses involved. Our local traveller in Peterborough and vicinity is Mr. W. A. Shaw, and he can be found at his residence, 300 Rubidge street, or can be reached by a postal card addressed to P. O. Box 527, Peterborough P. O. The Newcombe piano you buy will come fresh from the factory. No danger of it being taken out of one house to be placed in another, as is frequently the case with piano dealers who keep a storeful of instruments and who must keep them on the move one way or other. Take our word for it. A good piano won't stand being hawked from one place to another, like a washing machine. Good pianos only come out of the factory; poor ones lie around in the stores and go from post to pillar, trying to find a purchaser. Nothing like the Octavius Newcombe piano. It stays where it is placed. Beware of the three common forms of piano extravagance:—1, Paying a "high grade" price for a medium grade piano; 2, paying a "medium grade" price for a fair grade piano; and 3, paying a "fair grade" price for an instrument of but little more musical capacity than a tab.

DROWNING.

Methods of Restoring an Apparently Drowned Person.

In consequence of the many drowning accidents which annually occur in Peterborough, the appended rules to be applied in reviving those who have been in the water will be particularly apropos:

Drowning is a form of asphyxia, the actual cause of death is probably over distension of the right side of the heart. It is very important to remember that insensibility comes on before convulsive struggles cease, and that after all such movements cease the heart's action may continue for a long time. Artificial respiration as well supplying oxygen to the blood relieves the distension of the right side of the heart which is enabled to continue sending its venous blood through the lung tissue, whence it should return aerated to the left heart, to be distributed to the body.

In drowning, nervous shock, exhaustion and exposure to cold are causes of death to be combatted as well as asphyxia. Breathing should take place in an adult about sixteen or seventeen times a minute. When a body is taken apparently drowned from the water the act of breathing can sometimes be restored by making sudden strong pressure at the pit of the stomach some three or four times at intervals of three or four seconds. Three principal methods of artificial respiration are Sylvester's, Marshall Hall's and Howard's.

In Sylvester's method the patient is laid on his back, his shoulders supported in some way as to throw the chest out. The neck should be extended and head thrown back. The keeping up of the chin in this way is very useful to keep the larynx open. If the tongue does get in the way of breathing some one may hold it forward by taking it with the corner of a handkerchief between the thumb and finger. Everything which might confine the neck or chest should be loosened, nostrils and the mouth cleared from mud and the patient turned on the side to let any water that may be in the windpiperun out of the mouth. All this may be done in a few moments. Then, kneeling down at the patient's head, take the wrists and carry them well over the head as far as they will go. The chest walls will then expand and air can often be heard passing in to the windpipe. The arms are then brought down and the forearms crossed over the pit of the stomach. Leaning with all his weight upon them the operator makes forcible pressure on the stomach upwards. If a distant sound is not heard it is doubtful if any air has entered the chest cavity at all. This drawing of the hands up and back and pressing air out again should be done about seventeen times a minute. Care is necessary not to interfere with the short gasps of natural respiration. After breathing is established it may cease again unless secondary aids are at hand. Hot blankets, hot bottles, some stimulant, aromatic spirits of ammonium or smelling salts are useful.

Marshall Hall's method is said to be easier, but seems less efficient. The body is rolled over from the back to the side. Then the uppermost arm is pulled forward out of the way and pressure is made on the side of the chest to expel the air. The body is then rolled over on the back to encourge inspiration. Repeat about seventeen times a minute.

Howard's method.—Instantly turn the patient downward with a large firm roll of clothing under stomach and chest. Place one of the arms under his forehead to keep his mouth off the ground. Press with all your might two or three times for four or five seconds each time upon the patient's back. This presses the water out of the lungs and stomach, and lets it drain quickly out of the mouth. 2. Quickly turn the body face upward with a roll of clothing under the back just below the shoulder blades and make head hang back as low as possible. Place the hands above the head. Kneel with the patient's hips between your knees, your own elbows firmly against your hips; grasp the lower part of the chest of the drowned person, squeezing his two sides together and pressing gradually forward and upward, then suddenly take off all pressure. Rest three seconds and do it again with perfect regularly, so that foul air is pressed out and pure air taken into the lungs, continuing this process for at least an hour. Prevent crowding round the body. If the short, natural breaths come, do not interrupt them, but if they are long apart, continue the bellows-like movements between them.

All these methods depend on the facts that air will enter the expanded chest if not prevented by any obstruction, and can be forced out again by artificially pressing it out. Whatever movement is employed, it should be carried out regularly and thoroughly. It is very hard to hold the tongue; the method of Howard claims to dispense with any necessity for it, and is more thorough than the others in getting rid of the water in the windpipe and stomach.

MILLBROOK.

From Our Own Correspondent.

A garden party was given at the manse on Tuesday evening in aid of the erection of a new church and was very largely attended. The place was beautifully decorated with Chinese lanterns, etc., and the lawns cut quite a gay appearance.

Messrs. T. D. Craig, the Conservative candidate, Col. McLean, the McCarthyite candidate, and W. A. Follis, M.P.P., were present and gave short addresses. Mr. Craig told how he had made a proposition to Mr. Johnston as to how they could raise money for the erection of the new church. He suggested that each young man get married at once, Rev. Mr. Johnston, of course, to perform the ceremonies, he to receive half the money and the other half to go the building fund. W. A. Follis, M.P.P., made a great blunder by pouncing upon Col. McLean because that gentleman happened to make a slight reference to the political contest. The Rev. Mr. Johnston, however, explained that the Colonel was justified in doing so as they were given the privilege to speak on any subject they choose. The citizens band was in attendance and helped a great deal to the enjoyment of those present.

Among those from Port Hope who were in town on Tuesday attending the nominations were Messrs. H. A. Ward, B. P. Rose, R. H. Mulholland, D. H. Chisholm, and R. R. Elliott.

Mrs. Yarwood, of Picton, is visiting her mother, Mrs. G. F. Elliott.

Miss Mabel Southern, of Lindsay, has been visiting Capt. Winslow.

Miss M. Blamey, of Oshawa, is visiting Mrs. A. A. Smith.

Babies Lives Saved by Lactated Food.

Lactated Food gives health to the sick babe and keeps the well child strong and vigorous.

Thousands of grateful and thankful mothers in Canada bless and praise Lactated Food because it was the means of saving the lives of their dear babes. There are foods and foods, but no other make of food has ever received such endorsation and praise from mothers and physicians as the "Lactated." Remember, dear mother, your child needs this food if it is not thriving on breast milk.

Fruit Jars.

China Hall has received a full carload, 1440 cases, of fruit jars. Do not buy a jar till you have seen their jars and get their price. Their jars are guaranteed not to crack in filling and will be replaced in case they do. Prices the lowest in town. See the "Beaver" or the "Bee" before buying the ordinary jar.

OBITUARY.

Brief Sketch of an Old and Highly Respected Resident and Pioneer Settler.

Mr. John Wason, sr. of Warsaw, eldest brother of Mr. James Wason, town, was born May 9th, 1805, in the north of Ireland, of good Methodist parents; united in marriage to Miss Alice Crow, early in 1831 and sailed for Canada the same year arriving at Montreal in the beginning of June. He came up the St. Lawrence in a Durham boat to Prescott, from thence by steamer to Cobourg, and thence by team to Rice Lake and up the Otonabee to Peterborough by row boat, and located on the East half of Lot 11, Con. 2nd of Dummer, to which place he and his wife travelled with an ox cart and commenced to hew a home out of the virgin forest, and in this home he continously resided for over fifty years. Here were born to them, ten children, five sons and five daughters, nine of whom survive him. His beloved wife preceded him to the better land some eighteen years. He was a Methodist in his belief. Died June 17th, 1896, at the good old age of 91 years, 1 month and 8 days, and has entered his long and peaceful rest. Deceased leaves an only surviving brother Mr. Jas. Wason a resident of town.

Y.P.S.C.E. NOTES.

Paragraphs of Local Interest to Endeavourers Supplied by the County Union.

WORLD'S CHRISTIAN ENDEAVOUR PRAYER CHAIN.

"The whole round world is every way
Bound by gold chains about the feet of God."

Subject of prayer for June:—"For our teachers—for all teachers of the young in Sunday Schools, day schools and colleges, that they may see their opportunity and responsibility, and that they may help their pupils to a higher plane of living."

WASHINGTON CONVENTION.

The International Convention this year commences on July 8th, and continues to the 15th. The programme promises to be the best yet. Some of the distinguished speakers announced are: Rev. Drs. Theodore L. Cuyler, J. Wilbur Chapman, B. Fay Mills, and other noted divines, Hon. John Wannamaker, Hon. Neil Dow, and other prominent public men, also many distinguished representatives of foreign nations. Ontario will be represented on the programme by Bishop Baldwin, Rev. Cannon Richardson, Rev. Wm. Patterson, Rev. W. F. Wilson and others. Among the speakers from distant lands will be: Bishop Thorburn, India; Bishop Wm. Taylor, Africa; Rev. Richard, Bristol, Eng.; Rev. P. Ramachandraya, India; Rev. P. Bentley, China; Rev. H. S. Jenanyan, Turkey. Three choirs of not less than one thousand voices each, will be led by Mr. Ira D. Sankey and other vocalists of international repute. At no other gathering in the world can so many distinguished people be heard.

Three mammoth tents, a large hall and ten churches will constitute the principal auditoriums, with a seating capacity of more than 40,000. No less than 300 meeting have been arranged. The convention will open on Wednesday evening, with twenty-two simultaneous meetings, the topic for the opening meetings being "Deeping of the Spiritual Life." The official opening will take place on Thursday morning in the three great tents on the White lot. The convention will close on Monday evening, July 13th. The closing sessions will be held in the three large tents, Central hall and five churches; a sermon will be preached in each, followed by a consecration service. Washington claims the distiction of being the handsomest city in America. Its location on the banks of the Potomac, surrounded by the protecting highlands of Maryland and Virginia, is picturesque; the arrangement of the streets, the grouping of public buildings, the large number of public parks and squares, the rich profusion of flowers and shrubbery give the city a distinctive beauty and attractiveness. The opportunity of visiting this beautiful city at such low rates is the event of a lifetime.

The Ontario delegation will go by special train via the Lehigh Valley railway, leaving Suspension Bridge and Niagara Falls at 6.30 p.m. July 7th. This special will reach Rochester at 9 p.m., connecting with the steamer from Port Hope and Cobourg, arriving at Washington at 9 a.m. Wednesday morning. Tickets will be sold on July 7 and 8, good to return at any time up to July 31st, if deposited with the joint agent at Washington on or before July 14. Round trip fares from Peterborough via Toronto and Lewiston, $14.85, via Port Hope and Rochester, $13.45, sleeping car berths, $2.50, from Suspension Bridge, $2, from Rochester no extra charge if berth is occupied by two persons. For board and lodgings in Washington the following rates will prevail: Room only, 75c to $1 for each person per day; rooms with breakfast $1 to $1.25 for each person; rooms with all meals $1.25 to $2 for each person per day. Figure this up and you will be surprised at what a small outlay you can participate in this great convention. You could find no cheaper way to spend a holiday, leaving aside the prospect of sharing in the "feast of good things." Those who intend going should communicate with C. J. Atkinson, 35 Richmond street, Toronto, or with the editor of this column.

CHARLOTTE STREET SOCIETY.

Last week the topic, "What Think ye of Christ?" was presented by the members of the society. The social committee has charge of the music, and at each meeting do much to enliven the proceedings by hearty, whole-souled singing. This week the topic was dispensed with, a strawberry social taking its place. The social was conducted by the Social Committee. Refreshments were served on the lawn, after which a musical programme was conducted in the school room. Mr. Tovey, president of the Society, presiding. The attendance was large, and throughout the entertainment was enjoyable.

PARK STREET SOCIETY.

Last Wednesday evening after devotional exercises, led by Mr. Chapman, the pastor of Park street church, the following officers were elected for the ensuing six months:

President—Mattie E. Mann.
Vice President—Jas. Anderson.
Rec. Sec.—Ina Mowry.
Treas—Albert Rome.
Organist—Mrs. G. Benton.
Convenor Prayer Meeting Committee—A. Jackson.
Convenor Lookout Committee—Mrs. R. Wright.
Convenor Missionary Committee—Geo. H. Hamill.
Convenor Instruction Committee—Thos. G. Gillespie.
Convenor Social Committee—Jennie Harmer.
Convenor Flower Committee—Addie Scott.
Convenor Sick and Visiting Committee—Mrs. Jas. Doten.

MARK STREET SOCIETY

held their regular meeting on Monday night, the president, Miss Minnie Hamilton, presiding. We were pleased to have with us one of our former presidents, Mr. H. S. Armstrong, now of Salem, who addressed us on the topic of the evening—"What think ye of Christ?" Mr. Armstrong spoke very earnestly, and brought the question home to each heart personally. We are sure our meeting must result in good, as each one felt the necessity of answering this important question.

SALEM SOCIETY.

The society held its usual meeting on Tuesday evening. For some time past our weekly meetings have been rather small in attendance, but this week we were very much pleased and encouraged to see an unusually large attendance. The topic was conducted by Miss Mary Hatherly in an able manner. The question, "What Think ye of Christ?" was brought before our minds in several different lines of thought, but which converged into one chief thought, "What do WE—personally—think of Christ, and how do we show this?" The society here purpose holding their annual excursion on Friday, June 26th, to Burleigh Falls and return. We would be pleased indeed to welcome members from other societies.

A Year's Sunshine
Will Not Fade Garments Dyed with Diamond Dyes.
No other method of home dyeing gives colours one-half so fast and beautiful as Diamond Dyes. The colours are full, rich, bright and handsome, and so fast and firm that a year's sunshine will not cause them to fade.
It is not so when garments and goods are dyed with the poor imitation dyes that many dealers sell for the sake of large profits.
Goods coloured with the crude dyes soon fade and become dingy and ugly. It should be borne in mind that the common dyes cost the same price as the tested and popular Diamond Dyes, but cannot for a moment be compared with them.
If you would save money and time put your trust at all times in the never-failing Diamond Dyes; the user is never disappointed. Refuse inferior dyes offered by dealers, and assist upon having the "Diamond."

WESTWOOD.

(From Our Own Correspondent.

The semi-annual meeting of the Y. P. S. C. E. was held in the Presbyterian church last Friday evening, when the following business was transacted: 1. The minutes of the last meeting were read and approved. 2. Officers' reports;—by these reports the society was found to be in a flourishing condition in every respect; attendance good; attention and interest, excellent; members active and energetic, and the treasury well filled. 3. Election of officers. The following officers were elected:

Pres.—Jos. A. Metcalfe.
Vice-Pres.—Mrs. M. Breckenridge.
Rec.-Sec.—Miss Maggie Sharp.
Cor. Sec.—Dr. McNaughton.
Treas.—Miss Jennie Eason.
Organist—Miss Kate Sharp.

The following are the convenors of the different committees:

Look Out Committee—Andrew Cameron.
Social—Miss Bella Sharp.
Missionary—Geo. Eason.
Sunday School—Mrs. Wright.
Room—Mr. N. Breckenridge.

The Rev. Mr. Liddy, of Keene, County President, is expected to address the meeting some Sunday night soon.

Last Friday evening the members and adherents of Westwood and South Dummer Methodist churches tendered their pastor, Rev. J. R. Peake, a farewell supper on the eve of his departure for Minden. Supper was served in the town hall here, after which they repaired to the church for speeches, music, etc. The Epworth League Society and congregation presented their pastor with an address. Mr. Peake replied in suitable terms and expressed his sorrow in leaving them, but trusted they would continue to grow in the good work. Several made short addresses, all testifying to the sterling worth of Mr. Peake and their grief at losing him.

Purely Vegetable.
First the bud, then the blossom, then the perfect fruit. These are the several stages of some of the most important ingredients composing the painless and sure corn cure—Putnam's Painless Corn Extractor. The juices of plants greatly concentrated and purified, gums and balsams in harmonious union, all combined give the grand results. Putnam's Extractor makes no sore spot, does not lay a man up for a week, but goes on quietly doing its work until a perfect cure results. Beware of acid substitutes.

Toronto Makes a Runaway Game of It With the Wilkes-Barres.

Toronto won all the way from Wilkes-Barre over the Don yesterday in a game marked by heavy hitting by the home players and many errors by the visitors. Brown kept the hits well scattered, except in the fourth and fifth, and but for rank support Yerrick would also have made a good record. Nearly all Toronto's runs were made after the side should have been retired. Score:

Wilkes-Barre	0 0 0 2 2 0 0 0 0—4
Toronto	4 0 3 4 3 0 0 5 *—19

Earned runs—Wilkes-Barre 3, Toronto 7. First base by errors—Wilkes-Barre 2, Toronto 9. Left on bases—Wilkes-Barre 9, Toronto 9. First base on balls—Off Dunn 2, off Yerrick 5. Struck out—By Dunn 3, by Yerrick 4. Home run—Smith. Three-base hits—De chanty, Freeman. Two-base hits—Betts, Bonner, McMahon. Stolen bases—Lutenburg, Smith 2, Casey 3. Double plays—Padden to Lutenburg; Delehanty to Padden to Lutenburg. Hit by pitcher—By Dunn 1, by Yerrick 1. Wild pitches—Yerrick 1. Passed balls—Diggins 1. Umpire—Stearns. Time of game—2.10. A CRAZY YOUNG MAN.

He Was Saying His Prayers in Buffalo—Said He Was From Hamilton.

Buffalo, June 22.—Samuel R. Barry, 17 years old, arrested in the Fourth Precinct, is the youngest prisoner to be charged with insanity that the police have arrested in a long time. A policeman found him kneeling in the street in front of St. Mary's Church at the corner of Broadway and Pine-streets. He was praying, and when the officer attempted to pull him to his feet he showed fight. He insisted on finishing his prayer. "I'm willing to be crucified," he said, "but I am going to pray for the city and the tumble buildings first."

He says his home is in Hamilton, Ont., but cannot tell how he came to be in Buffalo.

The Stage of Convalescence
Is at once interesting and critical. The patient, carefully guarded at this period and provided with the means essential for health, may be enabled once more to enjoy the inestimable blessings of health. On the other hand, neglect of even minor needs, at this period, is likely to impose upon him the life-long penalty of ill-health, resulting in a wasted life. The assimilative processes are, at this time, are sure to be impaired, and nerve tone overtaxed in its resistance to the assaults of disease, will both sadly need the impetus which Maltine with Coca Wine can give.
By the action of Maltine with Coca Wine upon the digestive processes, which it rapidly strengthens and its permanent and striking influence upon the nervous system, to which it gives vigor and tone, the restorative power of the body is immensely increased, and strength and vigor come to the invalid so quickly as to seem almost impossible. Experience, however has demonstrated its efficacy in convalescence, as well as the various forms by which debility, arising from faulty nutrition, manifests itself. Sold by all druggists.

The counsel of older women is of inestimable value. A mistaken idea of modesty prevents many girls from learning the things that they ought to know before they assume the duties of matrimony and maternity. Women generally take these most important steps in their lives, without knowing in any degree what they mean, or what responsibilities and trials they bring. The highest and best thing that any woman can do is to bear and rear healthy, intelligent children. The accomplishment of this end depends almost entirely upon her health and particularly upon the health and strength of the organs distinctly feminine. The state of the children, both intellectual and physical depends on the mother. If she doesn't care enough for her own comfort and happiness to take the proper care of herself, she certainly ought to do it for the sake of her children. To a very large extent, the destiny and achievement of a man is decided in the months before his birth. During that time is determined whether or not he is to be of robust health and strong intellect. During that time, his mind and body are started on the path that they will follow through life. Circumstances may influence him, but he cannot get away from the effects of pre-natal influences. One of the principal uses of Dr. Pierce's Favorite Prescription is the preparation of prospective mothers for the time of trial and danger that comes when a child is born. The "Prescription" is strengthening and invigorating and lessens pain and danger. It insures the perfect well-being and the perfect health of both mother and child. Every woman should know these things before she really needs to know them. There are many things in Dr. Pierce's "Common Sense Medical Adviser," that every woman ought to know. This celebrated work has reached a sale of 680,000 copies at $1.50 each. The expense of production having thus been covered, 500,000 copies are now being given away. A copy will be sent to any address on receipt of thirty-one (31) one-cent stamps to cover customs and postage *only*.

AROUND THE HOUSE.

ARTICLES THAT ARE USEFUL IN THE KITCHEN AND EASILY MADE.

A Kitchen Table That Will Save the Weary Woman Many Unnecessary Steps—A Kitchen Wash-Stand That Is Handy to Have Around.

I saw a kitchen table recentlywhich I should like very much, says a bright woman writer in The American Agriculturist, and which I am sure would be a welcome addition to the furniture of any kitchen. The height of the table was 2 ft. 8 in., and the top was 4 ft. by 2 ft. 4 in. The table was built like a cupboard, and the top which was of thick boards, projected an inch. Across the top were three drawers 5

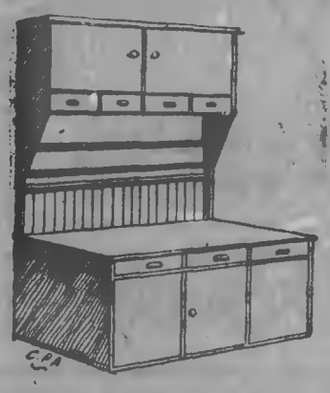

FIG. 1.

in. deep. One of these drawers was divided into theree compartments. The middle drawer was similarly divided, and the front space was again divided by a lengthwise partition. The other drawer was left whole. See Fig. 2. The drawers each had handles. The space below the drawers was divided into three cupboards. The door of the middle cupboard opened in front, and that of the side ones on the side. Each door was the whole width of the cupboard, and had a sliding bolt fastening.

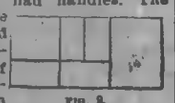

FIG. 2.

In the middle cupboard was a shelf half way up, also in the left one, while the right cupboard had hooks screwed into the three sides, also to the inside of the door. As the table was always to stand in one place, it rested directly on the floor, so no dust ever collects under it. It could be raised on castors if desired. What one would keep in the different drawers and cupboards would be determined by the other conveniences of the house.

This table was made by a carpenter for $7, so for $10 I could add the shelves and cupboards, which were built against the wall just behind the table, from the wainscoting to the ceiling. As shown in Fig 1, the upper cupboard, which has a shelf in it, has two doors. Below these are four drawers. There is a shelf, and a narrow cleat is nailed across it, behind which to slip the tin kettle covers, which rest on the moulding of the wainscoting. My friend keeps on the shelf baking powder cans of uniform size in which she keeps spices, etc. They are all painted brown, with the name of their contents in guilt letters.

What She Said.

Mrs. R. Peck, E. 15th street, New York city, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbours also. Writing the manufacturer of Nerviline, she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbours to some of it, and all think it the best medicine for internal or external pain they have ever used."

WHEELWOMEN OF EUROPE.

How They Dress in Copenhagen, Paris and Vienna.

The bicycling woman is raising a storm of argument in the German and Austrain papers some speaking for and some against the innovation. One paper, the, Vienna Mode, brings an illustrated article showing types of wheelwomen in different cities. It says that in many parts of Germany and Austria a bicycling woman is still considered out of place, for the conservative German element has not ceased to believe that the bicycle is immodest and undignified for a lady to use. Opinions differ, however, and the women who have as pioneers introduced the wheels in these countries, have first set the fashion, secondly created a necessity, and thirdly, established it as a lasting custom.

THE COPENHAGEN GIRL.

The introduction of the bicycle was as difficult as was the introduction of the umbrella in the eighteenth century. This simple invention was only introduced generally after women had learned to use it, and not until the inventor had for a long time been dead. During his lifetime this deserving man had been subjected to the ridicule, the mockery, the attacks and the insults of the conservative instinct of the masses in London. Even the name of this benefactor to humanity has been lost. He is buried somewhere in an English country churchyard, and to this day children will throw mud and sand and stones at his tomb when passing by. If they are asked why they do it, they do not know. It is an old custom, bequeathed from generation to generation, which represents nothing but an atavistic campaign of defence of the conservative spirit of the populace.

A VIENNESE BICYCLE GIRL.

The most difficult question in cycling for women is the question of dress. It is true enough that women might use their ordinary street dresses when riding a wheel, and in the most fashionable part of Copenhagen, where the bicycle has become so common as to be considered an ordinary means of locomotion, hundreds of women and girls are seen flying by in dresses differing in nothing from those of the pedestrians.

The most extreme bicycle costumes are, of course, seen in Paris. The illustration furnished of one of the fair bicyclists of Paris will satisfy the reader that the limit of similarity of dress has about been reached, for, were it not for the full upper sleeve, one could not tell from a distance whether a wheelman or a wheelwoman was approaching. Let the big sleeves go out of fashion to-day and the transformation will be complete.

This is about the keynote of the Vienna Mode, a rather conservative fashion paper which has been advocating the bifurcate skirt, and even bloomers, for wheelwomen, but always with due regard to existing styles, and avoiding all extremes. The large cut shows that contemporary's ideal of a bicycle woman's dress. Although dressed to suit all the emergencies and exigencies of the sport, the costume is not in the least immodest, and remains pleasing in any position the rider may assume. The dress is made of dark blue cheviot, the bloomers are cut very full and arranged in folds at the belt. A shirt waist of light colored surah silk with a turn-down collar is worn with this costume, and the large necktie almost covers the front and is fastened in the belt. A Spencer jacket with wide collar and full sleeves, finishes the outfit. Dark blue woolen stockings, or, if preferable, leggings of the same material as the suit, may be worn. It cannot be denied, that with the little, flat, round cap, the appearance of this wheelwoman is rather captivating.

A WHEELWOMAN OF PARIS.

Not many business houses in the United States can boast of fifty years' standing. The business of Dr. J. C. Ayer & Co., Lowell, Mass., whose incomparable Sarsaparilla is known and used everywhere, has passed its half-centennial and was never so vigorous as at present.

Women in Venezuela.

Miss Grace Sheldon of Buffalo, who has just returned from a trip along the South American coast and tarried sometime in Venezuela, in speaking of her journey to a Times reporter of that city said: "We had a delightful trip along the coast, stopping at all sorts of interesting old towns. There is Martinique, which is near to the birthplace of the Empress Josephine, and the old town of Barbadoes, which is very English, and boasts of a Woman's Exchange, and then, lastly, there was Trinidad, a beautiful city of a cosmopolitan population, where there are beautiful homes, nice people and some of the loveliest women I have ever met. There I visited my brother, Mr. Henry B. Sheldon, and altogether had a delightful visit. The people were hospitable and charming, and the women were very much as are the women in American cities. I met Mme. de Montbrun, who was the first woman in Trinidad to ride a wheel, but she has since converted a number of women, and cycles are not quite so much of a show as when she made her debut before a surprised throng in the public streets."

Ivorine, the new dentrifice, displaces all other preparations from use, because it does good work. Discolouration and roughness are speedily removed and the teeth rendered white and highly polished. Ivorine is fragrant and refreshing, preservative to sound teeth and decay retarding. Ivorine removes tartar and discolourations and makes the teeth look beautifully white.

Children Cry for Pitcher's Castoria.

Clara Barton's Victory.

Those who believed that Miss Clara Barton was departing on a fool's errand when she started for Turkey with relief for the Armenians, in face of the Sultan's order that she would not be permitted to distribute it, are now called upon to witness the success of this noble woman's efforts. With indomitable pluck, she refused to take no for an answer from the Sultan, and went along calmly with her preparations, proceeded to Constantinople on her humane mission, and there made a personal plea to be allowed to administer succor to the miserable Armenians. At first she was only partially successful, but now comes the gratifying news that Tewfik Pasha, the Turkish Foreign Minister, has given his assent to the demand that all relief afforded to the Armenians by the agents of the American Red Cross Society shall be distributed unconditionally, except that one member of the Turkish relief commission shall be present. Accordingly, the work of relief under these conditions will go promptly forward, and the world will have additional reason to be grateful to Miss Barton for her untiring, unselfish and altogether noble efforts in behalf of suffering humanity.—Philadelphia North American.

Women who are weak and nervous, who have no appetite and cannot sleep, find strength and vigor in Hood's Sarsaparilla.

J. S., says:—"I was in a dreadfully weak and nervous condition, unable to rest and utterly unfit for work, and Miller's Compound Iron Pills cured me." Sold in Peterborough by Wm. Madill, druggist.

Signs of worms are variable appetite, itching at the nose, etc. Dr. Low's Worm Syrup is the best worm expeller.

Big ads. are needed to bad medicines. **Manley's** Celery-Nerve Compound has merit alone to commend it.

Dear Sirs: I cannot praise Manley's Celery-Nerve Compound too highly, and I think its tonic and resterative qualities cannot be surpassed. I was feeling poorly for some time through overwork and before I had taken one bottle of your medicine, I felt completely better. Yours truly,

B. B. B. Turns Bad Blood Into Rich Red Blood.

In Spring Time get Pure Blood by using B.B.B.

No other remedy possesses such perfect cleansing, healing and purifying properties as Burdock Blood Bitters. It not only cleanses internally, but it heals, when applied externally, all sores, ulcers, abscesses, scrofulous sores, blotches, eruptions, etc., leaving the skin clean and pure as a babe's. Taken internally it removes all morbid effete or waste matter from the system, and thoroughly regulates all the organs of the body, restoring the stomach, liver, bowels and blood to healthy action. In this way the sick become well, the weak strong, and those who have that tired, worn out feeling receive new vigor, and buoyant health and spirits, so that they feel like work. If your appetite is poor, your energy gone, your ambition lost, B.B.B. will restore you to the full enjoyment of happy vigorous life.

CANCER CURED
—AND A—
LIFE SAVED
By the Persistent Use of
Ayer's Sarsaparilla

"I was troubled for years with a sore on my knee, which several physicians, who treated me, called a cancer, assuring me that nothing could be done to save my life. As a last resort, I was induced to try Ayer's Sarsaparilla, and, after taking a number of bottles, the sore

began to disappear and my general health improve. I persisted in this treatment, until the sore was entirely healed. Since then, I use Ayer's Sarsaparilla occasionally as a tonic and blood-purifier, and, indeed, it seems as though I could not keep house without it."—Mrs. S. A. Fields, Bloomfield, Ia.

WORLD OF WOMEN.

THE FAIR SEX ILLUSTRATED IN A SERIES OF PARAGRAPHS.

Something About the Young Woman Who Married Claude Falls Wright, the Theosophist, the Other Day With Ancient Egyptian Ceremonies.

Catherine Leoline Leonard, the first woman to be married according to the ritual of the new theosophic religion, is an interesting, earnest young Chicagoan, says the Chicago Herald, who was first attracted to theosophy about five years ago when her mother, Mrs. Byford Leonard, joined the society. The mysterious and impressive ceremony which united her with Claude Falls Wright has made a real sensation over all the country. Mrs. Wright was well known in south side society when she and Mrs. Leonard lived in a pretty house in Hibbard avenue and gave theosophical Thursday evenings to their friends. She is described as a pretty girl, 24 years old, slight in build, graceful and willowy in pose and carriage, and a decided blonde. Her hair is purely golden, her eyes are of deep blue, and her expression singularly sweet and sympathetic. Mrs.

CATHERINE LEOLINE LEONARD.

Wright's mother was, during her residence in Chicago, a woman of progressive ideas, who worked for reform along all social lines and who was favorably known among the women of her set. Miss Leonard took up theosophy in an earnest, eager spirit and began at once to spread the occult philosophy. Two years ago she left Chicago for Boston and then began a series of lectures on subjects relating to theosophy. She organized the Boston branch of the society and originated the so-called "brotherhood suppers," given by theosophists to nontheosophists for the purpose of proselytism. Mrs. Wright's marriage will not only not interefere with her theosophical work, but will tend to increase her efforts, as it has allied her to one of the most prominent men in the order.

The Queen's Private Rooms.

Queen Victoria's private rooms in Windsor castle are rather attractive apartments. The sitting-room is said to have an air of comfort and coziness notwithstanding its magnificence. Home needlework is there in abundance, the greater part of it being the work of the Princess of Wales, Princess Christian and her daughters. Here are embroidered tablecloths without end, as well as cushions and book covers.

The silk-brocaded walls are half hidden with pictures. Here is Landseer's "Royal Family at Home," and there Von Angeli's admirable portrait of Princess Beatrice as a bride, while likenesses of the late Prince Consort, the Empress Frederick, Princess Alice, the Duke of Clarence and the young Hessian Princesses are distributed on cabinets and tables. In the centre of the room is the sofa where the Queen sits, with a table before her for books and papers.

The carpet is pretty and old-fashioned—a plain dark ground with bunches of light flowers at regular intervals. The mantelpiece is primly arranged with a big clock in the middle and vases on either side. A rack with a number of newspapers is there, too. Anywhere one might see a boudoir more luxurious, but from no windows surely a view so magnificent—that Park—that never-ending line of perspective—the Long Walk!

The Children's Enemy.

Scrofula often shows itself in early life and is characterized by swellings, abscesses hip diseases, etc. Consumption is scrofula of the lungs. In this class of diseases Scott's Emulsion is unquestionably the most reliable medicine.

For Mothers to Know.

That rapid eating is slow suicide.

That a lump of sugar saturated in vinegar is efficacious in most cases of hiccough.

That in sleeping in a cold room establish a habit of breathing through the nose, never with the mouth open.

That a severe paroxysm of coughing may often be arrested by a tablespoonful of glycerine in a wineglass of hot milk.

That to compel a child to eat anything against which its palate naturally rebels is a cruelty at the moment and is likely to produce evil effects later on.

ABOUT THE LIVER.

A lazy, slow or torpid liver influences the whole system, causing biliousness, sick headache, sallow complexion, languor and dullness. Burdock Blood Bitters regulates the liver, purifies the secretions and cures all forms of liver troubles. We say so and here is the proof:—

I hereby wish to thank you for the great benefit derived by me from your Burdock Blood Bitters. For three years I was troubled with liver complaint and tried everything to no purpose. I had almost given up hope until one day I determined to try Burdock Blood Bitters. I can say now that marked improvement resulted from the use of the first bottle and at the end of the sixth bottle I discontinued its use, being completely cured.

THE YOUNG MASTER.

This picture shows the method of dressing the young master of the household for the summer of 1896.

Red Hair All the Rage.

The days of the bleached blonde are numbered. When rapid young women took a fancy to this particular shade of hair there was a panic in the camp of the neutral blondes, and a stampede for the hair-dressing establishments of the town followed. The color that has succeeded the blonde, however, is of just as pronounced a shade and retiring women whose hair is of this particular hue will shortly find themselves in the same predicament as were the blondes. This new color is called variously, chestnut, auburn and bronze. In reality it is red, but not too deep a red. One application of dye, carefully put on, will give the proper shade and place the girl on an up-to-date plane of beauty. The new color is not at all difficult to obtain, but as it must be gotten by dyeing instead of by bleaching, as was the case with the blonde hair, the process must be repeated at regular intervals. Any shade of hair may be dyed that color so that with care the dye lasts for several weeks. One woman wanted to know whether or not the dye would wash out if she went out in the rain, and the dresser told her that if properly applied the dye would stand the ordeal of sea-bathing.

Are You Tired

All the time? This condition is a sure indication that your blood is not rich and nourishing as it ought to be and as it may be if you will take a few bottles of the great blood purifier, Hood's Sarsaparilla. Thousands write that Hood's Sarsaparilla has cured them of that tired feeling by giving them rich, red blood.

Hood's Pills act easily and promptly on the liver and bowels. Cure sick headache.

The Necktie Saver.

A bright wife writes the Chicago Herald: It takes about fifteen minutes to make a tie, and there is no need of a husband's going without plenty of neckties in order to provide for his family, and no reason why he cannot look as neat in this respect as he did before marriage.

After some little experience with the silk ties it occurred to me one day that I might save something on full dress ties. As a result, I made twelve evening bows for 25 cents, such as cost 20 or 25 cents each at the stores. One yard of Victoria lawn or India linen makes the dozen ties. With these care must be taken in putting on the cross piece to the bow, so as not to muss it with the fingers or the bow will not look fresh. The same strap and hooks will do for several of these bows, for when one is soiled it can be thrown away and the accessories tacked upon another bow.

A dozen (more or less) new fresh ties are a very acceptable present to the husband, and more especially if it be the work of the wife's own hands, and something to remind the husband, rich or poor, that whatever comes the wife stands ready to do her part.

The Low Collar.

It is a great mistake for fat women to suppose that a low-cut collar is becoming to them. It very rarely is. There is something almost disgusting about a double chin in bold relief, and the lines of a stout person's lower face are much better left to the imagination than plainly brought out by a collar that is turned away. This only partially applies to full dress, where the shoulders take away the gazer's eye from the face. But it does apply to the Summer Byronic collar.

ONE HONEST MAN

DEAR EDITOR:—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak, shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. I promise you perfect secrecy and as I do not wish to expose myself either, please address, simply: P O. Box 388, London, Ont.

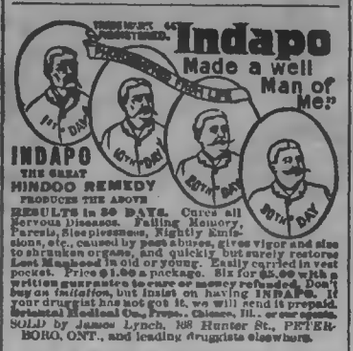
science

Science is "knowing how." The only secret about **Scott's Emulsion** is years of science. When made in large quantities and by improving methods, an emulsion must be more perfect than when made in the old-time way with mortar and pestle a few ounces at a time. This is why Scott's Emulsion of cod-liver oil never separates, keeps sweet for years, and why every spoonful is equal to every other spoonful. An even product throughout.

In other emulsions you are liable to get an uneven benefit—either an over or under dose. Get Scott's. Genuine has a salmon-colored wrapper.



RESULTS in 30 DAYS. Cures all Nervous Diseases. Failing Memory, Paresis, Sleeplessness, Nightly Emissions, etc., caused by past abuses, gives vigor and size to shrunken organs, and quickly, but surely restores Lost Manhood in old or young. Easily carried in vest pocket. Price $1.00 a package. Six for $5.00 with a written guarantee to cure or money refunded. Don't buy an imitation, but insist on having INDAPO. If your druggist has not got it, we will send it prepaid. Botanical Medical Co., Props., Chicago, Ill., or our agents. BATTLE OF BEAVERDAMS.

The Annual Demonstration Will be Held To-Morrow at Thorold.

Thorold, June 22.—The annual demonstration, celebrating the Battle of Beaverdams, will be held here on Wednesday, 24th inst. Dinner for the invited guests will be served at the City Hotel at 12 o'clock sharp. At 1 p.m. J. P. Merritt of St. Catharines, the veteran historian, will lead the party over the battle ground, pointing out the spots of special interest; thence to the High school grounds, where prominent historians will address the assembly. Several fine patriotic songs will also be given. Miss Agnes Fitzgibbon will present the Boys' Brigade with a banner and prize. Capt. Cruickshank, O. A. Howland, M.L.A., J. G. Currie and Miss Fitzgibbon are on the program.

FOUND HIS BROTHER DEAD.

A Bachelor Farmer of Camden Township Got His Head Crushed.

Thamesville, Ont., June 22.—In the Township of Camden, some five miles from here, about noon to-day two bachelor brothers, John and James Scott, were engaged in building a rail fence, James hauling the rails and John building the fence. On his way to dinner up the lane John came on the lifeless body of his brother, who had left him to drive home the team for dinner about 15 minutes before, and was at that time in his usual health. John called two of his neighbors and together they brought in the body, having found his neck broken, and his head and face cut. James evidently fell with his head between the wheel and the body of the wagon. Coroner Stewart of Thamesville was informed of the facts, but deemed an inquest unnecessary.

THE BUILDING FELL

And Many Persons Were Buried in the Ruins—Digging Out the Bodies.

San Francisco, June 22.—While workmen were engaged in putting in a new foundation in the Brayton Lodging House, a three-story frame structure on the corner of Mint-avenue and Fifth-street, it collapsed at 3.40 this afternoon The building became a complete wreck and took fire, driving would-be rescuers back from their work. The lower floor of the structure was utilized as a restaurant and about 25 or 30 persons are said to have been in it at the time. A number of people were upstairs when the disaster occurred. Up to 4.30 p.m. three bodies had been taken from the ruins.

He Saw Brooks' Comet.

Boston, June 22.—A cable message announces that Javelle, one of the astronomers at the observatory at Nice, observed Brooks' periodical comet on Saturday evening on its return to the sun. The comet is one discovered by W. R. Brooks of Geneva, N.Y., in 1889. Its orbit, as computed from observations, obtained in 1889, predicted its return this year. It has been found very close to its computed place.

Universal Suffrage Don't Suit Austria.

Vienna, June 22.—In conversation at the Austrian Legation dinner on Saturday, Emperor Francis Joseph, referring to the new electoral reform law, said: "I know well enough that the newly created electors will not be satisfied; but universal suffrage has been a failure in all countries where the system has been introduced. It does not suit Austria."

JOHN B. ROBINSON BURIED

Large Concourse of Prominent Citizens and Old Friends at the Obsequies in St. James' Cathedral.

Toronto, June 22.

The funeral of the late Hon. John Beverley Robinson took place yesterday afternoon and was attended by hundreds of sorrowing friends, including nearly all the prominent citizens. A large number of people called at Beverley House on Saturday, Sunday and yesterday to take a last look at the features of the deceased, who was so well loved for his kindly nature, and to sympathise with the sorrowing relatives.

The remains were contained in a handsome casket, which was covered with beautiful oral tributes, including designs from St. George's Society, Toronto Athletic Club and other institutions.

A private service was conducted at the house in the presence of the family and intimate friends, after which the funeral procession, which was of great length, started for St. James' Cathedral.

At the cathedral there was a large crowd of citizens, the sacred edifice being filled soon after the tolling of the bell announced that the cortege had left Beverley House. On the arrival of the procession the draped casket was carried from the hearse into the church, where it was placed on pedestals in the aisle immediately in front of the altar. Bishop-elect Du Moulin conducted the service, being assisted by Rev. J. P. Lewis, rector of Grace Church. The chief mourners were: Beverley, Napier and C. C. Robinson, sons of the deceeased, and Christopher Robinson, Q.C., brother.

The pall-bearers were six of the old friends of the deceased: Chief Justice Sir William R. Meredith, Lieut.-Gov. Kirkpatrick, Prof. Goldwin Smith, ex-Mayor Alexander Manning, Thomas Shortiss and Sir Oliver Mowat.

At the conclusion of the service in the cathedral the funeral procession moved to St. James' Cemetery, where the remains were interred in the family plot.

AN UNFORTUNATE FAMILY

Three Children Were Burned to Death, Three Were Accidentally Smothered and One Was Drowned.

Toronto, June 23.

M. Parsons, the young fellow of 18 who was drowned while bathing in the Rouge River last Saturday, is but one of the seven children of a family which has been pursued by ill-fate for years. The Parsons are a poor farm laboring family living in the Township of Pickering. A few years ago Josiah Parsons and his wife went out at noon, leaving the three youngest children asleep in one of the bedrooms of the shanty, only to find the house, on their return, a heap of ashes and mingled with these the charred remains of the three children. A short time after three more of the children were accidentally smothered, and then when the parents were slowly recovering from the shock, came the disaster of Saturday. Young Parsons was bathing with a number of companions, who, seeing a boatful of holiday makers turn the bend in the river, made for the bushes. Parsons chose, instead, to dive, and was not seen again until two hours later, when his body rose to the surface. The spot in which he plunged is quite deep water, and clear of weeds or entangled brush.

SIR AUGUSTUS IN DEAT.

One of the Best Known Dramatists of the Day Crosses the Bar.

London, June 22.—Sir Augustus Harris, the well-known theatrical and operatic manager, died at 10.30 o'clock to-night.

Sir Augustus Harris, so well known as actor, dramatist and manager, was born in 1852. He made his first appearance on the stage in 1873. He wrote many plays, including pantomimes, in collaboration with Messrs. Meritt, Pettitt & Hamilton. Among these were "The World," "Youth," "Human Nature," "A Run of Luck," "Pleasure," "The Armada," "The Royal Oak," "A Million of Money," and "The Prodigal Daughter." Mr. Harris was elected one of the sheriffs of London in 1891, in which year he was knighted. He was identified with Drury Lane and Covent Garden Theatres, London, which he successfully managed. His father, Augustus Harris, was well known in the theatrical world.

New Telegraph Vocabulary Postponed.

Buda Pest, June 22.—The International Telegraph Conference, sitting here, agreed to-day to defer fixing the date of the introduction of the new vocabulary until the next conference. Among those entering into this agreement were Messrs. Barber and Burt, representing the Anglo-American Cable Company; Messrs. Underdown, and Oscar Moll, representing the Direct United States Cable Company, and Mr. Von Chauvin, representing the Western Union Telegraph Company.

They are Asking Too Much.

London, June 22.—A despatch from Madrid to the Central News says the Spanish Government declares that the claims for damages made by Americans in Cuba are mostly untenable and some of them ridiculous, For instance, one man demands $25,000 because he suffered with nephritis while in prison in Cuba, and another asks for pecuniary damages because he was afflicted with smallpox.

THEY ARE GIVING WAY.

Physicians Commence to Realize the Value of Dodd's Kidney Pills.

OTTAWA, June 15—The inveterate reluctance to admit the success of patent medicine, usually evinced by physicians is is rapidly giving way so far as Dodd's Kidney Pills are concerned. The cases of Dr. Rose and Dr. McCormick, who published details of their recovery from diabetes and Bright's disease, through the agency of this remedy, were the first attacks on the citadel of their skepticism and now it appears as if the remarkable recovery of Mr. G. H. Kent, of this city, the details of which have been transmitted to the press, would complete what has been so auspiciously begun. The published interviews with Mr. and Mrs. Kent and the sworn statement of the former leaves no foothold for disbelief.
